HE IS DYING!

Such is the Latest Word From the Czar.

THE LEFT LUNG INFLAMED

And All Hope of Recovery is Abandoned.

GRAPHIC ACCOUNT OF HIS ILLNESS.

With the Exact Nature Committed Publication as to Actual Present Condition.

LONDON, Oct. 31.—A dispatch to the *Pall Mall Gazette* this afternoon from Livadia says: The czar is dying. His lordship is so seriously informed that all hope has been abandoned and news of his death may be expected at any moment.

St. PETERSBURG, Oct. 31.—An official bulletin issued at 10 o'clock this morning says the czar slept a few hours late last night and the bleeding is somewhat subdued. Otherwise his condition is unchanged.

The Official Messenger publishes the following account of the czar's illness: "The disquieting symptoms which manifested themselves at Spala became less marked to the early days of his majesty's sojourn at Livadia. The czar was able to attend divine service after arriving there and also able to drive about. Then symptoms of weakness appeared, with waning appetite, loss of sleep, weak heart's action, increase of albumen and swelling of the extremities. October 19 there was a return of the czar's appetite, and October 20 he was able to resume necessary rest in sleep, which produced a notable increase in his strength and the suppression in his albumen. The same day the queen of Greece arrived and the participants, Father Yean, of Cronstadt, who offered up prayers for the consort, was received. Lavadia. His majesty then received the holy communion which added to the painting his mind. Oct. 22 the consort prayed with Father Yean. Princess Alix of Hesse-Darmstadt arrived that evening and by order of the czar was received ceremoniously with a guard of honor and with the military band playing. The illness of the czar with Princess Alix, which he had not seen for long time, is very strongly realized by patient in spite of the joy which the meeting causes him, and its unfavorable symptoms dated the effects of the excitement. But the night passed tolerably. There was continued increase of the albumen. October 23 hindered the movements, during all the time, however, in spite of the suffering, did not neglect state business but as the urgent request of his physicians he needed over documents only. He is worried about the reports requiring consideration and examination by the czarewitch. His majesty, however, received the most important dates and signed all state papers.

It is scientifically asserted today that all reports concerning the serious nature of the czarewitch's illness are unfounded.

WASHINGTON, D. C., Oct. 31.—Prince Cantacuzene today received the following cable from the Russian minister at Sofia, dated today:

"Mr. PETERSBURG—Excoriation with black centrum, entire. Temperature 101, pulse 90, quite weak. Breathing difficult, quite aphonic. Great weakness, sensible somnolently inclined."

Police Officer Indicted.

NEW YORK, Oct. 31.—The statement issued at police headquarters today that the grand jury had indicted Inspectors Byrnes, Captain Chapman and Wardens Gilchrist, Eldridge and Smith, for specific charge, it is said, is a misnomer.

Fifteen Injured in Death.

STOCKHOLM, Sweden, Oct. 31.—The express at Gamla Jo Jo coming has been turned. Fifteen persons injured.

Bomb Explosion in Milan.

MILAN, Oct. 31.—Last night two bombs were exploded in front of the local police station. The buildings were damaged but nobody was injured.

NATURE'S OWN GOLD CURE

Miners Find a Spring Hidden in a Fastness of the Pecunia Hills.

Wonderful Effects Upon the Working men Who Have Tested the Yellow Fluid.

INFORMED, Mich., Oct. 31.—A report comes from the Rogue gold mine near here, that at the 300-foot level a spring has been struck which supplies a strong stream of highly colored water, being hearty as pronounced as gold and giving indicating characteristic of that precious material in the solution. It is very palatable and free cool. Several of the men working in that level took been in the habit of freely imbibing this water and it was noticed that as they drank the desire for alcoholic stimulants died within them. None of the men had been heavy drinkers of beer and whisky but since the use of this water they had no wish for such stimulants. Their health was improved, condition is generally improved and it is thought that the water is a veritable and natural "gold cure," not only for the liquor habit but for generally diseases of all kinds. Three months ago one of the men had lost all the energy, loss of appetite, weak heart's action, increase of albumen and swelling of the extremities. October 19 there was a return of the czar's appetite, and October 20 he was able to resume necessary rest in sleep, which produced a notable increase in his strength and the suppression in his albumen. He asked that Frank Trumbull, the present receiver, and E. Ellery Anderson be named in receiver for Reorganization Committee of the Union Pacific bonds to take the whole system upon bonds consolidation and $1,000,000 is based merely on the rights of way over the Denver and Rio Grande between Pueblo and Leadville, secured to the land by lease.

FIRES AT FARMINGTON.

They Occur With such Frequency as to Give Rise to the Belief of Incendiarism.

"T. H. C." writes to the NEWS from Farmington as follows under date of today:

A stack of hay belonging to E. T. Clark, containing about seventy-five tons was burned up a few weeks ago. The stack stood in the field near the R. G. W. railroad, and a passing train ignited the rock and a strong breeze soon drove the fire to the stack.

Tuesday morning about the same time George H. Steed's hay, corn and contents were also destroyed by fire. The two barns stood in the fields about one and one half miles southwest of our town and the fires were undoubtedly started by one or more incendiaries.

Mr. Steed's barn, I understand, was insured; the other owners had no insurance on the property destroyed.

Here's the Verdict.

Legal arguments in the mechanics lien suit of the Great Salt Lake & Hot Springs Railroad Co. vs. the White & Stone Co., began in Chief Justice Merritt's division of the Third district court at 10 o'clock this morning and concluded just in time for adjournment for the noon recess. The case was then given to the jury. On both sides the matter has been fought with intensely determination.

The afternoon the jury came into court with a verdict signed by nine of their number. They found for the plaintiff, overruling the lien to [illegible]
