KENDALL'S SPAVIN CURE.
The most Successful Remedy ever discovered, as it is certain in its effects and does not blister.
HEAD PROOF BELOW from
Rev. P. N. GRANGER,
Presiding Elder of the St. Albans District.
St. Albans, Vt., Jan. 20th, 1880.
Dr. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with "Kendall's Spavin Cure" has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I got him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure and with less than a bottle cured him so that he is not lame, neither can the bunch be found.
Respectfully Yours, P. N. GRANGER.
KENDALL'S SPAVIN CURE is sure in its effects, mild in its action as it does not blister, yet is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, lameness and all enlargements of the joints or limbs, or rheumatism in man and beast, neither can there be a better liniment for any purpose for which a liniment is used than can be found. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.
Send address for Illustrated Circular which contains proofs positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for hyper nature well as man.
Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & CO., Enosburgh Falls, Vermont.

NEW YORK TRADE.

ROYAL

BAKING POWDER
Absolutely Pure.

FORTY-SEVENTH CONGRESS.

SENATE.

WASHINGTON, 22.—The House bill to provide for additional industrial training schools for Indian youth, and authorizing the use of unoccupied military barracks for such purposes, was passed.

The House bill directing the payment to Mrs. Lucretia R. Garfield $50,000 less any sum already paid out on account of the late President's salary, passed.

The resolution offered by Cockrell was adopted calling for the expenditures in each State in 1870 for the public buildings, rivers and harbors, arsenals and armories.

The Secretary of the Interior was directed to report whether he ordered the issue if certificates for double pension to Ward B. Burnett, and if so, his reasons for so doing, pending action on the subject by Congress.

The Senate took up the revenue bill and without debate voted down the amendment offered by Beck to retain the taxes on perfumery, medicinal preparations and other articles in schedule "A," Section 3,427 Revised Statutes. The vote was a party one—26 to 29, Davis of Illinois voting no with the republicans.

Vance voved to retain the stamps on playing cards; lost by a party vote—28 to 28, Davis, of Illinois, not voting.

Sherman called attention to the fact that the tax fixed by the section for small dealers, who, he said, numbered 336,000, and constituted a great body, was but $24.

The modification by fixing the amount at $2 was rejected—20 to 31.

On motion of Beck, a proviso was added to the section as follows:

That farmers and producers of tobacco may sell, at the place of production, tobacco of their own growth and raising at retail, directly to consumers, to an amount not exceeding $100 annually.

The vote stood 24 to 23; Mahone and Kellogg voting aye with the Democrats.

Vest advocated the amendment to the section allowing a farmer or planter to sell tobacco raised by him without the payment of special taxes for dealers in leaf tobacco, and providing that the tax shall be paid in all cases of peddling or sales through others.

Bayard objected to this as imparting the existing safeguards against frauds.

The committee amendment to the section requiring that $12 be exacted from dealers in leaf tobacco, to be paid annually after May, 1883, was adopted.

The amendment advocated by Vest was rejected by 23 to 59, a party vote—republicans voting no with the Republicans. Davis, of Illinois, also voted no.

Beck moved to fix the tax upon each dealer at $5, without reference to the character of his employment.

Morgan offered and advocated a new section exempting from the special tax imposed upon dealers in manufactured tobacco, farmers, planters, and lumbermen who furnish the supplies of tobacco to their neighbors or employes in quantities aggregating less than 100 pounds per year; adopted on a *viva voce* vote.

The third section reducing the tax on cigars and cigarettes having been resolved, Mahone moved an amendment fixing the taxes on snuff and manufactured tobacco after January 1st, 1883, at eight cents per pound. This gave rise to protracted debate participated in by Mahone, Johnston, Sherman, Logan, Kellog, Beck and others, and the Senate without action on Mahone's.

Adjourned.

WASHINGTON, 24.—Ellison presented a conference report on the legislative appropriation bill, and explained the only disagreements were upon the sixth section, on the Surgeon General's office and the distribution of the rooms of the new war building.

The Senate voted to insist upon its disagreement and ordered a new war building.

The Senate voted to insist upon its disagreement and ordered a new conference. Messrs. Allison, Dawes and Davis, of West Virginia, were appointed.

The amendment was voted down, yeas 18, nays 38. Not a member of the democrats voted no.

HOUSE.

WASHINGTON, 22.—The Deusher bill to regulate the carrying of passengers by sea, passed.

Kasson, under instructions from the committee on ways and means, called up the bill to allow a drawback on domestic materials used in the construction of steam and sailing vessels for foreign account.

Its consideration was entered upon. Kasson maintained that it was in the interest of ship builders.

Tucker moved to make the bill read: That section 3,020, Revised Statutes, be amended by adding at the end of the last line, "steam and sail vessels built for foreign or domestic account of domestic and imported materials, shall be entitled to a rate drawback on imported materials as provided in the preceding section."

Haskell objected that the ways and means committee came in with a carefully prepared bill to relieve the industry, and democrats and freebooters killed it by loading it with amendments.

On a vote, the House appeared to have no quorum, many republicans refusing to vote. The bill finally went over.

The first section of the bill was adopted.

The floor was then accorded to the committee on postoffices and post-roads.

The first bill called up was that providing for postage on second class matter, and that publications deposited in letter-carrier offices shall be delivered at two cents per pound; passed.

The next bill passed was one making it an offense punishable by fine and imprisonment, to personate a postoffice inspector.

The following bills were also passed:

Making it a misdemeanor for any postal official to do any act forbidden by any law relating to the postal service; to punish postmasters for making false certificates of arrivals and departures of mails; providing that no bidder for mail service on any route shall be required to furnish, with his bid or proposal a check or draft, the supplemental post route bill was also passed.

Flower asked leave to introduce for reference a joint resolution proposing the following amendment to the Constitution:

Every bill, resolution or vote containing several items for the appropriation of money, and in which the concurrence of the House and Senate may be necessary, shall be presented to the President of the United States, who may object to one or more of such items while approving of the other part of the bill, resolution or vote. In such case he shall append to the bill, resolution or vote a statement of the items to which he objects, and the appropriation so objected to shall not take effect unless reconsidered or passed by a two thirds vote of each House as provided in section 7, article 1, of the Constitution. The item objected to shall be separately reconsidered in each House, and if on such reconsideration one or more of them shall be approved by two-thirds of each house it shall become part of the law, notwithstanding the objection of the President.

An objection was made and the joint resolution was not received, but will be introduced Monday.

Hoar then yielded to the committees on Indian affairs and the following were then passed:

The Senate bill opening to settlement the lands in Colorado, lately occupied by the Uncompahgre and White River Utes, authorizing the Cherokee nation to make a lease of three salt mines to the Indian Territory, and increasing the salary of the commissioner of Indian affairs to $5,000. Adjourned.

Knott presented the views of the minority of the judiciary committee upon the Northern Pacific land grant.

After some discussion on the motion of Townsend, to have this minority report placed on the calendar, the Speaker decided that the views of the minority had no parliamentary status, and ruled the motion out.

Cox's appeal was then tabled, 97 to 70.

Bliss and Morse voted aye with the republicans, and Payson with the democrats.

The minority report was ordered printed and laid on the table.

The Speaker announced that the regular order was a bill to allow a drawback on foreign material used in connection with the domestic material in the construction of steam and sail vessels for foreign account. The pending amendment was Tucker's, extending its provisions to the construction of vessels for domestic account. He ruled out Kelley's motion to recommit.

A motion to reconsider the vote by which the yeas and nays were ordered upon Tuckers amendment was agreed to, 94 to 78.

Kelley moved to reconsider the bill, but it went over.

Cannon, of Illinois, submitted a conference report on the legislative, judicial and executive appropriation bill. The report announces an agreement on all the items of the bill except the transfer of the records in the Surgeon General's office to the War Department, and the Senate. As it originally passed the House it appropriated $19,038,000; as it passed the Senate it appropriated $20,276,300. The conference report was agreed to and further conference ordered.

The following bills were referred to committees:

By Anderson, of Kansas, to collect from the Kansas Pacific Railroad company the cost of surveying, selecting and conveying certain lands.

By Knott, of Kentucky, declaring forfeited to the United States certain lands granted to the Northern Pacific Railroad Company and remaining unpatented on the 1st of July, 1882; also a joint resolution requesting the President to see that no patents shall be issued to the Missouri Pacific Railroad Company for any lands remaining unpatented on July 1st, 1882, or until Congress shall have acted on the foregoing bill.

By Dingley, fixing the duty on imported hay at 20 per cent. ad valorem; also, a joint resolution for the appointment of four Senators and six Representatives to investigate the conditions and wants of American shipping interests, and report at the next session of Congress.

By Flower, of New York, proposing the constitutional amendment granting the President the right to veto any distinct item or provision of a bill, while approving the other items.

By Atkins, of Tennessee, to protect the treasury. It provides that no claim or account against the United States shall be allowed by the accounting officers of the treasury unless filed within six years from the passage of this act, or within six years from such claim or account accrued.

By Chase, to make bills of lading negotiable in the District of Columbia.

The business was taken up and an attempt made to recall all the license tax on commercial travelers falling under the rules. Adjourned.

AMERICAN.

Bishop Taylor's Iron Mine.

WASHINGTON, 22.—The Secretary of the Interior has revised the decision of the Commission of the General Land Office, ordering the cancellation of the mineral entries made by Thomas Taylor, at Salt Lake. These entries were seven in number as follows: Duncan No. 1, Belmont, Deseret, Mound, Chesapeake, Excelsior, Potomac and Black Metallic lodes. The Secretary holds that the Commissioner had no right to go behind the decision of the court in Taylor's favor, and says that on account of what appeared from some of the papers then submitted, it should have been a different point of objection as the title to Taylor lay in the fact that the lodes were 600 feet in width.

Murdered.

PENSACOLA, 22.—The citizens of this place are greatly excited over the unprovoked murder this morning of James Robeson, by Ellen James and a woman named Debose. The murderers were arrested. The feeling against the women is most intense and threats of lynching are heard on every side.

Killed by a Train.

WALLENBURG, Col., 21.—This morning two miners, Wm. Holmes and Jas. Watchman, returning home in an intoxicated condition, were run over by a train. Holmes was instantly killed and Watchman was badly injured. The men were laying down on the track.

Scuttled.

CALAIS, Me., 21.—Capt. Mallach, of the Eastport fishing schooner Abigail telegraphs from Annapolis that a United States schooner boarded in the Bay of Fundy, Friday night. The crew are safe. Within a few days the owners have heard that the schooner was in Digby and that the captain was selling the cargo. The owners suspected that the schooner was purposely scuttled.

Collision of Cars.

CINCINNATI, 24.—A collision occured on the Little Miami Railroad, near Foster's Crossing, on a dangerous embankment, between the express from the east and a freight train. An account given by a passenger is that the freight was running wild and had orders to stop at Foster's crossing for the express to pass, but the engineer undertook to pass the switch and then back in when the express train came on. The engineer and fireman saved themselves by jumping. The engines were wrecked, and two freight cars thrown into the river. Several of the passengers were slightly injured. Engineer Lyons of the freight train was badly bruised.

Strikers.

CLEVELAND, 22.—The strike at the rolling mills is ended. A number of strikers notified Mr. Chisholm they had been driven into striking and desired to return. Mr. Chisholm said the company could not receive them as a committee from the strikers. The company did not recognize the Union. The mills are running all right now and the Union men returning will have to begin at the bottom.

Fires.

BUZZARDS BAY, Mass., 24.—A mill at South Warham was burned this evening. Loss, $56,000; insured.

St. Joseph, Mo., 24.—Louis Hax, wholesale furniture and carpets, was partially burned. Loss, $25,000; insured.

Philadelphia, 24.—Three ice houses, a molasses warehouse, two lumber yards, a row of nine dwellings, and several tenements were burned yesterday afternoon. Loss about $80,000; insured.

Zanesville, Ohio; 24.—The Brown Manufacturing Company's works, buildings, machinery and materials were burned yesterday morning. Loss, $125,000; insurance, $47,000. Two hundred men are thrown out of employment.

BRIEF TELEGRAMS

Haverly is home again.

Twenty victims of the toy pistol are now enumerated in Chicago—all dying of lockjaw.

President Barrios called at the White House yesterday and took official leave of the President.

J. G. Reed, a route agent, who was arrested for robbing the mail, at Little Rock, Ark., has confessed.

The advance guard of the French expedition to Egypt, consisting of of 500 marines, is preparing to embark.

The deck hands and firemen of the Albany line of steamers demanded an increase of wages, and were dismissed.

Walker Blaine has been appointed Assistant-Consul in behalf of the United States before the Court Commission in the Alabama claims.

A large number of persons of St. Johns, N. B., were poisoned by eating canned corned beef. One physician has over twenty-five patients.

Alonzo Bell, Assistant Secretary of the Interior, has resigned. Secretary Teller has recommended the appointment of Merrick S. Joselyn of Illinois.

Orders were issued from Washington for the monitors *Montauk* and *Nantukcet* to get in readiness for the sea service, to test their seagoing qualities.

A telegraph published in London to-day, inquiring the possibility of official censure of Admiral Nicholson's conduct at Alexandria, astonishes the English public.

Willard's bank at Jonesboro, Ill., failed this morning: liabilities and assets are unknown. Mr. Willard is absent and considerable feeling is manifested among the resident depositors.

At Monmouth, Illinois, Johnnie Cope, the celebrated Clydesdale stallion, died yesterday. He was the finest Clydesdale in America, weighing 2,500 pounds. He has numerous progeny.

At Denver, an old man, J. B. Flanleit, while at work in a lumber yard this afternoon, was struck by lightning and instantly killed, and several others were seriously shocked.

Logan County, Ohio, has given General Robert Kennedy a square send off in his Congressional contest against Speaker Kiefer, having backed him with thirty-two votes in her primary elections.

President Garratt, of the Baltimore & Ohio Railroad, says that negotiations regarding the fast mails have so far progressed as to cause the belief that a fast mail will soon be put on, which will materially reduce the time between Washington and Chicago and St. Louis.
