JAPANESE ADVICES.

Some Events in Corea Previous to the Declaration of War.

GUNPOWDER MILLS KEPT BUSY.

Russia Seizes an Island—The Queen of Corea Asks for Russian Protection—Japanese Finances.

SAN FRANCISCO, Aug. 10.—The Pacific Mail steamer City of Peking arrived early this morning, fifteen days from Yokohama, bringing advices up to July 24. The Japanese papers give a large number of conflicting dispatches from Corea, but there is little news which has not been anticipated by the cable.

Most of the information is from Japanese correspondents, who send improvable stories.

Japanese papers publish a telegram from Seoul, dated July 21, stating that the Japanese minister urged the Corean government to drive the Chinese soldiers from Asan by force if it really wished to demonstrate that it was an independent state. If China does not drive the Chinese from its borders then it has deceived Japan in declaring itself an independent state. The Japanese minister pressed the peninsular government to abrogate the existing treaties between Corea and China. The following three proposals were made by the Japanese minister to the Corean government: Not to accept the advice of China; to abandon the dispatch of an embassador to China secretly; and to drive the Chinese soldiers from Asan.

Subsequently, under date of July 22, the Japanese minister in Seoul sent the following telegram to his government: The Corean government has refused to accede the proposals of the Japanese government and as it does not appear likely that it will reconsider the matter it is unavoidably necessary to make fresh resolutions and thorough preparations should now be taken.

Thus the Corean government required the Japanese minister to withdraw the Japanese from the country and also the proposals made by the Japanese government to the Corean government, on the ground that if China accepts Japan's proposals, other powers will dispatch forces in the kingdom and make similar demands, thereby embarrassing and forcing the Corean government to do their bidding. Corea will make the various international remonstrances only after the departure of the Japanese troops from Corea. Corea is undoubtedly instigated by China in this course.

The Japan Gazette of July 24th gives the following debate of the skirmish near the royal palace at Seoul:

Yesterday morning there was a skirmish between Japan and Corean troops outside the royal palace at 9 a.m. and the Corean troops offering resistance, there was a fight for twenty minutes after which the Coreans were driven and fifty of their arms fell into the Japanese troops' hands.

Another account says:

To Mr. Otori's second demand the Corean government returned an insolent reply and the castle showed signs of great disturbance. The minister placed himself under escort of Japanese troops and was going to the royal palace when the Corean troops fired at him. The Japanese troops responded and the fight was over in twenty minutes and the minister went into the palace.

He had an audience with the king who thanked the minister in connection with his demands and assured him that he had no intention of rejecting them.

A Portuguese stopping at Kobe has been found to be a spy for the Chinese government and also negotiating for the purchase of coal.

From Shanghai papers it is learned that the Kiang Nan gunpowder mills are at work night and day making powder. It is stated that they are turning out over 1,000 pounds of the explosive daily and the government is urging them to make as much as possible.

Orders sent to Japan for coal cannot be executed, while the Chinese government has requisitioned the whole supply from the Kelung mines.

A Vladivostok telegram announces that preparations are being made for the dispatch to Corea of three regiments of infantry and a corps of engineers and seven warships from Vladivostok, but it is not known whether they are for the protection of the Russians in Corea.

The Kobunsha correspondent comes to the renewing conclusion on the feelings of Coreans:

The majority of Coreans are satisfied at being dependent on China. The Coreans believe that Japan and Corea cannot act in concert, and deny that Japan is friendly to Corea.

A Seoul telegram announces that the Russian flag is to be seen on the island of Ariadnha. It is surmised that Russia has seized it.

The queen of Corea, in concert with her relations, the Rin family, has appealed to the Russian minister for Russian protection in case of emergency and the minister has consented.

The Kobunsha gives an elaborate argument to show that now is the best time for Japan to begin hostilities with China. The surplus revenue in the hoarding of the treasury amounts to almost nine million yen, to which must be added another sum of five million yen existing in the twenty-seventh fiscal year from the surplus from various expenditures. As Corea is not any longer a country for the local disturbances of these sorts, they may be only a [illegible] and if we finish the two together in expelling fourteen million yen, all of which the government can employ by using a word of command. This, however, would be sufficient to defray the army expenses for a short time only, so when the warrantably begins, some measure must be instituted by which the necessary money is raised.

According to the Kobunsha the plan is to increase the moneyraising power of the bank of Japan which, it says, may be increased from eighty-five to one hundred and twenty million yen, without in the least affecting the national currency. With regard to the settlement of financial matters incidental to the war, says the Kobunsha candidly, it will be time enough to talk about that when Japan dictates terms of peace to her enemy.

Quarrel and Fatal Shooting.

FRESNO, Cal., Aug. 9.—At Dunns, just across the Tulare county line, this morning, two ranchers named Bar and Norton quarreled over money matters. The quarrel ended in both men pulling revolvers and opening fire at each other. Their fire was deadly, and both men fell to the ground. Bar was killed instantly and Norton died in a few minutes.

Peace Rumoring.

DENVER, Aug. 9.—General McCook has withdrawn his troops from the line of the Southern Pacific in Arizona.

TROLLEY CAR COLLISION.

Twenty-five Persons Injured, Some Seriously.

HAZELTON, Pa., Aug. 9.—Twenty-five people were injured, some seriously, in a collision between two trolley cars on the electric road near Oakdale today.

When the collision occurred the cars were going at a high rate of speed in opposite directions. The passengers in the car bound for this city, which was an open one, saw the approaching danger and jumped for their lives, falling among the rocks.

The cars came together with a terrific crash, throwing those who remained in them to the floor and splintering the front of the cars into kindling. Not a single passenger escaped injury.

Prohibitionist Candidates.

BALTIMORE, Md., Aug. 9.—The state Prohibition convention at Glyndon Park has nominated candidates as follows: For Congress, Second district, J. H. Parker, Baltimore; Fifth district, Colonel J. C. Lee of Prince George county for the short term, and W. H. Sis of Anacostia for the long term; Sixth district, Albert O. Shoemaker, Montgomery county.

The platform insists upon the absolute prohibition of the liquor traffic in the state and nation, and asserts that the tariff, from its very nature, is a subject for settlement by way of compromise by the Congress of the United States. It advocates gold, silver and paper as a circulating medium.

THE CHINESE.

An Italian Sentenced for Robbery and Charged With Murder.

MANCELLES, Aug. 9.—An Italian named Patonel was sentenced to three years' imprisonment for having robbed Baron Arthur de Rothschild at the Toulon Railroad station. The purse contained 14,000 francs.

The prisoner will be charged about New with having murdered Count Alkanor near Monte Carlo, late in December last. Alkanor was an Englishman. He was killed and buried and his body was thrown under a bridge.

VIOLENCE AT OMAHA.

Working Men Assaulted—The Strikers Want to Shut Down.

OMAHA, Aug. 9.—Two hundred more deputy sheriffs were added to the number of guards at the packing houses at 6 o'clock. They were armed with heavy spokes, no firearms being allowed.

The strikers refused to withdraw their picket line at the approach of the officers, and while avoiding a collision, paid little attention to the deputies.

While the situation is quite strain ed, it appears on the surface to be more quiet than last night.

The sentiment of the packers is almost in the determination to shut down entirely for an indefinite period, and as Manager Foster of Swift's put it, if the county and state cannot give us protection and do not care to protect the great industries of South Omaha, we can shut it they can, and as we were losing money before the strike, we are not going to fight the strikers and lose more money, consequently the best thing we can do is to shut down entirely. The packers contend that they cannot get a warrant served on any man after complaints have been made.

Tonight, as a workman was passing from the packing house, two or three men took after him. He started to run, and in a few seconds 1,000 men were after him, shouting "scab" and other vile epithets. The man was knocked down and kicked. He made no effort to defend himself, except to get away. After he was beaten and chased for two blocks the police got between the mob and the man and stopped the assault. Captain Cunnell held a revolver in each hand and swore to would shoot the first man who continued the fight. The police then escorted the man home. Later he said he would go to work in the morning, and it meant death to the man who attempted to assault him while attending to his own business.

A fireman and engineer at Cudahy's who worked at night, were assaulted on their way from work. A particularly exasperating feature of the disturbance is that laborers, and others who have no connection with the packing houses, are mistaken for packing house men and made to suffer from violence.

Riot at Milwaukee.

MILWAUKEE, Wis., Aug. 9.—A riot occurred tonight at the intersection of Forest House and Eighth avenues and Mitchell street. The police attempted to prevent a mass meeting called to protest against the action of the health authorities. About thirty men were injured.

Probably 4,000 residents, principally of the Eleventh ward, attempted to hold another mass meeting in violation of the proclamation issued yesterday by Mayor Koch, in which he forbade the holding of public gatherings on the south side. The people had been defiant by inflammatory speeches at the mass meeting on Wednesday night, and when the usual squad of police that has been assembly in the vicinity tried to quietly disperse the crowd they met with resistance on the sidewalks, they resisted.

Later squads of from thirty to forty people came from all directions and gathered in the triangle. The small squad was overtaken with reinforcements when assaulted. Worst about 100 policemen in charge of Chief of Police Jansen had arrived, he ordered were charged. Upon command of Chief Jansen the police drew their clubs and drove the mob in all directions. Those in the crowd who had no intention of leaving the scene of disturbance after morning up side streets for half a block, returned armed with stones and threw them at the officers. The mob was finally dispersed.

TRAIN SMASHED TO ATOMS.

The Whole Crew and Ten or Twelve Passengers Killed.

The First Accident Due to Train-Wreckers—Pitiful Scenes in the Burning Ruins.

LINCOLN, Neb., Aug. 9.—Train No. 8 on the Rock Island, consisting of an engine, combination baggage and express car and one passenger coach, ran over a fifty-foot trestle at 6:47 p. m. Union Pacific and Burlington & Missouri tracks about five miles south of city at 10 o'clock tonight and are crowded to atoms.

All of the members of the crew were killed, and ten or twelve of the passengers are supposed to be buried beneath the mass of growing coals and twisted iron, which is all that is left of the train and trestle.

H. C. Foote, of Council Bluffs, the trainman, was the only one of the crew who escaped. His story and that of the others who survived indicate that the wreck was due to the work of train-wreckers, and Walter Seibell, who lives near the crossing and was the first one on the scene, states that a fish plate and the bar with which it had been wrenched from were found near the trestle after the wreck occurred.

The train was due in Lincoln at 10:10, and was pounding along at a lively gait when the trestle was reached. There were about fifteen in the sleeper, all of whom were got out with more or less injury. In the smoker there were ten or fifteen, and it is not thought a single one escaped.

When the engine struck the broken rail she jumped the track, and, bounding along over the ties for a hundred feet, rolled to one side and plunged down on the Union Pacific track below, followed by the other three cars.

The trestle where the wreck occurred is about two miles south of the penitentiary or five miles from the city. It was about 300 feet long and sixty feet high, and carried the Rock Island track over both the Burlington & Missouri and the Union Pacific. The Burlington & Missouri track is still open, but the Rock Island and Union Pacific are blockaded with a tangle of iron and broken machinery.

Among those said to have been in the doomed smoker are five traveling men, but it will be some time before a list of the dead can be procured, for all that will be left in the morning will be a heap of ruins.

Pauline Rose Laid to Rest.

CHICAGO, Aug. 9.—Funeral services over the body of Mrs. John W. Dunne, or, as she was known to the public as Jorge, Pauline Rose, were held at the church of the Ascension this afternoon. The church was crowded and after the ceremony a large number of carriages followed the coach to Rose Hill cemetery, where the remains were placed in a vault.

The Cholera Epidemic.

AMSTERDAM, Aug. 9.—There were five new cases of cholera reported in Hilvelly today. There were also the death at Maasbreicant. There were three new cases at Barneveldhorn and one death.

PALPITATION OF THE HEART.

Shortness of Breath, Swelling of Legs and Feet.

"For about four years I was troubled with palpitation of the heart, shortness of breath and swelling of the legs and feet. At times I would faint. I was treated by the best physicians in Savannah, Ga., with no relief. I then tried various things, without benefit. Finally I tried

Dr. Miles' Heart Cure

also his Nerve and Liver Pills. After having used the first bottle I felt decided relief from the Heart Cure, and I am now in better health than for many years. Since my recovery I have gained fifty pounds in weight. I hope this testimonial may be of value to some poor sufferer."

E. B. SUTTON, Ways Station, Ga.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists have it or can get it for you. If not, it will be sent, postpaid, by the agent of Dr. Miles' Medical Co., Fulton, Ind.

Sold by all druggists.

Highest Award

FOR

Supreme Excellence,

TO THE

PUTNAM

HOT FORGED AND HAMMER FINISHED HORSE

NAILS.

At the World's Columbian Exposition at Chicago. A medal and diploma awarded: "Supreme excellence in material, method in manufacture, and quality of finished product; security and smoothness combined with holding power in clinch, it allows the use of very small nails."

There is nothing varied or curious exhibited, but it does anything more which is to make "this method of manufacture," and "quality of finished product," a success. Some of their "Patent Nails" are slightly in the expansion and contraction of the wood and some are made in the form of a wedge, and others are made in the form of a hook, while their "Patent Horse Nails" in "Trefoil point" is a novelty, and is said to hold the wire in the hammer service long with ease.

By the use of their nails, wire holes are filled and hence need to be stuck.

There is no wire nail that equals the Putnam in quality, appearance, design or what produces a result for a good horse and that may be "Putnam Nailed on their side."

PUTNAM NAIL CO.,

Kingsbury, Boston, Mass.

For Sale by C. M. L. and Branch Houses.

A RARE OPPORTUNITY!
