DESERET EVENING NEWS: TUESDAY, FEBRUARY 5, 1901.

showing 85 ounces gilver and \$1.70 in gold for one car, and 96 ounces silver, 8 per cent copper and \$2 in gold for 5 cars of ore. One Very Common Cause, Generally

Judge Bartch and A. E. Snow expect to visit the Martha Washington this week to decide on the work to be done. It is probable that the company will decided to sink deeper.

Assays from the Burton group in Park Valley are said to run better than \$400 per ton in gold. A number of sam-ples have been brought to town by Ed. F. Squires, which show an abundance of free gold. The samples were taken from the surface.

Manager Packard of the Star Con. expected to settle this afternoon for four cars of ore. Regarding the re-ported strike on the 400 Mr. Packard says that while it looks extremely favorable no ore to speak of has yet been encountered.

The electric plant of the Con. Mercur has been put into commission, and the service of the Telluride Power company has been discontinued. No doubt is expressed that the change will be in the interest of economy.

The Engineering and Mining Journal says the copper market remains dull and uninteresting. There appears to be more inquiry on this side and manufacturers are reported to be very busy. It is believed that their stocks are much depleted. The market for standard in London has declined slightly.

At the shareholders' meeting of the Dewey Consolidated Mining and Milling company recently held at Bingham. John T. Hodson was elected president; G. L. Bemis was elected vice president, and F. H. Bemis, secretary and treas-urer. A dividend of \$750 was declared at the meeting.

number of cases made gains of a oint. Changes were otherwise frac-

compared with 521/2 last night.

point.

eases have headache as a prominent symptom; derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill fitting glasses all produce headaches and if we could always locate the organ which is at fault the cure of cheting to headaches at fault the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the headache is lo-cated in back of head and neck it is often caused from catarrh of the stomach or liver. At any rate catarrh is the most com-

A CAUSE OF HEADACHE.

Overlooked.

Headache is a symptom, an indication

mon cause of such headaches and the cure of the catarrh causes a prompt disappearance of the headaches. There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new inter-Stuart's Catarrh Tablets, a new inter-nal remedy in tablet form, composed of antiseptics like Eucalyptol Gualacol and Blood Root which act upon the blood and cause the elimination of the catarrhal polson from the system through the natural channels. Miss Cora Ainsley, a prominent school teacher is one of our normal schools teacher in one of our normal schools, speaks of her experience with catarrhal headaches and eulogizes Stuart's Cat-arrh Tablets as a cure for them. She says: "I suffered daily from severe frontal headaches and pain in and back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from catarrh, more or less for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case because the headaches were al-ways worse whenever I had a cold or

fresh attack of catarrh. "Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant catarrh cure and after using a few fifty cent boxes which I pro-cured from my druggists I was sur-prised and delighted to find that both the catarrh and headaches had gone

for good." Stuart's Catarrh Tablets are sold by druggists at fifty cents per package under the guarantee of the proprietors that they contain absolutely no co-caine (found in so many catarrh cures) no opium (so common in cheap cough cures) nor any harmful drug. They contain simply the wholesome antiseptics necessary to destroy and drive from the system the germs of catarrhal

tent was nothing new, but had been used for years and had been invented by others.

Judge Moses Hallett of Denver, United States circuit judge, in this litiga-tion held that there had been an intion held that there had been an in-fringement. An appeal was taken to the circuit court of appeals, which, at a session at St. Paul, October 8, 1900, affirmed the Hallett decision. Brown alleges that the defendant company well knew of this litigation and of his claim that it was an infelment

of his claim that it was an infringer. He asks judgment for all profits from the use of his invention, for a perpetual injunction against the use of his fur-nace and for costs and general relief.

BIG COMBINATION.

Four British Columbia Smelter Com-

panies Will Consolidate. Montreal, Feb. 5 .- At the annual meeting of the Knob Hill Mining company of Rossland, President S. H. C. Miner reported that an agreement had Miner reported that an agreement had been reached between the directors of the Knob Hill, Ironsides, Grey Eagle, and Granby Smelter companies to com-bine. The plan is to form a new com-pany under the name of the Granby Consolidated Smelting & Mining com-pany, limited, with a capital of \$15,000,-000, of which \$2,000,000 is to be held as transary stook. treasury stock.

Rich Ledge on La Sals.

A letter just received from Dewey, on the Grand river, states the ledge recently discovered by M. I. Fowler on L. Sal mountain is panning out bigger and better than the most enthusiastic of the miners in that section had expected it would. The first three tons run at the little mill at the foot of the moun-tain and below the Wilson mesa, gave \$37 for the lot, exclusive of the tailings loss

At a depth of less than fifty feet the vein is eight feet wide and the letter states that in going down several small the dayages in all directions. mill runs have been made, and taking the rock for the full width of the ledge returns of \$90 to \$300 per ton have been secured This statement is vouched for by A. McMillan, in charge of the mill --Emery County Progress,

ing to this showing \$364,571.11 was spent in operating the mine. Of this eum \$19,838.19 was paid out on account of the Grand Central law suit. The mine pay-Grand Central law suit. The mine pay-roll footed up \$163,162.79, while the mill payroll was \$52,086. The sum of \$120,000 was spent on supplies for the mine and mill during the year, while the com-pany's taxes amounted to \$9,333.97.

THE MAMMOTH

Year Amounted to \$585,018.

Improving- Mining Notes.

The annual meeting of the sharehold-

ers of the Mammoth Mining company

was scheduled to take place at the com-

pany's offices this afternoon. It was

expected that a change would be made

in the board of directors, but the names

of the members of the board were not

obtainable at press time. Through the

courtesy of President McIntyre, the

"News" is able to give the main fea-

tures of the report which was to be

presented to the shareholders. This re-

port shows the total receipts for the

year from sales of bullion, concentrates

and first class ore to be \$585,018.14. Of

this sum the company paid \$200,000 in

dividends and closes the fiscal year with

a treasury balance of \$20,447.03. Accord-

pany's taxes amounted to \$9,332.97. The amount of dead work done during the year aggregated 5,574 feet. This was done in a great many parts of the mine, from the 600 level to the 1,900. The greatest amount of work done in any one place was 242 feet. The above work does not include the work done by leasers. Mr. McIntyre reports the mine to be in gread condition and a dividend to be in good condition and a dividend is promised on or about the 8th inst.

THE NEW SMELTER.

Manager Posey Says the Plant Can Take Care of 500 Tons Daily.

W. H. Nutting, who has had charge of the construction of the Bingham Copper & Gold company's new smelter, came to town this morning to confer with the local directors of the company regarding the operations of the plant, since the fires were lighted last week. When seen this afternoon Manager Po-sey stated that the success of the plant was beyond all expectations. It was quite as successful as similar plants quite as successful as similar plants anywhere in the world, and while all the values are not saved, the loss in the slag, has been reduced to a minimum. The most surprising feature about the big plant is its greatly increased capa-city over and above that which the company figured on.

company figured on. "It has been proved," said Mr. Posey today, "that we can treat 500 tons of ore daily when the three stacks are in use, and they 11% 4 03% will all be started up before the end of

around 84%. Lower Mammoth was not so strong today. The opening sale was made at \$4.06, but the stock weakened to \$4.03½ on the closing sale. May Day softened to 29%, but reacted to 40 on the closing sale. Sacramento re-mains firm around 38½, while Star Con. started out at 88¼, and after moving up to 86%, it declined to 86 at the close. Martha Washington möved up to 3, Yankee Con. was traded in at 8%, and Northern Light was much stronger at 4¼. Silver King closed with \$74.50 bid.

BAMBERGER & M'MILLAN.

the month. The next one will be within ten days and before that time the railroad to the mine will be in shape to handle the increased output." Before end of the month the three stacks will have been started on their long race and the value of such a plant to the mining industry of Utah cannot very well be over-estimated. With its success demonstrated other companies may follow in the footsteps of the Bing-ham company, all of which means on ham company, all of which means an increased demand for miners and supolies and consequently more money fo the merchants of this city and valley to say nothing of the prestige among mining men abroad.

ORE ON LOWER LEVELS.

Two Breasts of Good Ore Exposed in the Bulliou Beck.

The news that the Bullion-Beck is looking much beter than it was a few weeks ago will be good news to a num-ber of shareholders. Manager P. T. ber of shareholders. Farnsworth stated today that things were not only cheerful at the south end or in the Muldoon claim, but in drifts from the old workings of the mine proper an excellent showing has lately been made. Mr. Farnsworth spoke especially of the 700 and 900 levels. where two wides of excellent lead-silwhere two where or excellent lead-sil-ver ore has been exposed, having a width of from 5 to 7 feet. The lead values run from 25 to 40 per cent lead on an average, though some assays show as high as 60 per cent with from 50 to 70 cumes silver per tent. as high as to per cont with from so to 70 ounces silver per ton. The outlook is also said to be encouraging in the south end. The assays of the last car could not be learned, but Mr. Farnsworth says it proved good shipping ore.

INFRINGEMENT OF PATENT.

Alleged by H. F. Brown in the Case of the Republic Roasters.

It appears now that there is trouble ahead for the Republic Mining company ahead for the Republic Mining company of Washington, at whose property Mr. D. C. Jackling of this city recently in-stalled a set of Jackling roasters simi-lar to those in use at the Con. Mercur mill, over which he presided for several years. It is not on account of the auc-cess of the roasters. Everything has worked satisfactorily from the start. It is claimed, however, that certain pa-tent rights have been infringed in the construction of the furnaces and an inconstruction of the furnaces and an injunction case which may result in closing down the Republic mill has been ining down the Republic mill has been m-stituted in the federal court. The suit is brought by Horace F. Brown against the officers of the Republic company. In brief the cause of action, according to the Spokane Review is set out in the complaint as follows: March 22, 1832, Horace F. Diewn was "the first, origin-

al and sole inventor" of an ore roasting furnace, which furnace, it is claimed, the defendants are now using. He made the defendants are now using, its indi-application for patent and assigned his rights to Mary C. Brown, who, March 22, 1882, secured United States patent No, 471,264. October 31, 1896, Mary C. Brown assigned the letters patent to plaintiff.

Much space is given to a relation of a test case instituted by Mr. Brown against the Colorado Melallic Extrac-tion company. The latter at the trial set up the defense that the Brown pa-

cossessessessed

Golconda Deal Closed.

Manager John T. English of the famous Golconda mine at Baker City, Ore., is quoted as saying that the deal for the property had been closed.

C. A. Smith of Pittsburg, Pa., repre-senting the purchasing syndicate, paid over a substantial sum and took a bond on the property at a price understood to be more than half a million dollars. The board of directors of the company has been reorganized and Mr. Smith has been made president and manager. He been made president and manager. He has taken possession of the property. The Baker City correspondent of the Spokane Review says it is the purpose of the new company to push develop-ment to the fullest extent, employ a large force and utilize the excellent plant in operation on the property.

Rich Cherry Creek Ore.

Some ding over one and a half tons of high grade ore was received today by Capt. Egan from a prospect in Egan canyon, near Cherry creek, Nevada. A similar shipment was received a short time ago, which assayed 182 ounces sil-ver and five ounces gold per ton, and while it is not expected that this lot while it is not expected that this lot will run so high, it will prove to be of excellent grade, coming as it does from a prospect on which a shaft only 50 feet deep has been sunk. The vein is small but the concentrated values enable he owners to ship it with profit which they could not do if the vein were larger and the values lower.

Asks for a Writ of Certiorari.

Nichalos Hair, and H. F. Poland, agent for the Highland Boy Gold Mining company, swore to and filed an af-fidavit in the district court today,askndavit in the district court today, ask-ing for a writ of certiorari against J. J. Williams, justice of the peace of West Jordan precinct, alleging that Williams made no record on his docket of issuance of a writ of execution and return of garnishment served upon the said mining company, in the suit of William Cooper, Jr., against Hair, and for these and other irregularities a review is prayed for.

MINING NOTES.

Manager Weir of the Ajax was in Tintie today. Three cars of ore from the South Swansta were shipped today.

The Little Chief has levied another assessment of two cents a share. The Cygnet of Stockton reached the market today with two cars of ore.

A small lot of concentrates were reperted today from Toana, Nevada. The Ophir Hill reached the market

today with seven cars of concentrates. One hundred and fifty shares of Ontario stock changed hands last week on the New York exchange at between \$6.75 and \$7. per share.

The directors of the Mammoth Mining company declared a dividend of 5 cents per share or \$20,000 late this afternoot

The Taylor-Brunton sampler re-ported nine cars of ore from Stockton, gleven from Tintic, and three lots from Nevada today.

The Grand Central of Tintic was or the market today with eleven cars of ore which were purchased by the Bingham Copper and Gold company. The Macon City property in Robinson the Macon City property in Norwada, district, White Pine county, Nevada, reported on the market today with a lot of ore. It was shipped by Wm. Hayes of Ely, Nev.

At a meeting of the directors of the Yankee Con. yesterday it was decided to levy an assessment of two cents a share on the capital stock, which will become delinquent March 11th. The last chipment from the Lower rebuilt from the food. Grape-Nuts fo Mammoth was sold today on control is made especially for the purpose.

CAN FOOD DO IT? Importance of the Food Cure

To discover a food that will cure nervous wreck is indeed a Godsend. Mrs. Stella Penal, 1227 West Thirtyfirst street, Los Angeles, Cal., had a very remarkable experience. She says: "About twelve years ago, I was run over by a carriage and my spine in jured. My left arm was partially par-

alyzed, walking was difficult and I had ontinual pains and aches in my who

"To induce a movement of the bow-els, I invariably had to resort to mechanical means. I would sit up in bed for hours, suffering severe colicky pains, caused by the non-digestion of the starch of the food. My heart was to weak that at times no pulse could be felt, and it seemed at times as if I must die. I fainted very often, sometimes lying in a half fainting condi tion for hours, unable to move or speak, though conscious

Shortly after Xmas Providence directed me to buy a box of Grape-Nuts food, which I have since eaten

twice a day. "The improvement in health has been wonderful: now I can eat and digest food, my bowels act naturally and reglarly circulation is better catarrh oderated, and I have gained much in weight and am better every way, can read and think, while before my

eves and brain felt too weak to de either. I can walk a long ways and have not used my alr cushion for some time and I have no further need of it."

This is a direct demonstration of the fact that Grape-Nuts food surely the fact that Grape-Nuts food sufficient does rebuild the soft, gray matter in the brain and nerve centers, and any depleted person can prove this by use. One can not get, well of nervous troubles without the right sort of food to rebuild this curious substance which

is found in the brain and this must be rebuilt from the food. Grape-Nuts food dull, unchanged.

ST. LOUIS WOOL.

St. Louis, Feb. 5 .- Wool, dull, weak out unchanged. BOSTON COPPER.

Boston, Feb. 5.-B. & M., 3.17; B. @ B. 82.

BETTER DEMAND FOR WOOL

Boston, Feb. 5 .- A better demand for wool was apparent in the market this week, and in many cases the sales show liberal increase, although it cannot be said in all cases that even former prices were reached. The bulk of the business ransacted was in the territory grades The range for good lots of fine and fine staple, scoured, is 45947, while the strictly staple is quoted at 48950. Washed fleeces are slow.

COPPER.

New York, Feb. 5 .-- Copper and lead,

Prof. Daynes, this afternoon gave a pleasant organ recital at the Taber-nacle in honor of several members of the "Prisoner of Zenda" company. Miss Little Minister" last night was attend-ed by scenes almost heartrending in Strickland, one of the leading members of that company, and her brother, E.G. Strickland, had the pleasure of hearing Prof. Daynes play "Angels Ever Brigh and Fair" on a previous visit to this city, and it made such an impression upon them that Mr. Strickland wrote h advance to Prof. Daynes asking which said that the evening resulted in disas-ter, and it is all the more regrettable that it might easily have been made a triumph. The production was beauti-fully staged; the scenic artists excelled themselves; Miss Hall rose fully to the occasion in her part of Babbie; Mr. Giblyn did the best work he has ever done in the part of Weary Warld, the policeman; Robert Cummings was in-tensely strong as the stern elder "Tam-mas:" the costuming was correct, and er he would not favor the company with a recital when they reached the city. He gave several numbers which were received with the most rapture enthusiasm by his listeners.

LAND ENTRIES.

ORIGINAL ENTRY.

John S. P. Barton, Paragonak & acres; sections 8 and 9, townsh 3 south, range 8 west. FINAL ENTRY.

Minister, himselt, enacted by Mr. Cummings, walked upon the scene. He scon spread devastation in his train. His overwork-or some-thing else-had rendered him thoroughly unfit to appear, and but for Miss Hall Heirs of Michael Griffin, der Huntsville, 160 acres; section 32, 1985 ship 7 north, range 2 east. Fred Beutler, Marysvale, 160 sers sections 31 and 32, township 27 soul and the prompter, whose voices were heard all the evening supplying him with lines, he would have come to a stock standstill a dozen times during range 3 west.
