STREET CAR HORROR.

A Collision with a Railroad Causing the Death of Passengers.

A VERY DANGEROUS CROSSING.

The Engineer and Fireman of the Train Arrested.—Their Explanation.

CHICAGO, July 17.—Another horrible disaster attributable to a street crossing at grade with a railroad, occurred this evening. An incoming passenger train on the Grand Trunk road crashed into a crowded street car at Forty-ninth street, killing Charles Perkins, John Dillon and Mrs. Maggie Murphy, and wounding eight others, of whom two will probably die.

The Forty-ninth-street crossing is a network of tracks, and has always been regarded as a dangerous spot. A long freight train going west had just passed, and the tower flagman raised the gates. This was taken as a signal that the way was clear, and the driver of the car started ahead.

The passenger train, which was rapidly approaching from the west, struck the street car squarely in the middle, turning it around and hurling it thirty feet from the point where it was struck. Some of the passengers managed to save themselves by jumping. The three people killed were frightfully mangled.

The police arrested the engineer and fireman on the train. The engineer said he did not see the street car until it was on the track and so close that it was impossible for him to stop.

The tower man did not see the passenger train until after the gates were raised and the street car started ahead.

THE SILVER SITUATION.

Senator Teller of Colorado Explains His Views.

OMAHA, July 17.—Senator Teller of Colorado arrived here on his way home from a visit to the World's Fair. Talking about the silver situation, he said the people of Colorado in general do not endorse the rabid frothing of Governor Waite and others. While these remarks had not yet been productive of any great damage, there was no doubt that before long they would be on record in the Eastern money markets and Colorado reap the result.

The silver question, of course, was a serious one, and a continuance of the present financial conditions means years of hardship to Colorado, but the state will pull out all right in the long run.

The senator characterized as "rot," the belief that the Sherman law is responsible for all the present trouble. He said that one of the peculiar crises in the world that cannot be avoided is upon us, from the present lamentable state of affairs in this and other countries.

Six Kansas Banks Fail.

TOPEKA, Kan., July 17.—Six Kansas banks went down in the financial flurry today. They are: Bank of Iliff & Doubleday of Columbus; Johnson City bank of Johnson; City Bank of Weir City; Bank of Pleasant; Caney Valley Bank of Caney; Bank of Moscow at Meade Center. The banks have all been taken possession of by the state bank commissioner.

A Struggle for Gold.

WASHINGTON, D. C., July 17.—The *Star* this evening gives publicity to the following statement in regard to gold payments from the United States sub-treasury at New York:

"Considerable effort is being made by financial agents here to discover the motive for these payments, but the department is close-mouthed as a clam. The explanation of the government, through private sources, is that the department is trying to take advantage of the scarcity of small and convenient currency for internal business to pinch the banks, as the banks have pinched the government, by storing gold. The banks are greatly in need at small bills for current business transactions and for the agricultural districts. The theory is advanced that if they cannot get what they need of this sort of currency by other means, they will have to make terms with the treasury, which will involve an exchange of gold or gold certificates in large quantities for notes and certificates of all denominations."

UNEMPLOYED MEET.

Resolutions Passed on Various Subjects.

TACOMA, July 17.—A mass meeting of the unemployed was held this evening. Addresses were made by Congressman Teats of South Dakota and P. J. Crowley of Whatcom. Sympathy was expressed with the anarchists and Governor Altgeld was commended for his pardon of them. Resolutions were adopted asking Congress to coin all the bullion in the treasury, and issue certificates to the extent of $100,000,000 and devise some means for keeping the notes in circulation; also, demanding strict enforcement of the Geary exclusion act.

Idaho's Governor Takes a Step.

BOISE, Ida., July 17.—The following message has been sent to the leading citizens in the various counties in the state by Governor McConnell:

"Please call a meeting and select delegates to attend the bimetallic meeting in Chicago August 1st and at Washington August 7th. The onslaught on silver demands prompt action and earnest co-operation. I will commission whoever you select, twelve as many as will volunteer at their own expense."

Blanchard's Successor.

NEW YORK, July 17.—Congressman Magner said this afternoon that President Cleveland had tendered State Supreme Court Justice Edgar M. Cullen the appointment to the Supreme Court of the United States in place of the late Justice Blatchford.

Indicted for Smuggling.

PORTLAND, Ore., July 17.—James Lotan, ex-collector of customs, was arrested this afternoon on an indictment of the United States grand jury, charging him with smuggling opium and Chinese from British Columbia on fraudulent certificates. Robert G. Paddock, deputy customs inspector, was also arrested on a similar charge. C. D. Cardinell, was also taken into custody. All were released on $10,000 bail.

Wm. Dunbar and Nathan Blum were arraigned jointly today to answer to ten additional counts for smuggling. Blum and Dunbar were agents for the steamship Hayden Republic, which operated between this port and Mexican Columbia ports, which was recently libelled by the government for $50,000.

The grand jury found a number of other indictments against parties alleged to have been connected with the smuggling ring.

The Fair Rate Question.

CHICAGO, July 17.—The Western roads are at last ready to come down on the World's Fair rates, and ready to get almost to the bottom. The St. Paul, Northwestern, Atchison and Rock Island today proposed Chairman Caldwell of the Western Passenger association, to call a meeting for Friday, saying it is desirable that tickets be sold every day, good for passage on regular trains, and good for return passage from Chicago any day up to and including the final return limit of about thirty days.

The association will consider the establishment of a fare of one and a third for the round trip for points within 200 miles of Chicago, and one fare from points over 200 miles from Chicago.

A Prisoner Pardoned.

ALBANY, N. Y., July 17.—The warden of the Clinton prison, A. T. Dannemora, came down to Albany late this afternoon and related to Governor Flower the brutal scheme of a number of long-term prisoners to gain freedom, which included the cold-blooded murder of several prison guards. One of the prisoners who was asked to enter into the murderous attempt refused, and it was through him the prison authorities became aware of the plot. The governor, when he heard the facts, immediately pardoned the prisoner who had the courage and manliness to prevent a human slaughter.

He Beats the Record.

ASHTEBULA, N.Y., July 17.—Frank S. Beardsley, the one-legged bicycle rider, riding from San Francisco to New York for an athletic sporting paper of Syracuse, arrived in Amsterdam at 8 o'clock tonight, having made from Canonsteia, 101 miles, today.

This is the sixth day in which he made over 100 miles. Yesterday was his sixty-second day on route and the fifty-second day of actual riding. He will reach New York Thursday, twenty days ahead of the two-legged riders' record.

The Mohican Fired Upon.

PORT TOWNSEND, Wash., July 17.—The United States revenue cutter Mohican was fired upon in Behring sea and disabled June 15th, by the Hawaiian steamer Alexandrie, which sailed from San Francisco last April. The Mohican discovered the Alexandrie in the act of raiding the seal rookeries and tried to intercept her, firing five shots across her beam. The Alexandrie returned the fire, striking the Mohican amidships, disabling her engines. The Mohican went to Unalaska for repairs and the Alexandrie escaped.

Murdered for the Ring.

NEW YORK, July 17.—A fight with gloves is a lot up town bought resulted in the death of one of the participants. George McDonald and a man named Frank Egan put on the gloves, and in the presence of 500 spectators smashed each other. In the second round Egan struck McDonald a terrific blow on the jaw which killed him and rendered him unconscious. He died in the hospital two hours later. Egan escaped.

The New Comet.

NEW HAVEN, Conn., July 17.—The natural team, which Professor Frisby of the naval observatory at Washington took for a new tail suddenly developed to the comet now visible in the constellation Lynx. The team referred to was in close proximity to the comet, but, in the opinion of the Yale astronomers, had no connection, physical or otherwise, with it.

The Reading Company.

PHILADELPHIA, July 17.—Isaac L. Rice, late foreign representative of the Reading company, today issued another statement on the affairs of the company. The Lehigh valley lease and coal purchases, to both of which President Harris announced a determination to adhere, have been, Rice says, the main cause of the Reading's present embarrassment and it persisted in must inevitably end in its complete destruction.

Mysterious Poisoning.

NASHUA, N. H., July 17.—A case of mysterious poisoning is reported in the family of Theophile Deschamps. It was evidently from something in the food. Three children are dead and the mother cannot live.

Steamer Ashore.

MARSHFIELD, Or., July 17.—The steamer Lady, from San Francisco, went ashore at the entrance of Coos bay early this morning in a dense fog. The government life savers rescued all the passengers and crew, except Charles Robinson, who was washed overboard and drowned in the breakers.

Zavala Proclaimed Dictator.

WASHINGTON, D. C., July 17.—Secretary Gresham received a cable message from Minister Baker today, dated Managua, July 15th, as follows: "The Nicaraguan president and minister of foreign affairs are still in prison at Leon. A meeting of the cabinet proclaimed Zavala dictator. A large majority of Nicaraguans support the government."

The Sea Ross Revolution.

VALPARAISO, July 17.—Apparently unhampered by the loss of three ships, the land forces of the revolutionists in Rio Grande do Sul are more aggressive than ever. Generals Tarevia, Tavares and Salgado have continued their forces and are now besieging Vagueira city. The town is well defended and capture will be difficult.

A Prince Shaken Up.

LONDON, July 17.—A balloon in which the prince of Wales was riding this evening collided with another and the prince got a bad shaking up, but was not seriously hurt.

Another Rebel Captured.

LONDON, July 17.—The Rio de Janeiro correspondent of the *Times* says the Alaine, another steamer which escaped from Rio Grande, was captured by the central fleet.

NEWS FROM FOREIGN LANDS

Testimony in Court of the Survivors of the Victoria.

The French in Siam.—A Strongman Director.—Emperor William Goes to Sweden.

VALETTA, Malta, July 17.—The court-martial appointed to try Captain Burke, and Commander Hawkins-Smith and the surviving officers of the British battle ship Victoria, opened today upon the Hibernia, the flagship of Rear Admiral Tracey. Captain Burke made a technical explanation of the maneuvers. He and Staff Commander Hawkins-Smith went to Admiral Tryon's cabin together and received orders. The vice admiral, after having originally fixed the distance between the ships at six cables, agreed with the suggestion of the staff commander that it should be eight cables. Later, on deck, when Lieutenant Gifford said the question was raised and that the staff commander had told him that eight cables was to be signaled, Captain Burke reminded Admiral Tryon that he had certainly said the distance ought to be more than six cables, the admiral turned to Lieutenant Gifford and said: "I have it as six." Captain Burke then called attention to the fact that the Victoria was turning on a circle of 600 yards. The admiral replied: "Let it remain at six cables," and Captain Burke went above.

Captain Burke further said that when he was satisfied by personal observation that the Camperdown was coming dangerously close, he said to the admiral that they had better do something. The admiral looked up but made no reply.

Receiving no reply, Burke again addressed the admiral repeatedly. Two or three times a request was made to go astern at full speed with the port screw. At last the admiral said "Yes." The port screw was soon started at full speed astern and shortly afterward Captain Burke ordered both screws at full speed astern. The ship's way, however, was not checked appreciably before the collision, which occurred within three and a half to four minutes after issuing down the signal.

As to the events after the collision, Captain Burke said he believed the commander gave no order, but just at the last Lieutenant Heath gave an order to jump. The captain says that when the Victoria went down the shock on striking bottom was so tremendous as to cause her boilers and machinery to go to pieces.

After describing at length the perils of men sucked down in the swirl and battered by the wreckage, Burke expressed the opinion that many more would have been saved if the ship had sank gradually, instead of turning over.

The War in Siam.

PARIS, July 17.—M. De Lanessan, governor-general of French Indo-China, telegraphs the foreign office that a detachment of Siamese troops attacked a reconnoitering force of Annamite militia on July 9th at Attaie. The Siamese were repulsed, with great loss. One Annamite was killed.

A semi-official note was published today, denying the assertion that France disavowed the action of Admiral Humann in Siam.

A council of ministers were held to decide on the replies to be made in interpellations. It was resolved to disavow in the chamber any intention to interfere with Siamese independence, but to insist that the treaties between France and Siam be respected, and no intervention on the part of a third power tolerated. In case it becomes necessary to bombard Bangkok, a warning will be given to the foreign powers. In case Siam declines to give complete satisfaction, the Mekong river will be blockaded.

A dispatch from Saigon to *Temps* says: The Siamese have been busy massing troops and building forts on both sides of the Mekong river in order to stop the passage of French gunboats, with a view toward preventing a blockade by the French of the island of Khong. Captain Villar took Doutane-Trabon. Considerable military operations will continue to be necessary as a base from which to work in preserving a passage.

LONDON, July 17.—The earl of Rosebery, secretary of state for foreign affairs, replying to a question in the house of lords today, said the government was not in full possession of the facts regarding the dispute between France and Siam, but Great Britain was fully alive to the responsibility attaching to her.

In the commons Sir Edward Gray, parliamentary secretary of the foreign office, made an evasive reference to the announced intention of Curzon (conservative) to move an adjournment of the house to discuss the situation in Siam. Sir Edward appealed to the house not to discuss the matter until further information was received.

The Bangkok correspondent of the *Times* says many Englishmen with business are just leaving the country, taking with them all their portable property.

William Goes to Sea.

DUBLIN, July 17.—Emperor William, accompanied by the German empress, sailed from Kiel today on the imperial yacht Hohenzollern. They will visit Bornholm, an island belonging to Denmark, in the Baltic sea, Gothenburg, in Sweden, and other places in that country.

Conflagration in London.

LONDON, July 17.—A large fire is burning in the warehouses district between Leven alnl street and Haves, Marks and Cannonbie streets. Many warehouses are already in ruins and the fire is unabated.

Walker Bros. & Fyler Co's

EXPLOSION

Of prices has caused a panic in the Dry Goods trade of Salt Lake City. It has aroused the Territory of Utah and is now reverberating throughout the adjacent States. It is destined to an echoing down the aisle of time as the most appalling revolutionist prices that ever occurred in this or any other community. The sounds of eager buyers who take possession of our great store from day to day can only be likened unto a grand mousemoving of the people, all bent on securing some of the unprecedented bargains we are offering.

This Week will be a continuation of our great Slaughter Sale,

At lower prices than ever. We must have room for our Fall purchases, which, in spite of the CRY OF THE CROAKERS about "Hard Times," will be larger than ever before. We have no cause to complain. Trade is never dull with us.

WHY?

Because we give the working man a chance. When those people we do business with the people, and when work is scarce and money tight, we cut prices to the winds and SELL FOR COST, BECAUSE we buy for spot cash and get heavy discounts. BECAUSE we don't owe anybody and can afford to dispose of our goods as we please.

THAT'S WHY!

If you doubt our values, come in and see for yourselves. The bargains we quote during this sale have never been equalled, never will be equalled, and can never be repeated.

Walker Bros. & Fyler Co.

IMPORTANT NOTICE.

In addition to the low prices we present herewith, we propose to the amount of fifty cents of every purchase made from us. Customers should bring in the coupons, then we give at the cash desk at the time of purchase.

SEE OUR MASCOTS, The 22 in Will Cats in our Big Show Window.

Remember the leaders of low prices are now slaughtering goods in every department.

DRESS GOODS, CLOTHING, SHOES, MILLINERY, WRAPS, WRAPPERS, HOSIERY, UNDERWEAR AND CARPETS.

Walker Bros. & Fyler Co.

CLEARING SALE

STILL GOING ON AT

Goldsmith & Co's.

THIS WEEK'S BARGAINS:

Summer Coats and Vests,	$1.00, $1.25, $1.50.
Men's Suits, Men's Suits,	$5.50, $6.50, $8.50.
Boys' Knee Pants, Still a Few Left,	25c.
Boys' Knee Pants,	45c.
Boys' Suits This Week,	$1.50, $2.00, $2.50.

STRICTLY CONFIDENTIAL.

We want to say to our patrons and the public in general that we know times are harder than they ought to be; that money is a little "too close for comfort," and that every clothing store or setting goods now at every low prices. But we want to say further, because it is true, that of all the goods that are being slaughtered, ours are the FINEST; and of all the low prices that are being quoted, ours are the LOWEST. There is a way to prove this, if you doubt it: Compare their goods with our goods, their prices with our prices, and you will find that we are right, and that

We Do As We Advertise.

Goldsmith & Co.
