Southern Utah	6 40 pm	6 50 am

The above is standard mountain time.

JOHN T. LYNCH, Postmaster.

Salt Lake City, Utah, August 8th, 1884.

FRAGMENTS.

MORE dismal drizzle.

THAT was a fine shower yesterday.

GET registered this week, or not at all.

OVERCOATS and underwear are all the rage.

THE *Contributor* for August is to hand, full of good reading.

GYPSY fortune tellers are abroad. Will they tell who is to be President?

PRESIDENT ANSON CALL, of Davis Stake, has a great-grand-child 13 years old.

THE Silver Lake and Alta tourists from town are back again, and mighty glad to get back.

Bishop Wm. B. Preston went to Logan Saturday evening, but is with us again to-day.

FOURTH Quorum of Seventies meet in the 21st Ward meeting house, on Tuesday evening, Sept. 9, at 7.30.

A BURST of sunshine, yesterday afternoon, relieved the monotony of leaden sky and humid down-pour, but it was of short duration.

SUBSCRIPTION lists for the benefit of the Tennessee martyrs, have been started in several, and will be, no doubt, in all the wards of the city.

THE Sixteenth Ward Band excursion which returned last week from Logan, was one of the most satisfactory and successful that ever visited that city.

WE are pleased to learn that Brother T. C. Griggs, who has been dangerously ill, has passed the crisis, and though still very weak, is believed to be convalescent. He was up and dressed this morning.

THE Seventh Quorum of Elders will meet in the 19th Ward Assembly Rooms, at 7:30 p. m., on Thursday the 11th, instead of Friday, the usual night of meeting. The Presidency of the Stake will be present.

The regular monthly meeting of the Third Quorum of Elders will take place to-morrow (Tuesday) evening, in the 3d Ward, at 7:30 o'clock, instead of this evening as heretofore announced. Thomas Gerrard, Prest.

THE members of the Tabernacle choir will please meet at the Tabernacle this (Monday) evening, at half-past seven o'clock, for special rehearsal. A full and prompt attendance is desired.

E. BEESLEY, Conductor.

LOCAL NEWS.

Peculiar Death.—Ernest S. Penrose, writing from Heber City on the 4th, refers to a curious death which occurred there the day before. A fourteen-year-old daughter of Brother Thos. Hickens complained on the 3d of a pain in her hip, which went up into her arm and which, within a few hours, resulted in her death. The disease was called muscular rheumatism and started no doubt from a cold.

Kills Himself.—The Butte (M. T.) *Miner* has the following:

"The report came yesterday that on September 1st, between Pocatallo and American Falls, Matt Keogh and a friend of his became involved in some trouble with a conductor on the Utah & Northern railroad and were put off the train. Some officers were put on their track and Matt and his companion resisted the officers. In the shooting Matt received a shot in the leg which broke the bone and rendered escape impossible. Matt finding himself about to be taken, put his pistol to his head and shot himself. Death was instantaneous. Matt was well known in the Coeur d'Alenes, having been during the winter night watchman and deputy sheriff in Eagle City."

"In The Ranks."—To-morrow night, this great military, spectacular drama is to be presented at the Salt Lake Theatre. Much has been said of it on both sides the Atlantic. The London *Echo* has this:

"When two authors combining the experience of Mr. Henry Pettit and G. R. Sims set to work to write a drama, the public naturally look for something a little beyond the ordinary style of production, since the former has a thorough knowledge of the stage business, while the latter has proved that he possesses the power to write with force, pathos, and also with humor. The expectation was not disappointed, for 'In the Ranks,' the five-act drama represented for the first time on Saturday evening, is decidedly a cleverly-constructed, ingenious and well-written piece, abounding in some trenchant dialogue and sparkling with epigram. 'In the Ranks' is decidedly a powerful drama—one which will have its run, and bring money to the treasury; and deservedly, for authors, actors and managers have gone to work in the most spiritised manner, roused no doubt by the competition now reigning in things dramatic."

LEGAL VOTERS.

The legal voters of the Fourth Salt Lake City precinct are hereby notified that I will be at my house, No. 658 E. corner Seventh East and Brigham Streets, during the hours from 12 m. to 1 p. m., and from 6 to 8 p. m., through the week commencing Monday, September 8th, for the purpose of revising the registry list, and registering all legal voters whose names do not appear on the list.

ROBERT MULHALL,
Deputy Registrar.

PERSONAL.

A party of Salt Lake cricketers started for Evanston yesterday.

Bishop Sheets has gone out to Hilliard to look after some sheep interests.

President A. O. Smoot came up from Provo last evening, and returned today.

Judge P. H. Emerson returned from the East Saturday night, with his family.

Judge J. Z. Stewart, of Logan, was a passenger to the city by last evening's train.

Mrs. Willard Young is visiting relatives in the city, prior to returning to Oregon. Her sister, Miss Cora Hooper, will accompany her home.

Sister Lucy W. Kimball, the faithful attendant at the bedside of "Ma" Smoot, during her final and protracted illness, has returned to the city from Provo.

Mrs. Richardson and daughter, Mrs. H. S. Beattie, Jr., returned Saturday evening from an extended visit in the East. They spent some time in all the principal cities of the States, and visited quite extensively among relatives. They returned by way of Denver and Colorado Springs, and are both in good health.

TERRITORIAL ITEMS.

CULLED FROM LATEST EXCHANGES.

—The Southern Utah Times has recommenced publication at Frisco.

—There will be a couple of days racing about the end of this month in Logan.

—A genuine old-fashioned camp-meeting begins on the 11th, at Pipestone Pass, Montana. It is to last four days.

—A 16-year-old lad named Hennikson living in Paradise, Cache County, blew his first finger off with a revolver a few days ago.

—Last Wednesday a couple of Logan girls named Lowe and Affleck fell off the horse they were both riding through the stumbling of the beast. Miss Affleck was severely, Miss Lowe only slightly injured.

—Bishop M. L. Gruwell, of Marsh Valley, is favorably progressing. He is fast gaining strength and looks forward to a speedy recovery from the effects of the distressing accident reported a short time since.

—A Poulsen, Esq., of Montana, has purchased in Logan three cars of dairy cows with calves. They were shipped over the Utah and Northern Railway on Saturday. The average price per cow, including calf, was $45.00.

—The Sixteenth Ward Brass Band of this city, discoursed sweet strains of music from the roof of the Logan Temple on Thursday afternoon. The wind which was blowing heavily during the time prevented its being distinctly heard at any distance, says the *Journal*.

—In Beaver last Tuesday afternoon Delia Cox, Wm. James, Jr., a little girl named Mary and a horse in the team behind which they were riding, were struck by lightning and knocked down senseless. They revived, however, in a few seconds, except the horse which lay as if dead for about five minutes.

—The Denver exposition management has adopted the following resolution: *Resolved*, That September 26th be set aside for a Cleveland and Hendricks celebration, and that the democracy of the State be invited to arrange for a great mass meeting within the exposition upon that occasion, and that, if desired, the exposition management will provide beef for a barbecue.

—Messrs. Lundberg & Garff, of Logan, are completing a kiln for drying lumber in the rear of their planing mill. The walls of the building are of concrete on rock foundations, dimensions 20 x 30 feet, and 12 feet to the square thereof. The ventilator shaft runs 32 feet over the top. The furnace is made of brick and sheet iron, and intended to consume wood shavings made by the planers, the drying heat being conveyed through conductors on a level with the floor. The capacity of the house is 30,000 feet at each drying. This will be a great acquisition to the business interests of a pushing firm.

THE best thing to keep the mind from dwelling on the gloom of the weather, is the presence of the man in the next yard, beating the soot out of the stove-pipes and preparing to warm up for the approach of winter.

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

AMERICAN.

LATEST BY LIGHTNING.

The Assassins of Tennessee.

NASHVILLE, Tennessee, 8.—The Anti-Mormon residents of Lewis County, have posted in conspicuous places, a notice warning all members of the Church of Latter-day Saints to go elsewhere on pain of death. The document, which is adorned with the picture of a coffin, is in these words: "Mormons, members of the Latter-day Saints are notified to leave the country, and thirty days are given for you all to go. An indignant and outraged people have said it, and go you shall. If you are found in this country after thirty days you will go like the others. Go peaceably if you will, but you must go." The Mormons are much alarmed, and it is believed some will leave within the time prescribed, while the rest will defy their enemies and prepare for any attack that may be made upon them. Anti-Mormon men keenly feel the loss of their leader who was killed in the recent attack and are smarting under public criticism and the offer of $1,000 for the apprehension of any of their number. They maintain that the Elders richly deserved their fate and that Mormonism will not be tolerated under any circumstances. Several Mormons have left since the Elders were slain.

Another Officer of the National Bank Kills Himself.

NEW BRUNSWICK, N. J., 8.—Mahlon Runyon, president of the National Bank, cut his throat in the water closet of the bank. He was implicated in the thievery of Cashier Hill. There is great excitement over the double suicide of the president and cashier of the National Bank of New Jersey, it has become intense. The statement furnished by bank officials in June of the current year showed a paid capital of $250,000, surplus $125,000, undivided profits $78,180. There has been nothing in the public history of the bank since that date to cause any uneasiness to stockholders. The suicide of President Runyon, while strengthening the testimony of giant frauds in the management, causes unbounded astonishment to the general public. President Runyon was a farmer, 60 years old, and leaves a wife and four children. He has been president of the bank for five years.

Greeting Governor Cleveland.

ELMIRA, N. Y., 8.—This is a gala day for Elmira. It is estimated that 50,000 people are on the fair grounds. Gen. Cleveland, accompanied by his Private Secretary and Adjutant General Farnsworth, arrived this morning. The demonstration at that hour, began with a salute of 21 guns by the Cleveland battery. The party were met at the depot by Lieut. Governor Hill, Mr. H. Argold and a number of prominent citizens.

A Political Prognosticator.

CHICAGO, 8.—United States Senator Jno. F. Miller, of California, arrived with his family last evening from an extended trip east. Senator Miller left here immediately after the close of the republican convention. Speaking of the present political outlook the Senator said: I have talked with a great many gentlemen interested in the coming election, that is men who are not hotheaded on the subject of politics, or ringladers in any particular faction. In regard to New York the republicans feel assured of success in their ticket in Indiana, I judge that there will be a hard fight, it hinges on Ohio in October.

"How about the Pacific slope?"

"We will carry California by 10,000 majority at least. Nevada and Oregon will surely go Republican."

Chinese Leprosy.

OTTAWA, Ont., 8.—Considerable alarm has been caused among the people of British Columbia, at the announcement of leprosy having been discovered among the Chinese population. While the Chinese dealers who are familiar with the disease, say that the cases reported are leprosy, an English speaking doctor who was ordered to examine the patients states they are not. It is stated, however, for certain reasons, the doctor in question is desirous of concealing the facts, he being interested in continuing their admission to the country, which discovery of leprosy among them would tend to check. There is little doubt, however, that the disease has been introduced into the province from China and that it is more prevalent than is supposed. The question now arises, to what extent will it be carried across the border into the United States by the hundreds of Chinamen who are smuggling themselves across the line into Washington Territory?

Stocks.

NEW YORK, 8.—Threes 100½; 4's 4½; 4's 120; Pacific 6's ——; Bar Silver 99¾; Central Pacific 40¾; Burlington 89½; Northern Pacific 21¾; preferred 41¾; Northwestern 98½; New York Central 107; Oregon Navigation 87; Oregon Transcontinental 15¾; Pacific Mail 40¾; Panama 98; St. Louis and San Francisco 22¾; Union Pacific 58¾; Texas Pacific 13; Adams Express 137; Western Union 84¾.

The Maine Election To-day.

PORTLAND, Me., 8.—The citizens of Maine will to-day elect a Governor, four members of Congress, 31 State Senators, 151 Representatives, and the full board of county officers. The gubernatorial vote of 1880 stood: Plaisted, (Fusion) 73,713; Davis, republican, 70,544, scattering 545; total 147,802. For president, it stood: Garfield 74,052, Hancock 69,211, Weaver 4,409, Neal Dow 92, scattering 139; total 149,903, showing a republican plurality of 8,841, against a minority of 169.

Reports received from various points in Maine indicate generally fair weather; a full vote is expected throughout the State.

How Hanlon was Beaten.

SAN FRANCISCO, 8.—The Australian steamer *Zealandia* brings particulars of the boat race between Hanlon, of Toronto, and Wm. Beach, of Sydney, rowed on the Paramatta river August 16th. The race for the championship of the world, stake £1,000. The weather was magnificent, but the water was slightly rough. A splendid start was effected and a dead level was maintained for the first quarter of a mile, Hanlon then forged ahead. When a mile and a half had been covered and the Canadian was a length in advance, Beach responded and rowed right down on Hanlon, the latter allowed his boat to cross and a foul took place. Hanlon put up his hand and claimed a "foul," Beach however kept pulling away and Hanlan followed, but Beach came to the post an easy winner by five or six lengths, time 20.29. The umpire disallowed the foul claimed by Hanlan. An immense crowd witnessed the race. Sixty-eight steamers were crowded with spectators, and the shores were also densely lined. Tremendous enthusiasm was manifested over Beach's victory. A cordial interview took place after the race between Hanlon and Beach, when the latter admitted he was beaten, but said he was paralyzed by the close proximity of the steamer *Tomki*, which bore down too close to his boat.

FOREIGN.

LATEST TRANS-ATLANTIC DISPATCHES.

Firing on a British Gunboat.

LONDON, 8.—The English gunboat *Zephyr* was fired upon yesterday from Kin-Pai forts. An officer and sailor were wounded. The *Zephyr* was mistaken for a French vessel of similar appearance. The British Admiral will demand an explanation.

FROM THE FOUR WINDS.

The reason that hens to not lay at night is because they are roosters.

"The gain on a flock of sheep may be called a weather profit," says one. "Good for ewe," says the other.

When would you expect a man to suffer from a stich in his side?—When he has been hemmed in by a crowd.

Printer's ink is an excellent moth preventative; so wrap up articles in newspapers when to be laid away.

Professor: Imagine my head to be the earth; when the sun is directly over my head its inhabitants know it is noon.

Brown says it is a wonder there is any truthfulness in the world when mankind begins life by lying in the cradle.

As a regiment, headed by its band, marched by, a little boy remarked, "I say, ma, what is the juse of all those soldiers who don't play?"

Remark of a little American girl on visiting an invalid friend: "Well, I'm sorry you're sick; but you needn't be cross because you are."

All the vessels in the British navy which carry divers are to be supplied with telephones, for the purpose of submarine communication.

It is a good thing for housewives to know that burnt coffee is one of the best disinfectants. Nothing is better for purifying musty refrigerators.

To relieve a bilious headache, dissolve and drink two teaspoonfuls of finely powdered charcoal in one half a tumbler of water: it will relieve in 15 minutes.

A correspondent writes: "Have you the recipe of a mixture to remove superfluous hair from the face?" A mixture of soap, hot water, and a razor has been found very effective.

A boy ken do wrong an' outlive it, but it ain't often dat way wid a man. De colt ken slip down an' jump up widout much injury, but when de old hoss falls he's ap'ter hurt hisse'f.

ADHESIVE.—A simple adhesive for rubber belts is made by sticking powdered chalk, which has been evenly sprinkled over, to the surface of the belt by cold tallow or boiled linseed oil.

Kaiser William, King George of Greece, and King Christian of Denmark will meet this summer in Wiesbaden. Opposition summer resorts will have to hold a pretty good hand to beat three kings.

At a recent dance in Illinois only two men were shot dead. This marked improvement has so encouraged the citizens of the town that weekly dances will take place during the coming winter's social season.

All the starch in potatoes is found very near the surface; the heart contains but little nutriment. Ignorance of this fact may form a plausible excuse for those who cut off thick parings, but none to those who know better.

TO WASH FLANNEL.—Never rub soap upon it. Make a suds by dissolving the soap in warm water; rinse in warm water. Very cold or hot water will shrink flannel. Shake it out several minutes before hanging it to dry. Blankets can be washed in the same way.

"This art craze is going too far," said Broughne, when a pot of paint fell from a second story window and struck him on the head. "No more decorated tiles for mee!" he mournfully added, as he began to scrape the yellow paint off his silk hat with a jack-knife.

"Mamma," said a little boy, "I wish I lived in South Africa." "Why, my son?" "Because the mammas down there don't wear slippers, you know." "Yes, my son, but you must also remember that the little boys don't wear any pants, either." "That's so," said the boy, "it's queer I never thought anything about that."

The little narrow-gauge railroad plant packed up ready for shipment to Egypt, is a marvel of the accomplishments of science. The engines are fifteen horse power and can draw about 40 tons. The rails are 21 feet lengths and weigh about 28 pounds to the yard. They will be laid to form a line only 18 inches wide. It is calculated that the line can be completed three weeks after landing.

The first discovery of prehistoric mines has recently been made in France. The mines are flint ones, and are situated in miocene strata near Mur-de-Barrez. Several picks of stag's antlers with other human relics have been discovered on the ancient floor of the excavation. Here and there the marks of the picks of neolithic man are still visible on the walls of the workings.

A committee was appointed by the British Association for the advancement of Science several years ago for the purpose of ascertaining whether meteoric dust could be found on the earth. Snebbert, in the form of spherical particles of iron, has since been obtained from the snow of the Himalayas, at a height of 12,400 feet, and a distance of fourteen miles from any human habitation.

BOIL FELON.—The London *Lancet* suggests the following simple treatment: As soon as the disease is felt, put directly over the spot a blister about the size of your thumb nail, and let it remain for six hours, at the expiration of which time, directly under the surface of the blister, may be seen the felon, which can instantly be taken out with the point of a needle or a lancet.

In the treatment of eczema of the scalp in infants Dr. Lassar employs the following formula: Salicylic acid one part, tincture of benzoin two parts, and vaseline fifty parts. A certain quantity of this is smeared over the scalp two or three times a day, after the infant's head has been washed with soap and water. To soften the scabs and to facilitate the cleaning of the scalp Dr. Lassar recommends the employment of oil containing two per cent of salicylic acid.

A "Sure" Cure for Rheumatism.—It is now stated that the water of boiled celery is a sure cure for rheumatism. The celery should be cut into bits, boiled in water until soft, and the water drank by the patient. Put new milk with a little flour and nutmeg into a saucepan with the boiling celery; serve it warm, with pieces of toast; eat it with potatoes, and the painful ailment will soon yield.
