### Last Night's Dispatches.

### CONGRESSIONAL.

SENATE.

WASHINGTON, 6.—Bruce presented the joint resolutions of the Mississippi legislature, in favor of the passage of a bill remunerating certain citizens of Mississippi, mill owners and log men, for damages sustained by them on account of the seizure of certain lumber and logs in the lumber district by the agents of the United States. Referred.

Mitchell introduced a bill to reduce the cost of mail service on the Pacific coast. Referred to the committee on postoffices and post roads. In explanation of the bill, he said it simply proposed to extend the time for receiving bids for carrying mails in Oregon, Nevada, Idaho and Washington Territories, as mails had been delayed in these States and Territories recently on account of bad weather, and therefore the bids did not reach the postoffice department before the expiration of the time allowed for their reception.

Thurman, in speaking on the silver bill, said it would be impossible for $50,000,000 silver to drive from the country $300,000,000 gold. It could only drive out $50,000,000, and not that unless the gold was in excess of the requirements of the country. He denied that there was an unvarying standard of value. There was no production of the earth that was an absolute standard. He insisted that specie payments could more readily be sustained by having the two metals. A redeemable paper currency could not be permanently maintained on the gold standard alone.

Kernan followed Thurman, and favored making the silver dollar worth intrinsically 434 or 430 grains, and to keep it subordinate to gold, and finally it might by treaties with other nations be possible to bring the two metals together.

Christiancy reported a substitute for the bill, which was ordered to be printed.

Ransom reported a resolution directing the Secretary of the Treasury to report as soon as possible the condition and efficiency of the life saving service of the North Carolina coast and the improvements necessary, and directing the Secretary of the Navy to report on the *Huron* disaster and how greater security on the coast may be obtained. Also authorizing the committee on commerce to consider the expediency of improving inland navigation between Norfolk and Currituck, Albermarle and Pamlico Sound, and authorizing the committee to report by bill or otherwise. The first two resolutions were agreed to, and the third was referred to the committee on commerce.

Teller withdrew his amendment to the silver bill, regarding the issuing of certificates for silver bullion, submitted by him yesterday, and said he would submit it sometime hereafter as an independent proposition.

Blaine then took the floor, but yielded for an executive session, and the Senate soon afterwards adjourned.

HOUSE.

WASHINGTON, 6.—Peddie offered a resolution reciting the trade dollar is being refused by postoffices of the country and only received by merchants at a discount of 8 or 10 per cent, and directing the Secretary of the Treasury to stop the coinage of trade dollars. He thought government should not issue a coin it would not itself receive.

Bright—You have nothing to do but to remonetize silver and it will be all right.

The resolution was referred.

Stephens offered a resolution authorizing the President to invite an international monetary commission to consider and recommend uniform rates in the value and coinage of gold and silver; referred.

Butler, of Mass., asked leave to offer a resolution for adjournment of the House to-day, at 3 p m after which time the hall should be at the disposal of Mrs. Isabella D. Hooker for the purpose of delivering an argument in favor of the constitutional right of women to vote.

Eden objected.

Springer, from the elections committee, called up the Pacheco-Wigginton case. The majority report declaring Wigginton elected and the minority favoring Pacheco were read. Springer supported the majority and Wait the minority report.

Leonard said the evidence showed that they received an equal number of votes, and he offered a substitute declaring neither elected. He had pained some of his party friends by declaring that he would not vote with his party on this question. He had been told it was his duty to cast his vote as a judge with his party. If so foul a doctrine as that was to be applied in courts of judgment, let the meanness of the deed be acknowledged. There was no necessity for adding hypocrisy to villainy. If judges were to vote according to their party proclivities, let the House do away with the farce of contested elections.

Garfield said the question had narrowed down to a very fine point, and he could not, until he studied that question more minutely, say how he would vote.

The matter went over without action, and the House adjourned.

### EASTERN.

About Utah's Admission.

WASHINGTON, 6.—Delegate Cannon's bill for the admission of Utah as a State will be reported on adversely by the House sub-committee on Territories. This determination is based on the fact that the admission of Utah would clothe the Mormon priesthood with State sovereignty.

Christiancy's Silver Bill Substitute.

Christiancy's substitute for the silver bill provides for the coinage of silver dollars of 412½ grains, but that gold shall be the standard of value. The present subsidiary silver coins are to be legal tender in all cases to the amount of $10. Silver dollars and subsidiary coins and dollar bars, stamped at the mint or New York assay office, with their weight and fineness, and trade dollars, are to be made legal tender according to their market value, to be fixed monthly by the Secretary of the Treasury, the Treasurer of the United States and Director of the Mint on a gold valuation, in accordance with the current rates of the markets of the world, which valuation is to be promulgated and published in the principal commercial cities of the United States. In fixing the value the cost of coinage is to be added. United States legal tender notes may be redeemed upon presentation, with silver of the valuations fixed as above, and when redeemed shall not again be issued, but placed to the credit of the sinking fund. Owners of silver bullion are permitted to deposit it, and receive in return certificates redeemable at the place of issue in silver bars at the fixed valuation. A

Christiancy said this was a proposition upon which both sides could unite, those who believed that silver would appreciate, would have silver at its real value, and those who believed it would remain at a discount would find in this measure a safeguard against depreciation.

Confirmation.

The Senate has confirmed Philip T. Van Zile as United States District Attorney for Utah.

Conduct of Utah U. S. Officials to be Investigated.

Delegate Cannon of Utah has been requested to prepare formal charges against the past and present federal officials in that Territory, for the purpose of having them thoroughly investigated by the House committee on expenditures in the department of Justice. Very serious charges against United States Marshal Nelson and the late District Attorney Howard, have been submitted, and one or two members of the committee say they are satisfied that a drag net thrown into Salt Lake City will bring to light a large amount of official corruption.

Wool Market.

BOSTON, 6.—In wool there is very little change in the market. The demand is steady, and prices continue to be sustained, but while holders are not disposed to push sales, manufacturers are also indifferent about future supplies, and there is no prospect of any change at present. The demand still runs on X and medium grades. Sales of Ohio and Pennsylvania, including medium, X, and XX at 42 @ 45. Michigan, Wisconsin and Minnesota fleeces at 39 @ 42, as to quality, and combing and delaine fleeces at 43 @ 53. There is a fair demand for California wool; sales at 15 @ 28 for fall, and 29 @ 33 for spring. Superior and X pulled wools are in fair demand, with sales at 30 @ 36.

Libel Suit—$40,000 Damages.

CINCINNATI, 6.—R. J. Miles of the Grand Opera House, by his counsel, Thomas A. Logan, Esq., to-day, received a verdict of $40,000 damages against P. T. Barnum, W. C. Coup and others for a libel published two years ago.

Killed in a Duel.

BROWNSVILLE, 6.—Hon. Nester Maxon was killed in a duel with M. De La Pena at Matamoras yesterday. All the parties were residents of Brownsville. The cause of the enmity is unknown. The deceased was a prominent lawyer.

Drowned.

NEW ORLEANS, 6.—By the sinking of the *Lessie Taylor* on Sunday, on the Atchafalaqua River, a colored woman and child and four or five deck hands were drowned. The boat and cargo were valued at $40,000. A total loss.

The Anderson Trial.

In the Anderson trial, Castellanos argued for the defense. He held that the crime charged had not been established; that the consolidated statement offered in the evidence is not a public record, being not certified by the clerk of the district court. The arguments will be closed to-night and the charge will begin to-morrow afternoon.

Wells is still in jail, though the bail has been reduced to $10,000.

On the March.

BISMARCK, 6.—Two hundred and fifty recruits for Gen. Miles arrived here to-day, and immediately took up the march of 400 miles for Fort Buford and Tongue River.

### FOREIGN.

### GREAT BRITAIN.

Items Relative to the Eastern Question.

LONDON, 6.—Russia's reply to the invitation to the conference arrived to-day. It is in the affirmative, but declares that Russia would prefer another place of meeting.

Servia has asked Russia for admission to the conference with a consultative voice.

The report of the capture of Domoco is false. There has been no collision yet between the Turks and the Greeks. The citizens and peasantry are arming to protect Athens.

The foreign representatives having assured government that the Hellenic provinces of Turkey would be protected and the Greek question submitted to the approaching conference, government has ordered the advance of the army across the frontier stopped. Warlike preparations, however, continue.

The Roumanians did not stop hostilities around Rustchuk and Widdin until Monday afternoon. They vigorously bombarded Widdin on Sunday and Monday, and the position of the garrison was considered desperate.

HIGHEST HONORS
AT THE
UNITED STATES
Centennial
World Exhibition,
1876.
MASON & HAMLIN
CABINET
ORGANS
Unanimously assigned the
"FIRST RANK
IN THE
"SEVERAL REQUISITES"
of such instruments!

The MASON & HAMLIN ORGAN CO. have the honor to announce that the Organs of their manufacture have been unanimously assigned "THE FIRST RANK" in the SEVERAL REQUISITES of instruments of the class, by the Judges at the CENTENNIAL EXHIBITION in Philadelphia, 1876, and are the ONLY INSTRUMENTS IN THIS GENERAL CLASS AWARDED THIS RANK. This is after the severest competition by the best makers, before one of the most competent juries ever assembled.

They have also received MEDALS, but, as is well known, medals of equal merit have been awarded all articles deemed worthy of recognition, so that it will be only by many makers to advertise that they have received "first medals."

The differences in competing articles, and their comparative excellence, are recorded in the Reports of the Jurors, from which the following is an extract:—

"THE MASON & HAMLIN ORGAN CO.'S exhibit of Reed Organs and Harmoniums shows marked improvement in the SEVERAL REQUISITES OF THE SEVERAL REQUISITES OF INSTRUMENTS OF THE CLASS, viz.: durableness and equal distribution of tone, ease of touch, promptness and equal responsibility of reeds, and quickness in action of large and heavy bellows, with thoroughness of workmanship, combined with simplicity of action."

(Signed by all the Jurors.)

The Mason and Hamlin Organs are thus declared to rank first, not in one or two respects only, but in the SEVERAL REQUISITES of such instruments, and they are the Only ones assigned this rank. The difficult task, not a simple one, of awarding Mason & Hamlin Cabinet Organs, have unfavorably been awarded the highest honors in competition, by America, have barring none barely all exceptions in honorable competitions. They were awarded highest honors and

FIRST MEDALS
PARIS, 1867; VIENNA 1873; SANTIAGO, 1875;
PHILADELPHIA, 1876;

and have been awarded highest honors at

Every World's Exposition!

at which they have been exhibited, being the Only American Organs which have ever obtained Any Award at any exhibition with which they have been in competition. World's Exposition, 1878.

NEW STYLES, with improvements, exhibited at the CENTENNIAL, elegant cases in great variety. Prices very moderate, with time, from $125 to $1,000 each. Organs to rent per month, quarter or year, allowing rent money to apply on purchase. Illustrated catalogues sent free.
