MINING STOCKS ON THE EXCHANGE

Trading Dull Today But Figures Generally Firm.

STAR CONSOLIDATED WEAK

Heavy Business in Manhattan at Half a Cent—Review of the Past Week.

On the Salt Lake Exchange this morning the brokers did their level best to transact business, but it was hard work and after all was said and done the slips showed light trading, a total of but 35,810 shares changing hands with a selling value of $6,115.82. In the upper close there was not the activity usually manifest on a Saturday, although figures remained fairly firm, while in the lower register, one stock did half the day's business and thus saved the exchange from the bad showing which appeared imminent at the start.

Going down the line the brokers first stopped at Daly-West, where 50 shares were picked up at $10.05. Dexter chronicled slight advances and trade ranged between $2.39 and $2.41, while Four Aces, was the next to do business, the stock being in dealt in at 50 and 38½. In Geyser-Marion there was trading above 80, after which Lower Mammoth changed hands, the stock going at 51 and having a closing bid of 52. For Mercur 140 was paid, while Northern Light sold at 60½, and Manhattan found takers at 56 and 57. Star Consolidated sprung a leak and was bought at $1.10, seller 30 days.

Boston-De La Mar headed the list for close No. 2, a board lot going at 1¾. Then Eagle & Blue Bell responded, this stock selling at $1.85, while Prince was taken at 1.30, and Golden Eagle made a transfer at 8½, to be followed by Golden Star at 11½. Joe Bowers remained about stationary, and sold up to 16¾, and Bowers Extension did business at 9½. The best seller on the board was Manhattan, which handed out 17,000 shares at half a cent, stamped a title at the close and had ⅝ as a standing bid. Chief sold at 12 cents, and Omaha was quite active between 37 and 38, while Buckeye was dealt in at 39 cents, South Swansea at $1.15½, and Value at $1.25.

The week in the pit has been a fairly good one, the bear gradually losing his hold and the bull carrying stocks into higher and more satisfactory positions. Trading up till noon today, amounted to 190,803 shares, which had a value of $167,685.80. A year ago the week's business reached 47,300 shares, valued at $11,539.87.

The closing figures were as follows:

LISTED MINES.

Stocks.	Bid.	Asked.

MARKET REPORTS.

NEW YORK MARKETS.

MONEY.

New York, March 11.—Money on call steady at 2½ @ 3 per cent, last loan 3 per cent.

Prime mercantile paper, 3½ @ 4½ per cent.

Sterling exchange, steady with actual business in bankers' bills, 484½ @ ⅝ for demand and 483⅝ @ 484 for 60 days; posted rates, 484½ @ 485 and 487 @ 488; commercial bills, 484⅜ @ 484½.

Silver certificates nominally 59½ @ 60½.

Bar silver, 59¾.

Mexican dollars, 47½.

Bond bonds, steady; railroad bonds, strong.

Government bonds, easier. 4's, 3c, 111½ bid; 5's, 3c, and coupons, 112½; 4s, 2c, 111½; coupon, 112½; 2s, 2c, 96½; 5s, reg., 111½; coupon, 111½.

WEEKLY BANK STATEMENT.

New York, March 11.—The weekly bank statement shows the following changes:

Surplus reserve, decrease, $1,375,125; loans, decrease, $2,085,900; specie, decrease, $2,357,900; legal tenders, decrease, $1,296,300; deposits, decrease, $5,115,000; circulation, decrease, $36,700.

The banks now hold $23,225,000 in excess of the requirements of the 25 per cent rule.

STOCKS AND BONDS.

New York, March 11.—The stock market showed considerably less nervousness and trading. Some shares were slightly better, others were lower, but the general tone was unchanged as compared with last night. Union Pacific and sugar were the leading features.

Heavy liquidation in the speculative, notably sugar, stimulated activity of the bears in other quarters, and some sharp declining occurred. The publication of bank statements showing a loss in specie, reduced of only $1,357,900 vs. $2,500,000 and a contraction in loans of over $2,000,000 created a bullish feeling and the market rallied sharply. The closing was strong, near the top with most shares showing slight net gains.

New York, March 11.—Sugar—raw, strong; fair refining, 3 15-16, centrifugal, 96 test, 4 11-32; molasses sugar, 3 13-16.

Refined, steady; crushed, 5½; powdered, 5¼; granulated, 5¼.

CHICAGO MARKETS.

LIVE STOCK.

Chicago, March 11.—Hogs—Receipts, 21,000. Monday, 25,000; left over, 2,713. Market 5 cents higher. Mixed and butchers, $4.00@4.30; good heavy, $4.25@4.35; rough heavy, $4.00@4.20; light, $4.20@4.35.

Cattle—Receipts, 400. Market unchanged.

Sheep—Receipts, 4,000. Market steady; sheep, $3.25@4.25; lambs, 4.25@5.25.

PRODUCE.

Chicago, March 11.—May wheat opened at 69¼, declined to 69¼, then rose to 69⅝.

CLOSE.

Wheat—May 69¼ @ ⅝; July 69¾ @ ⅞.
Corn—March 27⅝; May 28⅝.
Oats—March 19⅝; May 19 @ 19⅛.
Pork—March $8.35; May $8.10 @ $8.12½.
Lard—March $5.25; May $5.37½.
Ribs—March $4.60; May $4.72½.

CASH.

Wheat—No. 2 red 71; No. 3 @ 69; No. 2 hard 69; No. 3 do 67; No. 1 northern spring 69 @ 69; No. 2 do 67 @ 68; No. 3 spring 62 @ 67½.

Corn—No. 2, 28¾; No. 2 yellow 28¾.

Oats—No. 2 19⅝ @ 19¾; No. 3 19½ @ 19⅝.

Barley—30 @ 41.

Rye—43.

Timothy—$2.36.

Flax—$1.39½.

KANSAS CITY LIVE STOCK.

Kansas City, March 11.—Cattle—Receipts, 100. Market unchanged.

Hogs—Receipts, 4,000. Market strong to 5c higher. Bulk of sales, $3.55 @ $3.70; heavy, $3.55 @ $3.80; packers, $3.50 @ $3.75; mixed, $3.45 @ $3.65; light, $3.40 @ $3.60; pickers, $3.55 @ $3.60; pigs, $3.00 @ $3.35.

Sheep—Receipts, 500. Market firm; lambs, $3.75 @ $4.60; muttons, $3.30 @ $4.15.

OMAHA LIVE STOCK.

Omaha, March 11.—Cattle—Receipts, 800. Market steady, mostly native beef steers, $4.00 @ $5.40; westerns, $3.75 @ $4.15; Texas steers, $3.60 @ $4.60; cows and heifers, $2.25 @ $4.25; canners, $2.25@ @ $2.75; stockers and feeders, $4.00 @ $5.00; calves, $3.50 @ $6.75; bulls, stags, etc., $2.75 @ $5.10.

Hogs—Receipts, 4,100. Market 5c higher; heavy, $3.55 @ $3.60; mixed, $3.52 @ $3.60; light, $3.52 @ $3.60; pigs, $3.00 @ $3.40; bulk of sales, $3.55 @ $3.60.

Sheep—Receipts, 500. Market firm; native muttons, $3.80 @ $4.20; muttons, $3.70 @ $4.20; stock sheep, $3.40 @ $4.00; lambs, $4.00 @ $4.90.

DENVER LIVE STOCK.

Denver, March 11.—Cattle receipts 400. Market active and firm. Beef steers $3.75@5.00; cows $2.25@4.00; feeders $3.00@4.65; stockers $2.25@4.00; bulls and stags $2.00@3.60.

No hogs.

No sheep.

SAN FRANCISCO MARKETS.

San Francisco, March 11.—Wheat—Firm; May $1.13; Dec. $1.13½; cash $1.12½.

Barley—Firm; new $1.04½, May $1.10; cash $1.09½.

WORKMEN WEAR A BROAD SMILE.

Several Industries Report Increase of 10 Per Cent in Wages.

TRADE SHOWS NO DECREASE

Wool Market is the Only Industry that Shows Any Marked Tendency to Hang Back.

New York, March 11.—R. G. Dun & Co's weekly review of trade will say tomorrow: By far the best assurance of good business in the future is found in the general advance of wages. The general rise in the earnings of the cotton mill operatives, in most cases 10 per cent, of iron and steel works generally 10 per cent, and tin plate and sheet workers from 5 to 10 per cent, and of coal miners in some large districts about as much, has set a pace which most establishments will follow which have reduced wages in the past years of depression. Those who fail to comprehend what such a change may mean have only to consider that a trifle increase in the wages of all labor would bring into the market a new buying demand in amount far more than the figures of the entire value of exports to all countries. The volume of business shows no sign of contraction, but the first full week of March has been about 15.1 per cent greater than the same week last year, and 60.8 per cent greater than in 1892.

Most people would not expect the production of pig iron to be affected by the election. Yet in the Pittsburg district alone the furnaces running are cut to half production, and last week less than their ordinary output, so that the decrease in weekly production of iron is over 126,000 tons. March 1, against 217,629 Feb. 1, does not mean anything more than bad weather. The shrinkage of output of iron in February, just when increased supplies were expected and should, contributed much to the extraordinary advance in prices, $2.75 in anthracite No. 1 Feb. 1, $2.50 in bituminous at Pittsburg and $2.25 in gray forge. The most stocks were also reduced in February 46,433 tons, so that the apparent consumption was 272,909 tons to the short month. Nearly all the work done, of course, is at the comparatively low prices made in the great contracts three to four months ago, but the few works which have not yet made no contract for early delivery are charging about what they please, and those quotations appear in the market reports, for instance, in many cases $1 to $5 per ton days. Plates are in special demand, and heavy, but in rails, bars and structural forms the demand and prices are not yet much changed.

Tin is firm at $23.85, with consumption of 2,500 tons monthly, and copper is eared for spot at $17.75, with bad weather at $4.30. The trust refuses quotations for tin plates.

The demand for coke exceeds the transporting capacity for the Connellsville region, but the output has been 105,879 tons for the week. Pretty fine is quoted at $1.60 and foundry at $2 per ton.

The woolen manufacturer has been hampered by doubts about the price of wool. Now a big combination of worsted producers has been formed, with several other combinations proposed in goods of other kinds, and those who have encourage buying and the season continues disappointing, in wool markets sales are barely equal to the ordinary consumption of the mills dependent on them, but prices are rather weak.

Exports of wheat do not yet fall below last year's, as many have for some months expected, and the Atlantic exports, flour included, have been for the week 3,298,992 bushels, against 2,895,879 last year, and the Pacific exports 862,522 bushels, against 1,230,459 last year, with other exports of 407,549 bushels. Western receipts have been 4,971,647 bushels, against 2,752,918 for the same week last year and the output from the country gives rise to a fair apprehension of a deficiency of the crop. The price is about 3 cents lower for cash.

Failures for the week have been 182 in the United States, against 240 last year, and 27 in Canada, against 36 last year.

REAL ESTATE TRANSFERS.

R. S. Walker estate company to P. H. Hartman, warranty deed for lots 13, 14, block 2, Walker's subdivision, Five-acre A. ..... $ 800

E. F. Crandall to same, quit-claim for 12x31 feet northeast from same. 1

G. F. Richards et al to Anaconda Gold Mining and Milling company, quit-claim for Anaconda lode, and Little Chief extension. 500

T. Marshall, trustee, to A. Hansen, trustee, deed for 10x12 rods southeast from northeast corner block 47, plat D. 1,000

Total $5,844

LEGISLATIVE FIASCO.

Had the Legislature in the Utah House and Senate kept themselves clean and free and by using P. V. spring water for the Voters of the State would have no cause for complaint. White Wagons, Tel. 45. F. A. Sierra, Mgr.

BIG DEAL IN BINGHAM MINES.

Two Million Paid for Old Jordan, Old Telegraph and Niagara.

OIL PEOPLE THE BUYERS.

Buckeye Meeting on Monday—Vipont Getting Richer—Northern Light Shipping.

The operations of Samuel Newhouse in New York are being watched with considerable interest, by those connected with Utah mining. Several weeks ago Mr. Newhouse negotiated a $1,000,000 deal in the Utah Consolidated or Highland Boy mine at Bingham and now he is credited with having bonded about the same amount of other mines in the same camp, this latter transaction taking in the Old Jordan and claims, the Old Telegraph and the Niagara, for which, it is said, the buyers paid the sum of $2,000,000.

The news from New York says these mines will be worked by the United States Mining company, incorporated there yesterday with a capital stock of $1,000,000, divided into 40,000 shares of the par value of $25 each. The bulk of the stock is taken by New York and Boston capitalists, including such men as Edward L. Clark, Charles Cole and Joseph A. Coram, and only a limited number of shares will be placed on the open market. With $1,000,000 in the treasury the company proposes equipping the properties with the most modern machinery and developing them on a systematic and businesslike basis.

Inquiring into the big deal, a News reporter started in search of A. F. Holden, superintendent of the Old Jordan & Daisy, only to be told that the gentleman had gone East in connection with the transaction. Then the office of the Highland Boy was visited and tried. Here Mr. Thomas Weir was seen, and that gentleman readily gave it as his opinion that the report in New York was correct, "for," said he, "one of the gentlemen connected with the affair told me so only a short time ago." W. H. Thomas, general manager of the Niagara, was next seen, but he was reticent about it, "not the first thing." It is safe to assert, however, that negotiations are pending and that by these three of Bingham's best mines pass into the hands of what is familiarly known as the "United States Oil Crowd."

This will be good news to Utah miners, who, as a rule, have no dealings with which to develop the mines, and will have a tendency to stimulate interest in not only Bingham, but in all the camps of the State. Speaking of the situation today, a well known mining man said: "Outside of Bingham there were hardly any developments in the outlook for this season's work in the mines of Utah. Back in Utah has now been in a position in the world of mining where she can stand out boldly and demand attention from men of means. Already they are beginning to recognize the superior merits of the mines of Utah and are willing to contract for them with an eagerness that must be gratifying to all citizens of the State. Capital is shy, but when the investors are sufficient evidence of this camp's reputation as a producer of high-grade ores, and the future will soon appear interest in that district, than has ever before attached to the mines there. The entrance of Bingham capital, when the present owners of the Highland Boy took hold of that property, was the thing that first drew attention to the camp, as it brought the outside world into the secrets of Utah mining, and caused them to investigate more and more the true resources of not only that district but of other camps in the State. A few years ago Bingham was looked upon as strictly a low-grade camp, but recent developments have shown the contrary to be a mistake, as the district now boasts of one at least, of the best copper mines in the world, by way both of the excellent good values emanating from other properties in that section."

The gentleman was enthusiastic in his conversation. He painted a pretty picture of future prosperity in Utah and predicted a boom, the like of which this section of country has never experienced. He said he was convinced that the selling out to men of means, would be led to put their money into other mines and thus the Utah camps would be thoroughly explored by men desirous of enriching themselves, who at the same time would be adding to the commonwealth by helping yourth supplement for those less fortunate than they. Truly, said he, a glorious future awaits the mines of Utah, and in this his point seems to be well taken.

Shipping Powder.

The powder mine, near Black Rock, is shipping two carloads of ore in Chicago last year and is now turning out a car each week, the owners having an order for a carload per week for all of 1899. There now are employed in mining, or rather quarrying and sorting, about 30 men, who is so close to the Oregon Short Line station as to enable the mining company to load ore to be sent for about two dollars a ton, while the railroad gets about $3 or $10 per ton for carrying it to Chicago. The powder is manufactured into various forms to meet the several uses to which it is adapted.—Millard Progress.

AT FIVE-MILE PASS.

Binder Strike Causes Excitement—Gold Coin Showing.

(Mercur Mercury.)

There is considerable excitement at Five Mile pass over the rich strike in the Binder group, which promises to eclipse everything in that section and parties from Tooele and Ophir are flocking to the camp. The property mostly every day. Assays taken from the ground are much higher than in any silver ledge in the camp, and some venture the assertion that the ledge would not be found to pay in gold, if it should, but it has been proved on the ground but will not be put in operation until the shaft is sunk at least 100 feet.

E. W. Watt attended the regular monthly meeting of the Ophir Gold Cable company on Monday. On his return he stopped at the Gold Cable property and saw the ledge in passing. He reports that the workings have gone to a depth of 70 feet and that a good showing of lodge matter has been encountered which gives values from $8 to $20 in gold.

The road to the Northern Light is open once more and the first two loads of high grade ore reached Mercur on Sunday, the teams are now busy all the time and shipments will be made regularly as fast as ore can be hauled. There is a great deal of ore in sight and it will keep the freighters busy for some time to catch up with the work.

Activity at Milford.

The Milford correspondent of the Beaver Herald says quite a little activity manifests itself in mining circles. Mr. Sam Gothe is back and making shipments from the Old Cave mine again. Ten thousand dollars' worth of machinery passed through Milford en route for the Rollins mine in Lincoln district last week. The Jungle Boys have been showing capitalist Gillespie of Denver about the diggings for a few days, he left highly pleased with Milford's prospects.

VIPONT GETTING RICHER.

Body of Ore Struck Running Up Into the Thousands.

The Alma correspondent of Albion, Idaho, Times says the mining claims in that vicinity are showing up bright. Assays made on ore from some of them run high in silver and lead, with a good percent of gold. The Vipont mine, now being run by eastern and Salt Lake capital, continues to boom with J. E. Davies at the helm. They are now working 14 men and calculate putting on a much larger force in the spring. They also have in view the enlarging of their milling capacity, which is entirely inadequate to handle the output of the mines now opened in the Ashbrook group. They have just finished a shipment of three cars of ore to Pennsylvania, the returns from which are very flattering, the three cars having netted the company about $3,000. The company now that it has will pay like that, after being hauled from the mines to the railroad, a distance of about sixty miles, it will pay to put in the necessary machinery and work the ore on the ground.

The outlook of all the mines is the most flattering. Last fall, as what is called the Avalanche mine, "Vipont proper" they struck a body of ore six feet wide, which is very rich, part of it running up in the thousands of dollars, and the entire body assaying high enough to pay to ship. It is from this ore body the shipment was made. The ore body has widened out to about 12 feet, with well defined walls on both sides.

Northern Light Shipping.

The opening up of the Northern Light road, resulted in the arrival in this city this morning of a car of mined ores one which will be shipped to Salt Lake river, while it was expected another car would be in this evening. The bulk of higher grade and valuable ores in the entire white metal, along with respectable values in gold, will be shipped as fast as the company expects to continue shipments right along and this clear the way for dividends.

Highland Boy Pay Day.

Monday and Tuesday will be busy days for Williams & Thomas, paymasters for the Highland Boy company. Monday he will go out to Bingham to distribute checks amounting to $20,000 over on Ionian, while the day following will take him to the new smelter near Murray, where about the same amount is engaged pushing that commodious structure to completion. Monday Mr. Williams will be all engrossed in the amount of money to be distributed, but it is safe to say he will be quite relieved when Monday morn's burden for at least another 30 days, when Mr. Hoch will visit them again.

Aluminum Bed Located.

Special Correspondence.

Provo, March 11.—Eli Kendall et al have filed notice of location of the Aluminum bed, a deposit bearing kaolin and other materials located in the south end of Cedar Valley, near Soldier Pass. David Merry et al have filed notice of location of the Sam Pay claim in Porpoise mining district. L. T. Jackson et al, Silver Cloud, E. Bennion et al, North Star and Little Mollie claims, John Davis et al, Bonanza, Carbonate No. 2 and Carbonate No. 3 claims, all situated in the North Tintic district.

Buckeye Meeting on Monday.

What is termed a meeting of note of those interested in the Buckeye mine will be held in the office of the company at 11 a. m. in room 409, McCornick building. The meeting is called by Mr. Vipont, who, with Messrs. George Romney, Pacific Lumber Co., George E. Romney and Moses W. Taylor, and a few others, are at work on a scheme of a new board of directors for the ensuing year, and the transaction of such other business as may come before those assembled. Today all arrangements were making for the meeting and as there will be two factions represented, the session promises to be an interesting one.

Mineral Entry.

C. E. Allen has filed a mineral entry in the local land office for the Mountain Dew Extension lode, situated in Lots No. 388 (Excelsior), No. 82 (Honeycrisp), No. 187 (Fanny Barnes), No. 77 (Hickory), and on Sunset and Sunset No. 2 lots, in the Mellon Lot No. 46 as is not in conflict with adjoining claims, 5.34 acres in the West Mountain mining district, in the county of Salt Lake.

The following applications for patents for mineral lands have been made in the local land office:

John Weber, Silver King milling company, by R. L. Carlson, agent, of Salt Lake City, for the Minnie Moore, Funnyside and Fourteen mines in Tintic mining district, Utah county.

William R. Wallace and Mary J. Shell of Salt Lake City, for the Sweepy, Washington mine in Clifton mining district, Tooele county.

Richard B. Woodmansee and Frank H. Woodmansee of Silver City, for the Myrtle lode in Tintic mining district, Juab county.

MINES AND MINING MEN.

West Daly is now called on the Utah exchange.

Lead crowned 16 cents per hundred today and ore stands at $4.20.

The Lower Mammoth at Tintic is to be taken a step further down.

The Tintic Mines says another rich strike is reported in the Uncle Sam.

John A. Kirby, superintendent of the Dalton-Beck, was in the city today.

Officials of the Four Aces deny that there is any intention of levying an assessment.

The regular quarterly dividend of the Horn Silver will be paid the latter part of this month.

Good milling values have been encountered in the Reindeer group, north of the Overland at Mercur.

Very few ladies attended today's session of the Ophir Exchange. They are evidently disgusted.

During the week shipments from Tintic amounted to 44 cars of ore and 3 cars of concentrates.

The Yellow Jacket at Tintic is showing a very rich vein of quartz carrying gold and copper pyrites.

Henry M. Ryan and associates have now acquired full possession of the Comet No. 1 mine near Hailey, Ida.

Samples from the new strike in the Magna, Ida., of the Lee Mint, show values of 32.16 ounces gold and 236.4 ounces silver, or a cash valuation of $42.36 per ton.

Bill Peyton and associates have purchased a controlling interest in the Marguerite group of claims in Hailey district, Beaver county. The group is said to contain high-grade copper ore.

FITS CURED
(From C. G. Journal of Commerce.)
Prof. W. H. Pierce, who makes a specialty of E. C. powders for fits, has cured and cured more cases than anything. Pierce's powders are a remarkable fit. He makes a specialty of fits, and has cured more than anything else. He makes a new trial bottle free which he sends out to any address, postpaid, on receipt of 10c to pay postage. Prof. W. H. PIERCE, P.D., 186 Pearl St., New York.

We are conscious that the convenience in our HAT DEPARTMENT hasn't been all it should be, but it's going to be better. NEW HAT CASE—NEW GOODS

Do you know how we found it out? Your criticism, Dear Public. Some of you were good enough to write us about it; some spoke of it in the store; some just bought clothes and furnishings and went away without looking at Hats—that's first-rate criticism.

Now we have the best of everything; that is, if we are as wise as we think we are, and if we are not, please bring back what you don't like. Now for the good words about Hats themselves:

Paying $5.00 for a derby doesn't make it a $5.00 derby any more than paying $1.00 a share for stocks makes a dollar stock.

Think it over—$3.00 and $4.00 is the price, and here is the derby—just like the fashionable hatter's best, without the name.

ALWAYS ADVERTISED.
