PROCLAMATION TO MINE OWNERS.

Conditions on Which They May Hire Men for Underground Work.

MUST GET STATE PERMITS.

Idaho State Auditor to Decree—Declaration of Martial Law Makes This Necessary.

WARDNER, Ida., May 8.—At a conference tonight between Bartlett Sinclair, Gen. Merriam, Sheriff France and Judge Lindley the following proclamation was issued:

"Whereas, the following notice has been served upon the mine owners of Shoshone county by the duly constituted state authorities by whom martial law has been declared, to-wit:

"To the mine owners of Shoshone county—Certain organizations or combinations existing in Shoshone county have shown themselves to be criminal in purpose inciting, and as organizations preventing property to be destroyed and murders to be committed by reason whereof it has been twice necessary to declare martial law in Shoshone county.

"You are therefore notified that the employment of men belonging to such or other criminal organizations during the continuance of martial law must cease. In case this direction is not observed, your mines will be closed.

"Therefore, in order to carry into effect the spirit of the foregoing notice and restore the industries of the district as far as possible, it becomes necessary to establish a system by which miners who have not participated in the recent acts of violence and who are law-abiding people, may abide work and that order and peace may be established, the following is promulgated for the guidance of the mine owners and employes in the affected district.

"All parties applying for underground work in any of the mines will be required to obtain from Dr. Hugh France, the duly appointed and authorized agent for the State of Idaho for this purpose, or his deputy at Wardner, or at Wallace, a permit authorizing the person so applying to seek for and obtain employment in any of the following mines: Bunker Hill and Sullivan, Last Chance, Empire State, Idaho, Consolidated Tiger and Poorman, Hecla, Mammoth, Standard, Helena and Frisco, Gem, Morning, Hunter and such others as may be hereafter included in the above list. Mine owners must refuse employment to all applicants for underground work without permission by the person seeking employment of a duly signed certificate authorizing the same, such certificates to be deposited in mine owner's office subject to periodical inspection. All parties now under employment by any of the mines above named will be required to procure within ten days from this date the certificates above referred to as a condition to their remaining in the service of the said companies.

"By order of the governor and commander-in-chief.

"BARTLETT SINCLAIR,
State Auditor."

STOCKADE AT WARDNER.

Deputy Marshals Scouring the District—Prisoners Being Taken Up Daily.

WALLACE, Idaho, May 8.—Heavy rains today made life unpleasant for the 300 prisoners in the stockade at Wardner. Deputy marshals are still scouring the district, picking up occasional suspects.

The most important arrest today was George Ormstead, conductor of the train which the rioters stole. He has run from Walkers to Burke for years, yet he claims he did not recognize any of the mob.

The order of Attorney General Hays to employ only nonunion men will be obeyed generally, and all mines closed awaiting the arrival of some men. The Bunker Hill is working about eighty underground, that being the only mine employing non-union men.

GUNBOAT NASHVILLE.

She is Certain to Ride at Anchor in Front of St. Louis.

ST. LOUIS, May 8.—A special to the Post Dispatch from a staff correspondent on board the gunboat Nashville, at Jacksonville, says: "The cruiser Nashville certain to ride at anchor in front of the St. Louis. She will be there Wednesday. The weighed anchor shortly after noon today and cleared away from Cairo at 2:30 o'clock this morning. Her officers are determined to reach St. Louis. Their determination is built on the positive statement of Capt. A. W. Bryan, the pilot who guided the Nashville safely on her river voyage thus far successfully, that she can and will make the trip."

The Nashville will be the first modern war vessel that ever came up the Mississippi river. The officers and crew propose here are making great preparations to welcome the officers and crew on Wednesday.

MAJ. MARCHAND DEAD.

Said to Have Been Killed while Returning from Addis Abeba.

PARIS, May 8.—It is persistently reported here that Maj. Marchand, leader of the famous Marchand expedition which was returning from Fashoda on the Nile to the Red Sea en route to France, was killed by a band of assassins on his way from Addis Abeba, the Abyssinian capital, to Ras Hawaitt, the French port on the coast.

It is also reported that Capt. Clerfayt, who brought Marchand's report regarding the Fashoda situation to Paris and subsequently accepted a job in the movement from Fashoda, was wounded in the same encounter.

PRISON MADE GOODS.

Taking Them Out of the Open Market Has Resulted Beneficially.

WASHINGTON, May 8.—Hon. Joseph T. McDonough, secretary of state for New York and for some years labor commissioner in that State, was before the industrial commission today. Mr. McDonough's testimony dealt with the improvements due to the amendment of the state constitution taking the products of prison labor out of the open market. He said the change had benefited the State and that it had reduced the number of prisoners in the State penitentiaries. Under the old system of letting the prison labor out on contract, the contractors were in the habit of offering rewards, amounting to as much as $100 for long-term prisoners in good condition. Under the new order of things such conditions could not exist. He felt sure that the effect of the new system was an improvement in many respects.

Mr. McDonough said that prison-labor products should be identified as such, and their transportation between those states should be prohibited by concurrent enactment.

Ex-President Adolph Strasser of the International Cigarmakers' union, che was before the commission at the afternoon session, opposed the incorporation of the trade-union, on the ground that by incorporating they would render themselves liable to be brought into

LIFE SAVED BY SWAMP-ROOT.

The Wonderful New Discovery in Medical Science.

Swamp-Root, discovered by the eminent physician and specialist, Dr. Kilmer, has marvelous powers in promptly curing kidney, liver, bladder and urinary troubles.

Kidney trouble is responsible for more sickness and sudden deaths than any other disease. Your kidneys filter your blood and keep it pure.

By special arrangement with our paper, the Deseret Evening News, every reader who has not already tried it, will be sent free by mail, postpaid, a sample bottle of this famous discovery, Swamp-Root, also a book telling more about it and containing some of the thousands upon thousands of testimonial letters received from men and women who owe their good health, in fact, their very lives to the wonderful curative properties of Swamp-Root.

Be sure and mention reading this generous offer in the Salt Lake Deseret Evening News, when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

If you are already convinced that Swamp-Root, the great kidney remedy, is what you need, you can purchase the regular fifty-cent and one-dollar bottles at the drug stores or from medical dealers.

NOTE.—"And," beyond, "we cannot expect justice at the hands of the courts." Mr. Strauss denied that substitutes for women were ever used in making cigars.

Window Glass Combine.

MUNCIE, Ind., May 8.—The statement is now positively made that the mammoth window glass combine will be completed within the next few days and details of the scheme hitherto kept from the public have been brought to light. Promoters now regard the thing as settled, and the American Window Glass association, which goes out of existence May 20th, will be organized promptly by the big concern about which there has been so much speculation. It is said on authority that the new trust will be under the same name as its predecessor and will be called the American Glass company. It will be capitalized at $20,000,000 and will control absolutely more than 80 per cent of the country's window glass production.

The Peace Conference.

LONDON, May 9.—The Berlin correspondent of the Standard says: "The United States delegates to the peace conference at The Hague have instructions to advance three leading principles—the inhibition of exports of artillery, the extension of the declaration of Paris of 1856 to the non-contraband property of belligerents contraband of war, and the extension of the Geneva agreement to war by sea."

MAUD ADAMS AS JULIET.

Makes Her Debut in a Shakespearean Role and Scores a Great Success.

NEW YORK, May 8.—Maud Adams made her debut tonight in Shakespeare as Juliet to William Faversham's Romeo at the Empire theatre. The interpretation of the role by this popular young actress was entirely different from other Juliets. She rules absolutely upon a perfect pitch consistently with just a faint dash of coquetry. She was sweet and pretty and she carried her audience with her well. There was scarcely anything of the grand passion in her acting. She was the fitfully-passionate child of romance,
