PAID BY CARNEGIE.

A Large Sum for Certain "Irregularities" Discovered.

NO FURTHER INVESTIGATION.

Armor Plates Ordered by the Navy Department Found to be of Inferior Quality.

WASHINGTON, D. C., March 2.—For some time it has been known that the Carnegie company had been in trouble with the navy department respecting irregularities in the quality of the plate supplied for the armor of the new battleships and cruisers. Secretary Herbert made the following statement today:

—Last September the navy department ascertained that illegal practices were being resorted to by the employes of the Carnegie Steel company in the manufacture of armor for the government. It was ascertained that while the armor manufactured was good, some of it were not up to the contract. The steel company paid back to the treasury of the navy in the Treasury, who, on January 10th, accused the company against the company at that time, and the company settled. There is evidence tending to show that my officers above these immediately superintending the tempering and testing were cognizant of these irregularities.

A Shower of Bullets.

ST. JOSEPH, Mo., March 2.—Eighteen miles west of the Rock Island, over the company's heavy loss by wreck. Passenger train No. 13, eastbound, Conductor J. A. Wesner, left the Union Pacific depot at 7:35. As the train glided into a curve three miles east of town a red light flashed across the track.

Kinney saw several men with carbines. It flashed through his mind that they were robbers. He pulled the bell wire and jumped down into the bottom of the cab, not a minute too soon. The robbers fired a volley into the engine and cab, but hurt no one.

The train crashed through a shower of bullets, the bullets flying into the cabins as they passed. When the train reached Rockbridge it was found that over 100 bullets had hit it.

In a Mexican Jail.

EL PASO, Tex., March 2.—Hugh Rose, who arrived from Mexico this morning, tells a great story of wrong and suffering. He says four years ago he was imprisoned for the murder of a man of whom he never heard and who had two years before been reported dead. He was thrown into prison and his set chained. He was not allowed to speak to an American and could not talk Spanish. All his letters were intercepted. He was never given a trial, and secured his liberty by giving the mayor of Puesla, Mexico, where he was confined, $600, and the chief of police $100. He is going to Washington to press his claim for damages. He claims to be a nephew of Senator Rose.

Enough Docks on the Pacific.

WASHINGTON, D. C., March 2.—The secretary of the navy has practically vetoed the movement to secure a new naval station for California. Representatives of that state have been urging the appointment of a commission to look over the coast for a suitable site south of the 35th parallel, but the navy commission received a letter from Secretary Herbert, stating that the navy has ample docking facilities on the coast already.

Sisters of Charity to the Schools.

PITTSBURG, Pa., March 2.—Communications from all parts of the country are being received by Alderman James F. Malone, secretary of the Protestant school board, to refer cases to introducing Sisters of Charity into the schools. The school board body resolved to continue the same in their religious garb until the courts decided that it was illegal.

A Fatal Explosion.

KANSAS CITY, March 2.—Two men were instantly killed, two fatally injured and five others dangerously hurt in an explosion at the Kansas City Clay and Coal company's coal mine near Lenexa, six miles south of Kansas City, this afternoon.

The mine had been condemned by the state mine inspector. It is supposed the explosion was caused by a miner going into a chamber which was filled with gas.

Waite's Session Over.

DENVER, March 2.—The legislature adjourned sine die at 12 o'clock tonight. The bill providing for the redemption of land sold under trust deeds was passed. The chattel mortgage amendments were defeated.

The Stenmore Inquiry.

BROOKLYN, March 2.—The Keasbey court of inquiry was still busy today. Chief Engineer Isaac Newton, formerly of the Stenmore, was called. He was examined by Mr. Hoadley, counsel for the Stenmore, who was present. He found their speed per hour was 14 knots.

A Lady Kills Herself.

CINCINNATI, March 2.—Mrs. Alice S. Gerard, a member of one of the best families, committed suicide in the city, while temporarily insane, by shooting. While preparing breakfast she went up stairs and returned to her room with a pistol. When found she was unconscious and died in a few minutes. She was a great sufferer, and her mother took in $500 of forged paper issued by Mrs. Gerard. Death is ascribed to the supposed cause of the trouble.

IN CONGRESS.

A Very Exciting Scene in the House.

WASHINGTON, March 2.—The House went into committee of the whole on the consideration of the pension appropriation bill.

Mr. Grout, of Mass., in charge of the measure, explained that the bill carried $141,386,000 for the fiscal year ending June 30th, 1895. $11,000,000 was more than for the current year. The original estimate for the coming fiscal year was $160,000,000, but it had been revised and cut down later by Commissioner Lochren.

Grout, of Vermont, followed with an address on Commissioner Lochren's action in the wholesale expansion of pensions.

Meredith (Democrat), of Virginia, made a sensational speech, protesting against making the pension roll a "dumping ground." He was seldom interrupted yesterday and said: "If I can judge from the fact that a man seems healthy and strong and yet gets a pension by reason of assembly, I say I believe that men had worn the sword that he had been crippled in the army."

"I want to say if the gentleman is honest," interrupted Funk, (Republican), of Illinois, "and dealing what he believes to be true, it is due and make that case known to the proper authorities for he is not a good citizen."

"I want to say this," returned Meredith, hotly, "if the gentleman makes that a personal question I will be delighted if the gentleman understands it."

Without completing his sentence, Meredith left the floor and hurried over to where Funk was standing.

"I did not say so," protested Funk.

"You had better not say so," retorted Meredith, still advancing up the aisle.

A personal encounter was imminent. Members crowded down about the belligerents and the most intense excitement was manifested.

Finally Meredith resumed his seat and shook it under the nose of his adversary.

At the time Culkwin, who was presiding, was pounding vigorously for order, but without effect, and Speaker Crisp, who had been hurriedly sent for, assumed the rostrum and restored the peace.

"I understand to say you are not my keeper," shouted Meredith, as he was being down the aisle by his friends.

There is evidence tending to show that any effort above these immediately superintending the tempering and testing were cognizant of these irregularities.

A Shower of Bullets.

ST. JOSEPH, Mo., March 2.—Eighteen miles west of the Rock Island, over the company's heavy loss by wreck. Passenger train No. 13, eastbound, Conductor J. A. Wesner, left the Union Pacific depot at 7:35. As the train glided into a curve three miles east of town a red light flashed across the track.

There is evidence tending to show that any effort above these immediately superintending the tempering and testing were cognizant of these irregularities.

FROM FOREIGN COUNTRIES.

The Provisional Government of Hawaii Triumphant.

Gladstone Refuses a Peerage and Recommends Lord Rosebery as His Successor.

OMAHA, March 2.—W. F. Alexander, special commissioner of the provisional government of Honolulu, passed through tonight, returning from Washington. He said: "The provisional government has won the fight. It will give the queen a position providing she behaves herself. She will not be sent into exile as the leaders of the provisional government do not regard her worthy of our system. The time of annexation has not been announced by the provisional government, but will be made the subject of a fight in the islands."

Mr. Alexander stated that he was not a bearer of special dispatches to President Dole, but simply returning to the islands, will sail from San Francisco March 8th.

A Presidential Election.

MONTEVIDEO, March 2.—The two houses of Parliament met today to elect a president to succeed Dr. Herry Orea, whose term expired March 1st. The retiring president is the election of Senor Elianri up a majority of the votes. Senor Elianri was president of the republic in 1873.

Elianri has declined to accept the presidency.

The American Trouble.

PARIS, March 2.—A dispatch from Constantinople says the United States minister Thomas is expected to arrive at Constantinople shortly and the American commission will proceed to settle the question affecting the United States that have arisen recently in Armenian disputes.

Yaqui Indians.

HERMOSILLO, Mex., March 2.—Forty leaders of the Yaqui tribe are creating considerable among the settlers of the upper Yaqui valley. They have raided ten ranches, burned buildings, destroyed crops and driven off cattle and horses. A few days ago they murdered a rancheros named Torres because he offered resistance when they attacked his ranch.

The German Reichstag.

BERLIN, March 2.—In the reichstag today Baron Von Manteuffel and General Von Hess denied that the military members of the reichstag intended to resign commissions in the reichstag consequent upon the remarks of Emperor William thereupon.

Herr Hohel said that, in the event of war, non-commissioned officers, among whom were many socialists, would be called to the place of commissioned officers. The government might therefore find it to have had to make serious inroads upon the loyalty of the socialists.

Gladstone Refuses a Peerage.

LONDON, March 2.—In connection with the quick resignation of Gladstone fully believed for retirement. The queen expressed regret that the country should lose his services and offered him a peerage. This Mr. Gladstone declined. He recommended Lord Rosebery as his successor. A telegram was sent Lord Rosebery, at Epsom, summoning him to Windsor for 3 o'clock tomorrow afternoon. It is understood he will accept the premiership, but there will be only two other changes in the cabinet.

The Times in an editorial says: "Mr. Gladstone's retirement in some sense is a turning point in the history of the kingdom."

WEDDED AT WILLARD.

They Appropriately Observed St. David's Day.—Death Among Children.

WILLARD, March 1, 1894.

Editor Deseret News.

Hinks had wishing to you three more children have been taken from our midst by the unfeeling hand of death.

Eva Trellon, child of Jos. E. and Elizabeth Trellon, aged 1 year and 7 months; also of Montgomery Harris May, daughter of Thos. H. and Caroline Farer, aged 9 years and 7 months, died of diphtheria; and Clement, son of Peter and Annie Hess, of pneumonia, aged nearly years.

While sickness and death seem anxious to visit communities like ours, still we have no reason of complaint. Today a Welsh relative was married and consequently Saint David's day was filled with rejoicing. The Welsh ladies, from their home in Malad, Father Ellis Davis, a veteran Welshman, in years of age, was married to Miss Sophia A. Hughes. The ceremony was carried out in a quiet manner, occupying over five minutes. The speeches, songs, recitations, dialogues, etc., were appropriate from the morning again, "Adeu, Adeu Saint yn Argiwydd" to the evening song, "Almosa."

David L. Davis, of Salt Lake City, delivered an address on "Why We Celebrate St. David's Day." He showed that St. David was born in the 5th century, in Pembrokeshire, Wales, and was of royal lineage. Educated by Pelinus near Carmarthen, he afterwards founded several important seats of learning. With great eloquence he opposed the Pelagian heresy and was became archbishop of Menevia, since called St. Davids, where he died March 1, 601 A. D. St. David's anniversary is observed by the Welsh as a temperance society in Britain in the Roman power. Many more Welshmen fell martyrs for their religion, but the Welsh felt proud of such men as St. David and honored the cause of their being canonized by the Catholic church exclusive after their death, but because of their noble Christian lives.

Among the visitors were Stake President R. Clawson, Counselors Chas. Kelly, Bishop Hughes of Mendon, Lieutenant Arthur L. Davis, Elias Elias Morris, George G. Webster and others not regret at being unavoidably absent. All seemed to feel that the occasion was one of more interest, and to the proportion to have been as the spectators as well as participants responded when announced "Ayes."

JAMES J. CHAMBERS.

Highest Award

For Supreme Excellence, to the PUTNAM HOT FORGED AND HAMMER POINTED HORSE NAILS.

At the World's Columbian Exposition at Chicago. A medal and diploma awarded "Superior excellence in material, method in manufacture, and quality of finished product; elasticity and smoothness combined with holding power in clinch. It allows the use of very small nails."

There is nothing brought exclusive excellence and is therefore a positive guarantee of quality equal to the national from which it is made. "Superior in manufacture," and "quality of finished product" are claims to the excellence and "elasticity" and "smoothness" are claims to excellence in their "manufacture," as well as "superior excellence." "Holding power in clinch" is claimed for the nails in the market and is well worth the.

Be sure that your shoes are made with these nails and insist on your shoes being so made.

Then it will be sure that the officers of the World's Columbian Exposition knew what they were talking about when they awarded the "Highest Award" to the Putnam Nails.

PUTNAM NAIL CO.,
Manufacturers, Boston, Mass.

PATENTS

Caveats and Trade-Marks obtained, and all Patent Office business transacted for MODERATE FEES. Our office is opposite the U. S. Patent Office and we can obtain patents in less time than those remote from Washington.

Send model, drawing, or photo., with description. We advise if patent is probable, free of charge. Our fee not due till patent is secured.

A PAMPHLET, containing full directions, sent free of charge. Our fee not due till patent is secured. Letters strictly confidential. Address, C. A. SNOW & CO., Opp. Patent Office, WASHINGTON, D. C.

THE VERDICT OF THE PEOPLE.

Tried and Proven True—Representative Citizens Endorse the Treatment Given by Drs. Shores & Shores.

FIVE NEW CASES SUBMITTED TO THE PUBLIC THIS WEEK

100 Patients Discharged as Cured in February.—Proof Upon Proof.

Last week was the most successful in the history of the Electro Medical and Surgical Institute. The books show that in proportion to the number of patients treated more cures were effected than ever before in any one week since the opening of the institute. Some of the most remarkable cures were made in the treatment of Catarrh and Chronic Diseases.

The success of Drs. Shores & Shores has attracted much attention throughout the Intermountain country, and many people have come to their city for medical treatment. Many of the most prominent people in the Territory, who have personally offered more testimonials than any other five physicians.

Their institute is today the largest in the West and their practice is proof of their skill, as the pioneer physicians are entirely inadequate to meet the demand for their services.

Drs. Shores & Shores are now prepared to submit to the public as a proof of their success in the treatment of CATARRH AND CHRONIC DISEASES.

THOUGHT SHE WOULD DIE.

Little Mary Sellie Afflicted With St. Vitus Dance.—The Interview.

On this Mrs. Sellie* makes the writer of a pleasant fireside chat with Mrs. Sellie at No. 5 Cottage court, Lincoln Park.

"Do you see?"

"I understand your little daughter has been suffering with St. Vitus Dance. Would you mind telling what success they have had?"

"Well, I will give my own story. Mary Sellie was taken under the care of Drs. Shores & Shores and was for a long time so nervous that she could not sit still, or even sleep well, and at last I thought she would die. Her nerves were so much shattered that she was afraid to go out of her room, and was so nervous that she would jump at the least noise. Her appetite was very poor, and she was so weak that she could not walk. Mary was a bright, active girl, and it was hard to see her so afflicted. Her mother was so much worn down with her sickness and care that I placed my little darling in the Drs. Shores' care, and now I feel that I can never repay them for their skillful treatment of my child.

Mr. James Turner resides at 127 Second South, where he can be seen at any time and will gladly verify the statement.

BROTHER AND SISTER.

Miss Harsie and Master Holland Mellen Family.

My sister and I both treated with Drs. Shores & Shores and both have been cured.

I had a very bad cough, and many persons intimated that I had consumption. Pains in the chest and back, and my left side was weak and pained me greatly.

MISS MARY SELLIE, WHO SUFFERED FROM ST. VITUS DANCE.

She had St. Vitus dance, she could not sit still a minute, she jumped from one chair to another, her mouth was twisted, she could not sleep, she could not walk without falling, she could not even sit down without falling, and she had to make her bed, and would not hold herself. It being impossible for her to hold anything in her hand, for fear she would not take her off of the chair without holding her for she would jump from one chair to the other, and would turn sharp pains around the heart, would turn sharp at her side, and she was so nervous that she would scream and shriek long out of bed. She was a wonderful case and her suffering cannot be imagined. But I can truly say that she is perfectly cured and my friends frankly told me that she would never get well. In this conclusion I stand upon the ground that I have taken, and have submitted the child and you have a reputation that began to return for immediately. After a few weeks she was able to go to the office for treatment, and today I can say she is as well as ever."

"Do you would be willing to make your remarks to someone, some Mrs. Sellie?"

"Indeed I would, you cannot write a statement that will express my gratitude to Drs. Shores & Shores for what they have done for my child."

Mrs. Sellie resides at 5 Cottage Court. If anyone wishes to call there is any doubt in the reader's mind as to the truth of the statement, that can be proved by the parents of the little girl who was so much improved in health and vigor. Mrs. Sellie was brought in my office for a visitor. She was in such a nervous condition that it was almost impossible to do anything with her, her nervousness was alarming. Much for her was prescribed, and I can truthfully say that Mrs. Sellie was completely cured in a remarkable manner. She is as well as anyone could. The effects of her cure in her own have not faded in intensity.

LAURENCE WILSON,
414 E. 3rd South.

Free Medical Advice for all Chronical Diseases.—Medicine Furnished Free from any charge.

Mr. James Turner is 17 years old. Twenty-five years ago he came to the Territory of Utah, and has resided in that time without good health. He was for a number of years engaged in mining, and he thinks he attributes his present condition to exposure.

"Of course I am a very old man and can't expect to be as free as I was years ago. My health is good for years I have had rheumatism and neuralgia, but last I have suffered very much from what I thought was a cold in the head. I would have dull heavy pains around the head which would make me so dull and weak. Severe headaches and constant pounding in the ears and a feeling as if some would take me in the head and carry it back to the slaughter house.

MR. JAMES TURNER, OF 127 SECOND SOUTH.

At night I could not sleep more than two hours and in the morning was all in so tired as when I went to bed.

I had become so weak and nervous that I considered I had lost my energy.

But today I am a entire different. I have been under the care of Drs. Shores & Shores and now feel as well as anyone, no more pains around the head, no headaches, sleep well, sleep well and wake up feeling refreshed and ready for work. I am not so much in pain, and Drs. Shores & Shores for their skillful treatment of my case.

Mr. James Turner resides at 127 Second South, where he can be seen at any time and will gladly verify the statement.

BROTHER AND SISTER.

Miss Harsie and Master Holland Mellen Family.

My sister and I both treated with Drs. Shores & Shores and both have been cured.

I had a very bad cough, and many persons intimated that I had consumption. Pains in the chest and back, and my left side was weak and pained me greatly.

MISS HARSIE AND MASTER HOLLAND MELLEN FAMILY.

Doubling, tearing noise in the ears were usual, breathing and spitting very scantily. I should not look at meats for for very length of time without being dizzy, and I could not walk any distance without the stairs I would be tired as though I had run a mile. I never received a meal. It always made me sensick after eating. I was restless at night and tossed in my sleep, in the morning I would feel tired and not refreshed. What I began to improve with you, shortly I weighed 10 pounds.

After a course of treatment with Drs. Shores & Shores I can say I am perfectly well and I NOW WEIGH 15 LBS. so you can imagine how I have improved.

LITTLE JOHNNIE MOORE.

Mrs. Moore is visiting her little daughter's cousin.

"Yes little Johnnie has suffered from a weakness, for the last two years. Doctors have tried in vain to relieve him, but he seemed to get worse and he brought home to Drs. Shores & Shores.

"The cure of Johnnie was very long. Many times during second treatment he would cry out in his sleep, and would wake up with a start. Often the discharge from the nostrils of pus and corrupted matter would cause him to cough and choke. Coming up in the morning he would be exhausted and very peevish. Johnnie was a great sufferer of the Drs. Shores & Shores in the treatment of catarrh and bronchitis I feel that I cannot too much for the skill and attention they showed in the case of my little boy. Johnnie is now well and hearty and I feel that I cannot too much for the Drs. Shores and not hesitatingly say the result has been wonderful. I will at all times be pleased to recommend the Drs. Shores and not hesitate to say the Drs. Shores are
