# EVENING NEWS.

Monday, - July 9, 1883.

## BY TELEGRAPH.

FOR WESTERN UNION TELEGRAPH LINE.

## FOREIGN.

### SUNDAY NIGHT'S DISPATCHES.

#### Found Guilty.

DUBLIN, 8.—At the Sligo Assizes, Rogerson, Tansy, Kelly and Houghton, implicated in the murder conspiracy, were found guilty.

Two informers testified that the prisoners and a number of others, obeying orders of a secret society, attempted, in March, 1882, to blow up Weston House, Galway. If they had destroyed the house and killed the inmates they were to receive £500, failing to take life they were to receive £300. Five pounds of dynamite exploded on the window sill, but little damage resulted owing to lack of skill in the conspirators.

The Judge, summing up, spoke strongly against the prisoners.

#### Is Recovering.

Frohsdorff, 8.—The condition of the Count de Chambord continues slowly improving. His mind is now clear. The Orleans Princes will visit Peeth on Monday and afterwards return to Vienna. They will subsequently go back to Paris if the Count de Chambord's health admits.

#### The New Hebrides.

Paris, 8.—It is stated that the Cabinet has resolved to dispatch a note to Earl Granville, pointing out that the contemplated British annexation of the New Hebrides is contrary to engagements previously entered into by Great Britain.

#### Cholera.

Cairo, 8.—From Damietta 96 deaths from cholera are reported today, Mansurah 46, Samanoud 6, Therbin 6, and one only from Alexandria. Several cases have occurred among the gendarmes forming the cordon around the infested districts and particularly in the case of the cordon surrounding Samanoud. Fresh cordons will be drawn around the old and infested districts.

#### James Carey Emigrates.

London, 8.—The report that Jas. Carey has left Dublin is confirmed. Government refused to give him any reward or protection. On Monday night last a detective called upon him with an order for his delivery. He drove with him in a cab to the city. Having been given the alternative of being turned unprotected into the streets, or a passage to London and thence to some colony in the eastern hemisphere, he accepted the latter. His family had already gone to London, supposably to avoid suspicion.

#### Dynamite Discovery.

Cork, 8.—Detectives exhumed, at Imehiggaggin, a box containing 6,000 dynamite cartridges, part of the proceeds of the great dynamite robbery in this city two years ago. The knowledge that a large amount of dynamite was in bad hands since the robbery has been a cause of continued anxiety to the authorities.

#### Prussia and the Pope.

Berlin, 8.—The *North German Gazette*, referring to Cardinal Jacobini's last letter to the Prussian government, says: Diplomatists at the Vatican are trying to show that the new church bill is of little value. The Prussian government expect the Vatican to make the next advances and if none are made Prussia will continue here present course of independent legislation as far as feasible and requisite. It would have been better and more skilful on the part of the Curia diplomatists if the note had remained unwritten. There existed at the time no absolute necessity for its dispatch, and the arrogant grumblings and criticism contained therein afford fresh proof that it would be impossible to satisfy the demand of the Curia and will only result in preventing Prussia from making further conciliatory advances.

## BRIEF TELEGRAMS.

Toronto, 7.—Archbishop Lynch has issued a pastoral demanding the payment of Peter's Pence in the See under his control.

Pensacola, Fla., 7.—The two infected vessels, the Norwegian barks *Guldbringan* and *Unignidoms Venter*, are to be transferred to the Ship Island quarantine, telegraphic authority to that effect having been received to-day from Surgeon General Hamilton of the Marine Hospital Service.

Montreal, 7.—The *Witness* this evening publishes an interview with McDermott in which he advocates Rossa's dynamite principles in their most extreme form. His real object here is unknown, and all accounts published are merely conjectures as to his movements.

Fall River, Mass., 7.—Secretary Howard, in a circular calling a meeting of the spinners' union, states the association is in a better financial condition than ever before, its funds in bank being $6,000 larger than at any previous time.

New York, 7.—Senator Harris of Tennessee, Gen. Harrison and Sherman, of the committee on the revision of the Senate rules, met to-day at the Fifth Avenue Hotel. They leave to morrow for Bar Harbor, Maine, where their work is to begin, and will probably occupy several weeks.

Milwaukee, 7.—A Watertown dispatch says: A rumor reached here that Henry Van Slyke, formerly deputy sheriff of Jefferson county, and S. M. Cone were shot in Dakota a few days since for jumping claims. Van Slyke always bore a good reputation, but Cone was a notorious character.

New York, 7.—New Yorks 3, Providences 5.

Philadelphia — Philadelphias 4, Bostons 15.

Chicago—Chicagos 6, Clevelands 7.

Cincinnati—Baltimores 3, Cincinnatis 4.

Chicago, 7.—The *Evening Journal's* Springfield, Ills., special says: Several Springfield coal mines closed to-day, owing to the demand of the miners of an increase from the 2½ cent rate to 3 cents a bushel. Mine owners say they cannot pay the rate demanded. The miners hold a mass meeting to-morrow. If the men fail to return to work next week, their places will be filled with Southern negroes, in which event trouble is feared.

Chicago, 7.—The third annual session and conclave of the Supreme Temple, Patriarchal Circle, occurs here Wednesday, Thursday and Friday of next week. It is anticipated that Temples will be present from nearly every State in the Union. Wednesday will be devoted to the reception of visiting bodies. On Thursday will occur a parade and review of the Temples. Friday will be devoted to prize drilling, to close with a reception in the evening. The arrangements are under the auspices of the Occidental Temple of Chicago.

Denver, 7.—The National Exposition building presents a lively appearance. Exhibitors are busily engaged in arranging their displays. The art exhibition will be exceptionally fine. The Union Pacific, Burlington and Atlantic Pacific Railways are re-arranging their displays, and providing for extensive additions. The Richmond & Danville road, operating in Virginia, has been assigned a prominent space in which to show their cabinet of minerals, reputed the finest in the United States. To complete the iron, coal and precious metal collections of the Rocky Mountains, Commissioner Fertioc of the Millennial Exposition at Santa Fe promises the entire mineral collection at the close of their exposition.

Chicago, 7.—The *Inter-Ocean* this morning presents a crop report covering a wide area of the West and Northwest, and the tenor is to the effect that wheat, except the winter grain and the corn crop, will equal last year's yield. Weather that was unfavorable to corn induced one of the heaviest crops of hay ever mowed, which to a great extent is already cut and cured. Barley and oats are unusually good everywhere, and promise an unprecedented yield, while the recent hot weather has proved extremely favorable to growing corn. The crop of wheat is about an average, and harvests of winter wheat in the lower latitudes are large.

Montgomery, Ala., 7.—Planters are very anxious about the cotton crop. Worms have appeared in many places.

St. Paul, 7.—Advices along the Northern Pacific and branches show general rains last night and to-day. This improved the wheat, which was being forced to a premature head by dry, hot weather. In the Red River Valley it is especially bad, and the rain arrived too late to help that section.

Ely, Vt., 7.—Four companies of State troops arrived early this morning, and found the streets deserted, the riotous miners not expecting them. Eleven of the ring-leaders were arrested, and no resistance was made. Much sympathy is expressed for the miners, some of the families of whom are on the verge of starvation. Women with children in tears appealed to the troops for assistance. Money has been raised to relieve their immediate needs. The mining company propose to pay $2,500 at once, $2,000 next week, and the balance, $15,500, as soon as the ore now in process of refining can be put through and shipped. A large portion of the troops will probably return to-night, and it is thought the danger is over.

*No Whiskey!*

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.
