DESERET EVENING NEWS.

Wednesday, April 18, 1894.

FRAGMENTS.

THE recent wet weather has temporarily put a stop to active work on the Ogden school building in the Ninth ward.

THE Salt Lake City Caledonian club will hold a meeting at the G. A. H. hall this evening. A varied and interesting program has been prepared for the occasion and it is expected that a good many of Burns's countrymen will be present.

THE Passaic Lean and Homestead association held its annual meeting last night and elected the following officers: President, James Moffat; vice president, F. W. Mangelsdorf; secretary, A. C. Swenson; treasurer, W. S. McCornick; trustees, J. F. Burke and Elmer E. Derring.

THE Grant school site in the Seventh ward will be surveyed within the next few days, and are long bids for the erection of the building will be called for by the board of education and the work started in time to complete the structure for use at the opening of the coming school year.

AN entertainment complimentary to Elder W. J. Kelly, who has recently returned from a mission to England, will be given in the Seventh ward assembly hall on Friday evening, at 8 o'clock. Dramatic and musical selections and addresses will make up the program. A general invitation is extended. No charge will be made for admission.

PETULANTLY GIVE IT UP NOW.

Coloradoans in a Pet Because a Failure to Dump Their Indians in Utah.

The following dispatch from the Denver *Republican* of the 16th inst., commenting on the failure of the scheme to dump the Colorado Utes on this Territory, will provoke many a smile among the citizens of Utah: "It seems that all the hope of the removal of the Southern Utes this year will have to be abandoned, owing to the report of the House committee in opposition. It is possible, though, to prevent any action that would be a final disposition of the question and at the same time contrary to the wishes of the people of this state. If this is done, it may be that in some future Congress a committee may be found with sense enough to appreciate the situation as it really is."

For Home Industry.

A number of ladies held a meeting yesterday afternoon at half-past 4 in the Chamber of Commerce in the interests of home industry. Mrs. McCornick was appointed temporary chairman and Mrs. S. O. S. Cummings, secretary. A discussion as to the advisability of organizing permanently was taken up and it was decided to do so, the association to be known as the Women's Industrial Association of Utah. Several committees on various industries were appointed and another meeting will be held May 2 to hear their reports. The purpose of the organization is to push forward to success the movement in favor of all home industries first, last and all the time.

THE MAYOR'S VETOES.

The Railway Franchises are Amended and Passed.

THE SPRINKLING SENSATION.

F. W. Mulcen's Name Withdrawn.—A Railway Compromise.—Paving Inspector to be Appointed.

The City Council held a tedious session last evening and got through an unusually large amount of business. The Mayor's veto of the sprinkling contract was the central focus of interest and a sensational affidavit was presented by Remington from J. H. Griffin alleging attempted jobbery. F. W. Mulcen was found to be disqualified to act as a member of the board of public works, being financially interested in various ways in matters with which the board was vitally concerned, and Hon. Thomas Marshall was appointed instead. The claims against the street railways for paving of streets, etc., amounting to $60,000 were compromised for $35,000 and the board of public works was authorized to appoint a street paving inspector, at $75 a month. The business in detail is as follows:

PROPERTY AND PETITIONS.

H. L. A. Culmer protested against being compelled to put down a grade a sidewalk in front of the Cummer-Kenneth block on First South street. Committee on streets.

Robert Nelson et al. asked that the water main on Third South street be extended east half a block from Eighth West street. Committee on waterworks.

Rhoda Murphy Garoney protested against being compelled to bring her sidewalk to grade. Committee on streets.

The Utah Commercial & Savings Bank asked that they be not compelled to change the grade of the sidewalk in front of their property on First South street. Committee on streets.

Councilor Clawson averred that the adjoining property holders had restored the sidewalks to the proper grade as ordered by the council, and others should be compelled to. He was not in favor of noting most of our sad level of the contract.

Joseph Lipman presented a bill for $250 for bringing the city gas books down to date and certifying to the present ownership. Committee on finance.

The board of education asked that the city establish the grade of sidewalk northward on the west side of the Wasatch school building, situated on the corner of B and Brigham streets. Committee on streets.

E. V. Davis, E. L. Davis and J. J. Dougan asked permission to remove certain properties from tax sales. City attorney.

The Mayor sent in two communications vetoing the franchises granted to the street railways. In reference to the Rapid Transit company the claim was made that the law of the period of State and North Temple streets passes so near to the corner that the wheels feel its force on to the sidewalk and the company has repeatedly refused to obey the request to regulate the road changes at that point; the condition of the franchise in regard to the city limits was considered dangerous, and changes. The Mayor recommended that the 8th clause relgarding be made a condition of the grant of the charter.

The objections to the City railway franchise were that it was entirely exposed that the Mayor would not approve it until the railway company had first obtained itself to pay the city the cost of paving constructed by the city along and between the tracks of said company and as the Mayor has no authority to act in the matter he sent it back for adjustment by the Council. The ambiguity of city limits as to the Sugar Grant franchise was also objected to and a remedy offered.

The Mayor's vetoes were sustained and Councilor Cain introduced amended ordinances which were read three times and passed.

The sprinkling veto was then read as published in the NEWS last evening and Remington stated that a communication he had to read, and that the matter be referred back to committee on sprinkling and public works.

The protest objected to the communication being read as being out of order.

O'Meara—Does the chair rule that this case can't be referred back?

Young—No; I simply say there is an order of business and a motion is before the house.

O'Meara read the statute showing that a communication from the Mayor adjoining to any act of the Council makes that act or question stand as if remondered.

The point was argued back and forth and President Young stated that he did not see how the communication could be referred back, as the statute calls for the objections being brought before the house and considered.

O'Meara said if there was a motion before the house it had to get to some form.

Young believed that the rule called for an immediate vote on the Mayor's veto, but if the old council allowed any precedent he would be willing to accept it, but didn't think it was proper.

Remington asked that he be considered in order to rise to answer to the Mayor's veto, but Young ruled him out of order.

The mysterious communication was in the shape of an affidavit from J. H. Griffin, as follows:

TERRITORY OF UTAH, }
County of Salt Lake. }

J. J. H. Griffin, being sworn, say: That about noon on the 5th day of April, 1894, one F. W. Mulcen came to my office and said to me that the Mayor had sent for him (Mulcen), and further said he would have it so he was sure he would have the job for sprinkling streets or not. He said the Mayor had told him he (the Mayor) would not sign a contract with me if he (Mulcen) protested, and that he was to meet the Mayor by appointment at 5:30 that day, and if I would be more satisfactory with him he would have the job. I further say I have read the foregoing affidavit of J. H. Griffin with reference to his conversation with F. W. Mulcen on April 5, 1894, and find it true in fact. Affiant further says that all the matters stated therein are true according to my best recollection.

Remington said he knew nothing about the matter, the affidavit had simply been handed to him and he asked that the whole business be referred to the committees on sprinkling, public improvements and public works.

O'Meara stated that he had heard of the Mayor's veto through the DESERET NEWS, and if Mr. Griffin was not the lowest bidder he was in favor of vacating the veto. He mentioned from the affidavit two real and true other sources that Mulcen was not responsible and that he was simply an appointee. Under the old rules, however, the motion was that a veto was either sustained or overruled, but as there were only two of the committee was called in the matter he thought the whole affair should be referred back for consideration with the Mayor's communication.

O'Meara was asked if F. McIlvoy's bid had been read and if he was the lowest.

O'Meara replied that McIlvoy had only written a memo which he said, "I will do the sprinkling for $2 a lot but did not say what sprinkling. He had no number.

Young said he did not think there was any intention of impugning the honesty of the members, but he was not clear as to the proper course to pursue in the matter.

Cain stated that as no amendments to the original motion had been made he said on the table, but O'Meara demurred to this, and the whole business was finally recommitted to the three committees named.

The city engineer recommended that the petition of Davis Gunsmith et al asking that Twelfth East street be graded between First and Second South street be not granted. Adopted.

In the matter of the proposed establishment of the grade on First North street, between First East and West Temple streets, and East Temple street to Chrisman, and thence east to Capitol street, the city engineer reported that the profile sheets of the streets named were ready.

Concerning Remington's resolution relating to the duties of the police force in Ogden, the board of police and fire commissioners reported the opinion of City Attorney Rice and Assistant Van Horne, sustaining the action of the Mayor and chief of police. The opinion was ordered to be put in the Minutes of the NEWS. The city attorney's report was agreed to.

A communication was received from Chief of Police Frank appointing Sol P. Kimball as assistant jailer.

Councilors all members present voting in the affirmative except O'Meara and Remington.

The watermaster called attention to the fact that a dam had been constructed in connection with the bridge across the Jordan river at Sixth North street, which made an overflow inconvenient. Committee on irrigation.

The committee on public works recommended that the appointment of F. W. Mulcen, as a member of the board of public works be confirmed.

Cain said that as Mulcen was one of the sureties on the bond of the Cummer-Jennings Paving company he was unqualified, under the provisions of the ordinance, that "no member of the board of public works shall be directly or indirectly interested in any contract entered into by them on behalf of the city," etc.

Clawson asked if Mr. Mulcen could not withdraw from the bond, but Mr. Cain said he could not be allowed to do so. Councilman Clawson stated that he had met Mr. Mulcen and that gentleman had requested him to withdraw his name as he was afraid he could not qualify under the circumstances.

Mr. Mulcen was allowed to withdraw, and the Mayor sent in a communication appointing Hon. Thomas Marshall to fill the vacancy. Confirmed.

The committee on claims reported adversely upon the claims of Detective Hendricks and others in the sum of $[illegible] and $[illegible] respectively, alleged to have been expended for street carts. Adopted.

The committee on streets recommended that the claim of Salt Lake county in the sum of $1,713.13, for assisting in the sanding and lighting of the county jail, be disallowed. Adopted.

The committee on streets recommended that the petition of the Salt Lake & Los Angeles Railway company, asking for a franchise from Sixth West street to Fourth West street on South Temple street, be granted, and that the resolution granting a temporary right of way to the Rio Grande Western railway company on November 17, 1893, be revoked, provided the Salt Lake and Los Angeles Railway company gives to the Rio Grande Western a perpetual right of way without charge, the privilege to be used from Sixth West to Fourth West streets on South Temple street, for the purpose which the said track is now being used by the Rio Grande Western; also that terminal rates shall be mutually satisfactory with the business of each other, and that the Salt Lake & Los Angeles Railway shall put in and maintain all crossings affected by the grant. Adopted.

O'Meara offered the following:

Resolved, That the city attorney report at our next meeting the communication received by him from the building trades congress in regard to city employes working more than eight hours.

Adopted.

Banks offered a resolution providing that the city liquidate the funeral expenses of Officer A. M. Wilson, to the extended sum of $200, which was adopted.

O'Meara offered a resolution providing for the appropriation of $[illegible] as the April salary of Officer Wilson, to be paid to his widow. Adopted.

The board of public works was authorized to employ a sidewalk inspector at a salary of $75 per month, to inspect walks as laid under Mr. Harrigan's contract.

Appropriation were made as follows:

[illegible] ..... $[illegible]
Mrs. A. M. Wilson ..... [illegible]
Total ..... $[illegible]

Adjourned for one week.

Police Pickings.

A. L. Mair, who was committed to the county jail in default of $200 bond on the 16th inst. to await the action of the grand jury for house breaking, was released yesterday, the bond being forfeited.

J. H. Fothingh, who locked up in the Police court about two months ago on a charge of taking a team in Davis county and was fined $100 and costs, or six months in the county jail, has again disappeared. He owe teams behind him and several bad checks are following him up.

Some of the trouble now in jail dropped a bottle of the famous cough medicine, Dr. Bull's Cough Syrup, into the pocket of a passing boy, who, with more than seven pocket knives. This is evidently some bright one and is now in the hands of the police.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

GOOD ADVICE

Fire Insurance in Hard Times

During periods of depression the property owner has been allowed to carry his own insurance, designating for himself the companies in which he will place his business. Now, however, the insurance business is in a very different condition from what it was in the past. It is conceded that the companies which have stood the test of time are those which have paid their losses promptly, and which have met every emergency, because, forsooth, they were in a condition to do so. Those companies which have paid their losses in full
