An instance of how the Saturday "News" is sought after by the public was seen at the "News" office this morning. It is the practice to line up the newsboys just as the patrons of the Theater box are lined up, giving out the first papers to the earliest comers. Usually the boys begin to assemble at noon in front of the "News" office gate, but this morning four of them arrived at 8 o'clock and took up positions which they stubbornly held during the remainder of the day. Needless to say, they were the first out on the streets with their bundles.
