CAPITAL EVENTS.

Further Light Thrown on the Ford's Theater Disaster.

A YEAR'S EXPORTS AND IMPORTS.

Saw Millions in a Power Company but Got Only Debts—Gettysburg Battlefield.

WASHINGTON, D. C., June 16.—In the continued inquest on the victims of the Ford's theater disaster today, T. C. Entwistle, district building inspector, testified that the mortar used in the alterations was bad and the brick work badly done. Architect Clark of the Capitol testified that the weight of the floor was considerably less than the safety limit. August Davis, an unsuccessful bidder for the work, said he thought the plan was such that no man could form from it intelligent ideas as to what was wanted. He told Captain Thorpe, chief of the supply division of the war department, that the work was dangerous. In his opinion no intelligent man would have attempted to do the work without strengthening.

William G. Cover, superintendent of the theater building, testified that Colonel Ainsworth cautioned him not to give instructions to the contractor, but if he saw anything going wrong to notify him (Colonel Ainsworth) immediately. Colonel Ainsworth observed the work himself. He did not make any report on it to him.

The inquest then adjourned until tomorrow when it is expected the inquiry will be concluded. Contractor Dant, who is doing the building, is in a serious condition, and it is feared his mind was affected by the disaster.

A. L. Ames, who was injured in the Ford's theater building Friday last, died at Emergency Hospital tonight.

EXPORTS AND IMPORTS.

The total value of the exports of merchandise from the United States during the twelve months ended May 31, 1893, were $849,373,948, a decrease of $174,019,799 over the preceding period. The value of imports during the same period were $930,901,987, an increase of $109,058,198. During the twelve months ended May 31st the exports of gold amounted to $123,595,455, and the imports to $20,558,728, an excess of exports of $103,026,728. During the corresponding twelve months last year, the exports of gold amounted to $46,898,224, and the imports $59,608,534, an excess of imports of $60,710,310. During the twelve months ended May 31, the exports of silver amounted to $46,190,616 and the imports to $28,764,542, an excess of exports of $16,372,074. During the corresponding period of the preceding year the exports of silver amounted to $36,957,800 and the imports to $18,828,345, an excess of exports of $12,114,155.

FUED FROM HIS DESK.

Frank Aldrich, quartermaster-general of the national guard and until recently sealer of weights and measures for the District of Columbia, has gone from Washington leaving debts behind amounting to nearly $20,000. His present whereabouts are unknown. His downfall is due to the fact that he thought he saw millions in a power company which he established and borrowed money recklessly to keep afloat.

OUGHT TO BE PREVENTED.

The secretary of war has received a report from Bateneider of the Gettysburg battlefield commission, setting forth at great length the wanton destruction of important landmarks on the field by the operations of an electric railroad company by which, he says, the whole character of the historic place is being changed.

TOTAL SUGAR BOUNTY.

Commissioner Miller has prepared a statement which shows that the total sugar bounty for the fiscal year ending June 30th will be $9,405,989. The amount actually paid is as follows: On cane sugar, $8,697,094; on beet sugar, $631,552; on sorghum sugar, $10,817; and on maple sugar, $60,119. Total, $19,209,582.

The Infanta in New York.

NEW YORK, June 16.—The Infanta Eulalia and party, somewhat tired with all the sight-seeing and entertainments provided by the West, arrived in this city at 8 o'clock this evening.

Commander Davis said this evening that his duties ended the moment the princess's foot touched the platform. The nation is no longer her host and the princess is absolutely free from official obligation of any kind.

Gold Reserve Increasing.

NEW YORK, June 16.—The action of the Clearing House association in decoding to issue loan certificates was warmly commended on every hand today, and it was conceded that the announcement of their resolutions had a very beneficial effect. There was a slight falling off in the shipments of currency. It was estimated that the amount would fall a good deal short of $1,000,000. The demand for currency had the effect of increasing the amount of free gold in the treasury, and the amount last night exceeded $92,000,000, which is a gain of more than $2,000,000 over last week. But for the fact that the treasury had to pay out large sums for pensions, it would show a large gain.

Printers in Session.

CHICAGO, June 16.—The International Typographical union today taken up the resolution succeeding to the Freeman's union and allied crafts delegates to the meeting of the Federation of Labor. Five thousand dollars was voted to the Childs-Drexel Home for improvements. Canvassers of old officials reported nominees for organizers and they were ratified. Among them are J. L. Robinett of Sacramento, F. M. Pinnee of Salt Lake, C. E. Hawkes of Seattle. Nominees were also ratified for new districts and among the organizers selected are F. M. Pinnee of Salt Lake, J. L. Robinett of Sacramento and C. E. Hawkes of Seattle. Louisville, Ky., was selected as the next place of meeting.

Scene of the Revolution.

CHICAGO, June 16.—At the annual meeting of the National Society of Sons of the American Revolution today, a constitutional amendment to oppose by moral means the spread of anarchical ideas and lawlessness was voted down. The convention then adopted resolutions defining the object of the society and elected officers.

Concerning Canal Contracts.

CHICAGO, June 16.—The verdict was reached today in the first violation of the state on the drainage canal. It censures Contractors Lorker, Jackson and Mathes for shoveling materials men without cause or warrant of law.

Not the Cut in Rates.

ST. PAUL, June 16.—The Northern Pacific Railway met the deepest in rates announced by the Great Northern, and commencing June 18th will make the following reduced rates to Montana, Idaho, Oregon and Washington points. From St. Paul, Minneapolis, Duluth or Superior to Helena or Butte, first-class, $25, second, $18; to Spokane, first-class, $25; second, $20. To Portland, Tacoma, and all other North Pacific Coast and Puget Sound points, first-class, $25, second-class, $23.

World's Fair Rates Too High.

CHICAGO, June 16.—Chauncey M. Depew was in Chicago today and expressed himself on World's Fair rates.

"The present rates," he said, "are unquestionably too high and will come down. The truth of the matter is the reports of the incomplete condition of the Fair have caused the railroad men to think no occasion for lower rates existed, but now the Exposition is complete the roads will do the fair thing and put in satisfactory rates."

Want the Law Enforced.

PORTLAND, ORE., June 16.—About 800 people, mostly laborers, met this evening in response to a call, issued by the organization known as the Law and Order league. A resolution was passed declaring it to be the sense of the meeting that the President be called upon to enforce the Geary Chinese exclusion act, and that pending enforcement, no Chinese should be allowed to land in this country.

Fearful Explosion.

ATHENS, June 16.—A government powder magazine a few miles from the city exploded today. Twenty persons, including officers and soldiers, were killed, and great damage was done to surrounding property. The crown prince has gone to the scene to aid the sufferers.

The loss is estimated at 3,000,000 francs.

The magazine was located at Scaramanga.

Soldiers Murdered.

PARIS, June 16.—The under secretary for the colonies received a telegram this evening dated Monsoon, June 15th, saying:

The Chinese mandarin, occupying the post of Camoun, has retreated so. The French residents abandoned the post and returned to Mehong escorted by Inspector Grogerin. On arriving at Kouwheim Inspector Grogerin became sick, the mandarin immediately surrounded the inspector's house with a gang of Chinese, who murdered fourteen native soldiers. The mandarin himself shot Grogerin, who lay helpless in bed.

De Lesseps Free.

PARIS, June 16.—Charles De Lesseps has been granted a ticket of leave in accordance with the decision of the court of Cassation in his case. He will quit the hospital and prison forthwith.

A New Gun Invented.

PARIS, June 16.—Turpin, the inventor of melinite, has invented a new gun which can be carried on a light wagon. In a quarter of an hour it can discharge 25,000 projectiles over an area of 22,000 square meters at a distance of 3600 yards. He declares that none of the present armor plates or fortifications are capable of resisting it.

Carnot Ill.

PARIS, June 16.—The condition of President Carnot is believed to be serious. He suffered a relapse today. There is much anxiety as to the result.

NEWS FROM FOREIGN LANDS

Estimates of the Relative Strength of the German Parties.

Mr. Hastings Arrives from Honolulu.—For Peace.—an Explosion.—Cholera Reports.

BERLIN, June 16.—At 10 o'clock this evening the returns may be summarized thus: In 160 districts, from which reports have been received, 85 deputies have been elected. In the remaining 95 new ballots will be necessary. Of the deputies elected 20 will vote with the government and 45 against it. The parties siding with the government have lost three seats to the opposition. The parties working against the government evened matters by losing the same number of seats to the friends of the army bill. Conservative estimates divide the deputies elected as follows: Social democrats, 23; clericals, 20; radical moderates, 1; free conservatives, 2; Poles, 3; democrats, 3; anti-Semites, 1; independents, 2; government clericals, 1; national liberals, 2.

The most interesting features reported until now probably are the gains of the social democrats and the radical moderates.

At 2 o'clock this (Saturday) morning returns have been received from 200 out of 397 electoral districts. In ninety-eight districts the candidates were elected. In 122 second ballots will be necessary. The national liberals, conservatives and clericals are holding their own. The Richter radicals remain very far behind. Of the ninety-eight deputies already elected, forty-two are counted for the Bill and fifty-six against it. The government has gained two new seats and lost one old one since the last report.

Annexation Sentiment in Hawaii.

WASHINGTON, D. C., June 16.—Mr. Hastings, secretary of the Hawaiian legation, arrived in Washington today, having left Honolulu June 1st. To an interviewer Hastings said:

"So far as annexation sentiment is concerned, I can only say that it is growing daily. There never has been any intention on the part of Blount, either as commissioner or minister, to restore the royalists to power. We believe when Blount submits a report it will be found to coincide with the views of those who have the welfare of the islands at heart. The provisional government has the confidence of the people."

A Resolution for Peace.

LONDON, June 16.—In the commons today W. R. Cremer, the member for Shoreditch, moved that the house, having learned that the United States Congress had authorized the President to conclude treaties of arbitration, expressed the hope that the government would open negotiations with a view to refer all differences to arbitration. The Right Hon. Sir John Jubilock seconded the motion. The Gladstonians suggested a modification of the resolution by substituting the words "that the commons cordially sympathizing with the purpose in view, hopes her majesty's government will lend ready co-operation to the government of the United States."

The premier reviewed the history of the arbitration movement, and after touching on the idea of a central tribunal with great powers, concluded with an eloquent appeal for the arbitration of claims as the most effective means of preserving peace. The resolution as amended by Gladstone was unanimously adopted.

SALT LAKE THEATER

CHAS. S. BURTON, Manager.

MONDAY and TUESDAY, JUNE 19-20.

ALL HER LIFE.

Little Millie Sanders Had been an Invalid. A Bad case of Catarrh the Cause of her Condition.

Millie Sanders, Capitol Hill, Salt Lake, Utah.

When I was little I was the Capitol National Festivale. I took but little hope of her recovery, she had become so weak and emaciated. My daughter was complaining, but I thought I would make one more effort.

Her mind was enfeebled by the pain and her head very too a great deal of the time, and sufficient so much will increase with medicine. I was obliged to take her out of school. For fear the child had contracted some fatal disease. Her stomach was in such a state that she vomited up everything she ate, even a swallow of water would not stay on her stomach. She was so weak she couldn't walk a block without being exhausted, so she was always complaining of being tired and of her hands and feet, sometimes while sitting upon a chair she would have a severe chill and her fingers would get cold and numb, the blood be followed by hot flashes and she would vomit. She was always very nervous and restless when she would get to sleep. Finally a cough developed itself and I then gave up. For I thought she had consumption. I nearly grieved myself to death, as she was the only one I had, and as I said before, I had but little hope of her recovery. As a last resort I took her to the Copeland Medical Institute and tried a fourth treatment. Her symptoms said this was all caused by a bad case of catarrh of the head and stomach and it gives them no good results.

I immediately placed my child under their care and I do not think I did so too late, for they have not only given her health, but have saved her life.

Her stomach now has from all disturbance, headaches are entirely gone, she eats everything and never feels the least sick or uneasy. Her cough has entirely left her, her nerves are strong of the past, she sleeps the night, never sleep of a child and gets up refreshed and bright and cheerful instead of as she formerly did, she is thoroughly in her. Last Sunday she walked four miles and never complained in the least. I feel that we are guilty of the severest charity imaginable for as the saying goes, this indeed. I often call and look at her and wonder how such a change could be wrought in a child in so short a time.

It is useless to say that I have such confidence in them as to choose that such myself and mother are being treated by them, and I shall be pleased to have any persons call and see for if they have any doubts as to the truthfulness of this statement. I shall ever feel grateful to these physicians and I shall ever have done for them, for daughter and are doing for myself and mother.

MOTHERS

Look to your children. Don't let Catarrh destroy your child's health and life. Bring them in time.

Only $5 a month for Catarrhal troubles. Medicines FREE.

MAIL
