BUSINESS ON THE EXCHANGES.

Day's Sales Were 89,850 Shares for $14,624.21.

FOUR ACES A FAVORITE.

On the New Board Antler Had the Call, the Stock Selling at a Better Figure.

On the exchange today business was much improved, while the market displayed an advancing tendency, especially in higher-priced securities. The sales reached a total of 89,850 shares, which had a value of $14,624.21. The old board contributed 48,500 shares for $9,-[illegible], while the new exchange sold [illegible] shares for $4,[illegible]. In the main conditions were highly satisfactory, and as a result the brokers rejoiced.

FOUR ACES A WINNER.

Captured the Honors on the Salt Lake Exchange Today at Better Figures.

On the Salt Lake board today Four Aces continued a favorite, the stock maintaining its new-born strength and pushing on up to 44½ cent, and 45, buyer 60 days. This was the first and foremost seller on the call, and after transferring 19,200 shares it closed with a bid of 43¾ where it could have found ready takers, while offerings were limited at 44½.

Business continued slack, the sales reaching a total of 40,860 shares which sold for the sum of $9,282.22. Ingot was dealt in at 25 cents where it was firmly bid for while Mammoth sold at $1.72½, Lower Mammoth at 79 and 79½ and Northern Light at 60½ to 61½, this stock scoring a gratifying advance and closing bid for at 61¾. Petro of Bingham shared in the trading at 75 and 74½, and Sunshine was dealt in at 90, followed by sales of Sunbeam at 61.

The lower class had Boston-De La Mar as a leader, this stock selling from [illegible] cent. Camp Floyd surprised the boys by going at ¾, while Dalton changed hands at 1½, and Golden Eagle continued weak, with sales of 2,000 shares at 4¾. Joe Bowers was practically immovable, but Bowers Extension came out as a seller at 9¾ and was followed by North Swansea which made transfers at 16½ and 17. Midnight Bowers dropped below 4, and Valeo also weakened, this stock selling down to $1.20. Gold Cable, on its first appearance, had a bid of half a cent, with offerings at 7, while Diamond Consolidated was wanted at 11½ as against offerings at 15.

The closing figures were as follows:

MARKET REPORTS.

NEW YORK MARKETS.

New York, April 6.—Irregularities characterized the early trading in the stock exchange, American Steel and Wire leading the advances with a rise of 1¾, while Brooklyn Transit headed the other division with a loss of 4¾.

A brisk purchasing movement in Manhattan and Brooklyn Transit benefited the general market for a time, but values soon sagged downward with the tendency influenced by unusual in the loan market. Declines were most severe in the specialties, but there was also a marked reaction in Burlington and New York Central which disturbed bullish sentiment in other railways. Discouraging crop advices which were reflected by a rise in wheat and a reversed movement in the grangers, thwarted an attempt to advance the market. Heavy sales were also invited by the rising rates for call money and the sensational declines in stock which were influenced by special considerations. The limitation of a large part of the short interest in the specialties, owing to their recent rapid rise, rendered them sensitive to pressure and noteworthy losses followed. London bought moderately but that absorption failed to affect local realization.

MORE CYANIDES FROM MERCUR.

Three Producers Send in 1,000 Pounds of Fine Stuff.

NEW STRIKE AT TINTIC.

South Swansea Will Sink a New Shaft—Golden Star Officers—Miscellaneous Items.

Three lots of cyanides weighing in the neighborhood of 1,000 pounds, reached the Consolidated refinery in this city this morning, the precious stuff coming from the Geyser-Marion, Overland and Daisy, all Mercur properties. The Geyser shipment was the largest, coming as it did from an oldtimer in the business, whose mill is constantly running on 100 tons of ore daily. Those from the Overland and Daisy were necessarily lighter, these properties being youngsters in the production of refined values, but nevertheless demonstrating their ability to pile up that which makes dividends. This is the third shipment by the Overland, while the Daisy has made probably eight or ten. Both mills are reported to be running nicely, each mine furnish a good supply of ore which is put through at the rate of about 100 tons daily.

Golden Star Officers.

Looking to economy and the killing of two birds with one stone, the Golden Star Gold Mining company has elected Patrick Ryan of the Butler-Beck president and manager, this action being taken on the suggestion of Captain Timothy Egan, former manager, who saw in the move a chance to cut down expenses a little. Hereafter when Mr. Ryan journeys to Gold Mountain in the interest of the Butler-Beck he will also look after affairs connected with the Golden Star. The other officers of the company are Patrick Conley, vice president, and C. E. Hudson, secretary and treasurer.

Will Sink a New Shaft.

The directors of the South Swansea held a meeting in this city yesterday afternoon and re-elected the old officers for the ensuing year the same consisting of C. W. Wheeler, president; L. E. Riter, vice president and manager; W. H. Farnsworth, treasurer, and J. M. Wheeler, superintendent. At the meeting the board decided to sink a new shaft to sufficient depth to connect with the ore bodies, the location of this to be determined by an official visit of the directors who will go out to the mine again in a few days.

This work will in no wise interfere with the payment of dividends, as the company's surplus is sufficient to liquidate the expense of the new shaft.

New Strike at Tintic.

C. E. Loose, manager of the Silver Park mine at Tintic, brought to the city last evening samples of ore from a recent strike in that property, the same running 10 to 40 per cent lead and 80 to 100 ounces silver to the ton. The Park adjoins the Four Aces on the east and the ore was discovered 200 feet in the tunnel at a depth of about 250 feet from the surface. Indications point to its being permanent and in this the owners see cause for rejoicing. This property is an old-time producer and but recently was incorporated and placed on a new basis.

MINES AND MINING MEN.

A strike is reported in the Pinole at Silver City.

Ore in the Antler is said to net the company $40 a ton.

Thomas Weir of the Highland Boy went out to Bingham today.

Office rooms are being fitted up on the floor of the Utah Exchange.

George H. Robinson, the well known mining engineer, was in the city today.

The story of the Sunshine option, published by the "News" ten days ago, is being revived.

After Saturday's call there will be a sale of Salt Palace stock on the floor of the Salt Lake Exchange.

Superintendent Trexler of the Antler, on Lion Hill, is in the city. He reports the property in good shape.

Col. George W. E. Dorsey has returned from Nebraska to once more give attention to his mining interests in Utah.

H. C. Lucas has been granted the privilege of the Salt Lake exchange, pending a vote on his application for membership.

John Hatfield, who visited Tintic a day or two ago, confirms reports of great activity at and Diamond, Silver City and vicinity.

The shaft on the Texas at Tintic is being pushed to greater depth, while buildings are being erected prior to the putting in of the new hoist.

A number of mining men and brokers will go to Tintic tonight and tomorrow morning to make a thorough inspection of the Four Aces in which a strike is reported.

Articles of incorporation of the Sunrise Mining and Milling company have been filed. The company has a capital stock of $30,000, divided into shares of ten cents each and owns the Sunrise and Sunset claims in Beaver county. J. S. Schwartz is president; George Taylor, vice president; C. E. Schwartz, treasurer; Charles Loutler, secretary, and H. W. Sewall the other director.

The Vespatian and Hoosier Mining company has filed articles. It has a capital of $20,000 in 21 shares and A. H. Page is president; G. L. Denis, vice president; W. C. Orem, secretary and treasurer, and these, together with A. J. Green and Charles Baldwin constitute the directors. The company's property consists of a bond and lease from H. W. Lawrence et al on the Vespatian, Standby and Maggie patented mining claims and on the Molly and Peggy unpatented claims situated in West Mountain district.
