BUSINESS AND MINES.

Heavy Stock of Ice Being Put Up this Season.

C. P. COAL MINE TO BE OPENED.

Territorial Board of Equalization Issues a Circular to County Assessors.—Various Items.

The ice season has opened up with an unusually brisk business this year, and large quantities are being stored for use when warmer weather comes on. Extensive shipments of what is called Park City ice are being made. The ice is really from Kimball's, several miles below Park City, and is shipped by the company whose office is at the last named place. The Union Central railway is now hauling to this city ice in twenty carloads daily. Anyone can have ice brought in by 10 o'clock in the morning. The ice is of the very best quality. From present indications there is no likelihood of a scarcity in the cooling substance next season.

C. P. COAL MINE TO OPEN.

The Union Pacific coal mine at Castle Gate closed down last July owing to a contested some land, and up to the present the Union Pacific railway has been buying a considerable quantity of fuel from the Rio Grande road. The land dispute arose over the filing of a claim by John Eccles to a tract which the Union Pacific wanted for water purposes, the reasons being that the mine was shut down till the affair was settled. A commissioner has been appointed by which the railway will come into possession of the land, and the mine therefore be reopened.

When will be resumed no one knows. February 1st, it is said, and about the coal miners will be given employment. While the C. P. mine is not developed to the extent it should be for shipping this heating, its output of coal is perhaps larger than any other, the vein being twenty-one feet in height. The people of Castle Gate and Pleasant Valley are anxious to see the property of Independence ang work in the mine, as it will afford employment to many who have been out of work for some time past. It is expected that the coal miners will be taken on again, as few men will be little or no demand for miners from outside the district.

NOTICE TO COUNTY ASSESSORS.

The Territorial Board of Equalization today issued the following circular:

To County Assessors, Utah: The boards has received several inquiries from county assessors requesting the opinion of the board regarding the mailing of statements made prior to the first Monday of March 1893. The opinion was established by the attorney general, and a copy of the same is sent to this circular for your information.

J. J. THOMAS,
Secretary.

SALT LAKE CITY,
January 15, 1894.

Territorial Board of Equalization, Salt Lake City, Utah:

Gentlemen—In our opinion the assessment of the various counties can commence immediately after there have been furnished with the proper blanks by your board, to which end the people will need to be informed from commencement as to the facts although section 1 of Chapter 52 of the laws of this territory, which all property in the Territory must be listed on a specified second and which is the first Monday of March, if the assessment is not made by that date, the assessment must accrue by original property owners, and the property is liable to be sold for taxes, and personal property is taxable. . . . and shall be let and assessed on the first Monday in June of each year, and the assessor shall make his report on the performance of his duties, as such, to the first of January next following the close of his work, and only more than the assessor assessed his assessment to county court, which, in all cases, would be just prior to the first Monday in June of each year. Up to that time the assessor might and probably may do, because his mind as to the value of personal property and the fact that he need the property prior to the first Monday of March, or assessed the property prior to the first Monday of March, or assessed the property prior to that time, would be no objection to the validity of the assessment. It may be said, that in being the property, the assessor would also ascertain the name of the owner, and that such person is assessed and might not be assessed on the first Monday of March, if the factor was not before. But this would not make the assessment void, because, within 2[illegible] of the Compiled Laws of Utah (Territory) provides, that no assessments of property shall be considered illegal on account of the property having been changed or transferred in the assessment or tax list in any other hand than that of the rightful owner. If all business matters are taken as to value, or in other respects, there is a course furnished by the statute for the correction of such mistakes, viz., by appealing before the county court, sitting as a board of equalization, and such mistakes as to value would in no way affect the validity of the tax, but, so of the matters complained, it would appear that the Legislature intended that the assessors of the various counties should present promptly after the first day of January, viz., some time after the 1st day of January, when property would be listed, between the January tables, and the property in their respective counties and assessors to value, for, for the sake of uniformity, it is same on a certain day to establish as the standard of value by which the assessment is to be judged.

As to assessors' terms, section 2[illegible] provides that when there are vacancies in any county and taxes into counties cannot be collected, the tax on such shall stand over to the next assessment and collecting according to the other county for such, and so on by other delinquent years of assessment and collecting. This being so, it would appear that the county tax assessing would have the opportunity to assess and collect the tax on such lands, except that when the lands are in several and separate parcels through a county, without any interest or whatever the of assessing them, that they would not be assessed in each county.

Yours truly,
BENNETT, MARSHALL & BRADLEY,
Will furnish the S. P. C.

A meeting was held in Turtle's hall on Tuesday night to consider the situation in relation to the railroads, says the Manti Sentinel. Quite a number of Ephraim people were in attendance and some from Sterrett. Mr. Brubeck called the meeting to order and explained that the D. & R. G. W. railroad had abandoned and intended to throw up the little road. He asked the people to look the road with their patronage, stating that he would carry freight and passengers to Nephi free, if he had to, and even if necessary "throw each passenger with a carpet." He stated that the road would be carrying the mail within ten days, and that so far just completed the purchase of another locomotive, passenger coach and a freight car, which showed that the management were not afraid of the outcome. W. R. Ivie, Alex Tomsett, F. Allen, Alonzo Tuttle and others expressed their feelings in the matter, and a resolution that the road should receive the backing of the community in the fight was carried unanimously. A meeting will be held at Ephraim tonight for a similar purpose.

The Ephraim Enterprise states that at the same meeting in that city the resolutions passed at Manti was adopted unanimously.

NOTES.

The election of officers of the Salt Lake Rapid Transit company resulted in the stocks of the minor interests were set on the morning post.

Nephi McLean, of Pleasant Valley, who was hurt on the 10th of December, in the coal mine, and was brought to the hospital in this city for attention, is steadily improving, and now recovered with somewhat less severe than at first. He hopes to be able to return home on Monday or Tuesday next.

Brigham City Bugler: The cays and mentle county, mentioned last year as Piedmontity hill, side for is certainly worthy the name of our county's chief source of wealth. The county of beautiful varieties of cays are marble, capable of a high polish, is said to be profusely distributed.

H. E. Bichel, of Logan, says the Herald, has invented a weighing scales which will fully prove one of the greatest friends women has ever known. He claims it will do the work quicker, better and cause them any trouble to the market.

Logan Gubernatorial: About 125 head of horses were yesterday offered at Sheriff's sale, Fred Turner doing the selling. Those which were sold went for from $2.00 to $7.00 each. They were sold as the property of F. A. Mitchell, but it is rumored that they are owned by a Mr. Rosenberg, of Salt Lake, and the sale may be delayed, as the claimants for Rosenberg will value.

Grangeville, Idaho, Free Press: Oscar Pierce informs us that a vein of Carbonate of Magnesia which will surpass all selling. We are not interested in that business, but we do know and the country of money. The presents of our cattle sales are short-sighted, and having pots may only save the money bag, in the ordinary course of business, been not come to pay outside obligations. We are now, Kimberley speaking, in the fat of our cattle, and we are in a world wide thing happens to stay by the wind spring anything. A boom in the wheat market will put the lower country on a level with right away, but the interior community is cut off from railroads to be affected thereby.

The Federal Trades and Labor Council met last evening and elected the following officers: President, M. C. Cowlishaw; vice president, F. N. Perry; recording secretary, Marcus W. F. Hatton; financial secretary, Karl Anley; treasurer, Wm. Fenton; sergeant-at-arms, E. J. Stirrett; trustees, E. Hindmann, A. Tracy and C. G. Whitney. Legislative committee, J. L. Franks, J. L. Marty, F. M. Perry, E. Hindmann, C. G. Whitney. Organization committee, E. Dunton, M. C. Cowlishaw, F. Dyer, J. H. Smiley, Charles Bishop. Executive committee, A. Starr, F. M. Perry, E. Hindmann, C. G. Whitney, Otto Kappele. Arbitration committee, S. A. Smith, E. Hindmann, Karl Anley, F. M. Perry, J. L. Franks. Press committee, Otto Kappele, Hindmann, Whitney, Smith, C. G. Whitney, J. L. Franks, F. M. Perry, A. Tracy, A. Sawyer.

Manti Sentinel: The A. P. V. R. R. are well ahead of the Denver people, judging a vision. It is said that the Knockers are ready to let the property go through some technicality of law. It appears that they purchased his scrip at least from the Pueblo people, and have been working on that piece of ground. As the said is unoccupied all that is necessary is to hold the land and work it in good faith. Their works are all within forty acres, and at their claim covers a quarter section, and it seems to be a question whether the work done would hold the property. Mr. Brubeck has filed a lengthy notice, but the company claim that their notice is not intended to injure the Knockers but to keep all off from their claimants. The result will be watched with interest. It appears from the general instruction of the Knockers that they intend the Edmonsons shall be in their claim.

TROUT FOR UTAH LAKE.

A Hundred Thousand Eggs to be Sent by the Government Fish Commissioner.

The acting fish commissioner at Washington has notified Fish Commissioner A. M. Musser, of Utah, that the commissioner has allotted to Utah 100,000 lake trout eggs. These are to be shipped from Northville, Michigan. Mr. Musser will question at once when the eggs are to be delivered here, and will make arrangements for placing them in Utah Lake.

Sunday School Union.

The officers and teachers of the Sunday schools of this Stake will hold their regular meeting on Monday next, January 15th, at 10 a.m., in the Fourteenth ward assembly rooms. The second ward school will furnish the musical exercises.

Prof. Willard Done will deliver a lecture of special interest to Sunday school workers on the subject of "Sunday School Teaching."

Superintendents will please announce this in their schools tomorrow morning and invite a large attendance.

J. H. PARRY, Secretary.

Only Required Nine Engineers.

Judge W. A. Finney, general attorney of the Northern Pacific, says yesterday's issue, Idaho, discussion, with bonapartists at Missoula, is at the Overland. Judge Finney is here on business for his company before the supreme court and expects to leave for home tomorrow. He says the snow fell in the Bitter Root at a commonly heavy this year. The train on which he and engineer arrive expect to get it through the mountains. The train was delayed two hours, two sections, each one having three engines and three being utilized in the snow plow, which showed the way.

A Broken Leg.

While out on the Lake Mountain range recently up quite a few days ago, says the Brigham Bugler, Joseph Fredston, son of Colin Fred's most respected citizens, was the chief participant in a most painful accident. Two bears he had killed at Bear River and was skinning, shooting the left leg of the first, breaking both bones above the knee. Joseph, Tyler, Mr. Fredston's partner, was passing to assist the injured boy to remove to the house. He made several falls between them and after one fall he stayed, in which he fractured knee.

Want the County.

At last evening's meeting of the Ogden board of education a resolution passed to accordingly the Legislature to separate the county court to which adjacent outlying school districts in the county to the city district.

COMING FROM BURQUE.

What Has Been Paper Says of the New Cashier of the Safford Bank of the Brothers.

The Dubuque, Iowa, Times, in a recent issue gives a handsome notice to Mr. Sam W. Dunbar, cashier of the Dubuque County bank, who is soon to leave for the Mormon state to take up his residence in the city. The Times concludes as follows: Mr. Dunbar has been long and well known in Iowa, and enjoys the esteem and confidence of every business man in Dubuque. And in every position he has filled he has proved himself an organizer, as he has been elected cashier of the National bank of the Dubuque at Salt Lake, and will assume its responsible position Feb-ruary first.

THE ECLECTICS AROUSED.

They Pay Fitting Compliments to Governor Thomas and the Board of Equalization.

The following resolution passed by the Nine this afternoon for presentation to the joint Rod with Governor West and the politicians are awaiting action on the part of the Eclectics:

Whereas, the last Legislature passed an act to regulate the assessment and collection of revenue, which act is in all essential respects to be objectionable to the Governor, "by and with the advice and consent of the Council and House," and whereas, the Governor did appoint a board of assessors and equalizers, which board, by its actions, proved the "wisdom and foresight" of the Governor in so appointing them, and whereas, the Governor did appoint a board of assessors and equalizers, the "wisdom and foresight" of Governor West in so appointing them was proved by their actions, and whereas, the Governor did appoint a board of assessors and equalizers, the "wisdom and foresight" of Governor Thomas
