bines do you suppose there are in the high-toned lodging houses on Montgomery, Kearney, and other streets? Hundreds upon hundreds, in constant service for the past five atreets? Hundreds upon hundreds, in constant service for the past five and Mrs. Fawcett have the deep-

streets? Hundreds upon hundreds, living in open defiance of law. Who are their supporter? Why, the prominent doctors, lawyers, capitalists, politicians, bankers and weil-to-do men about town. The great majority of these lechereus rascals have wives and families. These are the very fellows who owo front pews in fashionable churches; they are the sanctimonotous hyponotection. they are the sanctimonious hypo-crites who are loudest in their de-nunclation of what they call concubinage in Utah.

"There is this difference between the concubinage in Utah and that in our midst. In the former place the man is married to her who is styled a concubine by the Gentile world; he has to protect, defend and support her. He has to treat her as a wife, and she is recognized as such in the community in which she lives. If she has children they are legitimate.

"In San Francisco a Gentile-Mor-mon-for the Gentile is practising Mormonism as a species of sensual-ity-has his concubine as a slave to minister to his passions. If she has children they are bastards. She is nothing but a mere animal. She has to subject her body to the will

of the man who supports her. He can turn her away when he pleases, desert her at his fancy. San Fran-cisco concubinage is little better than slavery of the most degrading A Belgrade special confirms the report of Servia's military prepara-

character. The concubines look well on the streets, dressed gaily, or airing themselves at the theatres in airing themselves at the theatres in butterfly array. But there are ter-rible lacerations of the heart, fearful convulsions of the soul among the women doomed to this condition of concubinage. concubinage.

"Suppose that you pelted stones at the glass windows of those who support concubinage in this city. Ah! there would be a startling smash all round. Everybody knows not the guilty ones, but the guilt is there.

"Before making fierce newspaper attacks on the saintly Mormons, far away, would it not be fun for the populace to throw a few telling shot and shell at the real Mormon (hypocrites) in our midst?"

According to all we can learn, there is an abundance of "concubinage" and also of polyandry in some sort in California, and both of a very low and debasing sort. But of concubinage in Utah, of any sort, we know nothing. Utah plural marriage and California concubinage are essentially different institutions, as different as light from darkness, as wide apart as
