MINING, BUSINESS AND STOCKS.

BUSINESS WAS HEAVIER TODAY.

Trading Was Professional and Confined to Few Issues.

PRICES STILL TOBOGGAN.

Park City Issues Were Most in Demand—Daly-West Strong—Daly-Judge and California Weak.

A considerable business was transacted on the mining exchange this morning but trading was almost entirely for professional accounts. The unsettled condition of the eastern money market has very seriously interfered with the demand for local mining stocks and until more improvement there is noted, the local market will be dull. It is hoped that the coal strike in Pennsylvania may be raised by the meeting of officials with President Roosevelt in Washington. In such an event the monetary situation may be further relieved.

This morning transactions involving 8,175 shares and $27,897, were recorded. Trading was confined chiefly to California, Ingot and Wabash, while some Daly-West, Daly-Judge and Utah was handed out to purchasers.

Prices generally were lower. Daly-Judge sold at figures below $11 and California was driven to 43¼ with transactions totaling over 25,000 shares.

Utah at 56 and 56½ traded while Wabash was driven from 2.28½ to 2.26 with sales of 1,100 shares.

The session closed on the following market:

Beautiful Complexions
Are spoiled by using any kind of preparation that fills the pores of the skin. The best way to secure a clear complexion, free from sallowness, pimples, blotches, etc., is to keep the liver in good order. An occasional dose of Herbine will cleanse the bowels, regulate the liver, and so establish a clear, healthy complexion. 50c at Z. C. M. I. Drug Dept.

SIX FURNACES IN OPERATION.

Million Dollar Murray Plant Rapidly Getting Under Headway.

CAPACITY OVER 1,000 TONS.

Manager Whitley Much Pleased With Progress Made—The American Company's Dividend.

Manager Whitley of the American Smelting and Refining company stated this morning that six furnaces are now in operation at the great new $1,000,000 smelter at Murray and that nearly 1,000 tons of ore daily are being treated at that plant. Yesterday's run of five of the furnaces necessitated the feeding of over 880 tons of ore, one furnace alone treating 193 tons. The great plant is very much of a success and Manager Whitley expressed himself this morning as well pleased with its behavior. The entire equipment of furnaces will be blown in as soon as the remaining two are needed.

At present all the Park City, Tintic and Tonopah lead ores are treated at the plants while sufficient fluxing materials are coming from Silver City and other Utah camps. It is very gratifying to know that the fine new American plant is now very nearly operating at full capacity.

Within a few days the regular quarterly dividend of 1¾ per cent on the preferred stock of the American company, will be passed around. The dividend amounts to $875,000, and no fewer than 10 Salt Lakers will receive dividend checks in consequence.

ON LISTING STOCKS.

Local Mining Exchange Wants the Support of Several Companies.

The action of the Wabash Mining company in listing its stock on the mining exchange last week has been highly commended by brokers and traders, who also, say that the Daly-Judge, Comstock, Majestic, New York, Keystone and some other companies should follow the example of the Wabash.

In support of their statements several traders and prominent brokers advanced the following reasons why listing is of benefit to the companies concerned and to themselves:

First—The exchange provides a market for stocks which permits share holders to quickly get money in case of need or for other reasons.

Second—Each listed stock is given a value fixed twice daily by quotations regularly recorded.

Third—All transactions are officially recorded and fictitious sales made for the purpose of influencing prices are reduced to a minimum.

Fourth—Investors cannot be fraudulently induced to buy stocks at prices greatly in excess of the real value of the stocks, nor can others be induced to sell their holdings for lower figures than openly obtain.

The members of the mining exchange have been frequently charged with having purposely driven the prices of stocks down. In commenting on this, several of the larger brokers say that the local market, in common with other stock markets, fluctuates on account of two or three primary conditions and in nearly every instance the brokers are but agents for buyers or sellers.

The condition of the market, whether bullish or bearish, depends entirely upon the question of outside demand for stocks.

If the demand is large in comparison with the supply the market shoots skyward and the majority of the brokers, as buyers, are bullish. The reverse is the case when the supply of selling orders is in excess of the supply of buying orders.

The prices of stocks are next, particularly influenced by the condition of the money and metals markets and by reports from the mines. Only when the mining share market is exceedingly dull can the brokers themselves influence the trend of prices.

The cost of listing a stock does not amount to more than $100, and the charges annually are nominal. Broker N. A. Page and some others of the more prominent brokers say that the exchange should receive the liberal support of the various mining companies whose stocks are dealt in by the public as there is no doubt whatever that the business of the exchange is rapidly increasing and its influence growing. Through it capitalists are being interested in Utah properties and the way is being made clearer for the more energetic development of Utah's mineral resources.

MINING NOTES.

Yankee ore to the extent of seven carloads will be sampled today.

The Victor management has two cars of ore awaiting settlement today.

Silver was quoted in New York this morning at 56⅝ and copper at 11.

The Conklin sampler was this morning in receipt of nine cars of ore from Tintic.

The Silver Summit near Dorenus, Utah, has a car of good ore on today's market.

Eureka Hill ore to the extent of three carloads is en route to the American smelters.

Col. Heffran of the Bingham Consolidated is expected in town again this evening.

Two cars of ore from the New Red Wing of Bingham will be forwarded to the smelters today.

The Uncle Sam is reported to be presenting an extremely improved and encouraging appearance.

Ore and bullion settlements in this city yesterday as reported by McCornick & Co., amounted to $70,800.

Manager George H. Dern, of the Consolidated Mercur, will return from the property tomorrow evening.

Col. Milner has arrived from Idaho after a several weeks' stay at the property owned by his irrigation company.

The Consolidated Mercur October dividend checks calling for $30,000, will be forwarded to shareholders on Thursday next.

On Sunday, Manager Rader of the Annie Laurie will leave for Chicago to attend the annual meeting of the company.

President Lewis of the Majestic and the other gentlemen accompanying him to Beaver county will return to this city tomorrow morning.

General Superintendent Allen of the United States Mining company has returned from the Centennial Eureka of Tintic.

Manager Henry M. Crowther of the Blue Acre Mining company, operating near Milford, left for New York last evening to be gone several weeks.

The directors of the Daly-West will meet on Monday and post the usual monthly dividend in the sum of $108,000 the same to be paid on Oct. 15.

The Taylor and Brunton management reports the following shipments as having been sampled: Three cars of ore from Tintic; two from Bingham and one from Doremus, Utah.

Manager Joseph of the Galena of Fish Springs has returned from the property and reports a streamer of fine ore in a very well defined vein, being followed.

E. G. Reinert, publisher of the Daily Mining Record of Colorado Springs, left last evening for home after making arrangements to have the quotations on Utah stocks wired to his paper daily.

NEW YORK METAL PRICES

Lead, quiet, 4.12½.
Copper weak, 11.55@11.70.

ST. PAUL WAS BOUGHT HEAVILY

Short Interest Greatly Alarmed and Bought to Cover.

THE RAILROADS DECLINED.

Room Traders Bid Them Up Without Success, Save in Few Instances—Bonds Steady.

New York, Oct. 3.—There were irregular small price changes at the opening on light dealings. Some support was accorded to the coalers and a number of specialties showed small gains, but the majority of standard railroad stocks showed declines. Room traders bid up St. Paul and Manhattan rapidly, carrying them 1¼ and 1½ respectively over yesterday's close.

The move was designed to infuse life into the rest of the list, but there was no effective response outside of Brooklyn Transit, Colorado Fuel and the Pressed Steel Car stocks. The leaders eased off later but at 11 o'clock, Missouri Pacific rose a point over last night and the market became firmer. Call money opened at 7 per cent. Spirited buying of Colorado Fuel, based upon the judicial decision to hold an election, lifted it four points and caused sympathetic rises in other metal stocks.

Bonds were steady at noon.

The movement in the coalers carried up Pennsylvania, Erie and Reading second preferred, about a point, and Reading first preferred 2. Pressed Steel Car rose 4 in all, and silver preferred lost 5.

Later a reaction carried back Reading second preferred, Manhattan and Colorado Fuel from ¾ to 1¼. Just before 1 o'clock St. Paul spurted suddenly to 196 and stiffened the market.

St. Paul reached 196½, a gain over night of 4½. The heavy buying of the stock alarmed the short interest and they covered all around the room, lifting prices to the best.

Gains were scored of from 1 to 2⅜ in Atchison, Colorado and Southern and Rock Island. Prices were below the best at 2 o'clock and the market was quite dull again.

MONEY AND BONDS.

Money on call steady at 8 per cent. Prime mercantile paper, 6 per cent. Sterling exchange steady, with actual business in bankers' bills at 4.86 and 486.125 for demand, and at 482.75@482.875 for 60 days. Posted rates 483½ and 487.

Commercial bills—482@482½.
Mexican dollars—40¼.

Burlington Route
A Thousand Miles of Comfort
There's not a piece of track in all America that is better built, safer, or easier to ride over than the Burlington Route from Denver to Chicago.
A trip over it is the most notable experience in the trans-continental journey. For more than a thousand miles you are transported at flying speed. Noise and dust are noticeably absent. If it were not for the landscape that rushes past at 60 miles an hour you would hardly believe you were moving.
Through sleeping-cars for Chicago leave Salt Lake at 3:15 p. m. daily. Through tourist-cars Wednesdays and Fridays.
Glad to give you more information.
TICKET OFFICE:
79 W. SECOND SOUTH ST.
SALT LAKE CITY.
R. F. NESLEN, General Agent.

MILL MEN
Will save money and delay by communicating with our agent,
JOS. W. WILSON,
237 South Sixth East, St., Salt Lake City. Telephone, 736 D.
He has constructed more Roller Flour Mills than any other man in the Rocky Mountain country. Also improved more Water Powers than any other man in the West. His estimates are always correct and satisfactory. He is also among the very best informed men either east or west, as to Salt Refining Machinery.
He handles mill supplies of every description, steam boilers and pumps, steam engines of every popular make, together with steam and belt hoists, with levers interchangeable from right to left hand; screens, rotary bolters, races and roller mills.
Great Western Mfg. Co.
