TELEGRAPHIC.

"WORK OR BREAD."

The Cry of Thousands of Starving Workingmen.

DESTITUTION IN NEWFOUNDLAND.

Unemployed Laborers Apply to Government Representatives for Aid.

ST. JOHNS, N. F., Jan. 7.—This morning a crowd of about 3,000 workingmen who were thrown out of employment by the financial collapse, gathered before the legislative chambers. Later they formed into line and paraded the principal streets. At the head of the procession was borne a white flag bearing the words, "Work or Bread."

The movement created consternation. At first the police prepared to disperse the crowd, but as their actions were peaceful, nothing in this direction was done. After visiting the government, the procession went to the city stocks, where is located the British warship Tourmaline, which was sent here to help preserve order.

A committee of the unemployed boarded the ship and represented to Captain Pore how they and their families are starving. They declared they were willing to work, but if no work was available they thought the government should feed them. They threatened to take the necessaries from the stores. Captain Pore intimated that such attempts would be repressed with a stern hand, his orders being to preserve the peace and to allow no interference with private property. He, however, promised to write to the government representing their case, and urging that help be extended them. With this assurance the deputation withdrew. Starvation is becoming more general daily.

The Barrett-Scott Mystery.

LINCOLN, Neb., Jan. 7.—Attorney General Churchill and Governor Holcomb held two consultations today regarding the Barrett-Scott mystery. At the interview it was decided that the attorney general should start for O'Neill and take personal charge of the investigation now being made in the famous case.

The search today at O'Neill resulted in the discovery that the old well supposed to contain Scott's body was empty. Those who think the well was Scott's tomb assert that during last night the robbers removed the corpse.

Supreme Court Decision.

WASHINGTON, D. C., Jan. 7.—The Supreme court of the United States convened today after a recess of three weeks. A decision was rendered in the case of the state of California vs Hooper by Justice White, reversing the constitutionality of a state law prohibiting foreign insurance companies doing business in the state. The decision sustained this right of the state, on the ground that insurance is not interstate commerce, but Justice Harlan, Brewer and Jackson dissented, on the ground of the state permitting interference with the private rights of citizens of the United States.

The case of the United States vs the heirs of the late W. B. Moses, surveyor on the board of Captain Howgate, was reopened for argument before a full bench. Senator Allen of Nebraska was among the applicants for admission to practice before the court, and he was admitted on motion of Senator Mitchell of Oregon.

IRISH SYNODS.

Gladstone Says It is Disagreeable to the Country.

LONDON, Jan. 7.—The resolutions of the Friendly Sons of St. Patrick of New York, which were adopted March 17th last, St. Patrick's day, were presented to Mr. Gladstone this evening by T. P. O'Connor, by special appointment, at White Holcomb. When the address, which was given to Mr. O'Connor by Patrick A. Collins, the United States consul general, was received, Mr. Gladstone expressed the greatest gratification.

Speaking of the discord in the Irish ranks, Mr. Gladstone stated emphatically and distinctly to state two things—first, that this interest in Ireland was constant, and, second, that every Irish nationalist ought to understand that discord must mean the postponement of consideration of the Irish claims, and therefore every man that should bring about the condition of the Irish nationalists was bound to do so, authorities he would assume a terrible responsibility. Mr. Gladstone hoped that such spirits would be found by which the deliberations of the party would be brought together.

Kansas Legislature.

TOPEKA, Kan., Jan. 7.—Twenty-eight days the legislature of Kansas will convene twenty weeks and sixteen days.

At the course held today the epidemic contest was settled by the unanimous election of C. E. Lindsell, Mr. J. R. Chilcote, his most formidable opponent, put Lindsell in nomination. Chilcote was made speaker pro tem. In both branches the Populists will be given the leading committees.

Great interest centers in the senatorial contest, heightened by the work of the Populist element. Rumors that he is returned to Washington.

The Grip in New York.

NEW YORK, Jan. 7.—The grip is again giving New York serious trouble. Dr. Jesse E. Gruner, who has made a study of the grip, said last night:

"Yes, it is certainly back again, as many of my patients can certify but it is not nearly as serious as it was the first year it came. Doctors have decided that it is caused by a germ, but the germ is not yet identified."

Vital statistics compiled for the last week show that there were in this city seven deaths from grip and 121 from pneumonia, of which latter about one-half were the result of primary grip. At the office of the health bureau it is said there are fully 5,000 cases of grip under treatment in the city.

CALIFORNIA LAW MAKERS.

Governor-Elect Budd Will Probably Be Sworn in Today.

SACRAMENTO, Cal., Jan. 7.—The legislature of California convened today. Lieutenant Governor Everett Millard is in all his home at Los Angeles and unable to be present. Republicans have a majority in both houses and elected temporary officers.

Governor Budd is today received from Attorney General Hart an opinion that there can be no gubernatorial contest before the present legislature, and that the oath of office must be administered to Budd.

The opinion contains that the section of the political code, which provides the manner of the gubernatorial contest before the legislature, is unconstitutional in that it confers judiciary powers on the legislature.

The Democrats are struggling to have Mr. Budd sworn in immediately at a joint session of both houses.

SYDIL SANDERSON'S FEAT.

The Prima Donna Engaged on a Matinee Day, It Seems.

NEW YORK, Jan. 7.—Miss Sydil Sanderson, the California prima donna, who is to be heard for the first time in this country at the Metropolitan opera house next week, arrived today on La Champagne.

She says she hopes to marry Mr. Antonio Terry, a Cuban of considerable wealth, who is equally at home in Paris and New York. "The date of our marriage," said the singer, with engaging frankness, "depends on a divorce suit which is pending, but, unfortunately, Mr. Terry has a wife. He has not lived with her for quite eleven years though, I believe, she is a very charming person." Mr. Terry came over on the La Champagne with Miss Sanderson.

For the Admission of Oklahoma.

WASHINGTON, Jan. 7.—Senator Martin today introduced a bill for the admission of Oklahoma as a state. The bill provides for the extension of the lines, so as to include a part of the territory of the Chickasaw Nation.

Ordered to Sea.

WASHINGTON, D.C., Jan. 7.—In execution of his policy in keeping our cruisers in motion and away from home ports, Secretary Herbert has instructed Admiral Beardslee, commanding the Pacific station, to cause the ships attached to that station now at Mare island and ready for service to go to sea. The exact course of each vessel has not been specified and they will probably be left to the determination of the admiral, who has been instructed, however, to see to it that the vessels are for no great time beyond the reach of orders from the department.

LABORERS FOR HAWAII.

Four Hundred Portuguese Engaged for the Plantations.

NEW YORK, Jan. 7.—Lorin A. Thurston, Hawaiian minister to the United States, accompanied by Mrs. Thurston, was a passenger on the Cunard line steamer Aurania, which arrived from Liverpool today. Mr. Thurston states his trip abroad has no political significance whatever.

He went to Portugal at the request of his government to reorganize the population of Portuguese island by the Hawaiian republic. They make good citizens and the planters prefer mixed crews on their plantations as they are less liable to cause trouble than those of one nationality. When the sugar industry begins to decline the emigration of laborers was stopped. About 400 Portuguese will soon leave for Hawaii.

Father Doney to Washington.

NEW YORK, Jan. 7.—Father Doney goes to Washington for work to render Mgr. Satolli, the New York archbishop. He makes the calls on the delegate, and his reception was of the most agreeable and friendly kind.

It is believed in Catholic circles that nothing more will be heard of the discussion between the archbishop and his assistant priest.

ALLEGED MURDERER.

The Struggle of Brave Women Probably Caught.

DENVER, Jan. 7.—After carefully sifting the mountains of Victor, Stratemann and Alpheus in Moffat, the police have reached the conclusion that Le Roy murdered Lena Tapper, Marie Cadwell and Alice Ogden, the little Harlan school teacher who was strangled to death a few months ago.

CURRY'S GOOD SCHEME.

WASHINGTON, Jan. 7.—Senator Carey and Jacob S. Coxey, owner of the commonweal movement and an unannounced candidate for Congress, was in the Capitol today to arrange for hearings before the House ways and means committee and Senate finance committee to secure the free-coinage-coining bond scheme.

SUGAR BILL.

Wilson's Bill Not Likely to Be Considered Soon.

WASHINGTON, Jan. 7.—Chairman Wilson, of the ways and means committee, recently introduced a bill in accordance with the recommendation in the President's message to repeal the one-tenth of a cent differential on sugar, while evoked protests from Germany and Austria, and which it is stated inspired retaliatory action by the German government in the shape of prohibition of American beef.

But it is not altogether certain that the ways and means committee will report this bill to the House, nor is it at all certain that the House will pass it in case it emerges from the committee and is given a hearing. Mr. Wilson was asked about the prospects of the bill but did not speak enthusiastically of them. He said, in answer to a question, that its claims for consideration might be brought to the attention of the rules committee after the ways and means had been discharged. The fact that the remaining time of this Congress was very short and there would be a great pressure on the committee for adjustments of time for various bills.

ON TRIAL FOR MURDER.

A Prominent Belgian Lady Accused of Most Crime.

ANTWERP, Jan. 8.—The trial of Mme. Jonson, accused of poisoning her sister, brother and uncle, commenced yesterday. The court was crowded with interested spectators. The prisoner was pale and troubled. She replied to questions put her in an almost inaudible tone.

Low Temperature.

ST. PAUL, Jan. 8.—Last night's weather report is a record breaker for the year. At many points in Minnesota the temperature ranges as low as 35 degrees below zero, with the prospect of getting below 40 before the day is over. In northern Minnesota it is from 24 to 28 degrees below. At St. Cloud there was a drop of 27 degrees in seven hours. In this city it is 29 below.

OTTUMWA, Ia., Jan. 8.—There has been an unprecedented fall of temperature. Last night it was 5° above. This morning it is merry zero and growing steadily colder. A fierce wind is blowing.

THE NEW NAVY.

A Proposition to Build Part of It at Mare Island.

NEW YORK, Jan. 8.—Geo. J. Campbell Jr., president of the Vallejo, Cal., board of trade, has arrived in this city on his way to Washington where he will present to the Democrats a bill authorizing the building of a part of the new navy at the Mare Island navy yard. Vallejo is separated from the Mare Island yard by a narrow strait. Mr. Campbell's argument is to the effect that it will be to the government's interests to build its ships at the navy yard.

"If the letting of contracts were abolished," he said, "it would be the means of keeping up an efficient navy yard organization and thereby keeping in constant employ skilled workmen whose services would be valuable and in demand. To accomplish this one vessel should be in course of construction at each of the navy yards."

Laborers Meet and Confer.

ALBANY, N.Y., Jan. 8.—The annual meeting of the state Federation of Labor and the Knights of Labor will open in this city today. There will be about 100 delegates attending each. The purpose of both meetings are identical, that of considering the acting upon proposed legislation which will be presented for introduction in the legislature. Among the measures will be: Increasing the powers of the factory inspectors; the state printing house bill; the mechanic's lien law and street surface road; the blanket ballot bill and the anti-conspiracy bill.

AFTER THE POLICE.

A Minister Makes a Sensational Charge from His Pulpit.

NASHUA, N. H., Jan. 8.—The police commission of this city has been requested to investigate the charge made by a local minister from his pulpit that a police officer assisted the principal before a raid was to be made on the Woodward house and that the latter did his liquor under the snow in the yard while the officers searched the house.

Strikers Find Employment.

NEW YORK, Jan. 8.—Three hundred of the striking cloakmakers were given employment cleaning the streets of the East side yesterday. Two thousand additional men will be employed today. No donations of food were received yesterday and the only money subscribed was $25.

Right Arm Paralyzed!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now fifteen years of age, had been terribly afflicted with nervousness and fits. Her entire body was jerked from head to foot, and she would have to be held down to keep her from injuring herself. We tried the best physicians with no benefit. She had taken three bottles of Dr. Miles' Nervine and has gained 21 pounds. Her nervousness and convulsions are entirely gone, she attends school regularly, and has recovered complete use of her arm, her appetite is splendid."

MRS. E. E. BELLOWS, Swanton, N. Y.

Dr. Miles' Nervine Cures.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. Exhaustion and all nervous troubles are a sudden result of using the first bottle. Book of testimonials and 1 trial bottle free at druggists. Large size, $1.75, or six bottles for $9. Address, Dr. Miles Medical Co., Elkhart, Ind.

Sold by all druggists.

SUNOL!

ROBERT SONNER

Superintending the shoeing of Sunol with the Putnam Nail.

PUTNAM NAIL CO.

Gentlemen: Enclosed please find one of the nails used in shoeing Sunol, the Pacific Coast champion trotting mare, which holds the world's record for a half mile, and which is the fastest trotting mare in the world. Sunol wears the Putnam Nail. Yours truly, ROBERT SONNER.

Superintending the shoeing of Sunol with the Putnam Nail.

Very respectfully yours,

C. H. Marvin

The Putnam Nail is the only exclusively Hot-Forged and Hammer-Pointed nail.

Look in your smith's checking box, if the nails have smooth edges for the whole length they are the PUTNAMS, for they are Hammer-Pointed and are not sheared.

The other points, from a block separately forged for Runner to the end of the Calk, are sheared, and are not to be relied upon. Ask your smith for a box of Putnam Nails, and be sure that he gives you the Putnam. Insist on having what you call for, and take no other. Check when shod, and measure and report to us any complaints.

PUTNAM NAIL CO.,

Neponset, Boston, Mass.

For Sale by Z. C. M. I. and Branch Houses.

OUR EIGHTH SEMI-ANNUAL

Clothing Sale
