The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 269. THURSDAY, OCTOBER 19, 1893. SALT LAKE CITY, UTAH. VOL. XXVI

A LOG FOR A CORPSE

Sensational Rumors About Dr. Graves, the Poisoner.

HIS REPORTED SUICIDE A SHAM.

High Officials and Secret Organizations Said to be Implicated in the Deception.

DENVER, Oct. 18.—The *News* publishes a sensational story to the effect that Dr. Thatcher Graves, the poisoner who was supposed to have committed suicide in jail, is not dead. It is maintained that a pine log occupied the coffin instead of a body. The story is given on the authority of Charles N. Chandler, a wealthy citizen of Thompson, Center county, Graves's old home, and where the body is supposed to be buried. Chandler and a fellow townsman, Stephen Moses, are now here. They declare that the coffin was opened at the grave against the protests of the widow and it was found to contain a pine log. The supposed dead doctor is now said to be enjoying his freedom in a foreign country.

A rumor has been current here for some time that the body carried from the county jail was really of wax and that the parties in the deception are some high officials and a secret organization. This rumor is strengthened by the refusal to allow the remains to be viewed except by the most intimate friends, and by the further fact that the widow refused to allow the remains to be embalmed.

Unveiling a Monument.

TRENTON, N. J., Oct. 18.—A monument in commemoration of the battle of Trenton was unveiled here this afternoon with imposing ceremonies. The day's exercises began with a procession of troops and governors to the monument, followed by the unveiling. There is a musical march and review at the court house. There were five thousand troops from New Jersey, New York, Pennsylvania, Massachusetts and Connecticut. A great concourse of people assembled to witness the ceremonies. The principal feature of the monument is a large bronze statue of Washington standing on a handsome shaft. The monument is a mounted and fifty feet above the street level.

Lord Dunraven Departs.

NEW YORK, Oct. 18.—Among the passengers on the White Star steamer Britannic for Europe today were Lord Dunraven, the countess and two daughters.

For the Benefit of Indians.

WASHINGTON, Oct. 18.—The Indian agent at Tacoma, Washington, has submitted his report to the interior department. He says intoxication is the predominant evil among Indians. The evil will grow, he thinks, because of the decision of the courts that an Indian holding patent to land is a citizen. He recommends an amendment to the law so as to prevent holding that when patent is given, it shall not confer citizenship upon an Indian.

In Favor of a Gold Standard.

CHICAGO, Oct. 18.—The National Bankers' convention continued its sessions today. There was a large number of papers on financial questions. Among those who read papers were: Horace White, New York; E. D. Leech, vice-president of the mint; Jos. C. Hendrick, New York; Sidney Biewenson, of Aden Stevenson's universe; Gen. E. Leighton, St. Louis; James H. Tripp, Staunton, N. Y.; Jos. Johnson, Birmingham, Ala.; Frank C. Dillard, Sherman, Tex., on various phases of the money question. The prepondering opinion was expressed in the papers in favor of a gold standard.

A resolution was unanimously passed concerning the United States Senate for not passing the bill repealing the Sherman silver purchase law.

RESERVE INDIANS.

Executives Said to be Fair at Pine Ridge.

WASHINGTON, Oct. 18.—Great uneasiness is felt at Pine Ridge agency on account of numerous renegade Indians from other agencies. It is believed that troops will have to be called on to suppress these Indians hereafter. The agent of that agency reports to the interior department to this effect and the department agrees with him.

NO SIGN OF TROUBLE.

OMAHA, Oct. 18.—Brig. Gen. Brooke, commanding the department of the Platte, says there is no need of troops at Pine Ridge and none have been ordered there. The trouble arose over a visit of the Brunjapaupe from Rosebud. They stayed a good while and trouble was feared but they have since gone home.

School Children at the Fair.

CHICAGO, Oct. 18.—The school children swarmed the Fair grounds again today. Their numbers were increased by additions from the schools of neighboring cities and by two train loads of news boys and bootblacks from the city. At noon the children sang the new Liberty bell in honor of the anniversary of the surrender of Lord Cornwallis, giving a grand signal of three cheers and one for each state and territory and one of welcome to the Hawaiian islands.

RUSSIA IN THE EAST.

An Alliance Directed Against the Dreibund.

PARIS, Oct. 18.—A report is published that Servia, Greece and Montenegro, under Russian influence, have formed an alliance against Bulgaria. This is considered a Russian triumph and a decided check on the dreibund.

THE NORTHERN PACIFIC.

Annual Report of Receipts and Expenditures.

NEW YORK, Oct. 18.—The annual report of the Northern Pacific railroad was submitted to the stockholders at the meeting today. It showed that the gross earnings, including receipts from the Wisconsin Central and other leased and branch lines for the year ending June 30, were $20,608,[illegible], operating expenses, $[illegible], net earnings, $[illegible], other income, $[illegible], total net income, $[illegible], against which have accrued fixed charges, rentals, $2,[illegible], interest on debt, $7,[illegible], interest on branch lines, $[illegible], interest on other leased lines, $[illegible], sinking funds accrued, $[illegible], subsidies, $100,000, taxes, $[illegible]. The details for the year are $[illegible].

During the fiscal year the funded debt has increased by the issue of six million collateral trust notes, but decreased by the foreclosure of the following bonds by sales of the mortgage bonds: Missouri division $[illegible], Pend d'Oreille division $[illegible], total first mortgage bonds $[illegible], second mortgage bonds $[illegible], from proceeds of land sales which have been canceled in the Pend d'Oreille div. $[illegible], total reduction of the funded debt $1,687,000. The land commissioner's report shows sales for the year of 290,511 acres, amounting to $[illegible]. The number of acres remaining unsold are 20,142,000.

The meeting adjourned at 2 o'clock until tomorrow, when the stockholders will have additional two votes in which to vote, 547,031 shares were voted today. The Ivor-Schwerd faction voted 520,000 shares. It can be stated on unquestioned authority that the new directors will chose Brayton Ivor for president, Robert Harris, vice-president. The new board of directors will be as given in the Associated Press dispatches previously.

HOW THE ACCOUNTS STAND.

Figures Presented for the Information of the Senate.

The Debate on Monday's Journal Resumed.—Stewart Knows Against Changing the Rules.

WASHINGTON, Oct. 19.—In the Senate the finance committee presented a report from the treasury department in response to a resolution for information as to the probable deficiency in the revenues of the government. The report shows a deficit for the first three months of the current fiscal year of over $21,000,000, or at a rate of over $84,000,000 for the entire year. It shows actual expenditures for the first three months of over $90,000,000. At the same rate the expenditures for the year would aggregate about $[illegible], or about $21,000,000 more than the estimates expected, and would show expenditures over the supposed actual receipts of over $77,000,000.

The secretary says a definite forecast for the whole year is impossible, but it is apparent should the present conditions continue the outlook at the end of the year would be about $[illegible],000,000.

Stewart of Nevada took the floor against the motion to amend the journal of Monday to show the presence of Felker who failed to answer to his name on roll call. Stewart argued that in the midst of the exciting discussion there was not time to change the rules.

A Fatal Accident.

PITTSBURG, Oct. 19.—By the caving in of a trench this morning, Andrew Jurek and John McMahon were killed, one was fatally hurt and four seriously.

Cholera in Holland.

WASHINGTON, Oct. 19.—H. J. Reuss, cable director, Germany, reports that there are five cases of cholera at Antwerp. This is a new outbreak.

A REPUBLICAN CONFERENCE.

Repeal Senators Talk the Matter Over.

WASHINGTON, Oct. 19.—An extended conference of Republican senators was held last night to talk over the situation with a view of taking party advantage of any mistakes which the Democrats may make in the financial questions. Only repeal Republicans were present. It was practically the unanimous opinion that the best policy was to remain quiet, neither bolster the Democrats out of the present mess nor do anything to prevent the progress of the bill, but if it becomes evident that the Democrats can do nothing, then to prepare a Republican measure and see the Senate is passed. A majority was in favor of amending the rules if necessary to get a bill through, though some object to any change which would help the Democrats in getting the election and tariff bills through. There were some expressions favoring compromise on the repeal bill.

The Deadly Gas.

NEW YORK, Oct. 18.—David Lynes and James Hayes, park policemen, and Thomas Fatty, a blacksmith, were asphyxiated by gas in a cottage in the park last night. George Hayes, a park policeman, was rescued alive but will die.

Resignation Accepted.

LONDON, Oct. 19.—A Berlin dispatch says Emperor William has accepted the resignation of Imperial Chancellor Von Caprivi, minister of war.

Cotton Mill Burned.

SHANGHAI, Oct. 19.—A great Chinese cotton mill has been burned. The loss is half a million dollars.

WORKING FOR COMPROMISE.

Democratic Senators Trying to Formulate an Acceptable Bill.

WASHINGTON, D. C., Oct. 19.—The Democrats in the Senate are devoting most of their time to an effort to agree among themselves and are of the opinion that they are in a fair way to agree on a bill to be introduced the beginning of next week. So many of them are engaged in this business that very few are in the Senate today, but the silver men, understanding the situation, did not suggest the absence of a quorum.

It is a fact that the Democratic steering committee has almost agreed on a bill and are now engaged in trying to get the various factions to accept it. The silver Democrats accept it rather heavily though they are not fully satisfied with the limited recognition of silver, but make no real Democrats are still looking for a definite report, and with these the committee is now laboring. The opinion is expressed that if all these cannot be won over, enough Republicans can be secured to pass the measure. The proposed bill extends the provisions of the present silver law to Jan. 1st, 1899, with a retention of monthly purchases in two and a half million ounces a month and for exchange indefinitely of the seigniorage silver in the treasury. The matter of bond issue is still upon but most favorably considered. The proposition contemplates purchases of silver at the present rate for a twenty million ounces are purchased. This is the only member of the committee talking out against compromise. A compromise will be held with Carlisle this afternoon.

En Route to Independence.

CORRESPONDENCE DESERET NEWS.

INDEPENDENCE, MO., Oct. 12, 1893.—We arrived in this place this evening, having left Salt Lake City on the 11th inst. at 9:30 p. m., over the Union Pacific via Denver, Colorado. We encountered a slight snow storm, which covered the ground up the Weber canyon. On the morning of the 11th the boys air sleeper window and the mantle of white which surrounded the hills and valleys all around reminded us that we had changed climate in about a 10-mile run during the night.

At Rawlins we found an engine thawed, caused by a broken rain. No one was injured and we soon sped on our way without any accident to our train. We found snow sufficient for sleighing until we passed Lucindie.

We passed Denver in the night and this morning took breakfast in a very pretty little town named *Ellis*, in Kansas. Our party declared the broad plains of Kansas with adjuncts to, especially those we had been raised among Utah's snow-crested mountains. Only eleven miles from Ellis and we were in close proximity to a Russian town. Nearly all the country population was exclusively Russians. My informant was Mr. Holsinger, a German Baptist preacher who lives at Russell, Kansas. This gentleman stated many peculiarities about those Russian Catholics and their mode of living. The doors of their houses, he said, faced away from the streets of the town. The people live very economically, are very industrious, keep out of debt, raise a fine class of horses, much wheat, and other things adapted to the climate. The railroad makes a good market for their products, which they sell and buy more land with their profits. It is said the Russians of Kansas are so far a success.

Last night heavy rains in these parts made the farmers rejoice because of their fall wheat, which already looks green. Wheat is the main crop hereabouts. The crops the past year were very light. Wheat now brings 60cts. in Ottos, per bushel here. One mile on the train on the way to the Fair told me that he had just completed sowing his field of 125 acres, with excellent prospects for its future. I asked him how it was that the people of Kansas complained of hard times when they could get fifty and sixty cents a bushel for their wheat and raise thirty to forty bushels per acre. Well, said he, sometimes drought brings about short crops, and there are other disappointments. Unlike the Russians, we go in debt, live too fast, buy machinery, mortgage up and become entangled in snarls.

Sugar cane is raised by the acre here for table molasses, and hogs live on it and thrive. I am told that they cut from five to eight tons per acre—rake it up in files from which they use it as they need it. "But," said my informant, "it is so heavy and coarse to stack that it is cut as it leaves and when it becomes sweet." The seed is also broadcast, but does best drilled in.

As we approached the Missouri river, more rain and timber, with larger towns, appeared until we rolled into Kansas City, where we took the "Omnibus" eleven miles to Independence—twenty-five cents for return ticket. Elder Charles Morris, of Salt Lake City, Elder George Madsen, of Springville, Utah county, and Elder Samuel Backman, of Lehi, are here at Independence, Missouri, on their way to West Virginia on missions. We were all pleased to meet them on the train from Salt Lake and to accompany each other to this place, where tomorrow, the 13th inst., will be spent, and the Elders will then resume their journey. I shall remain a few days, going to Adam-and-Eve and the surrounding country, taking views at noted points of interest. Today we all are well and joyous as well. We are all well and join in kind wishes. EDWARD STEVENSON.

THIRD DISTRICT COURT.

The Two Judges at Work on the Civil Calendar.—A Hearing Resumed.

The morning was a slow one in both divisions of the Third district court. The case of *Fr. Bergner & Co.* vs. *Meik E. Steel and Elias M. Gleason*, doing business in the partnership name of Steele & Co., was the first matter called up in Judge Zane's branch today. Attorney George Armstrong appeared for the plaintiff and Attorney Putnam for the defendant. It was a claim for $193.75 for merchandise alleged to have been supplied by the plaintiff, who are carrying on business at Baltimore, Maryland, to the defendants, who formerly ran a store known as the "Fair" in this city.

The hearing was still in progress at 3:30 this afternoon.

In Judge Daleth's court the further hearing of the action brought by the Fred W. Wolf company against the Salt Lake City Brewing company was resumed and seems likely to occupy all today. As stated in yesterday's News the plaintiffs seek to recover $5,745.60 as balance of account or indemnity, while the defendants put in a counter claim to the tune of $11,800, alleging that the machinery furnished to them was defective.

POLITICAL MATTERS.

Liberals Registering From Dives and Places of Ill Resort.

UP TO ALL KINDS OF SCHEMES.

Ogden and Weber County Conventions—Political News From Fillmore.—Notes.

During the grand rush of the last days of registration the Liberals resorted to their old time tactics of getting men on the rolls that did not belong there and were successful to a surprising degree. There is no conclusion, however, and that is that it will furnish good grand jury material. Several strange characters were run in to polls and gave their residence at a well-known sporting house. Citizens' detectives made inquiry at the place and ascertained that the men did not live there nor were they known by the landlady. She unhesitatingly admitted, however that a good many Liberals attended "dances" and "receptions" at her house. These fellows will have a busy time of it on election day if they attempt to vote.

Another idea resorted to is that of registering men whose alleged places of residence have proven to be vacant lots and nonexistent houses. Some of these chaps will also be "scratched" when they show up at the polls.

WEBER COUNTY DEMOCRATS.

The Democrats of Weber county, exclusive of Ogden city, comprising the Fourth representative district, ended their convention last evening, and after a strong contest nominated George F. Hunter of West Weber for the house of representatives. The contest was between John Manning of Harper, J. R. Carver of Plain City, Hunter and Nathaniel Montgomery of North Ogden.

DEMOCRATS AT OGDEN.

The Democrats of Ogden held an enthusiastic convention last night and nominated their legislative candidates. Rasmord Smith was chosen for the Council and H. S. Hemsley and Jos. N. Perkins for the House. The following resolutions on the silver question were adopted:

We, the representatives of the Democratic party of the Third Representative district of Utah Territory, in convention assembled, resolve:

First, That all the conditions exist that entitle the people of the Territory of Utah to admission to the Union as a state, and that the bill introduced by our delegate in Congress, Hon. Joseph L. Rawlins, authorizing the admission of our Territory to statehood, meets our cordial approval.

Second, That we favor the complete recommendation of silver through laws permitting its free and unlimited coinage.

Third, We approve of and reaffirm the doctrines of the Democratic party as declared in the platform of the last national Democratic convention, and in the platform of the last Territorial Democratic convention.

Fourth, That we do not approve of that protection which does not protect nor do we approve of taxing the necessaries from the pockets of the people to taxation for the benefit of special classes.

THAT $6000 SHORTAGE.

Not a few of the rank and file of the Liberal party were so amused at reading in last evening's NEWS of a shortage of $6000 in the campaign fund they had all been compelled to contribute to. Some of them of them think it is all right to assess the "Gentiles" to pay Christ's dues, but at the same time they most decidedly object to the squandering and unaccounting of the cash that was wasted from them by dictatorial bosses such as crack the whip over them and lash length at the sting of the lash. An itemized account of the disbursements of that $6000 would be very interesting reading just now. Will the financial secretary and treasurer furnish it, or would its publication compromise some one?

REPUBLICAN PRIMARY.

The Republican primary at Sugar House last night was well attended; R. H. Love acted as chairman and Arthur Stagner Jr. as secretary. The following are the delegates selected to the Eighth representative district convention, which meets at Mill Creek today: Daniel Harrington, Geo. M. Cannon, Geo. H. Smith, W. F. Murphy, R. W. Ashton, R. H. Love, James H. Smith. The following were selected as alternates: S. J. Larsen, W. L. Hanson, Samuel Rockwood, J. A. Goodhue, Joseph Muir.

A resolution was passed by the meeting, commending the action of the Democrats in endeavoring to make the election of school trustees a partisan question in the district.

DEMOCRATS AT FILLMORE.

A Bird writes to the NEWS from Fillmore as follows under date of the 16th inst.

"The Democratic representative district convention was held in Fillmore today. Beaver county was represented by thirty-five votes and Millard county by thirty-two, after considerable canvassing by both delegations. Revier presented the name of Mr. J. J. Stewart and Millard that of Joshua Greenwell. The nomination place went to the Revier gentleman. An entertainment was gotten up for the benefit of the visitors in the evening and a grand, good time followed."

POLITICAL STORY GEM.

The Liberal precinct conventions will meet tonight.

The Americans and anti-Americans meet in battle royal tonight.

An appropriate tomstone epitaph for the Liberal party after November 7th—"Died of too much politics."

Who registered A. Wolstenholm? Dr. Joel F. Allen the U. S. marshal, registrar certified to the correctness of the rolls.

The Seventh representative district Democrats have nominated D. O. Hilderal, Jr., of Draper as representative to the legislature.

R. C. Miller, of Mill Creek has been nominated by the Democracy for legislative honors from the Eighth representative district.

William H. Apperly has been placed in nomination by the Republicans to be voted for as superintendent of the Cache county schools.

At the Liberal city convention it is proposed to officially support Orlando Powers the Post Laureate of the party. He writes the kind of drivel that Goldzier and Greenwald like.

It is reported that Fred Trimmer contemplates making an extensive concern visit in the near future. Whether or will leave before the grand jury meets on the 1st prox. is not stated.

At the Republican legislative convention at Logan, nominations have been made as follows: For counsilor, James T. Hammond, of Logan, for representatives, Wesley K. Walker, of Rich county and Mathias W. Merrill, Jr., of Box Elder.

Patrick H. Lannan who wants pretensions and healthy Utah appeared in greasy strikers and dressed Nevada is quietly working for the nomination of C. F. Mason as Mayor on the Liberal ticket and the defeat of R. N. Baskin.

A local lawyer has just received information to the effect that the courts in Elizabeth, New Jersey, have held that the corporations of that city are entitled to only $2 a year for their services. He thinks that if the salary question was tested here the courts would decide that our city fathers would not be entitled to anything at all.

The Powers machine gang are of the opinion that the statements in NEWS charged with politics. They thought at the outset they would give a party show campaign, but for the fun of it, and they were in no way prepared for the approaching storm. The big three shops of public indignation they saw are now strolling terror to their retiring souls and they know that they are only a gentle shower of the political hurricane that will sweep them from the land in November.

Home from the South.

Elder R. M. Wright, of the Eleventh ward of this city, called at the NEWS office this afternoon, having recently returned from a mission to South Carolina, whither he went two months ago. Elder Wright's early return is due to a serious illness in his family. During the time his health was good he enjoyed his labors exceedingly. He is now gradually recovering and expects to be fully restored to health soon.

Visiting Salt Lake.

Mr. Wm. Quayle, accompanied by his wife and son, of Brooklyn, N. Y., and Mrs. Col. Creighton, of Cleveland, Ohio, are in Salt Lake on a visit. Mr. Quayle is engaged in the business of pipe, of Stacey Hook. He is the son of Capt. Joseph Quayle, whose sister is the mother of Fred and Geo. Q. Cannon and Angus M. Cannon of this city, and David H. Cannon, of St. George. Mrs. Creighton is the widow of Col. Creighton, who was not his life at the head of his regiment, the Seventh Ohio, in the war for the Union. She is also first cousin to President Cannon, their mothers being sisters. The visitors are delighted with Salt Lake City, and will remain several days. They are warmly welcomed by relatives here.

Suspending Mining Assessment.

The following is Congressman Bell's bill for the suspension of assessment work on mining claims for one year, as it finally passed the House of Representatives. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the provisions of section numbered 2324 of the Revised Statutes of the United States, which require that on each claim located after the 10th day of May, 1872, and until patent has been issued therefor, not less than one hundred dollars' worth of labor shall be performed or improvements made during each year, be suspended for the year eighteen hundred and ninety-three, so that no mining claim upon which has been regularly located and recorded as required by the local laws and mining regulations shall be subject to forfeiture or the performance of that annual assessment for the year eighteen hundred and ninety-three provided, that the claimant or claimants of any mining location, in order to secure the benefits of this act, shall cause to be recorded in the office where the location notice or certificate is filed, on or before December thirty-first, eighteen hundred and ninety-three, a notice that he or they in good faith intend to hold and work said claim. This act shall take effect from and after its passage.

AMUSEMENTS.

THE GUS I LEFT BEHIND ME company, conveyed by genial Al Morrissey, brigadier general to Chas. Frohman, is in town and quartered among the leading hotels. Their opening house tonight will be a moonlight one, and the engagement lasts up to and including Saturday.

ADVISING THE COMMISSION.

It is Suggested that Three More Persons be Appointed to Hear Objections to Voters.

Messrs. C. O. Whitenoire and D. C. Dunbar attended before the Utah Commission this morning and pointed out the advisability of the commissioners appointing not less than four persons to hear objections to the right of voters to remain on the registration list. The 15 will be remembered that commission had already detailed Attorney Chas. Baldwin to undertake this duty, and it was now suggested by the deputation that inasmuch as several hundred objections are likely to be filed, on the ground of the persons claiming to be voters not being bona-fide citizens and for other reasons, Mr. Baldwin, single-handed, would not be able to get through the work within the specified period.

The matter was taken under advisement by the commission.

Students' Society.

The regular weekly session of the students' society will be held in the Latter-day Saints' College building on Friday evening, Oct. 20, at 7:30 o'clock. Following is the program:

Instrumental Duet	Minnie Houston, Ed. Cannon
Recitation	Miss Ethel Rowan
Vocal Solo	Frank Spencer
Piano Duet	Miss Ella Stayner, Vincent Romney
Instrumental Quartet	Misses Cannon, Romney, Stayner, Rowan

The public are invited to attend.

J. T. WOODBURY,
Chairman.

United in Wedlock.

Thomas A. Tousley and Miss Jessie Houston, an estimable young couple who were united in marriage in the Temple yesterday, were given a pleasant reception at the residence of the groom's aunt, Mrs. Elizabeth Evans, of the Eighteenth ward, last evening. Mr. and Mrs. Tousley have many friends in this city, and all wish them a prosperous and prosperous journey through life.

JUDGES OF ELECTION.

Uintah, Juab, Wasatch and Box Elder Counties Supplied Today.

The Utah Commission Making Good Progress with the Work.—Salt Lake Will Not Come On This Week.

The members of the Utah Commission met again this morning and made the following appointments as judges of election for the counties named:

UINTAH COUNTY.

MOUNTAIN DELL—Benjamin Jones, D., Edwin Carr, D., Dexter M. Cole, R.

ASHLEY—Geo. W. Bauer, D., Robert Boddy, D., David L. Ellis, R.

VERNAL—Geo. C. Ewing, D., Geo. A. Davis, D., John Bunnell, R.

BIRCHDALE—Eugene A. Dennis, D., Frank Oliver, D., Lewis Ward, R.

JUAB COUNTY.

NEPHI—C. F. McCune, D., Thomas Crowley, D., L. L. Hunter, R.

MONA—John Yates, D., John T. Hay, D., James Mousebrand, R.

LEVAN—C. N. Lauritzen, D., Jos. Curtis, D., David L. Ellis, R.

JUAB—Wm. Bell, D., Peter Hughes, D., Roy Taylor, R.

LOCKSBURG—Leonard D., David B. Brown, D., Roy R. Clark, R.

SILVER—Robert F. Johnson, D., Jos. H. Cannon, D., Geo. H. Hunter, R.

FOOT SPRING—Charles Crouson, D., E. W. Tripp, D., Frank C. Miller, R.

WASATCH COUNTY.

HEBER—Thos. R. Watson, D., Fred W. Gerry, D., Stephen A. Bunn, D.

CHARLESTON—Jos. Bell, D., John M. Robbs, D., Leonard Barney, D.

DAISY (CROSS-ROAD)—Lindsay, D., Mark Grigg, D., Wm. S. Bell, R.

CENTRAL (CROSS-ROAD)—Lindsay, D., John R. Goodwin, D., Wm. H. Sweden, D.

LAKEVIEW—O. Jos. Lee, R., H. Van Cliff, D., Wm. H. Davis, D.

BOX ELDER COUNTY.

BOX ELDER—Brigham Wright, D., Wm. Jeppson, D., Geo. L. Gibbs, Jr., R.

BEAR RIVER—Alma Nelson, D., Peter C. Jensen, D., James W. Green, R.

CACHE FOR—Thaddeus Wight, D., Abraham Wheatley, D., Israel Hawkes, R.

CORINNE—M. L. Kunze, D., Elmer Loveland, D., John M. Stubbs, R.

CLEAR CREEK—Louis Duquette, D., Chas. L. Thomson, D., W. C. Hill, R.

DEWEYVILLE—Mile V. Garland, D., F. D. Holloway, D., Daniel W. Marble, R.

GROUSE CREEK—B. F. Cook, D., Samuel Kimball, D., Seth Forsner, R.

MALAD—James E. Davis, D., Thos. W. Clumey, D., D. D. Ryan, R.

MARION—Julius Keller, D., Chas. N. Jeppson, D., C. M. Jensen, R.

PLEASANT GROVE—Alma Carr, D., Thos. Davis, D., Alma Taylor, R.

FORT VARNEY—E. D. Michaels, D., E. F. Carter, R., Jonathan Campbell, R.

PLYMOUTH—John M. Hess, D., John Mason, D., Noah Wilkerson, R.

PORTAGE—Wm. H. Anderson, D., W. D. J. Mason, D., Wm. Gibbs, R.

CURTISE—James Gubler, D., Levi Peterson, D., Joseph Robbins, R.

THREE MILE CREEK—D. B. Walker, D., John F. Roberts, D., John Holmes, R.

TERRACE—Wm. G. Watson, D., Wm. H. Green, D., Harry J. Hogan, R.

WIGWAM—H. H. Corbin, D., S. A. White, D., John A. Edwards, R.

JUNCTION—Walter E. Holt, D., Frank Tracy, D., Charles Yost, R.

October Exponent.

The October number of the Woman's *Exponent* is out and full of good reading matter. The contents are as follows:

In Rural England—A Story. The Children—Selected. Notes and News. A Few Reflections—Iris Hoag. Perfection—Zoe's Convert. Returning Home—W. Earl. Farewell Party—Ann Harvey, R.S. and Union Primary Reports. Slavery—Ann E. Neal. Obituary—Sarah C. Cox.

Editorial—New Zealand Lands. A Thousand Southern Miles Visit. In Memoriam—Mary R. Thompson.

Poetry.—Alma—E. L. G. Halliway—Albert Bigelow. To Sarah—Alice.

J. D. Thayer, of the Merritt-Howe corporation of Minneapolis, Minnesota, is in Idaho, making an investigation as to whether it is advisable for his company to invest in placer mines on Snake river.

INTERESTING ITEMS.

Repudiating Outstanding Obligations of the Union Pacific.

PROPOSED BIG MINING EXHIBIT.

Copper Mine in North Cache Valley.—Mining and Miscellaneous News Notes.

The receivers appointed for the Union Pacific Railway have made an announcement that is of grave importance to employes who have time checks of the road for work done prior to May 1 last and to parties who have claims of any nature against the road antedating April 15, 1893. The receipt of the news has caused no little agitation among interested parties, as there are a good many people who have learned to look upon Union Pacific time checks to be as good as gold. But these days have their confidence today shattered by the recent orders.

When it was first announced quietly that time checks previous to June 1 would not be paid, the discovery was made that in Salt Lake there were parties who would be seriously affected. One holder alone had $3000 in checks for work done in May, and under the order as announced these could not be paid. Further services received today, however, open the way for the payment of employes' bills for May, all the time checks on which are dated June 1. But all before that date are shut out, and if the holders get anything it will be only after a lawsuit. The predicament is not a pleasant one for holders of unredeemed time checks, of which there are no doubt a great many over the entire system.

The order for refusal to pay obligations applies also to all bills contracted previous to April 15—a month before the date of the appointment of the receivers. The instructions received today state that the order of receivers is a special precaution in the up-hill work, through their ruling that it may be in force, will not pass without special trial of a month.

The rules under which this condition has been brought to pass are not, however, the result of any statutory action on the part of the receivers. They are promulgated by the court in the order joining the roads in the receivers' hands. There is doubtless an issue in the case as presented which will be settled by the courts and parties affected will be able to find relief only by the machinery of the law.

SO BE THE END OF THE ROAD.

The Denver correspondent of the Chicago Times says that the capitalists of the Rocky Mountain and San Francisco shall be made to realize the most magnificent mining display ever made in the world. Twenty thousand dollars is now applied for by the management of the last general report, which is sufficient for a display that will astonish all comers. Colorado is the first to the Rio Grande Exposition, and the new world, the Centennial, wants to know that it was in at the front in the production of all things for the delight of which the Indian dances. In all stages of production it is to be the Colorado. As a result of the world's fair, it is to be place there to Rocky Mountain, Leadville and Aspen will be $4,000,000. The first product is magnificent to be of enormous size. It would be about twelve feet square at the top and forty feet high. It would weigh 3000 pounds and would be worth $1,000,000. Another pyramid of $1,000,000 in gold, built up of $5, $10 and $20 gold pieces. The idea, of course, is to have it, once feet square at the base, one foot square at the top and twenty-one feet high. It would weigh twenty-nine and a half tons, and would also be worth $1,000,000. Very few people have ever seen so much gold in one mass, and the display certainly would be interesting.

GOOD COPPER MINE.

James N. Davenport came in from Richmond Saturday and brought with him some specimens of copper ore taken from the Right-of-Way mine, located in Maple canyon, near Franklin, Idaho, says the Logan Nation. Samples of ore taken from the surface of the prospect have been assayed and returns showed that it ore was 22 per cent copper and $2.11 in gold. There is a large body of the ore in sight and the indications are that the Right-of-way will develop into one of the bonanza mines of this region. There are a number of other prospects near the Right-of-Way, and development work is being vigorously pushed on them.

NOTES.

Richfield Advocate: James S. Whitehead, of Burrville, was in town Wednesday last. He reports everything moving on quietly, notwithstanding the severe loss in the wheat and oats crops which were badly frosted. Their main reliance will be on a good potato harvest and their stock.

The Consolidated California and Virginia directors have entered into a contract with J. H. Hale to open up a certain body of gold and silver ore which he claims he knows about, and which lies between the 1100 foot level and the surface. Hale discovered this lode, cut owing to a dispute which he had with the manager of the mine he covered it up the new find and refused to disclose its whereabouts. He is now to receive 10 per cent of the net proceeds of the lode's product until the amount paid him aggregates $10,000.

Logan Gem read: A large party of railroad surveyors are encamped near Meadon. The route through Blacksmith Fork can you last week looking over the Utah & Wyoming route. They say the road is sure to come through this valley and that east of here it leads in rough great fields of coal. This is indeed good news.
