DESERET EVENING NEWS.

Wednesday, - September 27, 1893.

FRAGMENTS.

Band concerts tomorrow night.

Home missionary meeting tonight at the office of Presidency of Stake.

FRED JOHNSON, a colored man, was released from the penitentiary this morning upon the expiration of his sentence of three years, for burglary. He was sent up from the Third district court.

ASSISTANT DISTRICT ATTORNEY HOWAT having gone to Provo on legal business, his place in the Third district court today was taken by District Attorney Judd, who handled the prosecution in the criminal cases tried.

THE NEWS extends sympathy to the friends, Mr. and Mrs. Alfred R. Carter, in the loss of their little daughter, Lucy May, notice of whose will be found in another column. Funeral services will be held tomorrow at 2:30 o'clock.

Land of the Midnight Sun.

Elder G. A. Iverson, in a letter from Norway, published in the *Millennial Star* says:

"Much could be said of the wonders of Norrland. Let me only name the midnight sun. At midnight of June 17, I saw the sun from the top of a hill near Tromsoe in beautiful, clear weather. It appeared wholly natural. No great power of imagination is necessary to understand how it appears. To be on that part of this globe where the entire night is illuminated by the sun, and where daylight reigns uninterruptedly for four solid months, is fairly interesting; but to one unused to such a thing, all interest soon wanes, because of the inconvenience of sleeping in the sunlight, of which a single window admits more than is desirable. It is almost impossible for me to sleep at night unless I closely cover the windows before going to bed."

Serious Accusations.

A petition was filed late yesterday afternoon in the probate court praying for the removal of Susannah Davey as guardian of Alfred R. and Thella Kimball, minors. It is alleged that Mrs. Davey is unfit to act as guardian of the minors, on the ground of immorality, and by reason of their great dislike for her. It is averred also that Alfred R. has refused to live with his guardian, and that his sister is kept with her by force and fear. Petitioner alleges that when Mrs. Davey's husband left the Territory, she lived with one Joseph Braithwaite as his wife until her husband's return. Certain allegations of misconduct are likewise made against two of Mrs. Davey's daughters.

A citation was issued to the guardian to appear on October 7th and show cause why her letters of guardianship should not be revoked.

This Morning's Probate Court.

Estate of Luther Twombell, deceased. Hearing on petition to set aside all of the estate to the minor child and on petition for order of sale of real estate continued till this afternoon.

Estate of John Scott, deceased. Hearing on petition for confirmation of report of commissioners in partition. Order made confirming same.

THE CITY SOLONS.

Sewer Contractors Make a Plea for Cash Instead of Warrants.

ANNUAL STREET CAR TAX OF $30.

The Excess Sewer Tax Collection to be Inquired Into.—The New City Charter.—Miscellaneous.

The City Council met in regular session last night, President Loofbourow occupied the chair and all the members were present.

THE PROCEEDINGS.

WANT CASH AND NOT WARRANTS.

The following communication from Gravity Sewer Contractors Houlahan, Griffin, Morrison, Hulse and Wilkinson, was filed: "We beg leave to respectfully call your attention to the fact that the warrants issued to us by the city on the last month's estimate have not been honored as yet by the city, notwithstanding our repeated presentation of the same to the city treasurer for payment. While we are faithfully carrying out our part of the contract and pressing the work upon the gravity sewer as rapidly as possible, we must insist that the city perform its only appertaining to the terms and the spirit of its contract with us, and we earnestly most respectfully protest against the refusal and failure of the city to make the payment in cash as provided for in the contract; and we call your attention to the fact that the failure is entailing on your contractors heavy loss as said warrants cannot be discounted and cashed at less than 10 per cent discount and we are constantly required to either stand such discount or to fail in our payments to our employes; and we are otherwise caused heavy loss on account of the difficulty in payment for supplies, materials, etc., necessary on the work, and we notify you that we will look to the city to recompense us for these damages which were necessarily contemplated when the contract was entered into."

Joseph N. Edwards asked for a reduction of sprinkling tax. Committee on sprinkling.

H. W. Lawrence et al asked that the sidewalks on West Temple, First and Second South streets remain as they are until the stringency in the money market raises up. Committee on streets.

Watson Brothers notified the Council that there was now due them for work on the streets the sum of $149.30 and asked that the amount be appropriated out of money due the Culmer-Jennings Paving company. Board of public works.

James Winness and 149 others, represented that the Salt Lake and Jordan canal was a public nuisance and prayed that official steps be taken to abate the same, and that the canal be abandoned. Committee on Jordan canal and irrigation.

The Rapid Transit Street railway protested against the removal of its track on North Temple street, between State and East Temple as ordered. Committee on streets with city engineer associated.

A communication was received from the board of public works in reference to the Le Sieur and Culmer-Jennings Paving company returning all the papers in the matter and reporting that under section 20 of the contract between the city and the Culmer-Jennings Paving company that it appeared to the board that there are certain amounts due for labor and materials furnished in laying the asphaltum portion of the pavement under said contract. Hardy offered the following resolution, which was carried, 10 voting aye and 4 nay:

"That $[illegible] be placed to the credit of the Mayor's contingent fund for the payment for labor and material used on the paving of the streets, if the Mayor deems the claims just after examination; said amount to be deducted from the final estimate to the Culmer-Jennings company."

The board of public works recommended that all sidewalks east of Eighth East street be pushed to completion as quickly as possible, and where permission had been given individual property owners to lay their own walks, and the work has not yet been done, that such walks be laid by the city when, in the opinion of the board and city engineer, such action may be necessary to complete the work simultaneously with that of the contract, also that the walks on First and Second South streets between State and West Temple streets, which can be made to answer during the coming winter, be allowed to remain until next spring, and all others be removed at once, the board to determine which walks shall remain and which shall be removed. Adopted.

The board of public works submitted a letter from Frank Harrigan in which he protests against the city allowing parties to construct private walks which are embraced in his contract with the city. The board recommended that hereafter no permission to lay walks under private contracts be granted by the Council after contract covering the same district has been awarded by the city. Referred to the board of public works.

The city engineer reported that he had employed Mr. G. H. Nickerson of this city as assistant engineer at a salary of $125 per month, and that Mr. Nickerson has been placed in direct charge of construction on the gravity sewer, and will devote his entire time to this work. Confirmed.

The preliminary estimate of the engineer for the cost of curbing and guttering and paving with macadam on Second South from West Temple to halfway between Fifth and Sixth West streets in paving district Nos. 1 and 11 as follows: Abutters' proportion, $[illegible]; city's proportion, $[illegible], and per front foot, $[illegible]. For the same on South Temple street from West Temple to Third West street: Abutters' proportion, $[illegible]; city's proportion, $[illegible]; cost per front foot, $[illegible]. The same for First South street from West Temple to Fourth West street: Abutters' proportion, $[illegible]; city's proportion, $[illegible]; cost per front foot, $[illegible].

Referred to the committee on streets.

Watermaster Harvey sent in a communication stating that flumes were needed to carry the Red Butte creek water across Seventh East at Liberty park at a cost of $[illegible]. Also that flumes were needed on South Temple and Eleventh East streets at a cost of $[illegible] also on Second street at which street intersection from A street to F street inclusive and which will cost $[illegible], and asked for instructions regarding the same. On motion of Horn the work was ordered done.

The committee on license reported in the matter of street car tax on the Salt Lake City Railroad company and recommended that a tax of $30 be collected for each car of the company for the year 1893, and that the number of cars be placed at thirty-five. Adopted.

The license committee also reported in reference to the Rapid Transit company, recommending that a tax of $[illegible] be collected for each of their cars and that the number of cars be placed at twenty-two for the year 1893. Adopted.

Hardy offered the following:

Resolved, That the board of public works immediately order the completion of sidewalks on Second and First South streets between Main and State streets. Adopted.

Bell offered the following:

Resolved, That the committee on improvements be authorized to cancel the monthly contract for street lights now in force with the Salt Lake and Ogden Gas and Electric Light company. Referred to the committee on improvements.

Wantland offered a resolution as follows: "Resolved that the Mayor, president of Council and members of the Council be designated a special committee to consider the proposed new charter for Salt Lake City which was passed by the last legislature and to submit to the Council the said proposed charter with such amendments as they may consider necessary or advisable." Adopted.

Wantland moved the adoption of the following: Whereas, It is desirable that proper police protection be guaranteed to the people in all parts of the city.

Resolved, That the Mayor and police committee be authorized to employ until Jan. 1, 1894, not to exceed forty special night patrolmen to be paid $20 each per month, the work of each man to be limited to a small district in which the people by voluntary subscription contribute an equal amount. Committee on police.

Lawson offered the following:

Whereas, an ordinance was passed by this council on the 1st day of September, 1893, entitled, "An ordinance creating and establishing sewer districts No. 1 and 2, defining their boundaries and repealing all ordinances now in force in conflict herewith," and

Whereas, one of the purposes of said ordinance was to arrive at a just and equitable settlement of the amounts which have been collected in excess of the cost of constructing sewers in certain portions of the city, and in order that the amount of such excess might be refunded to the respective property owners from whom it was originally collected; now, therefore, in order to fully carry out the object of said ordinance,

Be it resolved, that the committee on sewers, the city attorney and the city engineer associated, be and they are hereby instructed to determine the amount per front foot to which the property owners are entitled on account of the excess of tax collected for sewer construction and to report the same to this council at the earliest possible date. Adopted.

Appropriations amounting to $5,214.-25 were made after which an adjournment was taken for one week.

Story of a Horrible Crime.

The San Francisco *Chronicle* of Monday, the 25th inst. contains a most sensational story, four columns in length, of a horrible crime committed at Lincoln, California. The victim is a Miss Clara Matthews who left this city a short time ago for the coast. She died from the effects of a criminal operation said to have been performed by Dr. Joseph Van Wurthen, Dr. E. P. Driscoll and Harry J. Gray, the girl's alleged seducer. These men are now behind prison bars awaiting trial for the murder of Miss Matthews. To a detective Gray said he was 29 years old. He first met Miss Matthews at a hotel in Idaho, where she was waiting on the table. He met her next at Salt Lake City. From there she went to Sacramento. She lacked $1.50 of having enough to pay her fare. This he advanced. About four and a half months ago she went to Lincoln. Gray is also charged with robbing the deceased of a sum of money. The case in its details is horrible.

What to Teach Girls.

A girl's education is not complete when she has been taught the branches commonly comprised in the school course. There are many things which the schools omit, but which the girls should be taught if they would excel as women. Among them an exchange names the following:

Teach them to wash and iron clothes.

Teach them to darn stockings and sew on buttons.

Teach them to make shirts.

Teach them to make their own dresses.

Teach them to make bread and biscuits.

Teach them all the mysteries of the kitchen, dining room and the parlor.

Teach them to wear calico dresses and do it like queens.

Teach them that a round, rosy romp is better than to be doll.

Teach them to wear thick, warm shoes with low heels.

Teach them that a dollar is only 100 cents.

Teach them not to marry a man for his money.

Teach them to foot up store bills correctly.

Teach them to do marketing for the family.

Teach them every day hard practical common sense.

Teach them self-reliance.

Teach them music.

Teach them to write plainly and well.

Teach them type-writing and stenography.

Teach them the arts of household decoration.

Teach them something by which they can earn an honest living.

Teach them the care of domestic animals.

Teach them how to nurse sick persons quietly and skilfully.

Teach them how to be good housekeepers.

Teach them needle-work, and the use of the sewing machine.

Teach them to be above gossipping.

Teach them to make a home happy.

Teach them to read some good books besides novels.

Teach them to respect old age, and avoid idleness.

Teach them to be a womanly woman under all circumstances.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Specimen Cases.

S. H. Clifford, New Cassell, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.
