MARKET REPORTS

NEW YORK MARKETS.

New York, June 15.—Prices dropped upon sales of the stocks going under the leadership of Sugar, which pulled 2 points. Consolidated Gas rose almost as much. The coal stocks showed strength. Federal Steel broke in the forefront of the movement. The labor troubles in Colorado caused weakness in Denver & Rio Grande, both preferred and common, which were off a large fraction. American Smelting, preferred, dropped 3 points, which were matched on on the double deals of yesterday. Amongst the rails rising in company with Lowland Sugar were Chicago Terminal. The general market moved independently and showed steadily upward. The tobacco stocks gained fractions.

Business in bonds was so to speak prevalent to refuse for price of the medium grade railroad issues.

The 5ths was toward the lower level, but changes were small upside the four percentages that describe the movement of the day's trading. Practically all the active issues were higher on. The Coupons were lower and heavy at let decline in most cases.

Can You Use A GOOD Set of

Brains?

GRAPE-NUTS

Are made of food elements that feed directly to rebuild the brain.

A BRAIN MAKER.

If one cares for good, sturdy health with which to hold up a business or profession and happily conduct a household, circumstances must be paid to the food. But food, or good food properly cooked, comes strongly forward as a factor in the problem, and a carefully selected food and general education in food matters is important.

People who have been long-time users of Grape-Nuts for breakfast can attest to having the highest quality of nourishment, and that perfectly digested, ready for the blood, stored at the factory and now into the package ready for cooking and serving. Grape-Nuts, with cream and milk or cream or with cold milk (cream or not) is a delicious dish.

Either form gives a delicious dish that may relish morning after morning, and brain-workers notice a distinct and agreeable mental effect. Grape-Nuts is a special food prepared for the delicate digestion of natural peptonic of malt taken from the grain and with the phosphate of potash and lime directly to rebuild brain and nerve centres.

Look for the proof in one's own body in the best argument. Try Grape-Nuts for ten days. A good stocky set of brains may start you into a great career.

BOSTON WOOL MARKET.

Boston, June 15.—Lewis, American Wool and Cotton Reporter, will say tomorrow: "The wool market has continued very active during the past week, although the volume of business actually transacted is slightly less than that of the previous week. More wool has been sold than any week for months, more buyers have been willing to make concessions, and consumers, who have done most of the buying, have shown more of a disposition to meet the views of the sellers than they have shown for a long time. Sales have been made at fully 2c per pound for the cloth, which they generally have not been willing to pay before. In the country there is as much or more wool offered, and advancing of asking prices is quite general. Foreign wools are strong but quiet.

"The sales of the wool in Boston amounted to 1,611,000 pounds domestic and 321,000 pounds foreign, making a total of 1,932,000 pounds, against a total of 1,831,000 pounds for the corresponding week of last year. For the year, Boston's receipts have amounted to 111,036,000 pounds, against 52,891,311 pounds last year."
