STARTLING NEWS.

Indians in Arms Against the Whites on the Colville Reservation.

PROPRIETORS CLUBBED AND DRIVEN OUT.

Hun Raying all over the Reservation. —White Men Alone to be Blamed.

By Telegraph to the News.

INDIANS IN ARMS.

The State of Affairs at Colville Reservation.

SPOKANE, Wash., July 31.—T. C. Cronin, who returned from Marcus last night, brought startling news of the state of affairs in the Colville reservation. The Indians are up in arms against the white invaders and have driven the proprietors to cover north. The proprietors have been clubbed and driven out. One party of men was stopped on Tuesday and driven to the Columbia river ferry.

Large fires are raging all over the reservation, and it is supposed that the Indians have turned incendiaries to compel the white men to leave the land. The reservation is dry and there is no telling where the fires will stop. The Indians are sullen and are said to be holding a powwow which may possibly lead to trouble.

Chief Arpachen went toward Fort Spokane Monday with twenty-five braves and expressed his determination of clearing the reservation of all intruders. Indian Agent Cole has frequently scared hunters to keep off the reservation, and if trouble comes white men alone are to be blamed. A company of United States troops has been ordered to stop all marauding attempts of the whites or reds.

BISMARCK TALKS.

He Says He Will Continue to Speak His Mind.

JENA, July 31.—Bismarck made a tour of the town in a carriage today. The university students were out in full strength. Forming a guard of honor, Beyling to do so, Bismarck said, in part, that the Bismarck policy had been said by the people to have led back. He wished to exclude other members and the chancellor has been sickly. He advised his countrymen to produce a strong parliamentary majority so as to prevent alienation of government by bureaucracy, those hand fault, he said, with the reichstag, but he would continue to speak his mind whatever the consequences might be. Bismarck further said "I have sworn to found a Prussian empire. Therefore it is outside politics to have to speak to the people. Property as the chief factor. We must give the Catholic party as an example, we must imitate them and form a united party against the Catholic influence. I say nothing against the supremacy of the Catholic party or Catholic influence, or foreign influence. It would even be preferable to have a papal nuncio in Berlin so that irreparable party leaders should not act as present, give rise to and make untruthfully reports to the Pope."

Referring to what he called the false policy of the government, the ex-Chancellor said so far from the government gains Germanizing influence at the polls that influence is captured by the Catholic party. He compared by speaking in Latin to the Bishop, Like a true Hildebrandt, who, although a hilbiter aspect, refused to recognize the Kaiser's commissioners, and when Bismarck came from other, see he an opinion. He was today, he said, in the same position, a faithful servant of the Kaiser, but he had a right to express the sharpest criticism of the Kaiser's advisers.

This afternoon the Prince and his party go to Leipsic for Sedanfeiern, and the greatest enthusiasm.

BRAZILIANS AND ITALIANS.

A Fight Between Custom House Guards and Sailors.

RIO JANEIRO, July 31.—Considerable excitement was caused the evening coming out of the bad feeling between the Brazilians and Italians. There have been fights between the customs house guards in the cases of the Navigation steamers. The captain of the steamer has since died, and the Italians say it was from injuries received in the fight. On the 2nd there was rioting in Sao Paulo and several persons were killed and others wounded. The disorder that day was torn down and trampled under fact, and an Italian printing office destroyed. The police arrested 147 Italians in this city on the 4th. Some Brazilians indulged in patriotic demonstrations and there were made of attacking the office of Fatari, a newspaper accused of sympathizing with Italians.

A Letter from a Suppposed Bank Society.

NEW ORLEANS, July 31.—The chief of police has received a letter from what is supposed to be a Mafia society. It asserts that people represented by the J. J. Sanchez have in their possession 2 kings and 2 aces. Sanchez is the last man of New Orleans who mysteriously disappeared in April. They will endeavor to him for $500 or liberate him for $100, but if any bad treatment is to be will be filtered. If the money be not sent in twenty days they will forward the right eat for further information. The letter requests that it be addressed at Chicago, St. Louis or New Orleans. Judge Marr was shot and beaten and his friends believe he fell into the river and was drowned at the time of the disappearance.

A Fatal Collision.

CINCINNATI, July 31.—A passenger train on the Cincinnati, Hamilton & Dayton collided with a switch engine here this evening, the engineer of the latter being killed and the fireman badly scalded. The passengers were badly shaken up.

Drought Sufferers from Mexico.

EL PASO, Tex., July 31.—Drought sufferers from Mexico are coming into the United States in great numbers, offering labor for board or twenty cents a day. Federal officials are looking into the matter.

Quarrel About a Cook.

BAY CITY, Mich., July 31.—Two lumbermen named O'Brien and Lafferty, living not far from here, quarreled over the possession of their cook, Tillie Leonard, and arbitrated the matter with butcher knives. O'Brien will die.

To Build a New Race Track.

CHICAGO, July 31.—The Garfield Park Club has made arrangements to build a race course here at Roney station, Indiana, in the event that the case now pending in court shall be decided against it. The site is about fifteen miles from the city.

Religious Services in a Mill.

HOMESTEAD, July 31.—About four hundred participation from the morning attended religious services held in the mill by Chaplain Adams of the Sixteenth regiment. A string orchestra from Pittsburg rendered sacred music. The surroundings were indeed strange. The processes mill machinery, strong fence, a large number of armed watchmen and a brigade of soldiers were just outside. At the conclusion of the service the men joined in singing "America."

PITTSBURG, July 31.—Carnegie will make an effort in the morning to resume operation of the Upper Union mills in this city. The company has requested police guard. The authorities say a guard is not necessary, as they do not intend to commit any crimes of the peace. It is probable that an attempt will be made to start the Duquesne plant soon.

A Case to be Dismissed.

DENVER, July 31.—The case against Cross and McDaniels, arrested by Private Detective Farley on the charge of having robbed President Stetson of the First National bank two years ago, will be dismissed tomorrow. Moffat having declared he could not identify them.

Protective Work.

PARIS, July 31.—A dispatch from Vienna, Department of Hunter, says a cyclone caused immense destruction in that town and vicinity. The loss in vines alone is enormous.

Excursionists Come to Grief.

MILWAUKEE, July 31.—The second section of the excursion train on the Milwaukee & St. Paul railroad, having a party from Chicago, ran into the first section in Union station this morning. Ten men in the first coach of the second section were injured. One died soon afterwards, two others may not live.

A Gunboat Captured.

PANAMA, July 31.—A report was current here today that the Venezuelan steamer "Lagunja" in command of the Crespian, had captured the Colombian gunboat "Lagunja," which was in the hands of Crespian troops with a cargo of arms for the Caracas government.

HOW TO PREVENT FRECKLES.

A Few Simple Precautions May Preserve a Fair Complexion.

Before going out in the sun dust a little pure powder, compound tolmas is the best, ever put on. This simple act protects the skin from tan or freckles. When you return, if there only has been or two's hand, rub your face briskly with a towel, this bringing the blood to the surface, prevents the formation of freckles. If you have been spending a day in the sun, a little cold cream well rubbed into the skin and a few minutes repose will do much to restore the burned or blistered cuticle.

A very excellent cream, which you may easily make yourself, and thereby know what it is you put on your face, is made of the following: Take equal amounts of rose water, cucumber juice, spermaceti, sweet almond oil, and honey, one-half ounce, and honey one half ounce. Melt the latter, wax and spermaceti together. When thoroughly melted pour in the oil, rosewater and honey; then beat the mixture for fifteen or twenty minutes. This is a cream used extensively in the theatrical profession by people of notably fine complexions. Of course oil violent exercise in warm weather, which heats the blood, is apt to produce unpleasant results as the face. And while nature usually gives a kindly disposition to all to enjoy her it seems as if violent amusements might be left to the colder months.

How to Make Disorted Maps and Pictures.

An old geography can be used in making these distorted maps and pictures for the children. Remove some of the maps and paste them over pasteboard on the right side. When dry cut them into different shaped pieces, using a large sharp knife and a very sharp knife. They will last a long time. Pictures may be prepared in the same way for small children. Figures of adults or children cut from fashion papers can be so used, and may be made very amusing if cut into three pieces across the back and waist. Then various heads can be fitted to various bodies.

How to Prepare Salmon Salad.

Take one pound of lean, lean, skinned by in vinegar for an hour; then cut in small squares. Shred the salmon, put a layer in a salad bowl, then add a layer of the beets and alternate till the dish is full; then pour mayonnaise dressing over the whole.

How the Remains Celebrated.

As they represented numbers by letters, they had no decimal system or increase, and no figures more than six. They therefore began to multiply with the largest number first so if we should begin on the left hand of the right, and proceeding thence to the smaller adds the products. This was very much easier than the method of Greece where one can demonstrate by a little practice. For instance, multiply MMXLIX CII by XXXVII by that method.

How to Prevent Wax Candles from Drippings.

Lay them in the refrigerator for a few hours before they are needed. They are sold to burn perfectly after this treatment.

A DREADED GUEST.

Authorities are Supposed to Expect the Invasion of Cholera in Germany.

A NEWSPAPER ARTICLE ABOUT PRECAUTION.

Little Danger of an Outbreak in America.—The Canadian Frontier a Danger.

By Telegraph to the News.

THE CHOLERA.

Germany Threatened.—America Comparatively Safe.

BERLIN, July 30.—The Reichsanzeiger today prints a lengthy article on the precautions which should be taken to prevent the introduction and spread of cholera, and this not made many to believe that the authorities expect the epidemic of the disease imminent. Dr. Virchow will shortly go to Hesse to study the epidemic. In conversation with an Associated Press representative Dr. Virchow said that cholera seemed to be localized in Hesse at present, but may appear here any time. Concerning America he said:

"There is no need of telling your people that they must remove all dust and dirt and exercise the utmost cleanliness, and I know they will do so right."

Dr. Hirsch, another noted authority, said: "I have thoroughly studied the cholera in America, and there is little danger of an outbreak of the disease there provided thorough sanitary measures adopted. The danger to America is the Canadian frontier. The greatest danger is in the importation of rags. The American authorities should strictly prohibit the importation of rags from any district where cholera might be expected of existing."

GERMANY.

The Suisse Sanitic Convention.—Cholera in Saxony and Austria.

BERLIN, July 30.—(Copyright, 1892, by the New York Associated Press.)—In court circles it is reported that Chancellor von Caprivi had a bad time of it with Emperor William on the latter's return from a wrasting trip. The Emperor censured the Chancellor for the injudicious handling of the Bismarck controversy, and blamed him for the manner in which he had treated the International Exhibition matter.

Most of the Berlin papers attribute the threatened seizure of the proposed International Exhibition to the Chancellor's tactless and hesitating action. The Cologne Gazette, Deutsche Wochen Blatt and Post agree the dismissal of the Chancellor.

Emperor William, on board the imperial yacht "Kaiser Adler," accompanied by the imperial "Bremen," under command of Prince Henry, sailed for Cowes this afternoon. His Majesty favors the project for a world's fair in Berlin, although he knows that the government of Saxony and Bavaria are opposed to it. It is opposed by the whole agrarian party.

CHOLERA.

Today made its appearance at two localities in Galicia, and worse still, nine cases are reported only twenty-five miles from Vienna. Hungary, which is a populous district, has broke in Austrian Galicia is limited to frontier villages. The Austrian government has issued orders to prevent the spread of the disease, as an outbreak there would involve the spread of the epidemic through central Europe. The news from Galicia has not caused any alarm, but the Prussian sanitary advisers have given the authorities a shock. The proximity of Vienna and the likelihood that the disease may spread along the Danube make the news serious. Berlin physicians approached an early outbreak in Silesia and southern Germany. The utmost precautions are being taken.

While making inquiries in official quarters concerning reported cholera in Austria a representative of the Associated Press learned that telegrams had been received from Breslau announcing an outbreak there. Physicians cannot yet definitely determine whether the disease from which the patients are suffering is cholerine or Asiatic cholera, but they suspect the latter.

Prince Bismarck, accompanied by Prince Bismarck and Count and Countess Herbert Bismarck, left Kissingen this afternoon for Wolmar. The party will visit Vienna where Count Herbert will have been made for Prince Bismarck.

The Standard Oil company of the United States now has a complete monopoly of the oil trade in Germany, the Russian company having been shut out by the cholera epidemic at Batoum.

NARROW ESCAPE.

Princess Beatrice Come Near Being Burned to Death.

BERLIN, July 31.—Princess Beatrice had a narrow escape from a serious fire in the Castle at Hellingiary yesterday morning. Her maid, carrying a candle, approached too near a mosquito net covering the bedstead, setting fire to the net. The Princess Beatrice who was in bed had to throw herself into the room and stamped the flames out. The unfortunate feet the bedroom would not work and the whole wing of the castle was destroyed before the Bremen arrived. Princess Beatrice lost all her jewels and clothes. Two Bremen were injured.

What O'Connor Says.

LONDON, July 30.—O'Connor has this to say in the Sunday Sun:

"The first bill introduced will be the home rule measure, followed by the one-man vote and payment of members' bills and Radical budgets. The government will also introduce a measure for taxing ground rents. It is probable that even before the question of home rule is brought before the House, a short measure repealing the coercion act will be introduced. It will probably be rejected by the Lords, but it is desirable that the acts should stand on the statute alone. There is every prospect that the next Parliament will last three years and not dissolve until very valuable reforms shall have been passed or the country answer to a tempest of indignation against the Lords for the further postponement of the franchise of the people.

The Armor-Plate Tests.

BETHLEHEM, Pa., July 30.—The first armor-plate test on the proving grounds of the Bethlehem Iron company was made today. The plate was 10 inches Harveyized nickel steel plate, 5x8 and weighing 18,000 pounds. The plate was tempered by the bowwater process. Five shots from an eight-inch rifle gun were fired into the plate—four into the corners and the fifth into the center. The fifth projectile pierced about three inches, recoiled and broke into bits. Not a single crack developed on the plate. The success of the plate surpassed the expectancy of all present. The comparison with former trials shows that the plate received a total energy of 25,000 foot tons, fully fifty per cent greater than the plates contained at the Armor trials at Indian Head, and yet is far less injured.

Editors Charged With Criminal Libel.

ST. LOUIS, July 30.—Florence O. White, editor, and Samuel Williams and Frank Ostertag, of the Central Press, of St. Louis Post-Dispatch, were arrested this afternoon charged with criminal libel. At the same time civil suits for $25,000 each were begun against the owners of the paper. The proceedings were instigated by Judge Noonan of the criminal court, who complained recent publications about his court to be libelous.

Boys Drowned.

LOUISVILLE, Ky., July 31.—Near Winchester today, six boys, aged from 9 to 15, were drowned in the Kentucky river by overturning a skiff. Their names were Rolf Parvey, Claude Parvey, Walter Parvey, Charlie Parvey, Algie Brice and Wiser Brock.

In Favor of the Government.

WINNIPEG, Man., July 30.—Hon. Joseph Martin, who is in London arguing a school case on behalf of the government, telegraphs that the judgment in the government's favor was rendered by the Privy Council, overturning the Superior Court's judgment.

The Cholera in Bremen.

LONDON, July 31.—The Times says: Reports of cholera have been sent out in Tourgen, Barmah. Many shops are closed owing to the fear of the death of the owners, and business is almost at a standstill. Many inhabitants are quitting the town. The outbreak is due to the filthy condition of the town.

An Iowa Two Headed Calf.

LEON, Ia., July 31.—The little town of Wheatland, in this county, was turned this morning. Four thick and fast, and the stores and buildings were turned. The loss is estimated at $27,000. Mrs. John Schneider, a young married woman who lived over one of the stores, was turned to death.

A Socialist Ticket.

BOONE, July 31.—The Socialist Labor party has nominated a full state ticket. John Orle, who was a worker with Wendell Phillips and William Lloyd Garrison, is the candidate for governor.

Sonne's Resignation.

WASHINGTON, July 31.—Colonel Heywood, commanding marine corps, has accepted the resignation of Sonne, leader of the Marine Band, with extreme regret.

How to Bow Bad Ankle Kinks.

One of the commonest ailments arising by hand is that the muscles contract with the needle raglans the first finger on the left hand. A stronger bandaging has now to be made in another way. Instead of the usual mind, then fold it so toward the right side of the article, covering the new fold even with the edge of the hem. This is to be overhanded with not too small stitches, and when finished the hem is pressed back to its proper place. The bandaging does this way is as straight and firm as a molded hem, and is prettier than either machine sewing or the old style of hemming.

How to Cure Soft Corns.

A cure that is simple and said to be very effective is simply a pinch of wood ashes, which should be applied as possible. Bind it against the corn with a little rag. Repeat this for several days, and unless very obstinate the corn will come off like a chip.

How to Make the Cucumber Cure Calm.

Take one cup sour cream, one cup of flour, two teaspoonfuls of baking powder and butter the size of an egg. Mix together, and then add one egg, one half cup of sugar and one cup of dried milk. Bake for twenty minutes. This receipt has heretofore sold for five dollars.

How to Make a "Tired Tree."

This is a beautiful experiment for a party or entertainment. Take small solutions of potassium chromate in a glass of water in which there is a solution of lead acetate. A splendid yellow precipitate of lead chromate or chrome yellow is thus produced. Arrange slender twigs of lead in a vase, and add a little of the lead with the solution. If a piece of sugar or in small strips be suspended in the vial, the tree will bloom out with beautiful crystals of metallic lead. The lead has been deposited upon the sugar by chemical action.

How a Male Cat Came to Be Called Tom.

This was a popular contraction of Thomas, to denote a male, as was also Jack and Billy. The name Tom was also used to designate, or imitate, human and animal. Tom Tit, Tom Thumb, Tom Piper, Tom Tiddler's Ground, Tom Fool, Tom Cat, Tom Boy, Tom Tom, Tom Thumb
