THE SANTA FE FAILS.

Another Great Railroad in the Hands of Receivers.

OBLIGATIONS OF THE COMPANY.

Statement by the Directors to the Bondholders and Creditors.

LITTLE ROCK, Ark., Dec. 25.—The Atchison, Topeka & Santa Fe and the St. Louis & San Francisco railroads and branches, comprising the Santa Fe system proper, have been placed in the hands of receivers. The applications was made by the Union Trust company of New York, trustee of the bondholders of the Atchison, Topeka & Santa Fe, and the Mercantile Trust company of New York, trustee for the bondholders of the St. Louis & San Francisco.

TOPEKA, Dec. 25.—General Manager Frey says the appointment of receivers will result in marked improvement in the Atchison's general conditions. He shall now be able to improve and make it the best railroad property in the world.

BOSTON, Dec. 25.—The directors of the Atchison system have issued a statement to the bondholders and creditors, saying that the sudden termination of negotiations for financial relief has and will prevent a further payment of money now due and interest maturing January 1st. The continued financial depression and the consequent shrinkage in the market value of securities held by the company as collateral compelled a reduction of the floating debt and caused executive officers to use the utmost to protect all interests and prevent a disintegration of the system the creditors have consented that the protection of the courts be invoked.

The Atchison system, as a whole, is amply able, even under the present adverse circumstances, to earn a substantial surplus above the fixed charges if relieved from the floating debt, which is not greater now than eighteen months ago.

The obligations of the company are: Time notes on company, due December 1st, 1893, to June 1st, 1895, $15,000,000; notes and loans secured by collateral, $2,200,000; total, $17,200,000; interest and other fixed obligations due January 1st, 1894, $3,500,000. The market value of the securities owned by the company is about equal to the entire amount of the above obligations.

President Reinhart said this evening that up to last Monday the management was confident of securing the necessary funds, but the certainty that the death of Gen. G. Magoon would be followed by attacks on the securities of the company decided the course taken by the board in consenting to a receivership.

NO REFUGE IN COLORADO.

DENVER, Colo., Dec. 24.—Colburn, general agent of the Santa Fe, says the appointment of receivers will have no effect in Colorado.

The Midland Terminal, the new road being built to Cripple Creek, which is to be a feeder of the Santa Fe, would not be affected, as money for construction had all been secured.

ST. LOUIS, Dec. 24.—It is ascertained this the receivers of the Santa Fe have agreed that the creditors who have advanced money to keep up the system will be considered preferred creditors, and that the wages of employes will be paid the coming week.

A Long Lost Brother.

MACON CITY, Ia., Dec. 24.—An old gentleman, giving the name of John Adams, was died and was buried at Hampton about ten days ago, will doubtless prove to be the lost Dr. Thos. E. Tyson, the wealthy Californian who disappeared from San Francisco October 16, 1892. A policeman recently secured a picture of Tyson, and there was resemblance enough to indicate that the body was that of Tyson.

Uncle Sam Running Behind.

WASHINGTON, D. C., Dec. 25.—The government receipts for this month up to date, in round numbers, have been $5,000,000 less than the expenditures. The receipts are $21,040,000, and the expenditures, $26,245,000, of which $11,999,000 has been on account of pensions.

The available cash in the treasury today was $90,687,289, of which $62,622,104 is the net gold reserve. On the 1st instant the available balance was $99,199,015.

GOLD TRAIN ROBBERS.

A Large Booty Secured by a Gang of Desperadoes.

FARMER, Kan., Dec. 24.—One of the boldest train robberies ever attempted occurred about 9 tonight at Nashville, I. T., on the Kansas and Arkansas division of the Missouri Pacific. The train was bound for Little Rock, and as he approached the station the engineer saw a danger signal and slowed up. Two of three men boarded the engine and compelled the engineer and fireman to jump out of the cab. Half a dozen other men, armed with Winchesters and revolvers were at the side of the track. The labors of the train crew came forward to ascertain the cause of the stoppage, were arrested and placed in charge of a guard.

The mail car was then attacked, and the pouches filled of their contents and the letters in the pigeon holes gone through and valuable contents extracted. The express car was next looted of all valuable matter, the messenger being powerless to offer resistance. Then all the passengers in the coaches were stripped of their valuables by eight heavily armed desperadoes. Every passenger gave up with a grace, glad to escape with a whole skin, and no violence was offered.

Big booty was secured, but no estimate of the loss can be given. A posse was organized as soon as possible, and the robbers are hot on the trail of the robbers. It is probable a fight will ensue if the gang is overtaken.

VENITA, Ill., Dec. 25.—The train robbers are believed to be the same that attempted to hold up a passenger train on the Missouri, Kansas & Texas last Friday evening at Kelso station. Bob Rogers and Charley Wooley are thought to be the leaders of the gang. They have operated in the northern portion of Indian Territory the past year, terrorizing the entire community. They have Jesse James blood in them, swear their men and keep their advices of the movements of the officers, and their capture will be difficult. Bennett's officers will be ready to cut down.

LOS ANGELES, Cal., Dec. 24.—Passenger train No. 23, which pulled out of the city yesterday morning, was held up at 11 o'clock by five masked men. The train was stopped by the men, who covered the trainmen with revolvers and blew open the door of the express car. The train was allowed to proceed. It is claimed the robbers got nothing but pay checks from the express car, as they were unable to open the safe, and everything was broken up.

Speculator's Case.

ST. LOUIS, Dec. 25.—It is reported that Madeline Pollard has left Washington and no further steps will be taken to bring to trial her suit against Congressman Breckinridge.

WASHINGTON, D. C., Dec. 25.—The rumor that the suit of Madeline V. Pollard against Congressman Breckinridge for $50,000 damages for breach of promise of marriage, will be compromised and settled outside the court, is not credited here. Both Miss Pollard and Breckinridge are now in Kentucky.

An Attorney Accomplished.

SULLIVAN, Ind., Dec. 24.—Wm. C. Hoin, a prominent attorney and formerly a prime promoter, was sentenced to 5 years in the penitentiary for forging a pension paper. The sentence commenced Hoin on the street, and had handcuffed with a deputy, marching him to the right direction. Hoin ran across the street for a refuge in a livery stable, and just as the door received the contents of the second barrel of the shotgun in the back, dying in twenty-five minutes. He lived long enough, however, to call out to a man in the stable that he had been shot by Sam Wills.

The assassination was the result of a quarrel over a mortgage, owing to the fact of the intimacy between Hoin and the wife of Wills. Three days ago Wills left home for a visit and found the couple in a compromising position at his house. He shot and wounded Hoin, for the latter revived and left town. A few days ago he returned.

DYNAMITE IN CHICAGO.

The Armour Institute Threatened with Destruction.

CHICAGO, Dec. 24.—The Armour Institute, the grand gift of the Armour packer whose name it bears, has been threatened with destruction by dynamite by a company of men, the same crank has threatened the officers, P. D. Armour and Rev. Frank Gunsaulus, president of the institute and pastor of Plymouth church. Neither Armour nor Gunsaulus will say a word concerning the danger to their persons, but Rev. Gunsaulus has declared that a man who connected with the institute had threatened to destroy the institute with dynamite.

Little Beatrice, the twelve-year-old daughter of Dr. Gunsaulus, stated the day said: "A man with a pistol has been following my papa around, and one day a man wanting a light overtook papa in the house, and papa was afraid to have him around."

A BLOODY SCENE.

The Result of a Battle With Gamblers.

ST. LOUIS, Dec. 24.—A special to the Republic from Birmingham, Ala., Town Marshal Phillips and a posse of officers raided a notorious gambling den at the Pratt mines at midnight last night. As the officers broke open the door the lights in the room went out, and the gamblers opened fire, which was returned by the officers. A regular battle in the dark followed, the gamblers retreating from the place as rapidly as possible.

When the lights were turned on again a bloody scene was presented. Henry S. Hermann, one of the gamblers, lay dead, with a bullet in his heart. Isaac Hamilton and Sam Horn, two more gamblers, were fatally wounded. One of the officers was seriously shot. The remainder of the gamblers, twenty-two in number, made their escape. It is thought that several were hurt, as drops of blood were found in their tracks.

The call consists of about 3,000 words, and covers over forty subjects on which legislative action should be taken, in the governor's opinion. The governor justifies his proclamation by declaring "The mining interests of the state have been unjustly and unconstitutionally attacked by Congress and the present administration. The people have suffered values also increased the burdens of taxation that the agriculturists, miners and mechanics are driven to sell their products below the cost of production, and the wholesale carry remedies now proposed exercises in Congress should be repealed.

As to the letters he has been writing, he claims that he was incited to write them by other people, receiving $10 for doing it. He disclaimed that they were anonymous or contained any accusation. They were merely private persons. He denies any threats in the letters, or any reference whatever to dynamite.

CONDITION IN OREGON.

Governor Pennoyer Writes a Letter to Grover Cleveland.

SALEM, Or., Dec. 25.—Governor Pennoyer has addressed a letter to President Cleveland, saying that this letter from Cleveland to the history of Oregon when more than two-thirds of the people were without employment, and more than one-third without means of support. Business is almost completely stagnated, money is not to be obtained, and values are almost powerless to avoid the seizure of their property to satisfy their creditors. Appeals have been made to assemble the legislature to alleviate this condition, "but," says the governor, "the result is not in our hands, but in yours."

"The responsibility lies entirely with you. The complete obedience of the lower house of Congress to your mandate has been observed throughout the world. It would obey your behest, and in this the female would give you support.

"You are a father, and you no doubt feel grateful to God when you, upon retiring to rest, look upon your sleeping infants in their cradles, pictures of health, smiling and upon having a sufficiency of food and clothing. I pray you, however, to enlarge the scope of your vision, and behold, if you can, in many a home, confined by stern necessity to a diet of bread and water, weak and sickly from insufficient food and clothing, innocent victims of vicious financial legislation, whose sleeping forms are bedeck by the sinking tears of mothers bending over them in sorrow and despair, and then resolve, as you should, to faithfully carry out the pledges which your party gave to a suffering people. If you will do so, God will crown you and a grateful nation will applaud you.

IN THE GREAT FATHERLAND

Germans Offended at a Discussion in the English Commons.

Fighting Socialism in the Colleges.—A Prohibited Play.—The Russian Treaty.

BERLIN, Dec. 25.—(Copyrighted by Associated Press.)—The debate in the English parliament upon the Duke of Saxe-Coburg-Gotha's position, seems likely to create considerable here. The Hamburger Nachrichte says the position of the duke was endangered in a manner which cannot be passed over with an injury on the German side. The duke became a sovereign German federal prince, over whose rights and duties no foreign parliament is entitled to deliver an opinion. The friendship of such an alliance with the slightest and respect for the German sentiments and its federal princes, should form the subject of discussion at the early sitting of the reichstag.

Severe measures are being taken to stop the socialist propaganda in the schools and colleges, owing to the revelations through the report of the directors of the Gnelfenrod gymnasium, that students at students belonging to the upper classes were connected with the socialist party.

The emperor has forbidden further performances of Oedel's play, Catarina the Countess, on account of the author refusing to expunge a phrase relating to the celebration of the battle of Sedan, which shocked the emperor.

Liberal and radical papers are censured at the conciliatory attitude adopted by the chancellor and foreign secretary towards the Russians, and says the day is near at hand when Caprivi will step up the stage and fight. The Agrarian Zeitung expresses fear the conservatives could easily be made to feel their duty if Caprivi would fill the vacancies existing in the officer office by liberals.

Understanding work continues against the Russian treaty. For one thing the preliminaries are not, but the Russian delegates will remain here until received after the new year.

THE BRAZILIAN REVOLUTION.

Control is to be Proved into Service by the Rebels.

PERNAMBUCO, Dec. 25.—(Copyrighted by the Associated Press.)—The situation of affairs has very materially changed in the city within the last few hours. Until this morning Pernambuco believed its darling to be the scene of the first naval battle between the Republican and Aguilarist navies, and the Nictheroy came on the other. The news received here this morning changed the whole aspect of affairs. The rebel warships, it was then learned, were not on their way to Pernambuco, but had sailed towards the islands of Fernando De Noronha, where there is a large convict settlement. The revolutionary shallop's object is going to Fernando De Noronha, which is over one hundred miles from the main coast, is to compel so many able bodied seamen as she can find in the settlement to go aboard the vessels and join the crews. It is said that he expects to secure not less than one thousand men in this way.

FORTY YEARS IN UTAH.

And Thirty years a Sufferer From Catarrh. Edmund Webb of Kaysville, Utah, States What Was Done for Him. What Has Been Done by Others Can Be Done for You.

EDMUND WEBB, KAYSVILLE, UTAH.

"I am 70 years old and have lived in Utah for the last forty years. I was a Royal Arch Mason for twenty years and the Grand Master of Masons for one year. I remember the 'Mormon' war and the Indian war, and have lived with the Indians and fought them. I was in the Black Hawk war, and my exposure has caused me to have Catarrh. I have had it for thirty years. I have had a hard cough, and have spitted a great deal of phlegm. My hearing has been very bad, and I have had a ringing in my ears. I have had a pain in my back, and I was so lame that I could not walk without a cane. I was also troubled with a pain in my side. I was so bad that I could not do my work. I was so nervous that I could not sleep. I was also troubled with a pain in my head and a weak feeling, that was the cause of my being so lame. I had a bad appetite, and was troubled with a bad taste in my mouth. I had tried many remedies and doctors without benefit, and was discouraged when I heard of the Zion Medical and Surgical Institute. I at once wrote to the Institute for a treatment, and I am now cured of all my troubles. I can hear as well as ever, my back is strong, I can walk without a cane, I can sleep well, my appetite is good, and I am free from Catarrh. I feel like a young man. I am 70 years old, and have lived in Utah for the last forty years. I was a Royal Arch Mason for twenty years,
