NEWS OF THE MINES

Good Indications At the Properties Of the Adelphia Company,

IN THE BLUE BELL DISTRICT.

A Mine in Idaho Which Shows Vast Beds Of Mica—Today's Work On the Stock Exchange.

A gentleman interested in the Adelphia Mining company has just returned from the company's properties located in the Blue Bell district, Boise Valley, Ada county. He states that the company now has a shaft to a depth of about twenty feet, at the bottom of which a stratum of lead and silver-bearing ore has been found.

The stuff has not been assayed as yet, consequently its values are not known, but the management of the Adelphia look upon the strike as a forerunner to something better, hence they are hopeful that ere long they will be able to make it known that the company has a mine which will take rank with others in the same district.

WITH THE BROKERS.

The Selling Stocks Today Were Galena, Mammoth and South Swansea.

No startling disclosures, changes or developments were made or brought out at today's call on 'Change, the brokers being satisfied with going through the same rigmarole as has been the order ever since the campaign set in. Two listed stocks—Galena and Mammoth—shared in the day's trading while South Swansea was the only unlisted stock which met with the recognition of a transfer.

The closing figures were as follows:

For Utah, Idaho and Montana—Fair tonight and Wednesday; stationary temperature.

Salt Lake City and vicinity, fair tonight and Wednesday; stationary temperature.

J. H. Smith,
Observer, Weather Bureau.

Today's temperature is shown in the fine simile thermometer given below:

100 South Swansea at 62 cents. Total shares sold, 500.

A MICA PROPERTY.

The Russell Mine in Idaho Showing Vast Beds of It.

F. Bateman & Company, the well known brokers of late city, who have a lease on the Russell Mica mine in Idaho, were exhibiting some very fine samples of its product Monday. Mr. Bateman stated to a News reporter that the mica for paper-making purposes sold at 50 cents per pound, but knowing it to be very valuable stuff. The mica from which it comes is owned by Alexander Monin, and the following letter sent from Ogden by James F. Spence, fully explains its location and its value:

In answer to your request concerning the Russell Mica mine. It is located in Robinson Mining district, Lemhi county, Idaho. It is a tunnel about 100 feet long. The country rock is known as a mica schist, and the mica bearing rock is quartz. The mica is in sheets as about one fifth feet. Plenty of water and timber on the claim for all purposes. It is about about twenty miles from the Northern Pacific railroad. Good wagon road all the way to the property. There is about 300 feet of tunnel. When tunnel is driven about fifteen feet further it will cross a ledge that measures twenty-four feet on the surface. The property adjoins a claim known as Last Chance on the mining records but our claim has been jumped under order of Mines of Silver Wire Mine Mining company, limited, owned by parties in Cleveland, O., and they are working a force of men on their property at present. Should this property suit your Eastern friends we will give you ample time to close the deal.

The owner of the property is a poor man and so he has no capital with which to work the mine and market the product, but he is willing to sell on a fair offer. We have nothing in and is accordingly looking out for a purchaser.

VENTIC MINING ITEMS.

Work at the Sullivan Rock—Many Miners in the Districts Out of Employment.

(Special Correspondence of the News.

Bonanza, Utah, Sept. 14, 1896.—The Mammoth Mining company will distribute checks among its employes tomorrow. The Mammoth mills shipped considerable bullion by the 8 o'clock passenger Sunday.

The Bullion Rock company is still running the tailings of the old ore dump through the mills and the work is giving good returns. The Bullion Rock will pay its employes their monthly salaries tomorrow.

Two new cases have arrived here for the Carlisle mine, and were taken up to the property today. The Carlisle has not shipped much ore of late but will shortly start to make shipments as before. Everything up at the mine is in good shape.

Rosebs, Silver City and Mammoth are overrun with workmen seeking work out of employment through the laying off of men from the different mines and mills. It is hoped that some of the mines and mills in Eureka and the district will shortly start work to their full capacity so as to give employment to the idle men.

The Utah mine is keeping the teamsters very busy and will make quite a large shipment in a few days.

The Ajax company's teamsters are very busy and will make similar quite a ten car shipment this week.

Dips and Spurs.

The Swansea dividend was paid today.

R. C. Lund of St. George is in the city looking after mining matters. He expects to go out to the State Line district in a day or two.

Some of the samples of ore from the recent strike in the Winnemucca at Bingham show values as high as 2,500 ounces in silver and $12 in gold to the ton.

Following are the ore shipments from the Mammoth smelter for the ensuing week: Silver King, 1,072,000; Silver King concentrates, 176,000; total, 1,248,000.

Late Saturday the Centennial-Eureka company paid a dividend of $50,000 which was paid today, the 15th. This runs the company's aggregate in dividends up to $1,930,000.

The New Guinea properties at the head of Government creek in Tooele county, are reported to be showing fair-feet body of ore which assays 2 per cent lead, from 17 to 60 ounces in silver and $12 in gold.

The sale of the Pelitt mine in the Coeur d'Alene district in Idaho is reported by the Idaho Statesman. The consideration is said to be $250,000, and the buyers are reported as a syndicate of wealthy Pennsylvanians.

Political Pointers.

Attorney S. A. Kenner is frequently spoken of as a possible nominee for the State Legislature from this county.

Logan Republicans: Cache county should be entitled to one of the McKinley electors and our delegates to set. Pennoyer should be instructed to work to that end.

Andrew Burt, candidate for sheriff in the Democratic ticket, states in most emphatic terms that he has withdrawn from the race. The report that he has done so, he says, is being circulated in the interest of others.

At the Republican primary held at Forest Dale last evening James H. Smith, Daniel Harrington and G. H. Dale were selected as delegates to attend the Republican county convention. N. S. Thompson was named as an alternate.

As a candidate for sheriff on the Republican ticket Lake county Bliss Lyman, C. Cable of this city seems favored by a host of friends in the city and throughout the county, being regarded as an exceedingly good man for the place.

Provo Enquirer: The letter of Chairman Dooly in regard to the point and resolutions is long. The Boise resolutions acted wisely and considerately in the ending of the conventions, and now it is the duty of county organizations to uphold the dignity of party conventions.

Logan Republican: Col. Percy S. Gillespie of Salt Lake is being urged by his friends to become a candidate for congress in this county. Mr. Gillespie was formerly president of the State senate and for several years, was chairman of the Legislative Council two years and he is certainly a worthy and capable man. He is a brother-in-law of Mr. Cannon and is one of his warmest friends.

Springville Democrats met last evening and elected delegates to the county convention. Among them were eight Democrats, Republicans. Where the latter fact became known, there was consternation the morning among the Republicans. They claim the action was without their knowledge. The Springville Democrats want Marshal Storrs for sheriff and William Bryer for member of the Legislature.

Says the Manti Messenger: It was the unanimous sense of the Republican county executive committee to have but one convention, and it was desired to have all Republicans take part in the organization of the convention. They feel that no person's political caution shall be questioned on account of their political views. There will be a McKinley Republican ticket, and both will carry the same local ticket. In this way no Republican will be obliged to go outside his party to vote his convictions.

The last excursion to the lake occurs tomorrow, when the regular summer trains and other conveniences will be put in service. Tomorrow, to connect with the grand ball in the evening, leaves the Rio Grande depot at 7:15. The weather is all that could be asked, and that the excursion will have a special bright time to wind up the season with is assured. There are large decorations promised from neighboring towns and district, and alongside Bryan and Sewall say promises to be a lively one.

The Democratic and Populist county convention conference committee has arrived at an agreement and will be duly submitted to the respective party conventions. In the event that their recommendations shall be adopted as to the distribution of official honors and responsibility, the Populists will get one county commissioner, a member of the State senate and two members of the House. In an appointive way they will also get the chief deputy county recorder. The action of the conventions, it is believed, will be favorable to the union idea.

Park Record: The action of the Independent Republican State committee in vetoing that Arthur Brown's name for the convention be entirely ignored, meets our approval to the last extent, and we believe expresses the honest feeling of nine-tenths out of every 100 men in this county. Republicans, to be honest and preserve their manhood in the present struggle, cannot afford to recognize any man or principle that serves of McKinley and gold. They can far better afford to vote the Democratic ticket straight than to take any chances whatever on McKinleyism.

Ogden Standard: Another Thurston has been brought to his knees. Major Brooden, who is receiving more notoriety than he courted by a modest editorial, charged C. S. Varian of Salt Lake with being in the employ of silver mine owners when he spoke at the Ogden house a week or more ago, and Mr. Varian has taken the injury by the horns, so to speak, and invited him to apologize. People are beginning to wonder as the major's notoriety is like to, and why he persists in making false assertions, when honest sentiments might be just as effective for campaign purposes and reflect much more credit upon him.

Back From Camp Cannon.

Gallery A, N. G. U., returned home this afternoon about 3 o'clock, after an enjoyable three days' outing at Camp Cannon, near Farmington. Target practice, a grand ball and a visit from Commander-in-Chief Wells, were the most prominent features at the outing. Captain Gibbs is proud of his battery boys and well he might be as they are not only a credit to him but also to the State.

Police Court Squibs.

The hearing of Chris. Bickmer, who is charged with maintaining a nuisance in the shape of a filthy pig ranch, will take place before Justice Wenger on Saturday at 10 o'clock.

John Doe, whose other and true name is unknown, was tried in the police court today for violating the bicycle ordinance and discharged.

R. R. Smith, against whom hangs a charge of assault and battery, will have a hearing on Thursday at 10 o'clock.

Ralph Clark will have a hearing on Friday morning on the charge of killing a registered dog by means of bringing him.

Chin Chin, a whippersnap, is violating the city ordinance in running a gaming house, fortunes $20 in the pot at midnight.

ANNUEMENTS.

Miss Snyder's Recital. The Grand Opera house was not half filled last evening on the occasion of Miss Lily Snyder's recital, but that the audience was a discriminating one was evidenced by the hearty demonstrations of approval accorded to all of the numbers given. The opening one by the Bellamy Glee club was well received and they were compelled to repeat it to an encore.

Interest centered in Miss Snyder's reappearance here after the interval of some little time, and she sang very sweetly and steadfastly several times during the evening, being courtly encored for her rendition of Nymphs et Sylvains, by E. Bemberg; she responded with a pretty little love song of her own composition, to her own accompaniment. She also showed to advantage in the duet with Miss Hermie Tyler. That she has improved in voice is conceded by all of her friends, and her determination to continue her studies at Paris under some of the leading vocalists there is commended. Miss Lillian G. Oliver created a splendid impression by her rendition of Liszt's Rhapsodie No. 2 and was vociferously applauded and recalled with a catchy little impromptu bit. Horace Evelyn rendered well a barytone solo by Gounod, entitled, and Miss Rain Eldredge rendered Robert of Sicily and a musical parodium (Miss Sawyer singing) Jesse Lover of My Soul.

H. S. Goddard's Song Recital—Mr. Goddard wishes to state that all invitations for his recital to be given Tuesday, the 22nd, have been issued.

A Stolen Rig Recovered.

On Saturday afternoon last a horse and buggy belonging to Walter Nichols of Murray was stolen from the Tibbing yards in this city. The loss was reported to the officers and Inspector Patrolman Shannon went up City Creek canyon about two miles and there found the stolen conveyance as it had been taken. From all appearances the animal had strayed where it was found and the rig, which is valued at $75, was entirely uninjured. Inspector Shannon brought the property down to the city and it is believed by the officers that he is the rightful owner of the property. He was now in possession for driving off to other people's rigs. The horse and buggy will be returned to the owner.

Sunday School Conference.

ORDERVILLE, Sept. 9, 1896.—The Sunday school conference of Kanab Stake was held Sunday morning, September 6th, in Kanab, in connection with the Stake conference. There were present of the Sunday School Union board, J. W. Lyman; of the Stake superintendency, Joseph E. Robinson and John Brown; of the Stake presidency, Edwin D. Woolley, Thomas Chamberlain and Daniel Bagnallay; representatives of all the schools in the Stake except Pahreah. The large attendance of children and adults evidenced the widespread interest in the Sunday school cause.

The general and Sunday School Union officers were sustained in the Sunday morning session, in order that the children might learn their names and have a voice in sustaining them.

The quarterly stake special reports showed the organization and fair progress of eight Sunday schools in our small Stake.

The entire treatment upon were the Word of Wisdom, the Sacrament, Punctuality, and the necessity of impressing firmly upon the tender minds of the children the principles of the Gospel with the true spirit thereof.

At noon the officers and teachers held a meeting in which Elder F. M. Lyman duly instructed those present in their Sunday school duties.

In the evening the children of the Kanab Sunday school rendered an excellent program.

A good spirit prevailed throughout.

RUDAMA ADAIR,
Stake Secretary.

Personal Paragraphs.

W. G. Korten of Chicago is at the Culton.

J. E. Simmons of Provo is a guest at the Walker.

Jos. A. Fye of Napa, Cal., is at the Templeton.

A. A. Macurda of Park City is a guest at the Walker.

J. W. Young is down from Idaho and is at the Templeton.

G. H. Wood and family are Omaha people at the Walker.

William Ballentine of Boise, Idaho, is stopping at the Knutsford.

H. M. Nesbit and H. M. Hansford are Chicagoans at the Templeton.

E. F. Spencer of Washington, D. C., is located at the Templeton.

John T. Wilder of Chicago has his name on the Knutsford register.

Mr. and Mrs. Benjamin Wood of Sacramento are registered at the Templeton.

Mr. and Mrs. John M. Morrow and sister of Boise, Nevada, are at the Culton.

The Templeton register shows the names of Mr. and Mrs. J. A. Wright of Ogden.

H. C. Hutchinson and Sam F. Dixon of Grand Junction, Colo., are at the Culton.

The Knutsford has among its guests, Mr. and Mrs. Wilmot Grant Pierce of St. Paul, Minn.

A few today all passenger trains travelled except the Tooele train which no doubt continues for the season.

General Manager Dickinson, J. H. McDowell, superintendent of motive power, E. Buckingham, car accountant and J. F. Dunn, master car-painter, form a party of Union Pacific officials who arrived here this morning.

They All Come Back

"There are fools in medicine as well as in other things," said a busy druggist, "but the most remarkable thing about Hood's Sarsaparilla is that customers who try other remedies all come back to Hood's, and this is why the enormous sales of this great medicine go on year after year, month after month, without let or hinder, as a clock.

"Why is it? Why, simply because Hood's Sarsaparilla has more real merit than any medicine I ever sold."

This is of daily occurrence in almost every drug store. Hood's Sarsaparilla has cured more sufferers, and made more permanent cures, than any medicine in the world. Hood's Sarsaparilla is the best—in fact, the One True Blood Purifier.

Hood's Sarsaparilla

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Science has invented a pen capable of 700 words with each stroke and it actually built itself out in less time than a minute. Science finds a way to do more than that seemed beyond saying. When the good ship of Health is launched on the sea where all Consumption, science says, it will be found with Dr. Pierce's Golden Medical Discovery. It is the unsinkable life boat of medical science.

It makes sick, rich blood that drives the poisons out of the circulation, stops wasting, makes healthy organic in the throat and lungs, builds up the tissues and restores vital energy and solid flesh. Dr. Pierce's Pellets are the most positive proprietary medicines for superior to any such extracts or cod liver oil emulsions, as it does not make fat, but flesh and strength. Nothing else is so good for Coughs, Bronchitis, Weak Lungs and nerve force. It cures all diseases that result from impoverished blood and all wasting conditions.

I am Dr. Pierce, of Buffalo, Whitley Co. Ky., write: "I was in a very bad condition when I took your Golden Medical Discovery. I began with a little more than half a bottle and I was helped so much I continued to take it. Before I had taken half a dozen bottles I was well. I have recommended it to many people and they have found it just as good as I do. I have a little girl who was very weak and sick, and I gave her half a bottle of your Golden Medical Discovery. I began using it in small doses and she improved so much I continued to give it to her. Before she had taken half a bottle she
