STOCK MARKET FIRM,

Good Volume of Business in the Pit of the Exchange Today.

CONRAD ON THE MASSACHUSETTS MINE

Ore from Iron County—Sale of Idaho Mines—Knob Hill's Immense Ledge.

Business was quite good on the exchange today, although the order of the sessions was not up to the standard established Saturday; the volume of trading falling off materially and only plain shares changing hands during the call. All stocks went on fair bids, however, and the tone of the market was such as to indicate a continuance of the good times recently had by the bulls and bears in the pit.

Tout Axes kept up its dignity in good shape and was a seller between 28 and 29 cents, at which figures the stock was in demand. Geyser-Marion took a part in the trading at 45 cents, while Galena remained about stationary, at one dollar. Below is a list of the closing bid of Lower Mammoth was quite active and made transfers at from 71½ to 72½ cents, which Nashville Light continued to evince an good quotations with buyers in the stock at figures ranging from 3½ to 3¾ cents. The Lower Bingham is doing fair business. In Paramount the silver found a ready seller between 13 and 14 cents, and Little Bell a bid of 40 cents, at which price 100 shares changed hands.

Dealers with stocks enlisted there were numerous in Christmas at 3¼ cents, after which Value took a hand and made transfers at 11.06, this followed by sales of Belmont at 34 cents, and a transfer of Emerald at 14 cents. Little Pittsburg was favored with an offer of 4 cents, while Golden Eagle might was in the secondary and there in the call sold close to 4 cents, with a demand for the stock at the asking figure. Dexter dropped a little and was brought at $2.85, Utah Apex showed well and sold at $1.32, while Dutch cultivated a good degree of activity and was found in the pit at 1½ cents a share. La Reine and Star Consolidated are in healthy condition but neither developed transfers during the call.

LISTED STOCKS.

Stocks.	Bid.	Asked.

Ore from Iron County.
Mr. James McGarry brought some samples of iron ore from his mines over to Iron county this the Sunday office Saturday. Our metallurgical sharp was not at all as he stated to render a decision as regards the ore, but it appeared to us that it would not take very far from home to find a much better quality of ore. The farmers than this are anxious to be free of like samples, from a ledge which he has uncovered for 165 feet, which after determining its width, is of a high grade of hematite iron assaying 62 per cent clear across the ledge. Other samples run as high as 92 per cent and from ledges of unknown depth although hundreds of feet have been uncovered. Mr. McGarry shipped a large number of samples to Chicago to parties who are looking for iron properties and with whom he has been in correspondence for some time.—Beaver Blade.

Conrad on the Massachusetts.
J. H. Conrad came up from Salt Lake Thursday. Mr. Conrad was the developer of the great coal camp at Hiawatha, recently has been turning his attention more particularly to the mines of Utah. He has been developing the Massachusetts mine at Park City in that state and has been running a tunnel some 600 feet in. He reports having struck a very rich body of smelting ore and is said to have a big fortune in sight. Mr. Conrad is also interested with Frank Turner in the Madisonian mine near Bingham. They propose to very systematically explore and is to be opened in four different places.—Butte Miner.

Sale of Idaho Mines.
A. G. Hapgood sold his mining interests yesterday at Grimes Pass, Boise county, to Frederick Wolf of Rochester, New York. The interests conveyed are in the Evening Star, Holmes and Admiral Dewey. These properties lie in the Pioneer and the Grimes Pass, in which Mr. Wolf was already interested with Upington, Walton and A. J. Maffey, and it is understood that the purchase made by Mr. Wolf is for the benefit of the syndicate as well as himself. The common work is about to be resumed and doing extensive development work on the west end of the Bruiser, which they have recently secured through Al. L. Woodbury. Arrangements have already been made for the continuance of this development work during the coming winter.—Boise Statesman.

KNOB HILL'S BIG LEDGE.

British Columbia Rich Shows 137 Feet of Ore Averaging $30.

Word reached the city yesterday from Greenwood camp, B. C. that the cross-cut which has been running for several months across the ledge in the Knob Hill property, has finally got to the foot wall after running continuously almost 137 feet of solid ore. The story almost seems too big to be true, and it will be a wonder to many men from that camp who are familiar with the Rossiter ledges of the Bunker Hill and Sullivan, that the Knob Hill is the richest location in Greenwood camp, and was staked in 1891 by Henry White.

"I had not learned that the cross-cut had been finished," said W. T. Smith, who left Greenwood several days since, "but I know that they had gone through the feet of solid ore when I was there in the mine. I believe the ledge will be found to average at least ten. The face of the tunnel is about 50 feet deep. It is run at the north end of the ledge and every foot of it has been ore. The Knob Hill is a bigger mine than any in Rossiter or Amazonia, has a bigger ledge and more ores and bigger ledges than any of the mines which have made Butte famous. The same ledge runs through the Old Dominion and Knob Hill and Mother Lode.—Spokane Spokesman-Review.

Work on the New Mammoth.

Work has been in progress on the New Mammoth during the past summer, several force consisting of eight men. Developments include 100 feet in the north drift, which six levels have been started. Over 500 feet of drifting is completed, and our reporter learns that the face of each drift is making a handsome showing. The main vein is uniformly 12 feet in width, all in solid average, ranging in assays, over $3 in gold, in the main, and unvariably of an easy crushing character. An estimate gives the amount of ore blocked out at 40,000 tons, while in course of development 1,000 tons have been put on the dump. The mill is to be completed by the 1st of March, and appearances would indicate that from the first turning it will have plenty to do.—Bingham Bulletin.

ROTHSCHILDS PROSPECTING.

Are After the Mother Lode from French Camp to Fresno County, Cal.

San Francisco, Cal., Nov. 21.—The Call says: The agents and experts of the Rothschilds have been for the past year prospecting the Mother Lode from French Camp to Fresno County and have paid particular attention to the Mariposa section, with the result that about ten months ago they secured an option upon one-sixth of the big grant, so since that time have been negotiating with the Madera & Hetsey agents for the balance of the property. A bond has been issued during the past week, and it is expected that work on a large scale will be soon begun on the many valuable mining claims that the sale covers. The sum to be paid for the 44,000 acres of the Mariposa grant is said to be upwards of a million dollars.

Coal Mining at Morrison.

On Monday a party of twenty-seven Japanese coal miners went through on the Burgess line to Morrison, where they will work for the Sterling Coal Co. This will make a force of nearly fifty men in the employ of the Sterling company, who from now on will be able to fill all their orders, a condition that has not existed heretofore on account of the inability of the company to secure experienced coal miners in the State. Progress of work has been very slow the past six months, and it being absolutely necessary to get more men before much of an output could be had, the company had to secure men from outside the State. Japanese were selected, and they are better miners and better men to have around a coal camp than either Italians, who one finds at Castle Gate, or Chinamen, who are employed by the Wyoming coal companies.—Sangete Democrat.

DIPS AND SPURS.

Silver 69⅝; lead $1.95.

H. H. Smith was today voted a member of the stock exchange.

The Mercur company paid its November dividend of 25,000 today.

James A. Pollock has moved his office to the Walker bank building.

The Monarch people are planning a resumption of work at their property.

Vernal Express: The Ore Mac Mining company has ordered an engine for hoisting purposes, and is negotiating for a dynamo.

Vernal Express: The last load of machinery for the Bonnie mine was freighted early last week, and it is expected all the machinery is in operation by this time.

LOCAL MARKETS.

Salt Lake City, Utah, Nov. 21, 1898.

POULTRY.

Below are wholesale buying figures on poultry, butter, eggs and cheese. The selling figure is 10 per cent higher.

There is a fair demand for poultry with the prices about stationary. Dressed poultry drawn, with heads and feet off, brings figures as follows:

Turkeys, per lb. ..... 12@13
Geese, per lb. 8
Ducks 8
Spring Chickens, doz ..... 2.50@3.50

BUTTER AND CHEESE.

Dealers report the butter supply weak with figures getting firmer:

Creamery butter, per pound..... 22½
Dairy ..... 14@17
Cheese, Utah Swiss 10

EGGS.

The egg market is stiff at present, and there is a good demand for the product now quoted at 26@28 per case.

GRAIN.

Wheat—56@58 cents per bushel.
Oats—$1.10 @ $1.15 per hundred.
Corn—90 cents per hundred.
Cracked Corn—$1.05 per hundred.
Rye—75 cents per hundred.
Bran—60 cents per hundred.
Shorts—70 cents per hundred.

HAY.

Timothy—$10.00 per ton.
Mixed—$8.00 per ton.
Alfalfa—$6.00 per ton.

FRUITS.

APPLES—Utah, in good demand, per box, 60@75c.
PEARS—In good demand, per box, $1.25 @ $1.50.
LEMONS—Cali., per box, $4.00@$5.00.
GRAPES—All varieties from $1.75 to $2.00.

San Francisco, Nov. 21.—Wheat, steady; Dec., 1.08¾; May, 1.09¾; cash, 1.07½.
Barley—Cash, 1.06¾.

PALACES ON WHEELS.

Hi Henry's Company Travels in Grand Style—Sights Worth Seeing.

If anyone imagines for a moment that Hi Henry and his minstrels engage of city, address and accommodation, who appear at the Grand this week, do not travel in style, a visit to the Rio Grande Western depot will dispelate such an idea. At the depot will be found two mammoth cars, specially constructed after Mr. Henry's own idea, which, it is said, have all the comforts of a modern dwelling. They cost, it is said, the round sum of $15,000, and most certainly be said to be veritable palaces on wheels. Accompanied by Mr. J. Albert Oates, the gentleman who accomplished press agent for the Hi Henry company, a representative of the "News" passed through the cars today. A long able extend from one end of each car to the other, strongly reminiscent of an ulpeyear on board ship. One of the cars contains the company's baggage and scenery. Every bit of space is occupied. Each of the state rooms is provided with accommodations for four. In nearly all the compartments were found members of the company engaged at one thing or another. One young man was discovered in the act of writing a letter and from the far-away look in his eyes as he gazed out of the window it is reasonable to conclude that he was addressing his sweetheart. Another young man was engaged drawing a picture of Hi Henry, as he appeared during the Civil War, a member of an Ohio volunteer regiment. Still another young man was discovered playing solitaire and another shaving himself, and so on. The greatest order prevailed, so this is one thing Mr. Oates explained to the reporter, which Mr. Henry insists on having. Two ladies, cook and waitress, were found in a huge kitchen busy washing dishes. At the end of the last car the reporter and Mr. Oates ran across Mr. Henry in the act of dictating a communication to his amanuensis stenographer. Mr. Henry received the "News" representative very cordially. He said this was his first trip west, but, from the reception accorded him and his company by the people everywhere, it would not be the last. Mr. Henry is a splendid type of physical manhood and appears to be about 50 years old. He is a married man with a family, and has a magnificent home near our metropolis, New York. He is an American through and through and first saw the light of day in the town of Cleveland, Ohio. There are fifty members all told in Mr. Henry's company, and, from the employer, we a courteous lot of gentlemen. The troupe will be the city's guests for the balance of the week.

Sheep in Abundance.

Bishop W. H. Meeham of Park Valley, a few days ago came down from Soda Springs, Idaho, where he has been looking after his flock. He said to a Bugler reporter that that section has been a great sheep grazing center this year. Almost continuous trains have been shipped in there this summer from all parts of the country. Thousands came in from Oregon, California, and other places a thousand or more miles away. It is estimated that at one time at least 60,000 head of sheep were loaded in that vicinity—a few months ago. Now there are probably 200,000 scattered over these grounds. The sheep have been shipped to various winter ranges, while thousands have been shipped East to fill the expansion now of the sheep hungry mutton market. The range has been pretty thoroughly picked off, so that now the owners are hurrying their flocks to greener pastures.—Pocatello Tribune.

ROYAL BAKING POWDER
ABSOLUTELY PURE
Makes the food more delicious and wholesome

sheep business is a great and growing industry in those parts.—Brigham Dispatch.

Pleasant Grove Notes.

Pleasant Grove, Nov. 20, 1898.—Apostle George Teasdale and Superintendent Egbert are holding meetings with the Saints here today.

Bishop Archibald Gardner of Mill Fork has been contracted to build a water court house at Bentonite, this county. He work to begin at once.

BRIGHAM SUGAR BEETS.

Over Half a Million Pounds Raised This Summer.

Our Brigham farmers report very satisfactory results from this year's experimenting with the sugar beet, says the Brigham Bugler. Eleven farmers gave it a trial. As high as nineteen tons to the acre were raised, some of the beets showing a high degree of saccharine. Sixteen cars in all were shipped from Brigham, totaling 516,000 pounds or 258 tons. At $5.75 a ton, the Oxford sugar factory's price f. o. b., Brigham, that note our farmers $962.50 for the year's experimental beet crop. The Oxfordites are that Brigham's subject of beets in the factory next year will be vastly in excess of this year.

The Brigham farmers who went into the business this year and the number of pounds of sugar beets raised by each are: Joseph W. Hansen, 114,000; Wm. Keller, 91,000; James Christensen, 67,000; J. A. Hansen, 44,000; H. L. Kerry, 31,000; P. N. Peters, 25,000; Lorenzo Hansen, 12,000; T. Forest, 23,000; Chas. Wight, 14,000; Henry Jones, 4,000; John Hansen, 3,000; total, 515,000.

Sunday School Convention.

The committee on reception and substantiate for the Sunday school convention are requested to meet at No. 405 Templeton building, Wednesday evening, Nov. 23rd, at 7 o'clock.

GEORGE JOY NICHOLAS,
Chairman General Committee.
