JOTTINGS FROM BASEBALL FIELDS

Local and Foreign Notes on America's National Game.

PLAYED BALL IN THE RAIN.

Chicago Narrowly Escapes Defeat by Pittsburg—Brooklyn Beats Philadelphia.

Manager Midgley of the L. D. S. Business college nine has completed all arrangements for the trip to Provo on Saturday, when the college team will meet the B. Y. A. boys in several all-round ball games. The ball game will be the principal event of the interscholastic games and much interest is centered around the meeting. The excursion train will leave the R. G. W. depot on Saturday morning and return at midnight, after the grand ball in the Provo Opera House terminates. A R.T. fare has been secured and tickets may be obtained from Manager Midgley at the college.

* * *

The L. D. S. and University nines will meet on the Second North campus on Friday afternoon beginning at 4 o'clock. A good game is assured owing to the inter-collegiate rivalry that there is between the institutions.

* * *

Manager McFadden of the High school has raised a scratch nine that proposes to do battle with the Salt Lakers at the Fort ground on Sunday afternoon.

* * *

Park City is on the lookout for the battery. As soon as a good pitcher is secured the mining camp is going to scrap down upon Salt Lake with the avowed object in view of beating everybody.

* * *

Capt. Smith of the Social Wheel club has accepted the challenge issued by the Opals for a game of ball. The Opal secured R. S. Hughey of the Salt Lake Lakers as pitcher. H. Cannon catches, G. Morris first base, F. N. Hess, second base, C. L. Derry third base, with W. C. Evans, F. A. Mandell, J. Hicks and F. J. Hawkins to be placed in the remaining positions.

* * *

If anyone wants to enjoy himself and drive dull care away generally, a trip down to the cement lot on Fourth South between East Temple and State street at 4 p. m. to watch the Brokers practice ball is an available proposition. To see Joe Ramburger make heels to stake at the empty air in search of a stepper-out would bring tears to a dyspeptic eye, and so to the bowman and fielders—Well pay Brooks on Saturday and say it for yourselves.

The great baseball game between the rival mining exchanges for 10,000 shares of Saltpeter stock will probably be pulled off on the University campus, when the charge of 25 and 15 cents will be made for admission and the proceeds will go to the Salt Palace fund.

* * *

Following is the line-up for the Brokers:

Salt Lake.		Utah.
Gallery	c	Jones
Griffiths	p	McGinnis
Jennings	1-b	Mills
Miller	2-b	Stark
Lane	3-b	Smith
Barnett	ss	Cantwell
Hatfield	rf	Chapman
H. H. Smith	cf	Vipon
Farnsworth	lf	Oberholzer

Bench:

Colburn	A. L. Morris
Leonard	Wells
Dantzberger	Stephens

This is official.

* * *

The combined forces of the Sumner and Grant schools yesterday defeated the people of the Hamilton institution by the opposing score of 41 to 31. Darkness only prevented the score reaching seventy-five.

* * *

In the East yesterday the rain marred good ball. Chicago defeated Pittsburg on the latter's own ground, while St. Louis created Louisville in a similar fashion, then both visiting clubs split in for first place on the average list. New York is rapidly drawing down to the bottom of the class, Baltimore's batteries yesterday giving the Giants an endless chain around the diamond.

STANDING OF THE CLUBS.

	P.	W.	L.	P.C.
Chicago	23	18	7	.720
St. Louis	23	18	7	.720
Brooklyn	23	17	6	.739
Louisville	23	14	9	.609
Philadelphia	23	12	11	.522
Cincinnati	23	11	9	.550
Boston	23	11	12	.478
Baltimore	23	11	12	.478
Cleveland	23	11	12	.478
Louisville	23	9	12	.375
New York	23	9	12	.375
Pittsburg	23	8	12	.333
Washington	23	5	13	.278
Cleveland	23	3	20	.130

TODAY'S GAMES.

Cincinnati at Cleveland.
Chicago at Pittsburg.
Louisville at St. Louis.
New York at Baltimore.
Philadelphia at Brooklyn.

RESULTS OF YESTERDAY.

Boston, 5; Washington, 1.
Cincinnati-Cleveland, no game; rain.
Louisville, 3; St. Louis, 6.
New York, 3; Baltimore, 12.
Philadelphia, 5; Brooklyn, 6.

CHICAGO, 11; PITTSBURG, 8.

Pittsburg, Pa., May 16.—Game was called three times before the fifth inning on account of rain. Chicago was five runs to the good when the fifth inning was started, before the rain had ceased. Griffith could not control the wet ball and Pittsburg scored three times and had to the seventh. Everett scored the winning run on Madden's hit with three a steal and McGreevey's error. Hulling and Hawley were our marks, but Lowe pitched the best four innings, allowing but one scratch hit. Attendance 1,200.

SCORE.

	R.	H.	E.
Pittsburg	8	10	4
Chicago	11	14	4

Batteries—Hulling, Hawley, Lower and Buckley; Griffith and Chance.
Umpires—Hurst and Connolly.

PHILLIES, 5; BROOKLYN, 6.

New York, May 16.—Brooklyn won its sixth straight game today by defeating Philadelphia in another hot arrangement. It was anybody's game until the last man was out. Keefe's three errors and inefficiency at the start, but settled down after the sixkers had made three runs. Thoroughly all-around good ball game on the part of the winners, the visitors made four runs in the ninth, when the visitors made four runs in the ninth, when Cooney walked the winning run on his triple and Lounger's fumble. Cross and Keefe were hard for kicking. Attendance, 1,500.

SCORE.

	R.	H.	E.
Philadelphia	5	10	3
Brooklyn	6	9	1

Batteries—Fraser and Doubleday; Kennedy and Farrell.
Umpires—Smallwood and Warner.

BOSTON, 5; WASHINGTON, 4.

Washington, May 16.—Dinner began the game well, but in the fifth and sixth innings sweet for Boston, good batting helped the visitors score among. Attendance, 1,000.

SCORE.

	R.	H.	E.
Washington	4	7	4
Boston	5	11	0

Batteries—Dinneen and Maguire; Hickman and Bergen.
Umpires—McDonald and Snyder.

ST. LOUIS, 9; LOUISVILLE, 3.

St. Louis, May 16.—The Fortuna took kindly to Hawley's curves in the second and third innings and, assumed out seven clean hits, scoring four runs. Meffee was relieved by Wade in the fourth, but the latter fared but little better and St. Louis was never in danger. Young pitched to seventeen men and kept the visitors' hits well scattered. Attendance, 1,500.

SCORE.

	R.	H.	E.
St. Louis	9	15	3
Louisville	3	10	3

Batteries—Young and Criger; Meffee, Wade and Kittridge.
Umpires—Burns and Smith.

BALTIMORE, 10; NEW YORK, 3.

Baltimore, May 17.—Baltimore's batteries gave an endless chain performance around the bases today at the expense of the Giants. Carrick was the center fielder the Orioles have yet struck, besides adding the ball freaks the home team took every chance on the bases, thus rolling up a good total of runs. The New Yorkers played in a very shovelly manner toward the close. Attendance, 1,500.

SCORE.

	R.	H.	E.
Baltimore	10	20	1
New York	3	11	4

Batteries—McGinnis, Cobbam and Robinson; Carrick and Warner.
Umpire—O'Day.

CHANGE OF MANAGERS.

Pittsburg, May 16.—W. H. Watkins, manager of the Pittsburg baseball club, resigned today and Captain "Patsy" Donovan was appointed to the position. He is said Watkins will shortly enter business in Indianapolis.

WHEEL NOTES.

Charley Ensie Appointed to Handle the Races—General Notes.

C. A. Ensie has been notified by the racing committee of the C. A. C. C. that he has been appointed representative for the State of Utah. As "Charley's" future plans are in an unsettled condition he states that he would not be able to give the duties of the office proper attention, and as soon as the wishes of the racing men and those interested can be learned, he will resign in favor of someone who can give the necessary time to properly look after Utah racing affairs.

* * *

"Papa" Smith yesterday received the sanction for the Decoration Day track races at Calder's Park, as new nothing stands in the way of a successful meet on that date.

* * *

The members of the Tenacious Wheel club took an outing last evening and from 8 until 9 p. m. the party wheled through the principal streets and made night hideous with tin bells and other musical instruments attached to their bikes.

* * *

The Opal Wheel club proposes to run an interesting outing next Sunday in the form of an excursion to Ogden, leaving at 8.45 a. m. The party will their arrives in the Junction here promise to ride up the Ogden canyon. Dinner will be served at the Hermitage after which the members will proceed to study botany, geology and kindred subjects that are found in the Ogden canyon and sentiment when out on a picnic. The excursion will be run in connection with the Short Line Lawrence expedition to Ogden.

A Pioneer of Measles—In early the season a persistent cough follows an attack of measles. In speaking of this Mr. Walter H. Bell, publisher of the Elkin (N. C.) Times, says: "Three weeks ago I had an attack of measles which left me with a bad cough. I took several bottles of Chamberlain's Cough Remedy and the cough has entirely disappeared. I recommend Chamberlain's medicines the best on the market."

SUMMER SCHOOL.

Write to the Salt Lake Business College for information concerning Summer School. Address Box 78.

Nothing has ever been produced to equal or compare with TAYLOR'S SWEETS PILE OINTMENT as a curative and healing application for piles, Fistulas, blind and bleeding, external or internal, and Itching and Bleeding of the Rectum. The relief is immediate and quite delightful. Price 50 cents in bottle, tubes 75 cents. F. C. M. I. Drug Department.

THE MISSION OF ORGANIZED LABOR.

Theme of President Gompers at the Grand Last Evening.

TO BUILD UP, NOT DESTROY.

Organized Labor Stands for Eight Hours Per Day, for Liberty and Equality Before the Law.

"The mission of organized labor is not to pull down and destroy, but to reach down into the abyss and raise the fallen and dependent."

These words were the keynote of the labor leader's address to this city last night.

Samuel Gompers, president of the labor unions, spoke before a large audience in the Grand Theater. The house was crowded, the stage and aisles were filled with people, the stand were A. M. Graham, Alex Hamilton, Henry Whitaker, A. Berneiro, F. De Weir, R. G. Shoter, George Taylor, William Pickering, James B. Queen, Gus Schoefer, H. E. Rawlings, S. W. H. Brown, Charles Bischoff, William Nees, Hugh McGean, J. H. Tuckwey, F. L. Gardner, Charles Hoffman, and other friends of union labor.

In the house as interested spectators were ex-Governor Thomas, Samuel Levy, R. W. Lawrence, Judge Powers, W. A. Nelden and Judge King. A number of ladies were present.

Mr. Gompers was introduced by Mr. A. M. Graham, president of the Salt Lake Federation of Labor. He spoke for over two hours. He said that as in ancient Rome when the Roman Empire became corrupt, the judiciary became a tool of wealth, the rich and powerful oppressed the poor and then made foreign conquest to divert the attention of the people from the evils at home, so in this country the judiciary, the administrators of nation and states are lending a helping hand to the powerful, and strong.

UPHOLD THE CONSTITUTION.

All this points to a determination to throw the Constitution and Declaration of Independence to the winds and transfer the rights of the people under them. Upon whom should will the burden of protecting the Constitution rest? On the shoulders of the states, Vanderbilts, Rockefellers, Goulds, Huntingtons? No, the poor, the workers, the hewers of wood and carriers of water. They must strive for liberty and fight to maintain their rights. It is to this direction we must look to see that the Declaration of Independence is not a glittering generality, but an active, living principle of everyday life. Organized labor is charged with fostering discontent. It pleads guilty. We discontent with liberty, justice and right between man and man, but discontent with tyranny that would destroy our rights and privileges. We want no peace at the point of the bayonet or storm of the cannon, but peace on the result of better conditions. Perfect peace and cease disputes and doubts. We propose to find a way out of our difficulties and the effort is better our conditions in the industry and thus lay the foundation for the future of the progress of the human family.

PROPER DISCONTENT.

We are not satisfied with the conditions of five years ago; we simply want more. The idea that it is wrong to produce wealth non should not make it harder to live. We are not satisfied. We want more, more today, more tomorrow. If we get $1 per day, we want $1.25; if we get $1.25, we want $1.50; if we get $1.50, we want $2.00. If a man has $100,000, he wants a million. If he has a hundred million, he wants the whole earth. The same rule applies to all human nature; then why keep at the corner on the workingman? We want more and will get as applied till we get what we deserve. This desire is born of the hunger for food, for good clothes, better surroundings, higher life, fuller knowledge of God and brotherhood of man.

The mission of organized labor is not to pull down and destroy, but to reach down into the abyss and raise the fallen and dependent.

THE AGITATOR.

The agitator is cursed and damned by the people who never can hoe a week and press on labor all the year around. The agitator is the fire bell in the night that wakes to the people. He is often abused and called by both sides.

Go to the textile workers of the South, who work for 47 cents a day, and tell them to move, the men who are in the employers for 15 cents a day, the New England textile workers at $6 per week, the men who are paid to trade stores early, the men who work for $1.50 or $2 and are the four months in the year.

Organized labor has known of labor. Eight hours must be the maximum. It is because our men in Utah to go back on the Constitution and the law of his State.

Organized labor is for peace. Peace is a jewel, but it must be peace with honor. Organized labor is not responsible for the dreadfully sets at Coeur d'Alene, Idaho, where the property was destroyed, and it was an outrage of stretch of authority by which an American citizen was deported without a trial or criminal examination. It is a fundamental principle of law that a man is innocent until proven guilty. Governor Merriam, that soldier of fortune, had no warrant in law to say that which he did. Organized labor protested. He deprived the mailed head of militarism this is striking at the liberties of the people.

The speaker closed with an appeal for union and fraternity, saying that arbitration must be substituted for the brute force. Mr. Gompers spoke with the earnestness of absolute conviction and made an excellent impression.

Malt-Nutrine

is the one malt tonic universally prescribed by physicians for the upbuilding of the feeble and weak. The perfected product of the Anheuser-Busch Brewing Ass'n.

In Constipation, HERBINE affords a natural, healthful remedy, acting gently, yet with such decided effect will usually be found to so regulate the excretory functions that they are able to perform their duties aid whatever. Price 50 cents. F. C. M. I. Drug Department.

For Whooping Cough, Asthma, Bronchitis, Hoarseness, Sore Throat, use reliable BALLARD'S HORSEHOUND SYRUP. Price, 25 and 50 cents. F. C. M. I. Drug Department.

BALLARD'S SNOW LINIMENT cures Rheumatism, Neuralgia, Headache, Pain Headache, Sore Throat, Chilblains, Frosted Feet, Burns, Cuts, and all pain and inflammation. Most penetrating liniment in the world. Relieves pain in 25 cents. F. C. M. I. Drug Department.

The Prince of Wales

PRESIDES AT A MEETING OF THE

SOCIETY FOR THE PREVENTION OF CONSUMPTION.

The latest scientific data on the cause and cure of consumption, presented by Sir William Broadbent.

The appalling ravages of consumption in England have led physicians and philanthropists persons to organize into a society having for its object the prevention of the disease by the extermination of its causes and by education of the people as to the wide spread danger of some ventilation. In the session introductory Sir William Broadbent's speech it was stated:

"Of all enemies to human life in this country the tubercle bacillus is the most powerful. By far the commonest and most fatal form of disease. Of course the invasion of the lungs, that it may settle in the lungs, producing white nodules, which grow up and producing nine-tenths of all hemoptysis and spinal abscesses, in the skin and its glands, which may go on for years, and again in the case of children in the bones and their glands, and upon the brain meningitis, producing meningitis.

Sir William Broadbent said: "We have heard the cause of the disease—the bacillus, that nearly three deaths are occasioned every year so due to tubercle bacilli. Sir William Broadbent then said to this number may be added a considerable percentage of the deaths set down to acute affections of the lungs in which tubercle has played an unrecognized part."

85,000 VICTIMS YEARLY!

Stop and think of that for a moment. In a little country like England, including Wales, a country which could be swallowed up in the century by one large state out of the 45 States of the Union, there are more than 85,000 people every year of tuberculous disease. Nothing can speak for the greatness and importance of this disease like these plain figures. If sixty thousand persons died each year of typhoid fever or of typhus fever, or of cholera in an area so large as that that of the State of Illinois, there would be no entire exodus from the state. If every year, as the result of a single infinitely rather fever claimed 85,000 victims in a similar area, that territory would be depopulated in a few years.

But the death tribute to their malevolent disease in the United States is no less appalling. The one-sixth of the deaths annually occurring in this country are attributed to consumption. It is the one disease which has caused to

fall distance to discuss, and which continues its ravages in the very place of the white light of scientific knowledge. In commenting upon the work of other nations, he said that in Sir Henry Broadbent, Sir William Broadbent said, addressing the chairman, the Prince of Wales, "Your Royal Highness may therefore well regard with the interest behind Germany in a matter of so much importance, America also is in advance of this country."

AMERICA AHEAD.

The tribute paid to this country by the eminent lecturer is deserved. The deadly consumption of tuberculosis is widespread area covered by the disease, the number of its victims, the physiological conditions associated with its cause and cure, have drawn the attention of the keenest scientific minds of the world. Consumption is the bane of America. Of all those who have given laborious days and nights to the questions involved in the cause and cure of the disease of consumption, no one has achieved more remarkable success than D. R. V. Pierce, the world renowned specialist in the Invalid's Hotel and Surgical Institute, Buffalo, N. Y. In an experience of more than thirty years, assisted by an associate staff of nearly a score of specialists, he has demonstrated that in cases of "weak lungs," spitting of blood, bleeding of the lungs, bronchitis, obstinate lingering coughs, and conditions which lead to or are "scattered" or unskillfully treated lead to consumption, there is help and healing in almost every case by the use of Dr. Pierce's Golden Medical Discovery. Not unfrequently the action of this medicine is found to be may be inferred from the fact that in all the hundreds of cases treated and recorded, ninety-eight out of every hundred have been perfectly cured and permanently cured by the use of the "Discovery," and the other two have acknowledged the help received from the medicine.

IT ALWAYS HELPS.

IT MOSTLY ALWAYS CURES.

The cures effected by the use of "Golden Medical Discovery" are the more remarkable, because in a large number of cases, those who use the medicine are in an exhausted condition, having tried all other means of cure without benefit, and have been given up by doctors to die. A good example of such cases is offered in the following letter:

"About five years ago," writes Corporation McCauley, Reg. of Longburg, Amelia Co., Va., "I had a cough in the hemorrhages and I had eighty-one of them in all; sometimes spitting five pints of blood at one time. It brought me down so low that I could not walk or get any sleep. I tried a great many things and went to doctors in Petersburg, but got no relief. My friends gave me up as dying. I had consumed twenty-three times to see me die. My doctor told me he could do no more. I was very sickness, but could not stop the hemorrhages, and all gave me up to die with consumption. I spoke of Dr. Pierce's Golden Medical Discovery, and while looking over the names in the pamphlet of those who stated that they had been cured by Dr. Pierce's Golden Medical Discovery I found one case that seemed to be exactly the same case as that of Mr. H. Harris. I sat down and wrote to him describing my case. In about one week I got an answer from him telling me that Dr. Pierce's Golden Medical Discovery was his life, and he advised me to try it. I then wrote to Dr. Pierce and he said 'You may as well take water,' but I thought it was only the money, so I wrote to you and commenced to use the Golden Medical Discovery. When I had taken six bottles I had eight bad hemorrhages. I wrote you and you sent me word to keep on with the 'Discovery' and the hemorrhages would stop after a while. I think the Lord did it. That was over two years ago and I have not had any bleeding since. I have taken in all, twenty-two bottles of Dr. Pierce's Medical Discovery, and eight bottles of the 'Pellets,' and today I can do a great deal of work. I feel that I owe my life to the medicine cured me through the blessing of the Lord.

"There is a great many using the 'Golden Medical Discovery' through my recommendation. I have people coming to me from miles to see me and write. 'What did you take? I never expected to see you so well.' I am a railroad employee, and I ship my medicine by express. I tell people when they ask me that I owe all to Dr. Pierce's Golden Medical Discovery. I had a young man come to me today bleeding from the lungs. I told him to go to the Doctor and he would cure him. He may for the lung to blow manifested with your medicine."

Mr. Harris, referred to in the letter above, is a fair specimen of the cases which are presented to Dr. Pierce, and his case is no wise remarkable, but when it comes to the generality of cases in which follow the continued and conscientious use of Dr. Pierce's Golden Medical Discovery.

"I was very sick indeed," writes Mrs. Mollie Jacobs, of Fulton, Kent Co., Delaware, "and our family Doctor said I had consumption. I thought I should die soon for I felt so awful bad. Had a cough, and blood was very short of breath, had a pain in my side, short of breath at all some times. I had pains in my chest and right lung, also had diarrhoea. I took two bottles of your Medical Discovery and 'Pleasant Pellets.' I was so weak I could not sweep my room, and now I can do my housework. I worked in the canning factory this fall, and I feel like a new person. I think I owe my life to your medicine. Praise for making this good medicine. I believe that the local and your medicine saved my life. I was given up. I was very sick. I took thirteen bottles of the Golden Medical Discovery, and I owe my life to Dr. Pierce's Medicine."

It is of no use to theorize on these cases. The diagnosis of the attending physician is satisfactory. "Our family doctor said I had consumption." "All gave me up to die with consumption." The doctors must have been wrong, for these facts are true. There was a cough and "Golden Medical Discovery" cured it. "There was spitting of blood and "Golden Medical Discovery" cured it. There was pain in the chest and lung and "Golden Medical Discovery" cured it. "Those were people given up to die, who are alive and well owing to the use of Dr. Pierce's Medicines." There are facts, and they are facts of vital value to every similar sufferer.

THE FIRST STEP TO HEALTH.

Mr. McCauley, Mr. Harris, Mrs. Jacobs and scores to him (Dr. Pierce) describing my case." That was the first step to health. It has been the first step of thousands who have accepted Doctor Pierce's offer of free consultation by mail. To every sick or ailing person, suffering from chronic disease, Doctor Pierce extends the invitation to consult with the chief specialist, without charge or fee. Behind that offer are thirty years of experience as chief consulting specialist of an institution of world wide repute, the Invalid's Hotel and Surgical Institute, Buffalo, N. Y. In an experience of more than thirty years, assisted by an associate staff of nearly a score of specialists, he has demonstrated that in cases of "weak lungs," spitting of blood, bleeding of the lungs, bronchitis, obstinate lingering coughs, and conditions which lead to or are "scattered" or unskillfully treated lead to consumption, there is help and healing in almost every case by the use of Dr. Pierce's Golden Medical Discovery. Not unfrequently the action of this medicine is found to be may be inferred from the fact that in all the hundreds of cases treated and recorded, ninety-eight out of every hundred have been perfectly cured and permanently cured by the use of the "Discovery," and the other two have acknowledged the help received from the medicine.

IT ALWAYS HELPS.

IT MOSTLY ALWAYS CURES.
