PLAYED-OUT NOSTRUMS.—Will codfish oil cure a consumptive cough? No! Will opiate? No! Will inhalation? No! Can such a cough be cured at all? Yes, it can. Reject all these nostrums; they have been weighed in the balance and found wanting. Try HALE'S HONEY OF HOREHOUND AND TAR. Thousands upon thousands are using it. Millions have tried it. So far it has never disappointed any man or woman who took it for a cough, cold, however violent.

PIKE'S TOOTH-ACHE DROPS—cure in one minute.

TO LOVERS of good biscuits, rolls, pastry, etc., we can cheerfully recommend DOOLEY'S YEAST POWDER as being not only reliable, convenient to use, but the cheapest in the end of any baking powder or flour used.

Is daily increasing, and the never-failing results following its use will long make it the leading article of the kind in market. No housekeeper should be without it, as it produces light, elegant and nutritious food, with little or no trouble. For sale in packages to suit customers, by all grocers. DOOLEY & BROTHER, Proprietors, New York.

Dr. C. W. Higgins:

Dear Sir:—I feel that your medicines have cured me of a bad case of Liver and Kidney Complaint. When I called upon you three months ago I was suffering very much, so much so that I had a fit, but since I commenced taking your medicines I have felt better ever since. I feel well and willingly recommend you to all who suffer from chronic diseases.

I am your friend,
J. S. HARKINS.

THE "SHERMAN HOUSE," at Chicago, is the popular hotel with business men and pleasure seekers who visit that city. Its proprietors have the faculty of retaining their guests as regular patrons from year to year.

DR. PRICE'S FLAVORINGS are rapidly growing in the popular favor, as it is becoming known that they are produced by extraction from the fruit carefully selected, not made up with chemical poisons. Each flavor is from the true fruit and aromatic, free from poisonous oils and strong, rank taste. They are natural flavors, obtained by a new process, which gives the most delicate and grateful taste. They are of great strength, and bottles contain half more than those purporting to give the same quantity. We conscientiously commend Dr. Price's flavors as being all that they are represented.

THANKSGIVING PROCLAMATION.—Know all men and women by these presents, that our mutual friend, Crocherson, at his City Fish Market, is selling: Fresh Trout, Mountain Herring and other fish at reduced prices.

WE HAVE ON HAND a large number of grades, slate and iron mantels, for which we are agents, and for C. E. Evans, Mantel and Grate Co., of Cincinnati. This company's productions carried off the prizes at the late Cincinnati Industrial Exposition, as follows: Silver Medal for best Iron Mantels. Silver Medal for best Iron Mantels. Bronze Medal for best Finished Grates.

THE EVENING NEWS.

Saturday, Nov. 7, 1914.

LOCAL AND OTHER MATTERS.

THERMOMETER 39 degrees F. in the shade, at 1 p.m. to-day. Fine, some clouds, breezy.

Meetings.—Religious services in the Ward meeting houses to-morrow afternoon and evening, at the usual hours.

Will French.—Elder Geo. Q. Cannon will preach, at the 14th Ward Assembly Rooms, to-morrow afternoon, at 2 p.m.

Arrived.—Bishop John Sharp arrived from the east last night, as expected.

Lecture.—On Monday evening a lecture will be delivered at the 14th Ward Assembly Rooms, under the auspices of the "Young People's Literary Association" of that Ward, by Bishop Thomas Taylor.

Prisoner Escaped.—On Monday last a prisoner named Cunningham, an alleged hoodlum, fled from the penitentiary. He was pursued by the warden and others, but they had to give up the chase without capturing him.

Notice.—The Board of Directors of the Deseret Agricultural and Manufacturing Society, are requested to meet at the Historian office this evening at seven.

Stormy.—Yesterday's U. P. passenger train from the east encountered a big storm at Evanston. At that point it commenced snowing heavily, and a terrific wind blew up, which latter so impeded the progress of the train that for some distance it could not travel faster than about six miles an hour.

Winter Set In.—After an afternoon's steady rain, snow commenced to fall last evening and continued most of the night, leaving about five or six inches on the ground; the surrounding country having now assumed its winter habiliments. It is probable, however, that a day or two hot sun will change the snow into slush and mud.

Attacked and Beaten.—About five o'clock last evening, Eugene Lascelles, a member of the Salt Lake bar, was attacked and beaten by a man on East Temple Street, nearly opposite the Federal Court House. Mr. Lascelles had just come out of a saloon in that locality, when the attacking party stopped out of an alley, struck him on the head, knocking him down, finishing off with a few kicks while he was on the ground, inflicting injuries of a serious but not dangerous character. The person, whoever he was, then ran off and escaped in the darkness. The injured man was taken to the Pacific House, where his injuries were attended to.

Got Back.—Mr. C. R. Savage, who has been on a professional trip on the line of the Union Pacific Railroad, returned last night, bringing with him a number of views of the Valley of the Platte, Omaha and vicinity and other localities. He went as far east as Chicago.

We learn from him that the gigantic flume at Hilliard, thirty miles long, is now complete, and an average of 400 cords of timber cord-wood is floated down it daily. The flume is constructed on a line of incline and a stream of water is turned in at the head, which flows the timber down to its lower terminal point, a man being stationed every mile to guard against obstruction. This is a splendid enterprise. The major portion of the wood thus procured is converted into charcoal on the spot.

The British Mission.—According to the *Millennial Star* of Oct. 13, a district meeting was held at Nottingham Oct. 3 and 4, the Saturday evening meeting being a priesthood meeting, held in the meeting room, Shakespeare Street.

Present on the stand—Joseph F. Smith, President of the European Mission; F. M. Lyman, President of the British Mission; and Elder John H. Smith, President of the European Conference; Elder R. V. Morris, President of the European Conference; and Elder John H. Smith, President of the European Conference.

On Sunday morning, Nov. 1, the following meetings were held, morning, afternoon, and evening, in the Assembly Rooms, and were

attended by a goodly number of Saints and strangers, who were addressed by Pres. Jos. F. Smith and Elders Morris, Squires, J. H. Smith, and Lyman.

During the day President Lyman baptized nine persons, eight of them new members, making a total of 60 persons baptized in the Conference the last six months. The same number had emigrated to Utah within the same time.

On Monday the Elders and Saints had a tea party and concert in their meeting-room.

The following are from the *Millennial Star* of Oct. 13—

"INFORMATION WANTED.—Mrs. Mary Smith, of Sabdan Bridge, near Whalley, Lancashire, wishes her brother, James Smith, to communicate with her, sending his present address.

"Ann Grey, who emigrated to Utah from London, about sixteen years ago, will please communicate with her sister, Mary Hickwood, 13 Hollowstone, Nottingham."

"Elder A. McFarland writes from Tyne Dock, Durham, Oct. 6: 'Our prospects at present are very good. We have baptized three persons in Newcastle last week.'"

Woman's Exponent, for Nov. 1, contains "Parting Lines," "Woman's Subject," "To the Girls," "To Mother," "Duty of Women," "Woman's Record," "Courtship," "The Boys," "Don't Trifle," "Air," "Don't Let Talent Rust," "The Future," "Notes" of various kinds, "Boston Sewing Girls," "A Woman's Progress," "A Test of Friendship," etc.

Returned Missionary.—This morning we had the pleasure of a call from Elder William N. Fife, of Ogden, who returned a few days ago from a mission to Scotland, his native land, having had charge of the last company of emigrants.

He left Ogden Oct. 20th, 1873, and on arriving at Liverpool he proceeded to Glasgow, having been appointed to labor in the Scottish Conference. After the release, to return home, of Elder Robert McQuarrie, Elder Fife was appointed President of the Conference, which position he filled till he left Europe for home. He organized a branch of the Church at Eastern Benhar, near Edinburgh.

A great many people had become interested in the work through the preaching of the gospel, in different localities, and during last Summer quite a number of persons were baptized. The meetings, especially those in Glasgow, were well attended by strangers. Elder Fife left Elders David McKenzie and Peter Sinclair in good health, feeling well, and with a good prospect of doing an excellent work. Elder Fife is in good health and spirits, and much gratified with his visit to Scotland, and has pleasing recollections of his ministry there.

Theatre.—This evening Mr. Risley exhibits his beautiful Panorama of the River Thames and the City of London, at the Theatre, for the last time. Those who have not seen it should not fail to embrace this last opportunity, and as many of those who have seen it may wish to see it again, the prices to all parts of the house except the gallery have been reduced one half.

There are striking and picturesque views of English rural scenery on this world-famed river, which arrest the attention and elicit admiration; views of quiet rural and sylvan scenes, country villages, noblemen's seats, towns and cities, venerable, ivy-clad ruins, noted regates, noble bridges, and also of the City of London and the Isle of Wight. London, the largest city in the world, is estimated to contain a population of 4,000,000. Supposing this city of Salt Lake to contain 20,000 inhabitants and to cover three miles North and South, then it would be equal to London in population if it were lengthened out with its present density of population and width East to West, until it were 600 miles long, or 250 miles beyond St. George.

Prove.—To-day we had the pleasure of meeting with Bishop A. O. Smoot of Provo. We were pleased to learn from him of the material prosperity of the people of that place. The factory is doing a splendid business. The sales lately exceed the production about twenty-five per cent. The warehouse on hand \$25,000 about six weeks ago, which, by the increasing demand, has been reduced since that time to \$16,000 to \$18,000. Notwithstanding this the factory is turning out 900 yards of material, all kinds included, daily. Exclusive of the usual run of wool purchases, there is enough on hand to keep the machinery going at its present rate, until the beginning of January.

Steps have been taken for the purpose of procuring the additional machinery sufficient to fit the full capacity of the huge building. To make this purchase it will require \$15,000, which is being raised by an assessment of six per cent on stock. This six per cent will raise \$30,000, one-half of which will be used for the purchasing of raw material. The party who will go east to buy the machinery, probably Bishop Smoot himself, will start on that errand in a short time.

The factory is now going largely into the manufacture of the heavier class of goods, such as blankets, shawls, deskings, etc. When fitted up with machinery to its full capacity it will be in position to turn out 2,000 yards of fabric daily.

The surmises and assertions that have sometimes been indulged in by some persons, that the Provo factory was now provided to be used for the purchasing of raw material. as they can successfully compete therewith in point of prices for the same quality of goods.

Exceedingly Democratic.—Here is the first plank of the platform of the Very Democratic contestant for the congressional delegateship of Utah, published just prior to the August election:—

"Resolved, That in Ulysses S. Grant, President of the United States, and his Cabinet, we recognize friends of free thought, free speech, the supremacy of the laws, and determined enemies of theocratic rule and an unreasonable Priest-hood in Utah."

Ogden Junction, Nov. 6.—

The lumber mills up the canyon are closed up, or shut down, whichever you please. Snow is two feet deep on "the divide," and that is enough to send the stoutest hearted lumberman home to the bosom of his family.

Our Status Abroad.

We have called the attention of our readers to the ignorance of and indifference to us existing in Europe. The people there know little, care less, of the greatest nation and best government under the sun.

It were well for us could this fact be realized. Separated by a wide ocean from the great civilized world, we have no means by which to measure ourselves, and in this ignorance have cultivated a conceit that is not only ridiculous but largely in the way of progress or reform. Until we can see our own defects it is impossible for us to remedy them, while there is nothing so operative and destructive as the self-praise in which we puff ourselves. We have been fed on Fourth of July orations until all healthy food is distasteful.

European nations absolutely know nothing of us, and the one from which we claim descent, the one speaking the same language with ourselves, tinctures its ignorance with a contempt that would be charming could we fetch the fact home to our own knowledge.

How pleasant it is to have our President congratulate his constituents upon the influence our republic is exerting over the efforts of despots of Europe and their enslaved subjects, when the most enlightened of those far-off shores have only a dim knowledge of our existence, coupled with the belief that we are a lawless people trying on the experiment of self-government, that so far has succeeded.

Could this humiliating truth obtain at home we might set about some reforms and learn that in establishing certain pet theories we have given up the substance of good government for the mere form of a "government."

We have the most extended and cheapened privilege of the ballot, free schools, free speech and a free press, without any protection, through them to life, liberty or property. Of these we are robbed by the very government we hold up as a model to the world.

We met a United States Senator in England's great political, social and commercial center. We failed to recognize the man. He failed to recognize the article. All the swell had been taken out of him. He was the humblest, quietest and most unassuming individual in the whole circle of our acquaintance. He led us to a corner of the huge hotel and said sadly:

"These benighted people know nothing of us, positively nothing. I have been in the House of Commons and the House of Lords, and the lower orders drink 'hale,' as they call it. I attempted to enter the gallery of the House of Commons and I was stopped by a myrmidon in velvet, who spoke as if it would exhaust his gigantic diplomatic brain to get a United States Senator admission to the gallery of the House. Sir, I am disgusted."
