NO. 185. MONDAY, JUNE 29, 1896, SALT LAKE CITY, UTAH. VOL. XXIX

SPAIN NOT AFRAID

Although the St. Louis Platform Has a Paragraph on Cuba.

SHE IS INCREASING HER NAVY

But Only in Order to Be Prepared for Defense if Attacked by the United States.

NEW YORK, June 28.—A special to the Herald from Madrid says:

The statement contained in the Daily Mail telegram to the effect that the platform adopted by the St. Louis convention causes uneasiness in Spain and it is feared a conflict with the United States has now almost a fixed date, is misleading. While there does exist a certain feeling of unrest on account of the declaration of the convention touching the Cuban question, it must not be imagined that it is dictated by fear, but rather springs from a very natural desire to know the worst at once. There can be no question that Spain is making preparations for eventualities, but she is certainly not doing so with any intention of making war, but in order to be in as good a position as possible to defend herself if attacked. The purchase of Brooklyn was entirely intended to have been the outcome of any immediate scare as this ship has been in contemplation for some time, but there is no doubt that the action of the government has been hastened by recent events. The chief idea in strengthening the navy is to be able to put a stop to filibustering and privateering. There is not any great apprehension that Mr. McKinley will, if needed, act very differently to that exactly than Mr. Cleveland has done.

AT CHICAGO.

Silver Men Gather and Will Agree on a Plan of Campaign.

CHICAGO, June 29.—Early of the silver men will arrive at least one delegate to attend a conference that will be held at the Palmer house tomorrow to decide a number of contests and to settle on a definite plan of action in the interest of silver. Senator Jones of Arkansas, the first of the delegates to arrive, said: "It is hard to prophesy, but I don't think there is going to be any considerable fight on the gold Democrats if the convention declares for silver. The Alabama delegation was instructed to vote for Bland for the Presidential nomination. I don't think the delegation has any preference for Vice President. I don't believe there is going to be any struggle of the money question. It is going to be an overwhelming decision in favor of the free coinage of silver."

E. C. Wall of Milwaukee, a member of the Wisconsin state delegation, and also one of the national Democratic committee, arrived in town last night and registered at the Palmer.

Friends Goes to Chicago.

WASHINGTON, June 29.—James H. Eckels, comptroller of the currency, left last night for Chicago, to attend the Democratic convention. He will be followed during the week by William McAdoo of New Jersey, assistant secretary of the navy; Joseph Miller of West Virginia, commissioner of internal revenue; B. A. Maxwell of New York, United States pension attorney; C. C. Hanna of Minnesota and A. M. Curtis of New York, assistant secretaries of the treasury; A. W. Mathews of Ohio, ex-assistant secretary of the treasury; H. W. Vanderslice of Kansas, private secretary to the Secretary; Judges Clements of Georgia and J. D. Yerkes of Iowa, interstate commerce commissioners.

Stranded Steamer Afloat.

PORT TOWNSEND, Wn., June 28.—The steamer Noyak from Kodiak arrived last night with thirty-five stranded miners aboard who pronounced Cook's Inlet mining boom a fizzle. Over 3,500 miners are at the inlet, stranded and unable to obtain employment, and supplies are going rapidly.

The Corbett-Courtney Contest.

SAN FRANCISCO, Cal., June 29.—Many people interested in the management of pugilistic contests are sending telegrams over the country in search of an available foil for the Corbett-Courtney match. Don Stuart's Mexican extension is still held in reserve, Several local and Eastern spirits have been canvassing the possibilities of securing a location in Nevada. If anything sensational happens there will be a concerted effort to have the mill take place in Nevada.

The state and federal authorities, however, may not think the task too big to defeat the aims of the field athletic.

G. M. Hornsby, U. S. marshal of the district of Nevada, has already expressed himself as being opposed to the holding of any contests contrary to the federal laws. As yet the municipal or state officials have not expressed themselves.

Gov. Budd has placed a question on the Italian Paradise concert, and the only battle ground that now is in sight remains upon the one across the Mexican border. There is some talk of a match of ground in the vicinity of Yuma, but its location is thought to be unfavorable so far as drawing a crowd is concerned and it will be all probability be given a wide berth, as the gate receipts will be an important factor in the determination of the match.

THE MANUFACTURERS' TRIP.

Letters on the Subject from the Secretary of the Navy.

PHILADELPHIA, June 29.—Two letters from the secretary of the navy have been received by President Tomlinson of the National Association of Manufacturers concerning the trip of American manufacturers to South America. Referring to the suggestion that a United States man-of-war should be placed at their disposal, Secretary Herbert expressed his regret that there is no ship in the navy and has no appropriation for such service, on account of the congressions of the officers and crews as from the members of our venture.

Secretary Herbert said: "Permit me to say that the President appreciates, as I do, with the purposes of your association and most heartily wishes the enterprise the success which your energy so richly deserves. The department recognizes that the character of those who comprise your association and the broad purpose they have in view give to this enterprise a somewhat national character and that it is not altogether like an ordinary case of merchants seeking to extend their individual interests and it, therefore, regrets the more its inability to comply with your request."

In the other letter Secretary Herbert says: "I have to request that you will furnish the department with the precise date of the arrival in South America of the representatives of the National Association of Manufacturers and the name of the vessel conveying them, that the commanding officer of the United States naval force on the South Atlantic station may be informed of their approaching visit and instructed to give them such assistance as they may desire and he be able to render."

Presidential Appointments.

WASHINGTON, June 29.—The President today made the following appointments:

U. Max Manning, Georgia, secretary of the legation at Brussels, Liberia; George E. Keifer, Mexico, consul at Durango; Manuel George R. Andrews, District of Columbia, consul at Aguascalientes, Mexico; Paul Weaver, Texas, consul of Sonsonate, Nicaragua. On June 15, Charles H. Willis, Maryland, was named for the place, but severe illness prevented him from qualifying.

The Graduation in Peru.

NEW YORK, June 29.—A special to the Herald from Para, Brazil, says that the steamer Huascar has arrived in port from Iquitos, Peru, bringing news of serious incidents which occurred within the week at the graduation exercises in the disaffected Peruvian province of Loreto.

Dominican and his war minister, Hacusarre, both are dissatisfied at seeing that the various temples upon which they depended to supply the sinews of war have been closed by the government.
