## SPANISH FORK.

Special Correspondence.

Spanish Fork, Utah, Feb. 11, 1899.—The people of this city feel somewhat cold part of this week, but on Tuesday evening they seemed to enjoy it.

A few days ago Four correspondent at Provo stated that Mr. H. J. Mortensen had left for his native land, and was looking for his native land, Denmark. Mr. Mortensen was here today, the report was premature he contends he is domiciled as of old.

The farmers here say that the late snow has done much good.

## MANTI.

Next Thursday, the 16th, there will be a Scandinavian picnic party at the Assembly hall. Invitations will be issued.

Fanny Brown has resigned her position as postmistress of Freedom, and Mrs. Cornelia Taylor has been appointed in her place.

The second crop of ice has fell to average a few inches thicker than the first. The men who were too slow to fill their ice houses on the first layer are not so much out of luck after all.

The boys did a splendid job Wednesday night in cleaning the snow off the sidewalks all over the city. They should be well paid for their work, and should receive the thanks of the citizens besides.

Cornelius Beesley reported on tunnel work. The work goes on slowly but favorably; the ground in the end of the tunnel becomes quite soft and damp, indicating that water is near at hand. The tunnel is now 30 feet.

The concert given in the Assembly hall on Thursday evening by the members of the South Ward Sunday school, was a great success in every way. The hall was filled to overflowing and the vast audience was well pleased with the entertainment.

A member of the State board of education is sure to be appointed to fill the vacancy caused by the resignation of Dr. J. F. Millspaugh. Petitions are being circulated throughout the county asking the appointment of Mr. Nelson, County Superintendent A. C. Nelson.

The Republican party of this county will assemble in convention at Manti next Wednesday for the purpose of placing the party in Sanpete on fighting trim for the coming fray. The convention for the position on the State ticket seems to lie between Judge Hiles and Senator Kinney, the former being a favorite of the west of Thos. Rees of Wales.

The coldest weather known to Manti for some years was on last Monday morning. The thermometer ranged from 19 to 32 degrees below zero. The most accurate instrument in the spirit thermometer at the Deseret Telegraph company's office. This thermometer registered 24 degrees below zero. It was certainly a bitter cold morning.—Sanpete Democrat.

## DRAPER.

Special Correspondence.

Draper, Feb. 10.—The young ladies, after a very successful dance, Mrs. Hawkins, Thea Roberg and Ethel Eccles, gave a grand character ball in honor of a sports book. The costumes were well gotten up and all present enjoyed a very pleasant evening. Some of the leading characters were Sunshine and Liberty, by Mr. and Mrs. Rawlins, The Farmer, John H. Roberg, Dandy Jackson was well represented by Miss Thea Roberg, and Miss Mary Roberg made a good hit in the "Old Maid." Miss Lizzie Hawkins, "The Miss Ada." Miss Nora Christensen, as Topsy, was excellent. Miss Effie Smith, Jane Green, and Amy Fitzgerald represented Prue, Meenie, Carl Christensen and C. W. Brown appeared as Princes, black and red. Miss Nora Michelsen, Miss Lottie Smith as Flower Girls; clowns and many other curious costumes were noticeable.

## MOUNT PLEASANT.

The cold at Chester this week was so severe as to freeze the water in a well 18 feet below the surface.

Rabbit hunters were numerous Wednesday. But the depth of snow prevented the hunters from venturing out, and but little success resulted to the boys.

After seven years of successful teaching, Mrs. Mary J. Perkins retires from the school room. Mrs. Perkins and Miss Porter enjoyed the reputation of being one of the best primary teachers in the county.

The L. D. S. choir of this city is devoting considerable time at present to the production of a cantata, to be given with the aid of giving a public concert in the early spring. Appropriate choruses have been prepared for the cantata, besides which there will be solos, duets, quartets, both in instrumental and vocal, all rendered by members of the choir. This organization is brimming with talent, genius, and should be able to give an excellent concert by spring.

A brilliant electrical display in the heavens was witnessed by residents of this city late Tuesday evening. It is reported by those who claim to have had a good view to have been a meteor, others, however, contending that an unusual 'y bright flash of lightning was all that was observed. The occurrence consisted of a very bright, peculiarly-tinted light which flashed across the entire heavens, displaying great brilliancy for several seconds, and then gradually fading away. Individuals on the street at the time claim to have seen the distinct flight of a meteor from the point in the heavens eastward until the light was extinct. Following shortly after the flash was a sudden clap and a queer rumbling noise, resembling the tremor and roar of an earthquake. It was very probable that the phenomenon was caused by a falling meteor, which reached the earth at some point to the eastward.—Pyramid.

## EUREKA.

Special Correspondence.

Eureka, Utah, Feb. 12, 1899.—Checks from the Centennial Eureka and Hooks Hill Mining companies were presented at pay office on Saturday, consequently most of the boys went another nine yesterday. The same smile would look longer and far more pleasing if the boys would shut the habit of blowing it in, as so many of them do. Weather is much milder than it was, still comes the "beautiful." The farmers below ought to feel grateful to that Man of Power, Mr. Roberts, who has Hero storing it for them in great shape.

We notice the Rev. Latham of the Methodist church has taken unto himself a wife while on his eastern trip, and has been showing her lady around town and making her acquainted with his people. Good wishes and much success, friend Latham.

Quite a sentiment is growing among the "Mormons" here to have their meeting house moved to a more centrally located place in the town. The idea continues and will grow eastward, and the largest portion of the members of this Church reside in the upper part of the town. The present site was no doubt suitable at the time of its erection, but it is almost unapproachable now, and the attendant difficulty in holding this stage is a positive danger during winter, and a big element to all people and women in particular. It would certainly be to the advantage of everybody concerned to have the meeting house up-town, but it will require a united effort on the part of all the people. And it is hoped on Bishop Lessenberg's return, which will be soon, he will be able to arouse the needed enthusiasm and get the work going. Eureka would be a big help and a decided start in this end came if some public-spirited citizen would donate a piece of a building site.

The members of the ward choir separately and the whole ward generally regret the meeting to fallen of our sole choir master, John Hood. During the short time he has been here he has made a marked improvement in time, rhythm and volume, and work accordingly. The good wishes were always sure of a musical treat Sunday nights at the Mormon church. The best wishes of the people go with genial "Jack" and his family.

## MORGAN.

At the last session of the commissioner's court and city council, the good was appointed committee and county and city officers were appointed. Nothing of importance transpired. The meeting to fallen of our sole choir master, John Hood. During the short time he has been here he has made a marked improvement in time, rhythm and volume, and work accordingly. The good wishes always sure of a musical treat Sunday nights at the Mormon church. The best wishes of the people go with genial "Jack" and his family.

## COYOTO.

There was a family reunion of Robert Calbert King's family on the first of January. It was his 83d birthday and there were present 61 of his children, grandchildren, and great-grandchildren. After a full table, at which nearly responded with a short sentiment, there was a well rendered program of speeches, song and recitations.

After the Bishop King was unexpectedly possessed with many presents of the most notable of which, from the Prince Albert suit of clothes given to him by his children, it was presented, by Eli Sam Willden in a brief well written address full of good letter-day sentiment that brought to Mr. King his heart, but all proved, his heart overflowed in tears, not of sorrow, but of gladness, for smiles soon chased them away.

The Bishop's heart was so full he could scarcely speak, but his feelings and sentiments expressed by the giver of Rose here tokens.

There were one of the finest repasts of the season, roast turkey, stuffed chicken and sweet meats in every variety of the season. Nothing prized with quantity and quality, to which the happy throng did ample justice.

There were many valuable present besides the Bishop's family.

To wind up with the old folks were given a big pan full of molasses candy, almost present and a rehash of the good old time of yore was participated to to hearty content till the wee small hours came peeping in.—Pangnitch Progress.

## DIAMONDVILLE, WYO.

Special Correspondence.

Diamondville, Feb. 10.—It is still uncertain when the coal mine here will resume operations. The fire is still burning, but the company has so large a force of men on they can handle so close cold none while trying to get at the fire. The fire is now thought to have been set by an incendiary.

The fire is said to have originated in the fifth room of the mine, and it is not merely reached the third room. They have a two and a half inch hose connected with a large pump, and one on top and will of course use it to extinguish the fire when they get to it. It is very probable when the fire is out we will be ready to hear coal again as soon known what they will yet have to do some work. One of the men who was employed trying to extinguish the fire said today that if the mine resumed operations in a day or six it would be well do well.

The town of Kemmerer, one mile west of Diamondville, was incorporated by a vote of her citizens of three to one in favor of incorporation. The citizens of Kemmerer may well be proud of her progress and prospects. Her wonderful resources are beginning to be appreciated. Eighteen months have placed her in a position that may well be envied by her elder sister, Diamondville. Eighteen months ago there was no sign of anything but sagebrush, now there is a fine sawmill, a large mercantile office, a splendid depot, three tracks in the yards and a splendid waterworks system. It is now an incorporated town and will elect city officers on the 20th of February.—Pyramid.

## INDIAN VALLEY, IDAHO.

Special Correspondence.

Indian Valley, Washington Co., Feb. 10.—A few of our people are located in this out-of-the-way nook, but we have as yet no ward organization, but hope soon to have one. Our Sunday school is in a good working order. We have however, which is doing well.

We have facilities here for the making of a pleasant home, an elegant display of water, and land to be had cheap, more improved Farms can be had for renting to rent from $200 to $2.00. The best grain and gardens can be grown with the aid of water.
