BUSINESS AND MINES.

Z. C. M. I. Declares a Dividend of $37,000 for the Quarter.

GOOD ORE FROM THE PIONEER.

Wool Growers' Association.—Shoe Removal.—U. P. Receivership.—Mining and Business News.

The directors of Z. C. M. I. held a meeting today, the chief business of which was the matter of a dividend for the past three months. The board decided that for this period a dividend of two and a half per cent would be paid. The sum which thus goes to the holders of stock in this great institution is close upon $37,000. This amount is payable in merchandise on and after Monday the 16th instant, or in cash after November 8th.

The board of directors agreed upon an important change to govern hereafter in the matter of dividends. It was decided that, instead of declaring them quarterly, the former method of making them half yearly would be followed.

THE "PIONEER" MINE.

The Pioneer mine, located in Granite mining district, Elko county, Nevada, and owned by James T. Mahaffey and A. M. Cannon Jr., the latter of this city, has yielded some fine samples of ore which have been brought to town. The ledge at the mine has been uncovered a distance of 300 feet. It is three and a half feet wide, and the vein of ore is eight inches in width. Assays of this showed 300 ounces of silver to the ton, with a considerable quantity of copper and some lead. The quality of the ore is about the same along the entire vein. This has been cut into for a depth of eight feet, showing the ore getting better the farther it is cut into. The owners will push developments on the property.

HEAVY COAL OUTPUT.

Special Telegram to the NEWS.

SHERIDAN, Wyo., Oct. 11.—The Sheridan Fuel company are now working their mines to their full capacity. A number of miners have recently come in from Montana. The daily output will average 300 tons. Sheridan will supply a larger part of the coal for domestic purposes in the southern part of South Dakota and Western Nebraska.

WYOMING'S MINERAL EXHIBIT.

Special Telegram to the NEWS.

CHEYENNE, Wyo., Oct. 11.—There has been considerable talk of removing Wyoming's mineral and agricultural exhibits at the World's Fair to this city, where they will be made part of a permanent display of the resources of the state. The display will be tastefully arranged in the museum room of the state capitol building, and the residents of the state will take pride in showing visitors the varied resources of this commonwealth.

THE WOOL MARKET.

The wool growers' association of Salt Lake county issued a circular today signed by E. Fuller, president, W. L. Putnam, vice-president, W. H. Haigh, secretary, John C. Mackay, treasurer, and Enoch Covey, Chilton Miller and Walter Davidson, executive committee. It is virtually a call on those interested in the wool industry to rally for a campaign in favor of the sheep interest by contributing funds and giving active support to measures that are considered necessary. There is an intimation that unless the sheep owners are active this season the legislature may be induced to enact laws hostile to their interests. This and other matters relating to sheep raising will receive attention, and are urged upon the notice of those interested.

MOVING SHOP.

Robinson Brothers, the "shoemakers," are about to remove into their new business premises, 23 and 25 First South street, near Dinwoodey's furniture store. This change is made necessary by the constantly increasing business of the firm. From a small beginning six years ago they now have an establishment that gives regular employment to seventeen persons, and the intention is to branch out still further. During the twelve months just ended, the firm manufactured and sold 5000 pairs in one class of footwear alone—their "$3 shoes."

THE RECEIVERSHIP.

The announcement this afternoon that S. H. H. Clark, formerly president of the Union Pacific, E. Ellery Anderson and Oliver W. Mink had been appointed receiver for the road aroused considerable interest in business circles. When the rumors came some time ago that a receiver was to be appointed, the denial of the officers that there was any probability of such a move was accepted as a fact, so that the step was in a measure unlooked for at the present time.

The three interests involved, requiring a representative for each, are the first bondholders, the stockholders and the government. The likely result of the move is considered to be the great falling off in business of the road owing to the slump in silver.

NOTES.

The South Africa mine, at Idaho City, Idaho, has a vast body of ore that is estimated to carry from $100 to $150 per ton in free gold.

Dan Heiner, of Morgan county, is making up a train load of cattle to ship to Omaha.

Several Salt Lake county sheepmen are making up a train of mutton sheep, which will be shipped to Chicago early in the week.

Grass on winter ranges for stock in Colorado, Wyoming, Idaho and Utah is reported to be very short this year.

Idaho City World: Locations of placer claims are still being made along More creek from Unsner's place, nine miles below here, to the mouth of the creek. The excitement has been caused by the discovery of pay gravel under the lava. Some of the miners are making as high as $8 per day, but this is considerably above the average. The ground, as a rule, pays good wages, and that is pretty good during these hard times.

Pioche, (Nev.,) *Lode*: The total shipments of ore from the Postman during the week was fifty tons, and twenty tons from the Yuba, all consigned to Salt Lake. There are about twenty tons of high-grade ore from the Lost Chance mine in Highland now sacked and ready for shipment. This is Henry Wollaney's bonanza, and has been operated by lessees up to a short time ago. It is reported that W. T. Rich of Pioche has a contract to take down the mill at Milford and remove it to Good Springs, to be erected on the property at Green Campbell in that district. James Bradshaw of Meadow Valley Wash was here during Monday and Tuesday of this week exhibiting some fine-looking gold ore from a recent find, which we will give full particulars of at a later date. Assays of the ore range from $100 to $400 per ton in gold.

Boise, Idaho, *Statesman*: Surveyor General Straughan is receiving a large number of applications for surveys for mining claims from all parts of the state. The Delamar company is among others who are asking for surveys to secure patents. The Oro Fino mining company, of Wallace, with a capital stock of $500,000, has filed articles of incorporation in the office of the secretary of state. The directors are: James Mason, president; Henry B. Allen, secretary; Geo. Park, treasurer, and C. W. Riley. Fred Paul Tustin says the Moses mill in the Neal district will be started up about the first of next week. The new concentrators just put in will enable the company to work the sulphurets which heretofore have been untouched. This will greatly increase the output. The company last month paid out about $2000 for wages and provisions. This month the amount will reach $2500. All this money is paid out on checks by the Boise banks and the greater portion, if not all of it, is spent here.

The conviction of J. G. Sullivan, who engaged in the notorious proceedings at Eureka last summer, in connection with the miners' union strike, intimates that the rioters are not going to be relieved of all responsibility for their turbulent demonstrations.

SALT LAKE CLEARING HOUSE.

Today's clearing house exchanges amounted to $716,831.

TODAY'S QUOTATIONS.

New York — Silver, 73¾; lead, $3.45.

London—Silver, 33 15-16d.

ORE AND BULLION.

W. O. M. Steward had in today for his assay 134 tons of Ontario. Hill ore, 33 tons of Centennial Eureka ore in two lots, and 14 tons of Hidden Treasure ore.

Wells, Fargo & Co. received today: Mingo bullion, $2800.

McCornick & Co. received today: Hanauer bullion, $3000; silver and lead ores, $6000; gold bars, $20,000. Total, $31,800.

T. R. Jones & Co. received today: Bullion, $3500; ore, $4100. Total, $10,000.

W. A. Hodges had in for assay today 29 tons of Utah ore and four other contracts.

She Was Lost.

About 8 o'clock last night a feeble lady, over 70 years of age and quite deaf, was found at the corner of Seventh South and Fifth West streets, wandering in search of her home. She insisted that that was the right place, but there was no house there. She finally stated that her son-in-law, C. S. Ford, was a policeman, and O. C. Anderson brought her to the City Hall, where it was learned that she lived on Fifth East instead of Fifth West. She had made the mistake in the direction and kept reiterating it without discovering her error. She was taken home.

The Lecture Tonight.

Judge Goodwin's lecture will be given in the First Congregational church this evening, the proceeds to go for the benefit of the Rescue Mission. In addition to the worthy object to which the funds will be devoted, the lecture itself will be of a most pleasing and instructive character, and should draw a large audience.

Land Office.

Frank C. Hunsaker, of Honeyville, Box Elder county, filed an application today for homestead entry to the northeast quarter of section 29, township 13 north, range 3 west.

William Wintworth, of Salt Lake City, filed an application for homestead entry to the southeast quarter of section 32, township 1 north, range 2 east.

Final proof was made today by Hannah E. Hoyt, of Orderville, Kane county, on her homestead entry of the south half of the northeast quarter, the southeast quarter of the northwest quarter, and the northeast quarter of the southwest quarter of section 3, township 38 north, range 6 west.

AMUSEMENTS.

A CELEBRATED CASE. The Salt Lake Stock company gave its second production last evening and the small gathering showed one of two things: Either that the scheme on which the company was organized has lost its novelty, or that the play it selected for its second venture was not attractive to the public. Our own opinion inclines to the latter view. The Celebrated Case has been done here many times before, and generally so badly done that all its native beauties have been completely disguised, and great as its success has been elsewhere, it never made more than a secondary impression here; those who did know of its strength as a drama, perhaps felt that it was too much for the new stock company to attempt. That this was the fact, last night's presentation showed. Mr. Collins is a very capable actor in the dashing sort of roles, but the extreme emotions of Jean Renaud is a notch too high for him to attain to. Miss Annie O'Malley was equally overweighted by the heavy difficulties of Adrienne, and her continuous sobbing grew very monotonous. Mr. O'Malley was the only one at home among the major roles. Mr. Bailey's Lazar was maintained in a manly, true and straightforward fashion. Mr. McNally's villain was fairly well conceived, but the part was a size too large for him. Mr. Westervelt was most feeble. Miss Nellie Otary did the best acting among the ladies. Her last sister, Miss Gertrude O'Malley was overweighted. Miss Witt did fairly well, but was not perfectly easy in her lines. The child had not been well rehearsed and there were some painful hitches in her scenes.

The orchestra's specialties, as usual, and a special war of peace should be paid to the scattering which marks the accurate finishing of. The stock company should feel encouraged by the box office returns last night, and use the temporary lacked demand to a mistake in the choice of a play. With a good modern selection like the Romany Rye, Taken from Life or In the Ranks they would be on a safe way toward bringing the business up to the Tent Orleans standard. A Celebrated Case goes again tonight, and the benefit of one performance are ours to be noticeable in tonight's rendition.

Judge Goodwin's lecture tonight in the Congregational church, on Washington entrance would, as well as to aid in that most deserving charity, the Rescue mission. The lecture will be interspersed with vocal and instrumental music.

TELEGRAPHIC NEWS.

THE SENATE STRUGGLE.

Senator Stewart Resumes His Speech for Silver.

WASHINGTON, Oct. 13.—Vest gave notice of an amendment in the nature of a substitute for the repeal bill. After repealing the purchasing clause of the Sherman act, it substitutes the issue of coin certificates for the uncoined bullion, provides a seigniorage silver treasure purchase, provides for the coinage of American silver deposited by owners at a rate of three million per month, up to eight hundred millions, this coinage to be fairly proportioned among the silver-producing states and territories. The holders of standard silver dollars may have them exchanged for certificates. Authority is given to the secretary of the treasury to stop payment in gold on any obligation of the United States when he is satisfied that gold is applied for exportation. A joint committee of the two Houses is to examine into the financial and monetary condition of the government and the people of the United States. The ten per cent tax on the State bank circulation is to be repealed.

The silver repeal bill was then taken up and Stewart, Nev., took the floor. He resumed his speech where he left off at one o'clock this morning.

Shortly after Pettigrew, S. D., suggested no quorum. Stewart continued his speech.

Declared Himself Dictator.

WASHINGTON, Oct. 13.—The state department has received the following, from the United States consul at Guatemala City: The president of the republic this day, Oct. 12, declared himself dictator and assumed control of the government. He has dismissed the extra session of congress and ordered new elections.

THE UNION PACIFIC.

Mr. S. H. H. Clark Appointed Receiver for the Road.

OMAHA, Oct. 13.—S. H. H. Clark has just been appointed receiver for the Union Pacific road.

Controller Mink has also been appointed one of the receivers. The third will be named later.

Later—A bill of equity was filed in the United States district court today. Judge Dundy appointed S. H. H. Clark, E. Ellery Anderson, New York, and O. W. Mink, Boston, receivers for the Union Pacific railroad. The application for a receiver was made by the executors of Frederick L. Ames's estate, Oliver Ames, Samuel Carr, Edwin F. Atkins and Peter Wyckoff. The announcement of the application and the appointment of receivers came simultaneously about noon.

Who is the Winner.

Taking into consideration the lines allowed and difference in crossing the line, it appears that the Vigilant won by from six to ten seconds. But all these lines are taken from the shore and therefore may be a few seconds out of the way. For that reason it cannot be definitely stated, pending the official time, which boat takes the race.

The Cost of Great Britain's Defenses

The British empire spends, as a rule, upon defense from 250 million to 260 million dollars a year, of which the military expenditure of India, with the indirect expenditure for the sake of India on mobile land forces at home, forms the largest item. Almost the whole of this vast sum is expended out of British taxes or taxes under the control of the parliament of the United Kingdom, and not of Indian taxes under the indirect control of the house of commons through the secretary of state, who is a member of the government of the day. This expenditure, although vast—although open to the reproach that it does not do more than maintain a fleet slightly superior to that of France, and an army of very small numbers—is a flexible as compared (in its ill effect upon the wealth of the nation) with the military expenditure of Italy, or, to a less degree, with that of other continental powers. The evidence of the sure pressure of taxation in India itself, heavy as they are, are slight in comparison with those that are present in the case of Italy, and it may be assumed, therefore, that while the taxpayers of the United Kingdom and India may make their voices heard in insisting upon better value for their money, the expenditure will not in itself be brought to an end by bankruptcy.—*From "Can Europe Afford Her Armies?" by the Right Hon. Sir Charles W. Dilke, M. P., in the North American Review for October.*

Late this afternoon it was stated with considerable force that Mr. Burrows would accordingly receive the endorsement of the committee of fifty at their meeting tonight, the prime reason being the Liberals are determined to run a ticket of their own, irrespective of what the committee may do and the fact that the first Liberal—Mr. Cannon—to whom the nomination was offered sent back an insulting and dictatorial letter to the men who did him honor and that Mr. Jorn, the second choice, replied in a communication that was more of a declination than an acceptance.

AUCTION! AUCTION!

On Monday, Oct. 16, at 10:30 a.m.

No. 26 Fifth South Street, [illegible] eight rooms. Fine parlor chairs, walnut bedstead, bed, cost $125, willow rockers, lace curtains, one hundred and fifty yards carpets, sideboard and dining table, cook and heating stoves, hanging lamps, clock, china, glass and silverware, refrigerator, gasoline stove, three lounges, bedding, and many other useful articles. R. A. ANDREWS, Auctioneer.

FOR SALT.

A [illegible]

Wonderful Cures.

S. H. Clifford, New Cassell, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at A. C. Smith & Co's Drug Store.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1.—It is the organ of the Church of Jesus Christ of Latter-day Saints, and the authorized medium through which the views, wishes and instructions of the Church Authorities are expressed and given to the Saints.

2.—It may always be relied upon as advocating or defending the right side of every question proper for public journals to treat upon.

3.—It is devoted to the interests of the Latter-day Saints, and has, from its inception, valiantly defended their rights and advocated the principles in which they believe; and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.

4.—It is not published for speculation, and never has been, but for the good which it is capable of accomplishing; the profits, if any there be derived from it, being devoted to extending its sphere of usefulness and benefiting the community.

5.—It is doing its utmost to establish home industries, among which are paper making and type founding, stereotyping and electroplating—branches necessary to the development and independence of the community, but which, during their infancy (which in this Territory they have not yet passed), can only be carried on at a pecuniary loss.

6.—There is no danger of any subscriber to the News failing to get what he subscribes for through failure of the business and a suspension of the publication —a result in the case of hundreds of newspaper ventures every year.

7.—It is printed in readable type, so that even the aged can peruse it without difficulty or danger to their eyesight.

8.—It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it. In fact, it refuses thousands of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.

9.—Its tone is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, financial or otherwise.

10.—It never nauseates its readers by printing off columns of self-praise for home items.

11.—The News practices no deception and resorts to no subterfuges to induce people to subscribe; but on the contrary, prefers to stand on its own merits, as the people's newspaper, with a promise only to do its utmost to give its patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

12.—In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the DESERET NEWS; and if more than one, the News should invariably be the first.
