HOME INSTITUTIONS.

Utah Sugar Company Declares a Five Per Cent Dividend for Two Quarters.

FUTURE DIVIDENDS ALSO PROVIDED FOR

Home Fire Insurance Company to Celebrate Its Twelfth Anniversary on September 20—Doing Big Business.

The board of directors of the Utah Sugar company held their regular monthly meeting this morning, President Geo. Q. Cannon in the chair. General Manager Thos. R. Cutler made a statement of the prosperous run the factory is enjoying and said that the beets which were being daily received were of a higher grade than ever before in the history of the company.

The stockholders of the company, who number over 700 residents in all parts of Utah, will be pleased to learn that the board also declared a dividend of 5 per cent cash for the two quarters ending Sept. 30th, payment to be made on that date. It was also decided that regular quarterly dividends of 2½ per cent each should be paid hereafter, which will bring the next dividend, after the two to be paid on Sept. 30th, due on Dec. 31st.

Sugar stock, which has been on the upward trend for the last several months, reaching $11.50 per share yesterday, will no doubt be further benefited by the action of the directors in providing for regular quarterly dividends hereafter.

HOME FIRE INSURANCE.

The Home Fire Insurance company of Utah will celebrate its twelfth anniversary on Sept. 20th, it having been organized on that date in 1886. The board at its recent meeting declared the forty-second regular dividend of 2½ per cent on the capital of a quarter of a million, and it will be disbursed to stockholders on the 12th anniversary of the company.

Friends of home institutions will be glad to learn that the Home company is doing a greater volume of business at this time than ever before in its history, a result doubtless due not only to the confidence reposed in the company, but to the spread of the sentiment in favor of keeping money at home and building up local institutions.

SUGAR FACTORY NOTES.

Splendid Record For the First Week's Run—Delivery of Beets.

This week has seen a revival of business in Lehi. The factory started Thursday morning for the season's campaign and since then the roads leading to the factory have been crowded with teams and wagons hauling beets to the factory. About one-half the beets this week have come from Lehi, the balance from Payson, Benjamin, Lakeview, Pleasant Grove and Riverton.

Never before in the history of the factory have they made such a good record during the first week of a run. Everything is working fine and the factory people are happy. Superintendent Vallez put in nearly 24 hours on the day the factory started and saw that everything was running in proper shape, and the good results are due to his watchful care and interest. The several improvements are giving good results. The report from the mill shows as follows: First day 285 tons of beets worked. A stop of four hours was made while the gas pump was repaired. Second day, 330 tons and [illegible] sacks of sugar made. Third day, 361 tons of beets and [illegible] sacks of sugar. Fourth day, 336 tons of beets and 1,097 sacks of sugar, which is the highest number of sacks on record for 24 hours. Fifth day, 356 tons and 752 sacks of sugar. They are turning out a fine quality of sugar, which is now being placed on the market.

The farmers are now delivering 400 tons of beets per day, and 400 acres of beets have been harvested. They are turning out fairly as well as was expected. The stoppage of irrigation has had a good effect on the ripening of the beets and has enabled the factory to get many ripe beets at the first of the run. The farmers are very careful about topping and have brought but few large beets so far.

Last night while working under the battery Joseph Woolston got his head badly squeezed. It might have been a serious accident had he not yelled so loudly and stopped the closing of a battery door. As it was he escaped with a torn ear and a bruised head.—Lehi Banner.
