COUNCIL SESSION.

Milk and Water Franchise to the Salt Lake and Los Angeles Railroad.

WANTS FIVE SANITARY INSPECTORS

To Experiment With the Disposition of Storm and Irrigation Waters.

The City Council met in regular session last night. The members present were Hiles, Wantland, Beardsley, Evans, Kelly, Lawson, Folland, Horn, Kerrich, Rich, Moran, Hardy.

In the absence of President Lombourne Councilman Beardsley was chosen chairman. Three quarters of an hour was lost in waiting for a quorum and it was 8:30 o'clock when Recorder Stanton finished the reading of the minutes.

The Proceedings

Contractor Bowman of the joint City and County building sent in a communication announcing that it was impossible for him to secure certain kinds of floor joists for the joint City and County building, without a delay of thirty days in the work. He therefore recommended that steel beams be substituted.

Moran (indignantly)—I move that the communication be tabled for one week. This is exactly the same proposition which came before this body two weeks ago and which at that time was tabled indefinitely.

Evans—Is it true that is the same matter?

Moran—It is, and I don't propose that the scheme shall carry either.

Rich—I move that it be referred to the city members of the joint committee. Carried.

Elijah Sells and others asked that they be permitted to connect Mount Olivet cemetery with Parley's canyon conduit. Committee on waterworks.

E. H. Jenkins and others asked for an extension of watermains. Committee on waterworks.

J. B. Riggs and others asked for an electric light at the corner of Eleventh East and Sixth South streets. Committee on improvements.

E. F. Crandall and others asked that Tenth South street between Fifth and Eleventh East be put in a passable condition. Committee on streets.

Samuel Rishton asked for an extension of watermains on Fifth South street between Twelfth and Thirteenth East streets. Committee on waterworks.

Charles Swede asked for a free fruit peddler's license during Conference. Committee on license.

Fanny Warner asked for permission to lay her own sidewalk. Board of public works.

Borsdal Williams made a similar request. Same reference.

F. E. Wells and others protested against the City Railway company being allowed to erect a waiting room on First South street near East Temple street. Committee on streets.

J. W. Jenkins and others asked for an extension of watermains on First North between Seventh and Ninth West streets. Committee on waterworks.

The Wenatch Asphaltum company asked permission to put in wagon scales in the street in front of the company's works on Fifth West street. Granted.

Fred Smith asked for a free license to peddle fruits. Committee on license.

The city coal dealers asked that a committee be appointed to confer with them in the matter of appointing inspectors. Committee on markets.

A. Keyser and A. Fisher asked for the acceptance of their sidewalk in lieu of the tax levied. Board of public works.

E. W. Taylor and others asked for the extension of sidewalk on Second South street between Eighth and Tenth East streets. Referred to the city engineer for an estimate.

Z. C. M. I. asked to be allowed to lay a street crossing of stone blocks over East Temple street in front of their place of business. Board of public works.

Wm. H. Moles and others asked for an extension of time in which to pay their water assessments. Committee on waterworks.

Henry McEwan and others asked permission to lay their own sidewalks. Board of public works.

S. S. Stone sent in a communication in which he offered to take charge of all the weighing of coal for $250 a year. Committee on markets.

SIDEWALK AND WATERMAINS.

The city recorder reported that sidewalk intention No. 50 to extend sidewalks on South Temple street from State street to Fourth East had been published as by law provided, and no petitions had been filed in his office. Referred to city attorney.

The same official reported that the plats pertaining to local assessments for the extension of watermains on Roper, Eleventh East streets, etc., had remained on file in his office for ten days, and the notice of completion of assessments had been published as provided by law. The usual order was made.

RICH SECURES A PETITIONER.

Councilman Rich sent in a petition asking that the city attorney be instructed to prepare an ordinance providing that all electric wires be placed under ground within the paving districts. Committee on municipal laws.

PAVING ALLEYS.

The same petitioner asked that the city engineer be requested to estimate the cost of paving all alleys leading in and out of blocks 1, 2, 3, 4 and 6, as required by ordinance. Laid on the table.

GOING TO CALIFORNIA.

Recorder Stanton sent in a communication announcing the contemplated departure to the coast on Saturday next for a period of five weeks. Received and filed.

SIX HONOR DOESN'T LIKE THEM.

The Mayor announced in writing the withdrawal of the appointment of James Terrell and D. B. Carson as policemen. Filed.

FIVE SANITARY INSPECTORS.

Health Commissioner Beatty asked that five sanitary inspectors be appointed to complete taking the sanitary census. Sanitary committee.

Health Commissioner Beatty recommended the removal of a stagnant pool of water on Sixth West between South Temple and First South streets. Committee on streets and sanitary regulations with power to act.

STONE FLAGGING WALK.

The board of public works reported favorably on the petition of the Salt Lake Dramatic association to lay stone flagging sidewalk in front of the Theater. Adopted.

A CONDITIONAL GRANT.

The Jordan canal and irrigation committee recommended that the petition of Mels E. Steele asking that the course of the Red Butte ditch be changed, be granted if the petitioner desires to do the work at her own expense. Adopted.

CANNOT PLEAD.

The same committee recommended that the petition of S. Swan et al. for flumes on West Temple street at Vance street and on Paxton avenue and Lucy street be denied. Adopted.

STORM AND IRRIGATION WATERS.

The board of public works reported that in providing a means of conducting storm and irrigation waters across street intersections on the four blocks on West Temple street soon to be paved, we recommend that in place of wooden basins and culverts as used on State and East Temple streets, a trial be made of the ordinary gutters with heavy cast iron covers. Adopted.

THE STREET NAMING MUDDLE.

The city engineer reported as follows in the matter of changing the names of Sulphur street to St. Louis avenue, of Byron street to Wilson street, of A street to Douglas avenue (On February 14th A street was changed to Byron street and on March 7th Byron street was again changed to Wilson avenue. The alterations necessary to be made in consequence of these frequent changes disfigure the maps to such extent as to practically ruin them. The change of A street and Douglas avenue to Harlow street does not obviate the difficulty sought to be avoided as there is already a Harlow street in the northeast portion of the city which will make necessary another change. I recommend that no further action be taken in these matters before your committee on streets shall have investigated the question of names throughout the entire city. Adopted.

MISCELLANEOUS.

The committee on sewers recommended that the petition of Quan & Knight that they be allowed to connect with a sewer be granted. Adopted.

The committee on streets recommended in the matter of the petition of Jennings et al., asking that First street and Center be graded, that the street superintendent be instructed to sufficiently grade those streets so to put them in passable condition, the total expense not to exceed $100. Adopted.

The committee on streets recommended that the petition of W. K. Smedley et al., asking that grades be established on the North Bench, between Ninth and Thirteenth streets, be granted, to cover grades as for north as Eleventh street. Adopted.

GRAVITY SEWER EXTENSION AND BIDS.

The committee on sewerage reported recommending that the gravity sewer be extended to Tenth South street and that the city engineer is hereby instructed to add this extension to his plans and specifications so that the whole can be included in one set of plans and specifications. Adopted.

The following resolution was adopted:

Resolved, That the board of public works and the city engineer be and the same is hereby authorized and instructed to proceed to advertise according to law for bids for constructing the gravity sewer outlet, the plans and specifications which have been made by the city engineer and the said advertisement shall invite bids for both concrete and brick masonry, reserving to the city the right to use either or both in the work.

CITY REPORTS.

The committee on enrolment reported on the matter of printing the reports of the heads of the departments and recommended that 250 copies of the combined reports be secured, at an average of $1.29 per page, and that the Salt Lake Lithographing company be awarded the work. That 250 copies each of the annual reports of the health, police, fire and waterworks departments be printed separately, in pamphlet form, for exchange and distribution. That the committee be authorized to have printed 100 copies of the rules and regulations of the police department as per request of the chief of police, made in his report to the Council. That fifty copies of combined reports be ordered, bound in full cloth.

The estimated cost of printing combined annual reports, at $1.29 per page, $262.80.

Approximate cost of printing department reports in pamphlet form comprising about 100 pages, at 22½ cents per page, $22.50.

The report was adopted.

The committee on police reported as follows in the matter of the ordinance prohibiting boys visiting saloons and billiard rooms: We recommend that the ordinance be amended by striking out the words "twenty-one years" and in lieu thereof insert "eighteen years" and that the said ordinance be put upon its passage. Folland sent in a minority report reading: I concur with the above except as to age. I think the ordinance should conform to the Territorial law as to age, and that whenever the word "boys" occurs, "persons" be substituted.

The majority report was adopted and the ordinance passed.

NEW JAIL PLANS.

The committee on prisons submitted plans and specifications of the new city jail. Laid on the table until Friday night.

APPROPRIATIONS.

Appropriations were made aggregating $7,017.00.

SALT LAKE AND LOS ANGELES RAILROAD.

Evans offered the following:

Resolved, That the Salt Lake and Los Angeles Railway company be permitted to place a car on South Temple street or the south side, from a point near Eighth West street to a point near and west of the intersection of South Temple and Ninth West streets, and on connection with the Rio Grande Western railway near south of the same intersection, in accordance with a recommendation of the city engineer with regard to distance from center line on South Temple street, and that the said company relinquish all right and privilege heretofore granted and now used on the north side of South Temple street, east of Eighth West street, upon privilege to be granted upon condition that said company remove the engine now located on the street near the river, and to place the same in good condition for public use, and further, that that portion of the petition asking for any privilege east of Sixth West be not granted.

The following resolution introduced by Councilman Lombourne at the last meeting, was also read:

Resolved, That the Salt Lake and Los Angeles Railway company be, and hereby granted the privilege of running a switch line to track on South Temple street, from the south to Sixth West street, to connect with the Rio Grande Western Railway company's track on Sixth West street, between South Temple and Third South street; that the said privilege be granted temporarily through the turning course of line, and be subject to revocation by the Council at any time after the close of the building season, and this privilege, if accepted by said company, shall be in consideration that said company shall remove and switch at our time whenever this privilege may be revoked by the Council.

Rich moved to amend Evans' resolution as follows: That the Salt Lake and Los Angeles Railway company shall be allowed to connect on the south side of South Temple street at the intersection of Sixth West street with the Rio Grande Western Railway company's track, providing they do not accept of the resolution as offered by Mr. Evans, by reserve their right to run to the south side of South Temple street.

On motion of Lawson the words "south side of South" were stricken out from Sixth West street in the second line of Evans' resolution, after which it passed and the Council adjourned at 12:30 until Friday night.
