TELEGRAPHIC.

THE VIKING SHIP.

The Celebrated World's Fair Craft Has a Narrow Escape.

IN A STORM OFF LINCOLN PARK.

An Exciting Scene Witnessed by Thousands of People on the Shore.

CHICAGO, June 4.—After having sailed over 10,000 miles without a mishap, the Viking ship had a narrow escape from being wrecked off Lincoln park. The celebrated reminder of the World's Fair festivities was received with great honor on its return from the six month's cruise on the Mississippi river and tributaries, and after the ceremonies was towed to Lincoln park by the tug Merford. The tug could not get near shore and pulled the Viking ship to windward of the entrance of the lagoon. In the meantime the wind had shifted to the north and half a gale was blowing.

The waves began to be formidable and the ship was drifting rapidly toward the beach, while the Norwegian captains continued to argue. They suddenly realized they were about to be wrecked. The stay sail which some one had set when the discussion waxed warm was of no account as the craft would not mind the rudder. Then all the captains got wildly excited. Those in the bow of the boat who were within a few yards of the shore finally dropped the anchor just as those in ... [illegible] succeeded in getting a line to the steamer Sunbeam. The Sunbeam pulled and the anchor held and all the time the spray and rain were soaking the occupants of the craft which was rolling in a trough of the sea. Those ahead wanted to ride the squall out at anchor, while the captains aft insisted on holding on to the tow line. A few guests on board had no opinion as to method, but begged to get out of their present position. Thousands of people along the shore witnesses the strange performance, but could not make out what it meant. When the ... [illegible] on board had about concluded their end had come, the majority of the captains concluded to hoist the anchor. Then the Sunbeam towed the Viking ship away into safety.

The Sea Gives Up Its Treasure.

HUTCHINSON ISLAND, via Titusville, Fla., June 4.—When Lieutenant Ripley, U. S. navy, was engaged in making an examination of the Santa Lucia inlet recently cut and the submerged reef which extends along the coast about three-quarters of a mile off shore, a Spanish silver coin was found which had been washed out from among the rocks. Others were afterward found all within half a mile. Lieutenant Ripley studied out the currents in the vicinity of the reef and the tendency of the drift of metallic pieces on the bottom and located the spot where a vessel probably went to pieces and where the scattered treasure came to come from. Four hundred dollars worth of silver has already been secured and the dates on the pieces are between 1797 and 1807.

The Breckinridge Campaign.

LEXINGTON, Ky., June 2.—Colonel Breckinridge had an audience of about ... persons, of whom twenty were ladies, at Midway today. He spoke for an hour and twenty minutes and scored his opponents. When referring to an address of Rev. Deering, his old war comrade, he admitted the latter's words hurt him worse than anything that had been said against him.

After Breckinridge had finished, Evan Settle, his other opponent, took the stand. Nearly fifty ladies marched ... the hall. Then Colonel Breckinridge and nearly all his followers left the house.

The Trial of Maney.

ST. PAUL, Minn., June 2.—Mrs. Hedberg, widow of the officer who was shot by Lieutenant Maney, now on trial by court martial at Fort Snelling, was on the stand today. Her testimony referred particularly to the letter written by Lieutenant Maney to Captain Hedberg, on which much of the case depends. Frank Blair, attorney for Lieutenant Maney, began his argument to the court.

The St. Thomas Flag Affair.

TORONTO, June 2.—Colonel Hamilton held an investigation into the St. Thomas flag affair last night. The testimony of ten or twelve citizens and the Queen's Own men, eyewitnesses of the affair was taken.

Resolutions Against Utah.

PHILADELPHIA, June 2.—The synod of the Reformed Presbyterian church at today's session adopted resolutions against the admission of Utah to statehood, on moral grounds.

A Race for an Island.

HONOLULU, May 26, per steamer Arawa, via San Francisco, June 2.—The steamer Iwalani sailed last evening in a race with the English cruiser Champion, the prize being an island not yet claimed by any country. On the steamer Warrimoo from British Columbia was a passenger who announced that the English government intended to lay a cable from Australia to the United States, but instead of touching at Hawaii, would touch Necker Island, which is located 400 miles northwest of Honolulu. The provisional government decided to send an officer to the island with power to raise the Hawaiian flag. When the Iwalani started the Champion was preparing to leave on the same mission. The little steamer had an hour's start, and it is one of the swiftest vessels in the island service and they reach the island first.

The island is 150 miles beyond Niihau, or Bird Island, which is recognized as part of the Hawaiian group. The former has always been considered by this government as theirs, but they have never formally asserted their claim, as it was considered rather inaccessible and valueless. It is not certain that any one has ever landed upon it.

THE ISLAND BELONGS TO US.

BALTIMORE, June 3. — Victory Smith, an attorney, claims that should the English cruiser reach Johnson or Necker Island first and raise the British flag, trouble is liable to ensue. He said an American discovered the island in 1856; that a question of ownership between Hawaii and the United States was decided by the Supreme Court of the United States in favor of the United States, and that it is now owned by an American phosphate company.

The Bulgarian Sensation.

ST. PETERSBURG, June 3.—The dismissal of the Bulgarian prime minister, Stambuloff, by Prince Ferdinand, caused a sensation here, but it is not regarded as offering any prospect of the solution of the Bulgarian question, for Russia's objection was not to Stambuloff personally but to Prince Ferdinand's illegal occupancy of the Bulgarian throne, which Russia holds to be an infraction of the Berlin treaty.

THE FLOODED DISTRICTS.

Labor in Great Demand in Portland From Other Places.

PORTLAND, Ore., June 2.—This has been a busy day in Portland. All day long merchants in the flooded districts have been at work moving out goods or raising them on platforms above the water. The river continues to rise and every hour the situation becomes more perilous.

The Southern Pacific is the only railroad running trains into Portland, and they are compelled to stop at the south end of the city, being unable to reach either of their depots.

It is learned from persons arriving here today that the storm last night did much damage along the Northern Pacific between Kalama and Tacoma. Houses and trees were blown down and at Chehalis and Centralia much damage is said to have been done. In this city a hard rain fell most of the day.

Labor is in great demand here and men are getting from 50 cents to $1 per hour. The flood will interfere with the election tomorrow, as many of the polling places are under water.

BRIDGE SWEPT AWAY.

LAMAR, Colo., June 3.—Last night fifty feet of the south end of the bridge across the Arkansas river gave way before the flood and an hour later twenty-five feet at the north end was swept away. The river covered all the bottoms and was a mile wide at the bridge.

It is impossible at present to estimate the amount of damage done. The water reached a higher point during the present flood than ever before.

MINES FLOODED.

DENVER, Colo., June 3.—J. E. Murden, contracting freight agent of the Union Pacific, is in the city, having walked all the distance from Central City to Golden. Mr. Murden said:

"No one can conceive of the destruction in that part of the country. Every mine in Central City and vicinity is flooded, and there is not a vestige of a placer mine left in Clear Creek."

FOUR PEOPLE DROWNED.

PUEBLO, Colo., June 3.—No other bodies of people drowned in Wednesday night's flood have been found and the list of fatalities remains four. The flooded area is rapidly being drained through trenches and steam pumps are raising water from the cellars.

COMMONWEAL NOTES.

Ralston's Men Arrested and Returned to Denver.

ELLIS, Kas., June 3.—The eastward progress of a band of commonwealers came to an unexpected end this evening and instead of being sent on to Kansas City they were hustled back to Denver under a guard of deputy United States marshals. On Saturday morning about seventy-five commonwealers, under Captain Ralston, came in from Denver over the Union Pacific road. Superintendent Brinkerhoff, after communicating with General Attorney Williams, of Topeka, decided that the men must not be hauled out of this station and issued orders that all freight cars should be abandoned rather than carry them out.

The captain and two lieutenants were not allowed to go, but were taken to Leavenworth tonight and will be held for trial.

THEY FARED SUMPTUOUSLY.

KANSAS CITY, Mo., June 3.—The Aris and Bennett band of commonwealers, who arrived in Kansas City, Kan., last evening, moved into the Jockey Club park today and hundreds of people from both cities visited the camp. The 'wealers were fed by the Knights of Labor assembly of Kansas City, Kan., and they fared sumptuously.

KELLY'S ARMY.

ST. LOUIS, Mo., June 3.—The last heard from Kelly's contingent was at Geneva. The city board appointed a committee to meet Kelly's advance guard and furnish provisions for his men.

Well Paid Stump Speeches.

BOSTON, Mass., June 3.—By an unprecedented ruling of Judge Putnam in the United States court, Helen M. Gougar of Lafayette, Ind., has been compelled to file answers to questions put to her by Congressman Elijah J. Morse, in the now famous libel suit, in which Mrs. Gougar asks $25,000 damages.

Some of the answers are as follows: The defendant inquires if Mrs. Gougar received compensation for political speeches; she answers "yes." In Massachusetts during the past Presidential campaign she received $5,000 for fifteen speeches. In 1890 she received $1,000 from the Prohibition party for speaking once or twice per day for a month. She also made other speeches in other states and received compensation. She admits she stumped the state of Indiana for Blaine and Logan in 1884, but only received $100 for some speeches outside the state. She also stumped Wisconsin, Illinois and Kansas for Blaine in 1884 and received pay.

President Ezeta Resigns.

PANAMA, June 3.—The *Star and Herald* has received the following dispatch from San Salvador: In the battle at Santa Ana on May 24th the government troops under General Antonio Ezeta were defeated. General Ezeta died. Six hundred soldiers were killed. General Bolanos was wounded. President Ezeta has resigned in favor of Carlos Bonilla. A counter revolution is sure to break out, as Bonilla is not generally accepted.

The Bullet-proof Coat.

LONDON, June 3.—Herr Dowe, inventor of the so-called bullet-proof coat, has written a letter to the *Times* offering to forfeit the purchase money to anyone who buys his coat if it contains either iron or steel. He declares that his invention is for sale, at a price much under the £250,000 mentioned in the newspapers.

GOVERNOR WAITE PROFANE

All Hope of Aid from the State Militia Given Up.

Mine Owners Agree to Pay the Wages Demanded but Refuse to Employ only Union Men.

COLORADO SPRINGS, Colo., June 2.—At the conference between Governor Waite and the mine owners the governor demanded that all strikers should be granted immunity from persecution for past acts.

The mine owners consented to pay the wages demanded by the strikers, but refused to employ none but union men. When informed of this Governor Waite said:

"When the mine owners appoint a man to arbitrate, then I am ready to do so. I would not arbitrate with every d—— d—— lawyer in Colorado Springs."

Sheriff Bowers served the governor with an official notice calling for troops. Waite replying, shaking his fist:

"If the d—— d—— mine owners want peace, they can have it, in five minutes."

GEN. M'COOK READY TO LEND A HAND.

DENVER, June 3.—When Governor Waite made his curious reply to Sheriff Bowers's request for troops all hope of receiving aid from the militia was given up.

Governor Waite, Lorenz, his private secretary, and John Calderwood, president of the miners' union, left Colorado Springs for this city at 12:30 o'clock this morning, and arrived here about an hour later. Governor Waite and Lorenz immediately went into conference with the Governor's advisers. Calderwood went where no one but Waite and Lorenz can find him.

Sheriff Bowers followed Governor Waite to Denver on the next train. Today he made another appeal to the governor for troops, but so far the demand has proved ineffectual. General McCook, located at Fort Logan, has prepared himself for a call and is in readiness, though how he can be called upon is a mystery.

THE TROUBLE ON WHEELING CREEK.

BELLAIRE, O., June 3.—An Associated Press reporter has just arrived from the seat of the miners' troubles on Wheeling creek. All the conditions are ripe there for a bloody encounter. Four hundred miners are in camp at that point and will allow no trains hauling coal to pass over the line.

STRIKERS SCATTERED.

WASHINGTON, Ind., June 3.—The state troops marched into Clarks station this morning, 5,000 strong, with a gatling gun, to find that only about fifty miners had stayed to face the music. The militia was drawn up in line along the edge of the woods and Sheriff Lemming then read the warrant against the miners for riotous conspiracy and placed three of the leaders under arrest.

SULLIVAN, Ind., June 3.—The state militia arrived in Sullivan this morning. The companies stopped over here and waited until the trainmen could get an engine to pull the coal out of Shelburn. They came in through the crowd of miners and citizens who there surrounded the coal train.

THE STRIKE BROKEN.

CANNELSBURG, Ind., June 3.—It is apparent tonight that the backbone of the strike has been broken. The formidable appearance of the militia is what has done the work. The Washington miners deserted their colleagues and the hearts of the Cannelsburg miners are too faint and their numbers too few to do anything but submit to the power of might.

READY TO FIGHT.

CRIPPLE CREEK, Colo., June 3.—All day long the striking miners have been on the alert, expecting that any moment some of Sheriff Bowers's deputies would put in an appearance in some remote portion of the camp. One shift was put in on the Moose, Ella-ton, Prince Albert, Gold Dollar, Ingham, Jack O., and a few other properties, but the managers of these several mines were informed at noon that it would be impossible to run any of the properties tonight.

The men are now confident that they will be attacked some time tomorrow, and that the hour may be directly after midnight. They are ready, and this is so well known by the deputies that the officer commanding is using the utmost caution.

Wheat a Failure in Western Kansas.

TOPEKA, Kan., June 3.—Reports from the western part of Kansas are very discouraging, and show that the wheat in that section is a total failure. There was very little wheat raised west of the center of the state, and unless the conditions immediately change there will be no corn raised. In many counties there has not been any rain for more than a year, with the exception of light showers.

THE PUBLIC

Appreciate the Wonderful Cures Being Effected by Drs. Shores & Shores' New Treatment.

THEIR PARLORS TOO SMALL TO ACCOMMODATE THE LARGE CROWDS THAT CAME LAST WEEK.

Judge for yourself, call at the offices of Drs. Shores & Shores, see their parlors, always crowded, come and talk with their patients, they can tell you if the treatment is curing them, note the difference between the real and the imitation. Then you can have only one opinion, the same as hundreds of others have, that this is the only reliable medical and surgical institute in the city. Drs. Shores & Shores, consulting physicians. They found no sham, they run their business on their own names, are honorable, skillful and conscientious physicians.

MR. F. BARROW.

HE WAS DEAF

When He First Came to Drs. Shores & Shores.

Mr. F. Barrow, a popular young man in the employ of J. S. Morse & Sons, coal office, 135 South Main street, says:

"I was always catching cold, every spring I would have a trouble one that I could hardly get rid of, and to neglect I attributed the cause of my recent affliction.

"I had a severe cough that was alarming to my friends and many symptoms that were disagreeable and annoying. But my worst trouble was the catarrh in the head and which caused catarrhal deafness and made me almost ...

ENTIRELY DEAF.

"I was advised by friends to go to Drs. Shores & Shores, and I am glad, for I can say I CAN NOW HEAR AS WELL AS EVER."

Any one who wishes can call on Mr. Barrow in the office of J. S. Morse & Sons, 135 South Main street.

I COULDN'T WALK.

A Block Without Support, Says Mrs. G. W. Sharp, Who Resides at 345 West Sixth North Street.

I was in a very weak and emaciated condition. I had no appetite, and what I did eat distressed me; eyes weak, pains in the back of the neck. I lost flesh rapidly, and my condition was very serious. I treated with many other doctors, but they made me worse. Last winter I was very sick the entire time, and when I came to Drs. Shores & Shores I had little hopes of being cured.

In conclusion, I will state that under Drs. Shores & Shores's new treatment I

HAVE GAINED NINE POUNDS.

In fact, I feel like a new woman.

Mrs. Sharp resides at 345 West Sixth North street, where she can be interviewed.

Drs. Shores & Shores.

Specialists,

Zion Medical and Surgical Institute

34 E. Second South Street.

Specialties: All diseases of the Eye, Ear, Nose, Throat and Lungs, Female, Rectal and private diseases. Our treatment for Piles is new, painless, safe and certain. Our own method.

Office hours—9 to 12 a. m., 1 to 5 p. m. 7 to 8 p. m. Sundays, 11 a.m. to 1 p.m.

Five dollars a month for all Catarrhal Diseases. Medicines furnished free from our own laboratory.

If You Cannot Come to Salt Lake

Write for the mail treatment. One of the physicians in personal charge superintends the mail department and by a system of close correspondence controls those out of the city quite as well as those who come to the office. Send for symptom blank. Medicines shipped carefully. Try this treatment.
