TELEGRAPHIC.

TREATMENT OF IMMIGRANTS

Hundreds of Steerage Passengers Detained in Quarantine.

Complaints About the Food—The Whole Camp Kept in Filth—Children Starving to Death.

PHILADELPHIA, Pa., Dec. 25.—A special to the *North American* from Chester, Pa., says 350 steerage passengers of the steamer Southwark, which was recently detained off that city on account of the death of a passenger from smallpox are confined at the quarantine station there in the most absolute filth and privation.

In an interview today one of the passengers said that a petition complaining of the filth was signed by 120 of them, but the officials in charge suppressed it. It is declared the food is not fit to serve to dogs. To receive it the prisoners are compelled to stand in line in the open air.

One man sent out yesterday and bought $27 worth of good food for the mothers with small children, but the goods were confiscated by the managers because they had not come through them. A policeman on duty at the station said he would resign because he could not see little children starve to death. The entire camp is in the filthiest condition possible, and it is asserted that no soap, water or towels have been provided since the landing.

Disgusting details are related and the officials of the city, fearing disease, will lay the matter before the Chester board of health tomorrow and demand immediate action. The cabin passengers were allowed to pass up the river and this distinction is complained of by the passengers.

A number of Philadelphians who have wives and children in the colony have been driven away, upon attempting to see them.

MOUNT RAINIER.

Message from the "Post-Intelligencer" Expedition.

SEATTLE, Wash., Dec. 25.—The *Post-Intelligencer* exploration party has fully confirmed the previous statements that smoke has ascended from the summit of Mount Rainier in the last two months, for the explorers are now encamped on the side of the mountain over half way to the summit and have actually seen great volumes of smoke and geysers of steam pouring from the crater. This news was brought by a homing pigeon to Fred S. Meeker's loft at Puyallup. The following is the message:

"St. Elmo's Pass, altitude 8,000 feet, 12 m. Christmas day.—The expedition has demonstrated beyond all doubt that Mount Rainier has been smoking. Yesterday afternoon while crossing the vast snow-field dividing the Elysian field and Winthrop glacier, Major Ingraham suddenly shouted: 'See the smoke, see the steam!' The top of the mountain was fully five miles away, and jets of steam like geysers shot upward 200 feet or more, and further to the right a column of densely black smoke rose from the crater in fitful curls to a height of several hundred feet."

THE GRAIN TRADE.

Prominent Men on the Outlook for the Future.

MINNEAPOLIS, Minn., Dec. 25.—A feature of general interest in the grain trade of the country appears in the *Journal* today, the editorial staff of which was made up of prominent women of Minneapolis. The commercial department being in charge of Mrs. Charles E. Lewis, secured letters on the wheat situation from prominent men in the trade in the United States and Canada. A striking feature of the present is the very general agreement of the men in the trade in New York, Baltimore, Chicago and San Francisco and St. Louis, that the outlook for an advance in prices of wheat is not encouraging. Many speak slightingly of wheat feeling. The general character of the views presented is very frank.

Duel but Nobody Hurt.

PARIS, Dec. 22.—The duel between M. M. Jaures, the socialist leader, and Barthou, growing out of the discussion in the chamber yesterday, took place today at St. Ouen-Sur-Ouen. Barthou, as the challenged person, selected pistols as the weapons to be used. Two shots were exchanged with the result usually attending French duels, that is, nothing was hurt.

The trouble that lead to the duel, had its origin in the measure introduced by the government in the chamber, making treason on the part of any army officer or any private punishable with death, in the time of peace as well as war. M. Jaures introduced a counter measure providing for the abolition of the death penalty from the military code, since, as he maintained, only privates were put to death.

Carlisle Not a Candidate.

LOUISVILLE, Ky., Dec. 25.—Those of Secretary Carlisle's friends who have counted upon him as a candidate for governor or United States senator will be disappointed. In a letter to Hon. Thomas H. Hayes he says:

"If possible, I propose to take some part in the campaign in my state next year in order to assist my political friends in reuniting the Democratic party, but it will be with the distinct understanding that I am not the aspirant for any office."

The Ute Indian Trouble.

DENVER, Colo., Dec. 24.—A special to the *Republican* from Durango, Colo., says: The *Herald* contains the following: "Col. Dawson, Agent Dave Day and Interpreter Joe Smith returned from the conference on last night's delayed Southern. Col. Lawton will not talk for publication until after his official reports have been given to the public. The parties have been out seventeen days, six days and part of three nights being in the saddle in snow, mud and rain.

The party scouted the Indian valley approaches, crossed Dry valley from Church Rock to Indian Springs and north from Carlisle's ranch to the Lisbon valley trail. They located fifteen lodges of renegade Indians at the head of Dry valley and found that but eleven lodges had gone toward Dry valley and but two, Chief Mariant and one other, had halted between the Colorado line and Monticello, Utah.

There were but nineteen male Indians from the Southern Ute tribes in Utah, exclusively of Bennu and "Mancos Jim" who claim the country by right of prior location. The eleven tepees were trailed over the cliffs and rocks into the valley and out of it through snow and mud by way of Paste Springs into the sheltered canyons leading to the reserve, and all were in Colorado Saturday night. Interpreter Smith, who seemed more communicative than the officials, predicts that Day's official report aside from facts brought out by investigation will be a better arraignment of Utah's executive.

Byrnes to Be Examined.

NEW YORK, Dec. 24.—Senator Lexow paid Recorder-Elect Goff a visit today in connection with the future sessions of the senate investigation committee. He declined to make any statement further than that Superintendent Byrnes would be placed on the witness stand, probably Wednesday.

"When Byrnes has concluded his testimony," said Senator Lexow, "everybody will acknowledge that his examination has been satisfactory."

Mr. Goff said that if all the testimony was taken by that time, the committee would adjourn Friday, but if not the committee would sit on Saturday.

CLIFF HOUSE ON FIRE.

A Famous San Francisco Resort in Ruins.

SAN FRANCISCO, Dec. 25.—The Cliff house is on fire, and Adolph Sutro's big baths, recently completed at a cost of half a million dollars, are threatened.

There are no means of fighting the fire at the Cliff house, and the nearest fire engine is about four miles away. The fire commenced at about 8:30 to-night, and at 9 o'clock about half of the Cliff house had been destroyed. The Cliff house was a world-famous resort, as it overlooks the seal rocks and is part of the possessions of Adolph Sutro, San Francisco's mayor-elect. The buildings of the Cliff house are frame structures, and were used as restaurants, saloons and curio shops.

At 9:30 the Cliff house was a mass of ruins. The fire had uncontrolled headway and speedily burned itself out. The baths are no longer in danger. The monetary loss is not great, probably not over $25,000.

Indian Problem Settled.

WASHINGTON, Dec. 24. — The problem of making the payment of $600,000 to the Nez Perces Indians for their land in Idaho, which has confronted the interior department for some time, has just been settled. The commission of Indian affairs devised a plan for payment direct to the Indians, which Secretary Smith has now approved.

It authorizes a special agent to proceed to the lands and make up a roll of Indians entitled to the money. The roll will be forwarded direct to the office and drafts will be made out payable to each Indian in his own name for the amount due him. The drafts will be forwarded in the care of the special agent who will identify each of the Indians. There are 1,800 of the Indians, each of whom will receive about $380.

Coeur d'Alene Fatalities.

SPOKANE, Wash., Dec. 24.—A special to the *Spokesman-Review* from Wallace, Ida., says the Coeur d'Alene district was the scene of a series of fatalities this morning. Three men are reported dead and one man so seriously injured that recovery is doubtful.

The first fatality occurred in the Frisco mine on Canyon creek, near Gem, in which Patrick Sullivan and James Carney were instantly killed. Fred Snell was seriously injured.

The men were at work in one of the slopes, when timbers broke through. They fell five floors. Both men were terribly crushed and mangled.

Sullivan is an old-timer in the Coeur d'Alenes. He has a sister, Mrs. James Cronin, residing in Spokane. The unfortunate accident was entirely unforeseen and it is deeply deplored by all.

At Wallace, Jack Calvin, formerly of Pittsburg, was found dead in bed this morning. It is supposed he died from an overdose of morphine. There is a slight indication of foul play.

Police Must Pay if They Ride.

NEW YORK, Dec. 24.—Superintendent Byrnes has issued an order prohibiting the police from riding free on elevated or street cars. They are forbidden to accept any free transportation or franking privileges.

LEO HOPEFUL.

Faith Reviving Among the Nations, He Says.

ROME, Dec. 24.—The pope has decided to receive the officers of the United States steamer Detroit at noon on Wednesday. His holiness, in a speech to the pontifical household yesterday said:

"The faith is reviving among nations who have come to recognize that civic virtues and laws are not sufficient to restrain the masses. It is therefore of great importance that all should work together for the purpose of making religion a force in public as well as in private life. It is the duty of rulers to lend their support to religious creeds."

THE TARIFF WAR.

American Ports May be Closed to Spanish Products.

WASHINGTON, Dec. 25.—Interesting developments are expected as a result of the strained relations between the United States and Spain over the tariff. Secretary Gresham has directed Minister Taylor, of Madrid, to notify the Spanish government that if the United States is not removed from the first column list of countries not having satisfactory treaties, this country will retaliate.

It is not believed Spain will yield to the protest of Secretary Gresham. In that event President Cleveland will probably issue a proclamation closing American ports to the products of Spain. The first effects of this would be to shut out the enormous shipments of raw sugar which come to this country from Cuba and cause a sharp advance in price.

In levying duties, Spain arranges countries in two columns. The first column includes those who have not entered into satisfactory treaty arrangements with Spain. Until recently Brazil was the only country on the globe which Spain had put in this column, all other countries being in the second column, which includes those having satisfactory treaties. The United States now joins Brazil in Spain's first column, and thus stands apart from all other countries in the common benefits Spain grants.

The immediate effect of Spain's action has already proved disastrous to the American trade in flour, and this trade has passed almost exclusively into the hands of Canada. Under the old reciprocity arrangement with Spain, American flour was shipped to Cuba in great quantities, but when the United States tariff raised the duty on Cuban sugar Spain responded by raising the duty on American flour. The duty on flour is $4.75 in the first column, while the second column is $4. As Canada is in the second column she enjoys an advantage of 75 cents a barrel on flour, and this has proved ample to allow Canada to wrest the Cuban flour trade away from the United States.

Looks Like Murder.

CHICAGO, Dec. 25.—A Lake street bridge tender, Thomas Hannan, died at the county hospital today and indications point strongly to murder. Hannan, who is a politician of some note, had received a letter making an appointment at a spot on Jackson street, where he was found bleeding and unconscious. The police are looking for the person with whom the appointment was made.

QUIET IN GEORGIA.

Peace Again Reigns in Brooks County.

QUITMAN, Ga., Dec. 25.—The trouble in Brooks county is over. The Valdosta Videttes were ordered here last night by the governor. Captain Caffrey, Lieutenant Staten, Peoples A. Bass and Sheriff Thrasher at once visited the scene of the trouble. They found peace restored and the citizens assured them there would be no more trouble and they came back to Quitman about 2 o'clock and the Videttes left on the afternoon train for Valdosta. The negroes were killed because they were supposed to know the whereabouts of Waverly Pike, whose crime was the original incentive to lawlessness.

Lord Churchill Dying.

LONDON, Dec. 25.—At noon today Dr. Buzzard and Dr. Keith signed the following:

"Lord Randolph Churchill is suffering from general paralysis. He lies in a semi-conscious and critical condition."

The serious symptoms appeared ten days ago.

FRANCE AND RUSSIA.

The Czar's Envoy Received at the Palace of Elysee.

PARIS, Dec. 25.—President Casimir-Perier this morning received General Tchertkoff, the special envoy from Czar Nicholas to formally announce the latter's accession to the throne of Russia. The reception took place in the palace of Elysee. Troops were drawn up in the courtyard and General Tchertkoff was received with the highest honors. Speeches were exchanged.

BRAZILIAN OUTLOOK.

The President Popular—No Revolution Anticipated.

QUARANTINE, L. I. Dec. 25.—Dr. J. A. Joaner, late physician of the Brazilian cruiser Nictheroy, arrived from this morning from Rio Janeiro. The doctor states he was present at the inauguration of President Moraes, and was a guest at a reception given to the President the same evening. He describes him as being a tall spare man of dignified and serious expression, and of broad and liberal views. He has every reason to believe his administration will be peaceful and prosperous.

There appears to be no indication of a revolt in the army and navy. The navy is in a great measure hostile to the army, and an insurrection can succeed without the concerted action of both the army and navy. The President is quite popular with the whole people. He has already granted amnesty to nearly all participants in the late rebellion, with the exception of Admirals Mello and Da Gama. Mello is still reported to be at Montevideo.

OZÆNA.

Another Form or Stage of Catarrh That is Centuries Old.

Some Information Purely and Simply for the Benefit of Suffering Humanity Given by Doctor G. W. Shores, The "People's Doctor."

Ozaena is a form or stage of catarrh that for centuries has been the subject of much dispute, and is one of the most difficult conditions to cure. In ancient times one unfortunate enough to be a sufferer from it was excluded from the privileges of the priesthood, and in more modern days it has actually been ruled sufficient ground for divorce. It is known under a host of names, such as [illegible], [illegible], [illegible], fetid catarrh, dry catarrh, [illegible], [illegible], [illegible] atrophica, [illegible], etc., but the most fitting of all appellations is, perhaps, [illegible] ozaena, which in Greek signifies a stench, and applied, means bad-smelling catarrh.

It occurs in all diseases of the mucous membrane of the nose where there is any ulceration from catarrhal poison and always where the catarrhal poison, from neglect or mistreatment, eats through the mucous surface and causes death or rotting away of the bone. It may result, too, from simple cold in the head by decomposition of the mucous discharges if proper care and treatment is not used to keep the mucous lining of the nose and throat clean and healthy.

While it is not necessary that every case of simple catarrh should result in this horrible condition, ozaena, it is an absolute fact that ozaena or "stinking catarrh" is always the sequel or legacy of neglected, or, what amounts to the same thing, badly-treated catarrh.

Nearly every reader of these columns knows the initial symptoms of simple catarrh as given by Dr. Shores—nose stopped up first one side then the other, and sometimes both, dropping in the nostrils and back of throat, occasionally hacking cough, nose sore and tender, frequent sneezing; nose itching and burning at times; occasional dull pain over eyes, between eyes and back of head. This stage of catarrh is easily and quickly cured by Doctor Shores. Now, the point is just this: If you have these symptoms, don't be misguided and consider it "just a cold," that it will soon pass off. It needs attention—careful attention. Don't neglect it or mistreat it and run the risk of its developing into ozaena, and make you an object of abhorrence and disgust to your friends and associates. Doctor Shores has cured hundreds right here in your midst, and will cure you if you go to him in time.

AARON [illegible], residing Mill Creek ward, six miles south of Salt Lake, says: "I am pleased to be able to recommend Doctor G. W. Shores and to speak from personal experience of his notable ability in treating and curing disease and giving relief to suffering humanity. I suffered for years from the result of catarrhal poison in my system, which had been improperly treated. For two years I have endured most fearful agony, with cramps and sharp boring pains in stomach and back ever [illegible]. Sometimes when I would stoop over it was all I would do, straining every effort, to get up again. I was reduced in flesh to almost a walking skeleton. When I was released from my work in the Southern states and started home to Utah, people there said I was the poorest man they ever saw walk. I was treated unsuccessfully by two physicians East. One said I had kidney disease, and one inflammation of the bowels. They were both wrong and did me no good. In one month, under Doctor Shores's treatment, I have improved remarkably; have gained ten pounds in weight and feel like a very different man in every way."
