ABOUT THE FAIR.

The Council of Administration Decides to Open It on Sunday.

LADY MANAGERS DISAGREE.

Higher Education and Other Subjects Discussed by the Educational Congress.

CHICAGO, July 28.—The World's Fair will again be opened next Sunday. The council of administration acted on this tonight. Some time ago, during the Sunday closing agitation, Charles Clingman, one of the stockholders, asked in the state court for an injunction to prevent the closing of the Fair on Sunday. It will be remembered that Judge Stein granted the injunction, but, owing to a subsequent action in the federal court and the resolve of the directory finally to open the gates, this action remained in statu quo. This week, however, Clingman brought his case up again, and Judge Stein today called the council of administration to answer next Monday for contempt for violating the injunction. The council of administration tonight, in view of this action, decided to open the gates next Sunday, and it is hoped that in the following week the matter of Sunday closing may be definitely settled once for all.

The lady managers, who have been having a hot time for several days over the question of appointments of women as judges of exhibits, and how the appointments should be made, had another excited session. Factions have developed, and just now matters are far from peaceable in the meetings of the ladies.

In the educational congresses today the most interest was attracted to the department on higher education. President Low of Columbia college, Professor West of Princeton and others were heard. The line of debate as to the compulsory study of the dead languages in liberal education was sharply drawn between President Jordan of the Leland Stanford Jr. University of California, and Professor Hale of the Chicago University, the distinguished educator from the Pacific coast expressing the opinion that modern literature contained simple fact for the highest culture.

The segregation of the degree of "doctor of philosophy" and "doctor of science" by the indiscriminate conferring of such by institutions of low standard was strongly condemned.

The National Educational association closed its international session tonight with a largely attended meeting. England, Russia, Germany, Sweden, Chile and Uruguay were represented in the program.

Denver's Encampment.

DENVER, July 29.—Camp Roberts at Silver Front Park today was over four thousand strong. Tents are being used to shelter many of the indigent. During the day fully 600 men were taken out of the city by different trains, and the scenes about the depot were at times exciting. Before leaving, the crowds entered many bakeries and stores and asked for food. They got what they wanted.

CAN'T ENTER MISSOURI.

KANSAS CITY, July 28.—Chief of Police Speers has discovered a law on the statutes forbidding railway companies bringing paupers into the state. In view of the threatened invasion of the unemployed and destitute men from Colorado, he has decided to enforce the law.

NEGRO DEMOCRACY.

A Convention Called in Washington Next Month.

WASHINGTON, July 28.—James A. Ross, vice-president of the association of negro democracy, has called a convention in Washington for August 24th, 25th and 26th. In the call he says in part: "The negro democracy of the country, having reached such a position in the body politic as to demand respect, it is deemed wise that a conference be called for the purpose of formulating a plan for future success and development, and the coming fall elections demand hearty cooperation in all the ranks of our party."

In connection with the call a letter is made public from Private Secretary Thurber, saying, in response to an invitation to address the coming conference, President Cleveland regrets that his engagements with reference to matters of state are such that he cannot accept.

NATIONAL BANK FAILURES.

Not Quite So Bad as Some Think.

WASHINGTON, July 28.—Comptroller Eckels gave out a statement today as to the number of national bank failures since January 1st. Instead of over 100, as stated by some, but 100 have gone into the hands of the comptroller; fourteen of these have already resumed under favorable conditions, and it is expected that several others will resume prior to September 1st.

Of the failures the New England states had 2; the eastern states, 1; the middle and Mississippi states, 15; northwestern, 6; western, 55; southern, 21.

To Succeed Mellen.

TACOMA, Wash., July 28.—Chief Engineer John A. Kenzie was today appointed acting general manager of the Northern Pacific, to succeed W. S. Mellen, deceased, whose remains were sent to Chicago today on a special train. Work will open upon each division while the funeral party is upon that division. All the buildings of the company are being draped in mourning and the flags upon them are at half mast.

A Women Hung.

CHARLESTON, S. C., July 28.—Ada Hicks, a negress, was hanged at Walterboro today for the murder of her half brother last June.

Forest Fire.

FOG HARBOR CITY, N. J., July 28.—The largest forest fire within ever swept over South Jersey is now carrying destruction through the cranberry bogs and farms below here. An immense amount of valuable property has been burned. A number of farm houses were wiped out and it is reported here tonight that the villages of Washington and Martha's Furnace were totally destroyed, but it is impossible to confirm it.

The fire is sweeping rapidly toward Hermon City and Pleasant Mills, both settlements of considerable size. About 300 men are actively engaged in fighting it.

Cleveland Issues a Proclamation.

WASHINGTON, July 28.—The President has issued a proclamation reciting the various acts of Congress relating to salvage of vessels wrecked in American waters contiguous to the United States, and declaring the conditions prescribed therein fulfilled and permitting American vessels to be aided in case of wreck by Canadian wreckers.

The Denver Lynching.

DENVER, July 28.—The coroner's jury investigating the lynching of Arata returned a verdict that the deceased came to his death by being hanged by parties unknown.

Distillers Not Pay.

WASHINGTON, July 28.—Secretary Carlisle has replied to the request of the Kentucky distillers for an extension of ninety days in which to pay the internal revenue taxes upon whisky which has been held three years in bond, that the law is imperative and leaves him no discretion in the premises.

Make the Ship Ready.

PHILADELPHIA, July 28.—Orders were received here today from the navy department by Captain John W. Philps, commander of the New York, directing him to put the cruiser into commission Tuesday next.

Stevenson's Trip.

SEATTLE, Wash., July 28.—Vice President Stevenson and party arrived at noon. They were driven about the city and this evening a public reception was held. The party leave for the east tomorrow over the Great Northern.

A Judge Shooting.

BOWLING GREEN, Ky., July 28.—Hardy Caldwell, a middle-aged farmer, aged about 60, married his third wife some time ago, but they were unable to get along and separated. Today they met by agreement for a division of the household goods, and after an apparently amicable settlement Caldwell shot his wife and suicided.

GENERAL FOREIGN NEWS.

Newspaper Comments on the Riot in the House of Commons.

The Siam Dispute—China Occupies a Territory Near Siam—Russia Protests Her Seals.

LONDON, July 29.—The newspapers today devote much space to editorial comments on last night's happening in the commons. The Times gravely talks about the suppression of free debate by the tyrannical majority as being the moving cause, but has nothing to say about the way the closure was applied during Balfour's reign. It regrets that the opposition took notice of the disgraceful insult with which Chamberlain was assailed, and says such personal manners might have been left to serve as an example of what would occur in the Irish legislature should resolutions succeed in establishing that "preposterous body."

The other tory papers comment in a similar vein.

The Gladstonian papers refer to the hostile fling at Gladstone by Chamberlain and call attention to the fact that the first blow in the scuffle was struck by a conservative. The Standard is worthy of note that O'Connor meekly apologized for what he said, while there was no hint of apology or retraction from Chamberlain and his associates.

An Imperial Chase.

ST. PETERSBURG, July 28.—An imperial edict, issued today, forbids the killing or capturing of fur seal on Russian land without special permission from the government.

SIAMESE AFFAIRS.

Serious Anxiety in Political and Government Circles.

LONDON, July 28.—A news association says: There is serious anxiety in political and government circles about Siamese affairs. Gladstone has cancelled his intended visit to the Hatchlands place, and Lord Rosebery is closely engaged in the foreign office, morning and night. The evening he was in consultation with the secretary of the Chinese legation in London. Official telegrams are exchanged constantly and special messengers are traveling uninterruptedly between Paris and London. General Robert, recently commander-in-chief of the army in India, is returning hurriedly to London from Glasgow, whence he had intended to make a tour of the Highlands.

The Bangkok correspondent of the Times says: "The prompt enforcement of the blockade has seemingly convinced the Siamese that the assumed friendly attempt at intervention by Great Britain has, in part, not availed. Siam, therefore, will probably concede immediately the last differences remaining between her and France."

All the special correspondents of the London dailies agreed tonight that the Siam outlook is more peaceful. The Paris correspondents predict a speedy settlement of the dispute.

ENGLAND'S DEMAND ON FRANCE.

NEW YORK, July 29.—The World's special London cable says: England threw off today the mask of apathy behind which she has been concealing her real feelings about the Siamese complications. She is openly making ready to put herself across the path way of triumphant France. It is reported tonight that the foreign office has instructed Dufferin to demand of the French government a positive assurance that English ships will not be molested, but allowed to enter and leave Siamese ports freely, and if the French government refuses he is to ask for his passport and leave Paris at once.

Duty on Russian Products.

BERLIN, July 29.—The Reichsanzeiger this evening published a memorandum giving notice of an advance in customs duties of Russian products, decreed upon by the federal council, as a result of Russia's refusal to agree to the German basis of a convention for commercial relations. The action of the federal council has immediately little influence on the Russian press, as it has been for several days a foregone conclusion.

China Occupies Chieng Hong.

BERLIN, July 28.—The London correspondent of the Cologne Gazette says: "China has reserved rights of sovereignty over the municipality of Chieng Hong, extending southward to the twenty-five parallel and consisting of four districts to the right of the Mekong and eight to the left. Without Great Britain's knowledge China sent troops to this region a month ago. These troops would, if necessary, operate with the black flags."

Fighting for Fun.

LONDON, July 28.—The annual match canoe between the Red and Blue squadrons began with a declaration of war at 10 o'clock last night. The object of the minnowers are to see who is to obtain command of the Irish sea and the other to prevent this. Already a series of slight mishaps are reported.

Indian Money Matters.

LONDON, July 28.—In the commons tonight, Halicourt, responding to a question by Goschen, said the telegram affecting the government of India to close the mints of that country to the free coinage of silver and for certain instructions in regard to making gold a legal tender. That matter was left to the discretion of the Indian government.

SUNOL!

ROBERT BONNER
Superintending the shoeing of Sunol with the Putnam Nail.

PROVIDENCE HORSE SHOEING FARM, HILLSIDE & ATWELL, PROVIDENCE, Tenn., Feb. 16, 1893. PUTNAM NAIL CO., Neponset, Mass. GENTLEMEN—Shipping to your factory at the back door, will state that I have used the Putnam Nail and which has been in the shop with me now where I will not allow any other nail to be used than the Putnam Hammer Point Nail of your manufacture. While there may be others as good, I know what these are, and cannot afford to make experiments. Very respectfully yours, C. R. Morrow

The Putnam Nail is the only exclusively Hot-Forged and Hammer-Pointed nail.
Look in your smith's shoeing box, if the nails have smooth edges for the whole length they are the PUTNAM, for they are Hammer-Pointed and are not sheared.

The above picture, from a photo representing Mr. Bonner in the act of shoeing his mare, is a new one, and, with the representation of the horse of Sunol, will be sent to the back of a half letter, size, full, on fine, white paper, with wide margin, on receipt of 2 cent stamp for postage, etc.

PUTNAM NAIL CO.,
Neponset, Boston, Mass.
