the new Fenner Free Seat? It is given free with each box of Sunlight Soap for 50 cents.

WILL THEY GO TO CUBA?

Popularly Understood that Gen. Lee's Division is Bound for the Island.

WHAT COLONEL CANNON WRITES HOME.

Would Take Torrey's Regiment of South Dakota to Havana—Talk of Surrounding our All Volunteer Cavalry.

As the conflict of war is quite and great preparations are under consideration, and the correspondence is flooded with information officials at Washington (it) that there will be a speedy movement of the army of Volunteers. There is much speculation indulged in throughout the country as to what direction will come from. From present indications and conclusions each is prone to say the movement will be southward. Some think at the expense of those who expected it to be set off at the President. It is not unreasonable, however, that all of those who wished to remain and take off will be disappointed—they are as a general rule in some degree, disappointed and some more disposed to complain of the delay and disorder. It is certainly, however, very natural that men who have left all behind and come away to go to war, will be disappointed. That would bring home the Torrey regiment—Rough Riders—from Cuba, Colonel Clark's men, Troop A, and Captain Cohen's boys, who, by now, are doubtless well on their way to Cuba, or at the Philippines, or at Cuba.

But there seems to be some room for hope that the Utah boys will be in the reference to Torrey's North Dakotas or regiment. Colonel Roosevelt, Colonel Wood, Colonel Torrey, Colonel Clark, Colonel Cohen, Colonel Lee, some of the men are desirous to come back to the mountains to participate in performing military duty in the interest of peace. I, for one, have participated in this, and I know that it is a very good thing. Torrey's regiment, as it is now, is composed of men who make a different program necessary. As it stands, Colonel Torrey's men, Cowboys, are the regiment, as a very good regiment, only six weeks in the hospital with typhoid fever. There are other eight cases of fever but milder attacks. The sanitary regulations of the camp are good, and the health of the men is good, many convalescents are in the hospital. The number of deaths is not large, considering the prevalence fever. The number of deaths is not large, considering the prevalence fever. The number of deaths is not large, considering the prevalence fever
