Robber Arrested.

WAVERLEY, 19.—Cosgrove, one of the Wellsborough bank robbers, was arrested here this morning, and thirteen thousand dollars in bonds was found in his possession; the cashier of the bank was also found in his house.

Claims Against the U. S.

NEW YORK, 19.—The Haytien consul general says that government has made claims against the United States for consequential damages for the loss of Nevassia by American occupation, and for the restitution of the island, and that failing action by the American cabinet the subject will be referred to arbitration.

The Austrian Polar Expedition.

A special to the London *Times*, of the 7th, says the Austrian Polar Expedition left Tromso, in the *Admiral Tegethoff*, on the 14th of July, 1872. They entered a compact drift of ice in 48 east longitude, and worked themselves through until, in 58 deg. east longitude, they reached the coast of Nova Zembla, under Admiralty Peninsula. They sailed along the coast to Beech Island, where they met Count Wiltzeck's sloop *Isbyotnen*. They sailed with him to Bocuent's Island, near the promontory of Cape Nasson, where they remained at anchor till the 21st of August, 1872, on account of south westerly storms. Then a depot of provisions was established. They parted with Count Wiltzek, and steered north-east for some days, and were completely frozen in. They drifted with pack ice fourteen months, first north-east to 73 deg. east longitude, and then north-west, until Oct., 1873. In August, 1873, new land was discovered. They were drifted with ice along this land, and they were frozen in and wintered in 79 deg. 15 min. north latitude, and 59 deg. east longitude. In March and April 1874, sledge expeditions were sent north and west, 82 deg. north lat. was passed, and land was seen to 83 deg. The extent of the land northwards was apparently considerable. The ship being now untenantable was abandoned, starting on the 20th of May 1874 with four sleds and boats. They met open water on the 15th of August, and crossed to Nova Zembla, and went along the coast in search of vessels. They met a Russian schooner on the 24th of August, in Puchowa Bay, and arrived at Vardoe on the 3rd of Sept. The health of the crew was excellent. Engineer Chirsh died in March, 1874, from a tuberculous disease.

Destroyed.

CINCINNATI, 19.—The Marietta and Cincinnati railroad machine shops with the round house and a locomotive are reported to have been destroyed at Parkersburg, W. Va.; loss not less than $20,000.

Governor of Tennessee Answered—New Orleans Quiet—Notice to National Banks—Yellow Fever at Pensacola.

The President has answered the message of Governor Brown, of Tennessee, sent yesterday, to the effect that until a report is obtained from the District Attorney General of the western district of Tennessee, no definite answer can be given; he expresses gratification that the State is taking prompt and vigorous measures against outlawry, but reminds the Governor that the U.S. authorities have also jurisdiction over Tennessee as well as other States in regard to crimes like that in question.

General Emery, to-day, officially notified the Attorney General that Governor Kellogg was reinstated and that the city of New Orleans was quiet.

The National Bank Redemption Agency give notice, that in consequence of the exhaustion of the 5 per cent. fund and the failure of the national banks to make a prompt and general response to the request for an additional deposit of five per cent. of their circulation, it has become necessary to stop the redemption of national bank notes for a short time; the national bank notes on which there is interest due will be counted and paid for, but those remitted after this date will be held till notice is given of resumption.

The Navy Department is informed that there is no abatement of yellow fever in the Pensacola navy yard. Commander Charles L. Franklin died on the 18th, and Capt. Semsle, an ex-revenue officer, is down with the disease.

Letter of Thanks.

NASHVILLE, 19.—Senator Brownlow has sent Governor Brown a letter, thanking him for the prompt and energetic measures he is taking to punish assassins and to preserve the peace of the State.

Addresses from Democratic Committee.

The Democratic State executive committee, this morning, issued an address in which they refuted the charges that there are organized bodies of desperadoes throughout the State, and they say that the recent acts of lawlessness have been committed by a few reckless men, whose deeds are discountenanced by the State. They claim that the attempt to pass the civil rights bill was made in order to [illegible] the passions of the negroes, just before the election, for party purposes, and protest against that bill as iniquitous, and destructive to both races. They deny that immigrants are unsafe here, and cite as proof that thousands of all nationalities live there peacefully. As to social equality between the races they say that no legislation can enforce it, and that such measures only serve to show that they should vindicate the Republican party in general from the responsibility of the agitation of the civil rights bill.

War of Races Feared.

AUGUSTA, Ga., 19.—It was learned this afternoon that about four hundred negroes, headed by a man named Tenant, intended to attack the whites in Edgefield County, S. C., the provocation being that unknown parties had fired on Tenant's house; a party was organized here to go and aid the whites, but a courier brought word that the negroes had been dispersed, and Tenant arrested. There is an uneasy feeling that there will be trouble in Carolina between the whites and blacks, and in that event, doubtless, the people of Georgia, on the line of the Savannah river, will assist their neighbors.

Wool.

BOSTON, 19.—Wool quiet, the sales of the week having been exclusively to manufacturers. Prices are steady and firm for all straight lots of fleece and pulled, but, as usual, on a quiet market, sales could not be forced to any extent except at the consent of manufacturers, who, after purchasing quite freely in the interior and on the seaboards since the 1st of July, are inclined to hold back, and a quiet spell was very generally anticipated. Spring California 22½ @ 43, fall do., bucks and heavy 18.

Curtailment Necessary.

PROVIDENCE, R. I. 19.—A large meeting of manufacturers adopted a resolution that an immediate curtailment of the production of cotton and woolen goods is absolutely necessary to conserve the interests of the State and community; a committee has been appointed to confer with manufacturers on the subject.

Prisoners Bailed.

MEMPHIS, 19.—The Gibson County prisoners appeared before the U. S. commissioner this morning; three were discharged. The remaining six were held in bonds of three thousand each, to appear on Monday next before the U. S. district court.

Fire.

CARROLTON, Ky., 19.—A fire this morning destroyed half of the most valuable square in the city; loss unknown.

FOREIGN.

PRUSSIA.

Ironclad Launched.

KIEL, 19.—The Emperor William, to-day, was present at the launch of the new ironclad, and christened her *Frederick the Great*; the Emperor also received a congratulatory address from twenty delegates from Schleswig Holstein.

GREAT BRITAIN.

Brazilian Chambers Closed.

LONDON, 19.—Advices from Rio Janeiro state that the Emperor, in his speech closing the chambers on the twelfth instant, congratulated the country on its satisfactory relations with foreign powers, and declared that his government would endeavor to promote agriculture by the extension of a railway system; he said a most important measure would be presented next session, looking to electoral and educational reform, and in aid of agricultural interests.

France and Algiers.

It is rumored that the French Government is endeavoring to induce the Bey of Tunis to rectify his boundary, and is erecting forts on the coveted territory. England and Germany, it is said, will protest.

AUSTRIA.

Another of Bismarck's Schemes.

VIENNA, 19.—The *New Free Press* says the expulsion of Danish sympathizers from Schleswig is attributable to a design of Bismarck to force Denmark to enter the German federation; "Bismarck," says the *Press*, "proposed to King Christian that he should enter the *Bund* with his whole kingdom. Germany was then to cede the whole of Schleswig to Denmark, and to guarantee the integrity of Denmark, that the Danish fleet should become an integral part of the main fleet, and that German ports should be established in the Danish colonies, but King Christian declined to accept the proposal.
