EVENING NEWS.

Saturday, March 17, 1883.

FLOATING FRAGMENTS.

This is St. Patrick's day.

We had a pleasant call to-day from Judge R. K. Williams, of Ogden.

The firemen's brass band serenaded Mayor Jennings, at his residence last night.

President Joseph F. Smith will preach in the 12th Ward Hall tomorrow evening.

Mrs. Caine, who arrived last night, with her husband, has improved in health by her trip to the East.

The base ball fever has broken out and the boys take advantage of every opportunity to practice catching.

The fire brigade were out sprinkling the streets, from the hydrants this morning, for the first time this season.

We surrender our editorial space to-day to an interesting letter from our friend and confrere Elder Orson F. Whitney.

Another number of the *Woman's Exponent* is out. Want of space prevents a noting of the contents to-day. It is a good number.

Mr. James Dwyer has received Frank Leslie's *Popular Monthly* for April—one of the largest and cheapest periodicals published; 25 cents.

The Seventies residing in the 21st Ward will hold their regular monthly meeting at the residence of Wm. Sanders, on Monday evening next, at 7 30.

J. D. Negus, Esq., of the Utah and Wyoming Railroad was in town to-day. Work will soon be commenced on the new road from Corinne to the Mammoth Coal Fields in Wyoming Territory.

Two cases of smallpox have been developed at Green River. For some time the sufferers have been supposed to have nothing worse than varioloid, but physicians now say they are clear cases of smallpox.

The regular monthly meeting of the 11th Quorum of Elders will take place on Monday evening next in the 21st Ward meeting house, at 7.30 o'clock. W. P. AFELECK, President.

The regular monthly meeting of the 14th Quorum of Seventies will be held at the Council House on Monday evening, March 18th, at 7 o'clock. All members invited.
JOHN H. KELSON, Clerk.

LOCAL AND OTHER MATTERS.

PRIESTHOOD MEETING.

The monthly meeting of the Priesthood of the Salt Lake Stake of Zion, will be held on Saturday, March 31st, 1883, at 11 a.m., in the Assembly Hall. The meeting will be held one week sooner than usual, in consequence of the time for the regular meeting of the Priesthood occurring during the time of the General Annual Conference of the Church.

ANGUS M. CANNON,
DAVID O. CALDER,
JOSEPH E. TAYLOR,
Presidency of the Stake.

Reports Wanted.—It is urgently requested that the Superintendents of Y. M. M. I. Associations of this Stake send in their reports for the half year ending March 31st, 1883, not later than April 1st, 1883.
JOS. H. FELT.

Helping A Missionary.—Twelve men, of Union Ward, this County, with their teams and implements, turned out yesterday, plowed and planted the farm of Elder Augustus Rosengreen, who is from home filling a mission. Such acts of the Saints are very comforting to the Elders abroad as well as their families at home.

Nearly a Fire.—Last night a fire started in a disreputable house on Second South, nearly opposite the foot of Commercial Street. The curtains of a window and a blind were partially consumed, and the fire had caught the window frame before it could be extinguished. It came very near being a serious affair, the house being situated close to a large block of buildings.

Crowded.—A considerable time before two o'clock this afternoon the Theatre was filled from "pit to dome" with people who congregated to witness Mr. Evan Stephen's matinee concert. This evening, when the concluding performance will be given, the house will be, without doubt, crowded to excess. The entertainment will be of the most attractive kind, judging from what little we were enabled to hear this afternoon.

Mrs. King.—There was a very pleasant affair at the house of Mrs. Julia Howe last night, in the form of a gathering of well known and respected ladies of this city. The occasion was the anniversary of the birthday of Mrs. Hannah T. King, with whose literary compositions, in poetry and prose, our readers are familiar. The esteemed lady was presented with a handsome dress, besides other tokens manifesting affection. Speeches were made by several of the guests, and Sister King recited a poetic piece.

Welcome Home.—Hon. George Q. Cannon, Hon. John T. Caine, Feramorz Little, Esq., and George Romney, Esq., arrived last night from the East. There was no formal reception of the two honorable gentlemen who have been at Washington working in the political interest of the people of Utah, but the news of their expected coming drew a large crowd of people to the depot last night to greet them on their arrival. The scene was quite animated, being enlivened by the presence of the Firemen's and Sixteenth Ward Brass Bands.

Hon. Joseph F. Smith and Hon. L. John Nuttall met the party at Ogden, and a number of leading citizens of that town greeted them on their arrival there. Mayor Jennings, Mr. W. H. Bowe and others also met them at Keyesville.

The great bulk of the citizens of Utah bid Messrs. Cannon and Caine a hearty welcome home, after operating assiduously and successfully for the best political interest of the Territory.

A HEARTLESS DESERTION.

A FAITHLESS HUSBAND ROBS A CONFIDING WIFE OF $10,000.

A most heartless case of desertion and robbery has occurred in this city in the last few days. On East Temple Street, the block below the Clift House, Mrs. Hill resides. She was the wife of the late Moses Thurston, an old and respected citizen of Utah. After his death, about six years ago, she married a man named Hill, formerly of Wisconsin, at that time a lightning rod agent. Mrs. Hill was the possessor of some valuable property, one lot having accrued to her from her husband and the other from her father, the late Mr. Leonard. Not long since a portion of this property was sold, and a considerable sum was realized from the transaction. Suffice it to say, that she was enabled to deposit in a leading bank in this city an amount approximating to $10,000. Hill, by much pleading and persuasion, induced his wife to authorize the changing of his name for hers on the bank certificates of deposit for the money. This accomplished he informed Mrs. Hill last Monday that he was going to Logan to put some lightning rods on a building in that town, and expected to be absent but a few days. He had drawn Mrs. Hill's money, and there appears to be little doubt that he has departed for parts unknown.

A good deal of sympathy is felt for Mrs. Hill, who has been heartlessly deceived and robbed by a designing knave.

Conference Theatricals.—People attending the April Conference will have another opportunity presented them at the Theatre of witnessing a first class musical and comedy attraction, without a superior in the United States. Rice's Surprise Party, in their brilliant piece of "Pop," received with so much favor here two months ago.

Since October, 1879, Conference Visitors have had no opportunity of seeing anything but performances by local companies at our Theatre, and the Management have effected this engagement, believing it to be due to Conference Visitors that they have at least an occasional change, especially so brilliant a one as the performance to be given by "Rice's Surprise Party," April 5, 6 and 7. The following clipping is from the San Francisco *News Letter:*

"Such a genuine success as 'Pop' has seldom been seen here. It is a well-merited one, too, for the performance given by the Rice troupe is one of the most enjoyable and amusing I have ever seen. The extravaganza, 'Pop,' does not bear the slightest criticism. The central figure is 'Pop.' This part is taken by John A. Mackay. A cleverer or more original comedian cannot be imagined. He is a most delightfully amusing artist, and his equal cannot be found. His eccentricities are all conceived and executed in the most striking manner. There is nothing of the imitation about him. He is originality itself, and so full of "new business" that old theatre-goers are astonished to laughter and applause. Fortescue is amusing principally from his appearance. Gorman is an amusing burlesque actor, and has a remarkable gift of dialect. The girls are pretty, attractive and clever. They all have the sense of humor, sing well, and dress in lovely costumes. Miss Perry is arch and cute, and fairly sparkles in her specialties. Miss Castleton has more of what the French call *chic* than any woman I ever saw on the American stage. In her Quaker dress she is a picture. Her mock modesty and the spicy touch of naughtiness that animates her, indicated by a most fascinating facial expression, and movements that are gracefully *degage*, "take" with the audience most effectively.

Bishop Sharp Progressing.—We learn from Feramorz Little, Esq., that when he left Bishop Sharp, he was progressing nicely after the operation on his eyelid to which we referred a few days ago. Dr. Noyes gave him every encouragement that he would be entirely relieved from further trouble from the source of annoyance which had been removed.

In answer to a question as to how he enjoyed his trip to the East, Mr. Little replied that he liked very well to take an occasional run out for a change, but he never was gone more than a week or two but he wished he was home again as, according to his way of thinking, there was no place so desirable as Utah, and particularly Salt Lake city.

Landed in Limbo.—A telephone summons was received at the police quarters this morning from the Overland House. Officer A. Smith responded, and found a semi-intoxicated individual making a great row and trying to run things with a high hand. The policeman seized the offender, who straightway commenced kicking, striking and plunging at his custodian. Mr. Smith threw him upon the sidewalk and called upon Mr. Pitts to assist him to take the disturber to the City Hall, which invitation was complied with, although the man continued to resist the entire distance.

Mr. Phil. Robinson.—Mr. Robinson lectures in the Salt Lake Theatre on Tuesday next, the subject being his personal adventures as a War Correspondent in the Afghan, Zulu and Egyptian wars. Among the prominent features of the lecture is the narrative of the Prince Imperial's death, as described by the very Zulu's who killed him.

Our readers have no doubt already seen references to the success which Mr. Robinson has met with in Provo, Logan and Ogden.

Mr. Robinson is a brilliant writer, as our readers are aware, and as a lecturer he is described by those who have heard him as intensely and even thrillingly interesting. We bespeak for him an overflowing house on Tuesday night.

Wen Removed.—Bishop Whitesar is in town. He brought with him his ten-year old son Horace to have a wen removed from his left cheek. The operation was successfully performed yesterday by Dr. Benedict and the little patient is doing well.

Judge Willard Crawford and Sheriff Homer, of Idaho, are in the city.

COTTONWOOD COAL.

A DESCRIPTION OF ITS QUALITY AND THE EXTENT OF THE DEPOSIT.

A correspondent of Castle Dale, Emery County, furnishes the following:

I take the liberty of giving through the NEWS a description of the coal bed in Cottonwood Canyon, ten miles from Castle Dale. Having occasion to go up to the mine I made a thorough investigation of it. There are 16 openings altogether. The largest vein is 25 feet thick, of the finest quality of bituminous coal, which cokes without any trouble in the open fire place. This vein has two tunnels. One is in 55 feet the other 50 feet. Both are well timbered, 7 feet high, and are in splendid condition for working a large force of men when necessary. There are two other openings on the same vein, known as air courses, which show an excellent quality of coking coal. There is another vein about 4 feet thick, of superior coal. It is as hard as rock and does not black a person handling it as other coal does. The blacksmiths in this vicinity pronounce it the best coal they ever used without exception.

There is still another vein of shale and black jet coal together, 17 feet of shale and 3 feet of black jet, and of the very best quality. The black jet articles can be ignited with a match. The parties who are opening it up have one tunnel in the shale and jet coal 30 feet, and have also sunk a shaft in the bottom of the canyon through dirt and rock a depth of 16 feet, and struck the same vein of shale and coal close to the wagon road. To give you an idea of the amount of petroleum in this coal it need only be said, you can put on a fire of either of the coals and the oil will drip out of it, showing the quality of the coal.

These beds of coal are located in plenty of timber in all directions for mining purposes. I understand the parties owning these mines are intending to ship a ton of this coal to Salt Lake in a few days for the purpose of having a test made of it. It is claimed to be the best coking coal in the United States. Capital is required to operate the discovery, but much credit is due to those who have energetically opened the beds, especially the discoverer, George Matthias Makin, an old English coal miner, who thoroughly understands his work. He has sold considerable coal to residents, and it has given entire satisfaction.

The discovery is evidently one of the most important in its line ever made in Utah.

Notice To Beekeepers.

SALT LAKE CITY, March 17, 1883.

The Territorial Beekeepers' Convention will convene at the Council House in this City, on Thursday, April 5th, at 7 o'clock p.m. A general attendance is desired. All in the entire Territory who are unable to attend, and are in any way interested in bee-keeping will confer a favor by mailing reports of progress in this line of valuable industry—the number of colonies, amount of honey, for 1882, present condition, mode of wintering, amount of foul brood, if any, &c. Presidents of Stakes, and Bishops will confer a favor by aiding in procuring those reports, which we would like to receive by April 5th. Address Edward Stevenson, Secretary, P. O. Box 346.

By order of A. M. MUSSER, President.

PURE BLOOD.

Many families pride themselves on their noble ancestry; but here, in this democratic country we do not care so much about our pedigree as our health; or, at least, that ought to be the principal object of our solicitude. We cannot have good health without pure, rich blood. When the blood is out of order, disease manifests itself in the skin and flesh, and in fact, in all parts of the body. To be restored to health, take Scovill's Sarsaparilla or Blood and Liver Syrup. Physicians speak in the highest terms of this medicine.

Dr. Everett, Cooper Plains, Steuben Co., N. Y. mentions two cases of Scrofula and Erysipelas in which Scovill's Sarsaparilla or Blood and Liver Syrup effected a sure, and says, "I think it one of the best purifiers of the day. It has met with perfect success in every case where I have used it."
deod sw & w.
