THE BELLAMY PLAN.

Attempt to Establish a Co-operative Colony in Colorado

BY MRS. DIGGS AND DR. McLALLIN.

Work Begun and Preparations Made for the Reception of the Intended Settlers.

TOPEKA, Kas., Aug. 28.—Mrs. Anna L. Diggs, the agitator, and Dr. S. McLallin, editor of the Adirondac, the official paper of the Populist party in Kansas, have just returned from Montrose county, Colo., where they have been to establish the Montrose County Co-operative colony. The colony is to be conducted on the Bellamy plan and is being promoted by the same organization that a year ago perfected arrangements for establishing a colony of the Potomac river, about fifty miles below Washington. The Potomac location was abandoned, Mrs. Diggs says, because of its unsuitableness. The Colorado colony is to be located on government land which will be taken up under the homestead and desert land act. Intending colonists have already filed upon 8,000 acres of land and one men have located there and begun work, making preparations for the reception of the colonists and their families. Other members of the proposed colony will in a few days file upon 8,000 more acres. Mrs. Diggs now claims residence in Colorado and says that one reason why that state was selected for her colony is that women there have political rights, and that she is tired of waiting for them elsewhere without results.

GOOD FOR MEXICO.

Valuation of the Associated Press Service in that Country.

MEXICO CITY, Aug. 28.—President Diaz, on hearing from the Associated Press correspondent that the Associated Press service would from tonight be received in the capital every day, said that in his opinion this would be a great advantage for journalism in Mexico. Here is the capital of the republic was joined the first book ever issued in the New World, and here also was published the first daily paper on this hemisphere. For these reasons Mexico is greatly interested, he said, in everything pertaining to the progress of journalism.

All honorable and conscientious journalists who devote themselves to matters of practical interest receive the protection of the government. Notable improvements are already apparent in the most enterprising journals. They use illustrations to explain and illustrate their articles, and show a spirit of advancement worthy of great praise.

"I am much pleased," he said, "that Mexico by means of the new telegraph service will be put into intimate contact with the rest of the world. It is another sign of prosperity, and creates a new bond to connect Mexico with the other nations of the civilized world."

Populist Platform.

LINCOLN, Neb., Aug. 28.—The Populist state convention was called to order by Chairman Edmisten of the state central committee.

Gerald W. V. Allen was elected permanent chairman, and after numerous speeches, the convention adjourned until evening. When the committee on platform and resolutions reported, a spirited debate ensued over a plank endorsing the initiative and referendum. A. A. Bryant presented a minority report, in which a reference to this question was left out.

The platform reported by the majority on adoption is as follows:

We, the People's party of the state of Nebraska, in convention assembled, do set forth the following platform of principles:

We hereby reaffirm the principles of the Omaha platform.

We donate ourselves in favor of strict economy in conducting the affairs of the state government and all its branches.

We believe the judicial affairs of the state should be conducted on the principles to the interests of the people.

A resolution declaring the party opposed to establishing a religious test in office was carried. It denounced for a public school system of a sectarian character.

WALLER'S CASE.

The "Figaro" Says It Is Unimportant.

PARIS, Aug. 28.—The Figaro this morning declares that the Waller affair is unimportant, that Waller was only an American consul through accident, that he never did well, and that his consular colleagues, in addition to the native, vituperated him.

The Figaro adds: "Nothing serious can result from the negotiations regarding his condemnation, for it is not worth the trouble. The Charlatan incident is more serious, but any formal complaint should come from France, and not from America, which is entirely in the wrong. Moreover, the American newspaper campaign in this connection is nothing but an eclipse of electric warfare, without importance for us, and about much more against President Cleveland and Mr. Eustis."

WASHINGTON, Aug. 28.—It is probable that no further action will be taken in the case of ex-Consul Waller until his statement taken by Newton H. Little and Mr. Alexander is received and examined. It is stated that the case will then be a purely legal one, and that the action of the department will depend on the lawfulness of the French military court and its authority and the legal status of Mr. Waller's confinement.

Steamer Ashore.

MARSHFIELD, Ore., Aug. 28.—The steamer Bawnmore went ashore in the fog near Bandon, Ore., this morning. There is no telegraph line to Bandon and no particulars of the wreck have yet been received. Captain Heath of the life saving service has gone to the scene, and is now upon ground with his crew. It is reported by a mail carrier that one Japanese sailor was washed ashore, badly injured. When the mail carrier left there could be seen twenty-five or thirty people on the steamer's deck. He also says she is breaking up and will be a total loss.

The Bawnmore is a large iron steamer owned by Grace & Co. She has been engaged in bringing coal from Port Pirie. She recently filled up for that purpose. She went up to British Columbia to take on a cargo of coal, and sailed from port Sunday for Pirie.

THE WAR TAX HEAVY.

SAN FRANCISCO, Aug. 29.—The steamer Mariposa, which was wrecked last Friday near Mazatlan, Mex., left San Francisco two weeks ago with a tremendous deadhead. It was generally stated on the water front that with such a heavy weight, so far from her keel, she could never be safely handled in a storm. She went to Portland with oil, after which she went to Comox for coal.

Captain Alexander Wendtside said the day before starting north that the overloaded ship would not bother him in the least, as he would put the tons of water ballast into the tanks to keep her safe if it was necessary to steady her.

AN EDITOR DEAD.

NEW YORK, Aug. 28.—Robert A. Burns, managing editor of the Brooklyn Eagle, died today at the age of 44 years. He was at one time managing editor of the Evening Post of this city.

GEN. CAMPOS ENCOURAGED.

He Says the Struggle Against the Rebellion is Hopeless.

NEW YORK, Aug. 28.—A special to the World from Kingston, Jamaica, says:

Captain General Martinez Campos has written to the Spanish consul here, it has leaked out, that the struggle against the insurrection in Cuba is hopeless. The connecting of subsidiary bands, is the only excuse by which Spain can avoid losing the island. The Cubans are jubilant.

COLON, Colombia, Aug. 28.—A petition has been presented by the municipality of Panama, asking the municipalities of Colombia to join in a petition to the government, asking it to recognize the Cuban patriots as belligerents.

Bryan at Denver.

DENVER, Aug. 28.—Ex-Congressman W. J. Bryan of Omaha spoke in Calhoun hall tonight on the silver question. The hall, which seats 2,000 people, was crowded, and fully 1,000 persons were turned away. Mr. Bryan's address was devoted more to a discussion of the question from that of the question, as he recognized that argument was not needed here. He laid particular stress upon the ignorance of the people of the East on the subject, urging the necessity of pushing a campaign of education to that section. He said the prospect for silver was very hopeful.

ANOTHER WITNESS.

Zeuger Saw Durrant and Minnie Williams Together.

SAN FRANCISCO, Aug. 28.—All parties to the Durrant case expect that by the middle of next week the taking of testimony will be well under way. The opposing attorneys promise that no time will be lost as soon as the preliminaries are cleared away. It is felt that each side will try to impeach the testimony of opposing witnesses, and some unpleasant developments are expected.

The police have another witness in the person of Alexander Zeuger, a member of Emanuel church, where the double murder took place. Zeuger will testify, it is said, that he saw Durrant and Minnie Williams together in front of Emanuel church a short time before the murder on the night of April 12th.

The plan of having the sheriff select a special venire of seventy-five citizens was barren of results today. The special venire was exhausted, but the twelfth juror was not secured. Two veniremen were excused by the prosecution but peremptorily challenged by the defense. Another special venire of seventy-five was ordered for tomorrow.

The workmen in the shoe factory where Durrant's father is employed struck because the proprietor refused to challenge Durrant as an objectionable juror. The strike was settled by the discharge of all the strikers and the employment of new workmen.

TEN YEARS EACH.

Train Robbers Plead Guilty—They Wanted to Become Rich.

OMAHA, Neb., Aug. 28.—A special to the Bee from North Platte, Neb., says: Hansen and Evans, the young Nebraska farmers who pled to the overland express on the Union Pacific at Gray Island one week ago tonight, were this evening on trial in the federal court with a sentence of ten years each. They blessed guilty. The proof of guilt was absolute.

They said they were impelled to do the work by the belief that a great fortune might be easily made. They said they received less than $50 from the saw which they had sawed in the express car. The things they saw which tempted their efforts were filed when measure. The boys have worked on farms in the candidate several years, and were not regarded as desperate characters.

Instantly Killed.

LOUISVILLE, Aug. 28.—Theodore B. Gilkeson, of Indianapolis, Ind., supreme organizer of the Knights of the Maccabees, was shot in the neck and instantly killed last night by James Bennett. The murderer alleged to gain admission to an entertainment which cost a ticket, and had been ejected by Mr. Gilkeson. He escaped.

Gen Figh at Juarez.

EL PASO, Tex., Aug. 28.—It is understood here that troops have been fired at Mexico City with the Federal officials so that the Carbajal-Palomino fight can be settled off in Juarez. Twenty thousand dollars, Mexican money, must be put up as guarantee for local expenses and evidence of good faith.

SHOOTING AFFRAY.

Three Men Seriously Wounded as a Result of a Quarrel.

NEWARK, N. J., Aug. 28.—Three men shot, two of them probably fatally, as the result of a shooting affray which took place last night on New Jersey railroad avenue, near the Market street station of the Pennsylvania railroad. The man who did the shooting was John Meeks, 35 years old, employed as a bartender. His victims are: John O'Brien, 21 years old, shot in back of head and skull, probably crushed with butt of revolver; James O'Brien, 28 years old, shot in forehead, would not survive, and John Dunlap, shot in the left breast.

Meeks is locked up at the police station. He is in a pitiable condition, his face being kicked almost out of human semblance and his body covered with bruises.

The locality in which the shooting took place is known as "The Bend," and is next to the River street branch of the Morris canal. On one bridge there is always a crowd whose pastime is to hold up people for the price of drinks. The story told by Meeks as to what led up to the affair is denied by the police to be correct. He says he had incurred the enmity of some of these bravos by his refusal to treat them. Yesterday they threatened to "do him up." When it was nearly last night to leave his place he saw some of his enemies near the bridge and made on the block toward Commerce street. He had to cross the bridge to get home, and, leaving an alcove, placed a revolver in his pocket. When he reached the bridge he was attacked and before he could draw his revolver was knocked down, while several of his assailants began to kick and pelt him. He shouted for help and after a struggle reached his revolver and regained his feet. He at once opened fire. Some of the attacking party ran off at once instead of fleeing and he had to retreat, firing and firing as he ran.

TREASURY STATUS.

The Idea of the American Proportional Representation League.

CHICAGO, Aug. 28.—Straughton Cooley, of Chicago, who read a paper on "The Swiss System" before the congress of delegates representing the American Proportional Representation league at Saratoga, N. Y., is secretary and treasurer of that association. Mr. Cooley is a clerk in the employ of the Chicago & Northwestern railway, and is the father of this movement in the United States. It was through his efforts that the first congress to discuss proportional representation was called in this city during the summer of 1893. From this conference the league was organized, and it now has a large membership. Variations of the system of representation now in vogue in Switzerland will be considered by the delegates, who represent nearly every state in the Union and that now where politics has most beneficial results will be strongly advocated by the league in the future.

Strike Situation Unchanged.

ROCHESTER, N. Y., Aug. 29.—The strike situation among the garment workers remains unchanged, except that some more have gone out. The bosses show no inclination to accede to the demands of the strikers, and the latter are firm in their intention to fight to the end. The strikers are firm and assert that they will spring another surprise on them today.

Prisoners Escape.

AURORA, Ill., Aug. 29.—Two prisoners escaped from the county jail at Geneva last night during the absence of Sheriff Robert Burke, who was in this city serving legal papers. A searching party was quickly organized and all of the towns within a radius of forty miles were notified of the affair. Two of the prisoners who had not once tried in getting very far were run down by the posse and captured. The other two are yet at large.

Arrested by Fire.

CHICAGO, Aug. 29.—Guests of the Tremont House were aroused at 2 o'clock this morning by a fire which caused a damage of $2,000 to Gallagher & Speck, manufacturers of machinery, No. 49 Dearborn street. The burning building was separated from the hotel by a narrow alley and smoke and flames covered the hotel windows. There was great excitement on the guests rushed from their rooms in great terror.

Athletes on the Ocean.

LONDON, Aug. 29.—The Sportsman this morning says Cordelia Mokay, among the British athletes, who are going to America to meet the American team, to exercise in the morning on the saloon promenade deck so as to keep themselves in trim. All are comfortably placed in berths.

New Steamship Company.

TACOMA, Wash., Aug. 29.—The Puget Sound and Central America Steamship company has been incorporated by prominent shipping firms of Tacoma, Seattle, Port Townsend and Port Blakeley. The steamers, which will begin running September 15, will ply between this city and ports in Guatemala, Honduras, Nicaragua and Mexico. Rates have been fixed at $9 a ton of freight and $15 per ton, saving $5 per ton and over the present freight of trans-shipping at San Francisco.

Chronic Nervousness

Could Not Sleep, Nervous Headaches.

Gentlemen:—I have been taking your Restorative Nervine for the past three months and I cannot say enough in its praise. It has

Saved My Life.

for I had almost given up hope of ever being well again. I was a chronic sufferer from nervousness and could not sleep. I was also troubled with nervous headaches and had tried doctors in vain until I used your Nervine. Yours truly,

REV. E. WOOD, Tonawanda, N. Y.
