THE COUNTY COURT.

Appointment of a Standing Committee on Manufactures Today.

CONCERNING A WAGON ROAD.

A New J. P. Wanted For Herriman Precinct.—Petitions, Including One From Draper.

The members of the county court were all in their places at the usual weekly session this morning, with Probate Judge Blair in the chair. Up to the noon adjournment a good deal of business was run through.

FROM THE HOUSE.

A petition, very numerously signed, was received from the Territorial Legislature, the same having been presented in the House by Wines, referred to the ways and means committee and by that body sent here. It was from residents and taxpayers of Alpine and adjoining precincts in Utah and Salt Lake counties, in which it was stated that for a number of years the petitioners had endeavored to build a wagon road over the mountains between Alpine City, Utah county, and Draper, Salt Lake county, in order to lessen the distance between themselves and the "home market," of primary importance to them, but the surveyors at the time gave the distance would be increased about one-third, or from forty to sixty miles for the round trip, and all persons traveling between Salt Lake City and all points in Utah county, except Lehi and the western part of the county, would be materially benefited thereby. Petitioners had expended over $1,000 in labor, and the county court of Utah county had appropriated $300 on said road and adopted it as a county road so far as the county line, with the understanding that the county court of Salt Lake county would do the same on the other side, which that body had, however, failed to do. According to computed and computed ranges it would require but a little more than half as much money to make the road in Salt Lake county as good as that in Utah county and also for travel. This was the petition the new petitioners asked the court to appropriate for the purpose.

The communication was referred to a committee consisting of Messrs. Jennings, Gibson and McCrea.

THE DOCTOR'S STATEMENT.

County Physician Worthington reports that there are at this date the following county patients in the hospital: males—48, March 9, 11 ditto, 4.

COMMITTEE ON MANUFACTURES.

An accompanying letter with copy of resolutions passed at a meeting of the manufacturers' union, held on the 5th inst., was read by Secretary C. R. Wentland. These resolutions urge the City Council, mayor board and county court, among other things, to take such steps as will secure the use of all material possible to be had in Utah on all public works about to be undertaken, in order that money may be protected and our money kept at home. This court was asked, with the two other bodies named, to appoint a "standing committee on manufactures."

On motion Judge Blair and Solicitor Hemingway were appointed a standing committee. In complying with the request, and it was further resolved "that the sheriff be directed to notify the county court, at its first meeting in April, with the same and place of business of all persons, firms and corporations doing business in the county as merchants and also as liquor dealers."

TREASURER'S LICENSE.

W. F. Lyon, county treasurer, reports that there are sufficient bonds on hand to pay all registered county warrants up to register No. 1,074.

LIQUOR LICENSES.

The applications of Jake Newman (Lehi), Jackman company, M. A. Wiles & Co. (Bingham), and O. S. Owen (Murray), for liquor licenses, were granted.

WANT A NEW ROAD.

Residents of Draper precinct petitioned the court to open a county road from Draper running north and one mile east of the schoolhouse to Sandy, the same, they say, being a necessity to the traveling public. The right of way for a new street, petitioners state, has been secured from property owners along the proposed route, and they estimate the probable cost at about $100 or $200. One half this they guarantee to pay in labor, persons from county court would pay the remainder.

Referred to the selectmen.

J. F. FOR HERRIMAN.

J. J. Freeman tendered his resignation as justice of the peace for Herriman precinct, and a petition from the citizens thereof asking the court to appoint Samuel Butterfield as his successor was presented. H. H. Rodell as constable—was ordered filed.

THIS WAS FILED ALSO.

A petition from "residents, taxpayers and business men," asking the appointment of M. M. Hewett as road supervisor of district 19, Bingham, was also filed.

A NEW BRIDGE.

The board resolved that a new bridge be built over the Fifth Ward canal, on State street, between Nineteenth and Twentieth South.

REFERRED.

A communication from the Pacific Improvement, regarding the condition of Seventh South street, was received by the selectmen.

MORE SUBSCRIPTIONS.

Three more tax bills sent in for the board's printing for one year—the one from Kelly & Co. and the other from the Salt Lake Lithographing Co. The former, being the lowest, was accepted.

COUNTY COLLECTOR.

The county collector filed his annual statement this afternoon, for low, and, after publication in the News today.

BADGER CORPORATION.

As the News goes to press the Board is considering the question of the appointment of a road supervisor for Cottonwood precinct. Messrs. Hall and Stout are the candidates.

Thinks He Will Sign It.

One of the city councilors was responsible for the statement today that Mayor Baskin would sign the appropriation bill passed at the last meeting of the city fathers, and which the two boards failed to hang. He said the Mayor was anxious to do as little work as possible and that it was his intention to get along with the council on all questions if possible.

Mrs. McEwan Improving.

The welcome tidings came from the bedside of Mrs. Henry T. McEwan this afternoon that she was much better and that the prospects were now that she would recover.

The Monument Thief.

No information has yet been obtained concerning the whereabouts or identity of the miscreant who stole the monument from Wahsia Bros. marble yards as stated in the News on Saturday last. The monument was to the form of two lambs specially lovely for a baby in this city by a Boston artist in the employ of the firm, and was to have surmounted a resting place over the grave of a pair of twins. It is thought that the theft was the work of Union members who paided their wares about the city and country.

HOW HE EXCUSES HIS SON.

John Fielding, of Chicago, Talks of his Boy's Imbecility Here.

J. R. Fielding, formerly of this city, says the Chicago Tribune, was yesterday arrested at Omaha on a telegram from Salt Lake City charging him with embezzlement. Fielding is an attorney and for many years practised in this city, and a few years ago was justice of the peace in Fourteenth Ward. He is the son of John Fielding, a wealthy wholesale boot manufacturer. A few years ago he married the daughter of Merrill Rider, a wealthy St. Louis citizen.

Shortly after his marriage Fielding took up the practice of law in St. Paul. A short time after he became reported from his wife and began drinking heavily. About six weeks ago he appeared in Salt Lake and by some method succeeded in getting $500 worth rolling stock and then left for parts unknown. Telegrams were sent to various waystations and resulted in his arrest in Omaha yesterday.

"I suppose temporary mental trouble has affected my son's mind," said John Fielding, "for nothing else but temporary insanity could make him do anything wrong."

Another View of the Case.

In another column is a communication from Park City in which reference is made in an effort to clear the Utah Central track. The Park City Record contains the following account of the incident:

Yesterday morning some nineteen men left Park City to shovel snow on the Utah Central railroad near the summit, and about 3 o'clock in the afternoon completed the work. They were informed by Mr. Mesnildrin that their services would no longer be required, and on being asked by the men if they would be taken home, said he guessed they would have to walk, as the company had not agreed to carry them back to town, and if they wished to walk it was some distance from Salt Lake they could ride. As the men had nothing to eat all day, and as there was little prospect of getting anything at the summit, and as there was no coal at the station from which to make a fire, the boys determined to walk back to town. Arthur Causey and a friend were the last in town, and had not progressed very far until they were overtaken by last night's storm, which was a letter up there in the mountains. They struggled along for hours, finally making the stone quarry near Silverdale, when they were taken in, fed and given shelter for the night. They saw not heard nothing of the other seventeen men, and as this writing it is not known what became of them, but it is supposed they are safely housed at some ranch. It looks like a mad foolish piece of work on the part of the company to take men out into the mountains, work them all day without anything to eat and then turn them loose to get home the best way they could.

Rising Notes.

Park Record: Gustye Salfert has decided to go ahead with his plant to work the ore in the rock below the Union Concentrator, and now has a force at work putting in a platform and tables where he will concentrate. He expects to commence work on the mill just as soon as the weather will permit after he completes the concentrating plant.

Bingham Bulletin: The old 20-stamp mill, which has so long been standing in the mill dead just below Mr. Bertolette's residence, has been sold to the owner, Mr. Martin, to a mining company in Idaho, and is being moved to that place. H. H. Cross, a former resident of this place, but now of Salt Lake, was in the camp yesterday looking after the removal of the plant.

Park Record: It is a tough job for some Knight, of the Quincy (formerly Ontario) mine, to be an honest man, and the wonder is that he is able to prosecute work without assistance in his mine. The smelting ground of the Ontario and Ontario Extension is visible from the mine, and an employment manager is the river of the employes. In one sense of manager, the last long, it is not the work of twelve men to keep things in shape by separating crushed stones, and loads often falling less than twenty-fold ounces, it is enough to make a president grey hairs to the best of a very sorry mine.

Shot at the Footballs.

A couple of footballs scooped last night to hold up a young man whose name is given as Charles W. Allen, at the corner of Fifth South and State streets. It is claimed that one of the footballs presented one revolver and that the other drew two similar weapons, but that they both back to their beats when their would-be victim swung right by displaying his own weapon in earnest.

Licensed to Marry.

The county clerk this day issued marriage licenses to Daniel Hellman, 35, and Mrs. Emma Horner, 35, both of this city, to Per Gustave Johnson, 21, of Murray, and Carrie Larson, 18, of Big Cottonwood.

(Continued from page 1.)

THE LEGISLATURE.

appropriations or revenue. All bills relating to silver and were mentioned by the majority to the executive of the territory.

Allen admitted that the Republicans were responsible for every measure that had been passed. The Territory was not up upon dollars. Tom Hardy, now not a free man, in all the sixty the success of school laws were merely legal.

Irvine's motion was put and lost by a vote of 16 to 14. The bill then passed by a vote of 15 to 15.

H. R. 105, memorializing the Behring Sea Commission in the interest of sealing industry, was passed.

Warner had the floor and extensive concluding statement in favor were adverse to leaving the University, and spoke in favor of the bill.

Allen opposed the movement proposed by the bill as being inopportune.

Hamilton replied to Allen and urged the passage of the bill.

Hayes thought the bill was a job to endow the mining military academy privately on the Territory.

The bill was lost by a vote of 15 to 15.

The Governor announced that he had signed the enrolled bill, authorizing the appointment of a commission to apportion the Territory into county districts, etc., on the ground that the bill makes those officers, instead of authorizing the Governor to name them. Vote was moved to reconsider the bill so as to allow the Governor to nominate the court commissioners. Carried.

Word came from the House, concurrence reported H. R. 105, the enrolled bill, recommending commissioners to the commissioners appointed by the Governor. They were signed and the House passed by a vote of 18 to 1, Vanian voting in the negative.

C. R. 128, relating to revenue, came up, with Governor's amendments. These were concurred in and the bill passed.

C. R. 139, providing for a board of commissioners to act on the bill passed, came up on amendments suggested by the Governor, which were adopted and the bill passed.

The preceding business was finished about 10 o'clock this evening.

At about 12 o'clock the House was called to order and a message was received announcing that the Governor had vetoed C. R. 93, the so-called concurrent resolution, which the House passed a few days ago, limiting the time of the passage of commissioners from presenting bills before each court. He thought the bill to be not had affected the rights of any legislation against partiality by judges.

At intervals during Sunday forenoon, the only thing business was done.

C. R. 132, changing the fiscal year of Legislature was passed.

The Governor announced his approval of the enrolled bill, the fish and game bill, and the bill relating to the payment of jurors, etc., and to court commissioners.

The House was called to order at about 1 o'clock, the time limit of the adjournment, to hear a message from the Governor announcing the approval of the most important bill.

Various minor and concurrent resolutions that the Governor so notified that the Legislature had finished its business and was ready to receive any communication he might have to make had to adjournment.

Hatfield brought the Governor should have additional time in which to consider the bill relating to banks. The resolution was adopted.

Warner, from the enrolling committee, reported that H. R. 105, the Indian bill had been enrolled.

The House "wandered" until about 10 p.m., when the word was passed that it would not be called to order until some time the morning, and the members "wandered" away to get some sleep.

TODAY'S PROCEEDINGS.

SENATE.

It was nearly noon today before the Council was called to order, and then the only business transacted was the confirmation in executive session of the following appointments:

C. H. Allen, of Provo, as a member of the medical board.

James Clark as trustee of the Territorial Reform school.

J. R. Miner as director of the insane asylum.

O. W. Snow, of Brigham City, as a member of the dental board.

HOUSE.

Shortly before two o'clock this afternoon the House was called to order for the first time today.

A message from the Council transmitting the Governor's veto of the tax levy bill.

The Governor announced his approval of the general appropriation bill, but his message criticized the omission of the usual allowed public institutions, and especially the insane asylum.

A message from the Governor was read vetoing the bills giving licenses to silk, sugar cane and chicory farms. The Governor based his action on the ground that the Legislature had not provided funds to pay the bounties, and on the further ground that the bounties were unconstitutional and contrary to public policy.

Another message from the Governor was read, vetoing the memorials to Congress relating to sugar, flax and wool, all of which involved the tariff question. The veto message stressed the fact that the memorials had to do with subjects of the immediate, at least, south.

Other executive messages announced the Governor's approval of the bill making an additional appropriation for the contingent expenses of the session, his disapproval of the Indian bill, because the tribes had lost their property properly, and his veto of the bill to prevent debits, on the ground that public institutions would have to come to the Legislature for a provision for their support.

Varian then offered a concurrent resolution for final adjournment.

Powers claimed the floor in order to move to table the Governor's communication on the appropriation and to send to the committee on ways and means, but the chair ruled that the adjournment resolution had the preference.

Varian's resolution was adopted by a party vote, and forwarded to the Council. Pending a message from the Council, the House took an informal recess.

Sheepskin Borrowing.

A gentleman who is prominent in this city in supplying loans for weekly explained today that a considerable amount of borrowing is now going on among sheepskin throughout the Territory. On the basis made a parody, the gentleman says, that at least 75 per cent go to pleasure outside of this city, principally among owners who were so supplied. Principally by the records indicate that they are submitted to borrow to continue the season. Men who heretofore have been considered wealthy, and who always carry their business without borrowing money, are now engaged heavily in the borrowing line.

Wandered Away.

An aged woman, who gives her name as Vine stated to the Wandsworth ward last night, thinks she lives in the town she gave in the early that she has been trudging her weary and footsteps during the day. Where she has come from she does not know, but she is quite sure that she has been wandering for days. She thinks she left her home in a fever spell, but remembers by a spasm the same.

Adjourned at 2:30.

The Legislature adjourned at twenty-five minutes after one.

The Harris Block Riots.

The case of the men on trial arrested in the Harris block as an early hour yesterday morning by the police, has been continued until Thursday morning, at which time the proceedings will be resumed before Justice Marshall. About thirty more are under offenders were gathered in by the police during the absence of Marshal Wilson. The women are charged with prostitution and the men with loitering in the place for unlawful purposes.

The Ophir Election.

At the annual meeting of stockholders of the Ophir Consolidated Mining company, held on the 6th inst., the following officers were elected to serve for the ensuing year, viz: A. R. Hyde, president; Heber J. Taylor, vice president; D. Harrington, secretary; Frank Y. Taylor, treasurer; Evan Evans, A. R. Hyde, Geo. J. Taylor and D. Harrington directors.

Carl Johnson Malm.

Information is wanted of Carl Johnson Malm, formerly of Lewis Sutter, Hammond, Sweden. He is about 25 years. Any one knowing his address will render a favor by sending it to Mrs. Louisa Swanson, 19 Beaver, Salt Lake City.

Fielding's Hearing.

J. R. Fielding, the young attorney who was brought back from Omaha last week to answer a charge of embezzlement, came up for preliminary examination in Commissioner Faust's court, shortly before three o'clock this afternoon.

At the request of defendant, however, the case was continued until one week from Wednesday afternoon.

Again At Work.

The grand jury of the Third district court, have been in session today, after a long respite from work.

A Busy Week.

Business in the probate court today has been extremely dull, and indeed probably not a transaction to be a busy week.

Chamber of Commerce Letters.

Letters have been received at the Chamber of Commerce from H. L. Tracy, John C. Cutler and C. S. Kinney, asking for membership.

Frank Gray, of San Francisco, stating that he expects to come to Utah for the benefit of silver and mines.

IN THE POLICE COURT.

Thos. Brown Fined $10 for Disturbing the Peace and $10 for Costings.

Thomas Brown, who resides on G street, was arrested this morning, and at 2 p. m. appeared before Police Justice Smith, charged with disturbing the mother-in-law, Mrs. Sarah Leggett. According to the testimony of Mrs. Leggett and her daughter (defendant's wife) Brown had for some days past manifested the most evil purpose of getting his mother-in-law out of his house in the hope (as was in the meantime having gone to his relatives) under the influence of liquor and high spirits, the aged lady is a good religious man and.

The defendant in his own behalf, stated that he was intoxicated and was
