TELEGRAPHIC.

NOT A TIME OF PANIC.

That is What Comptroller Eckels Says of the Situation.

WHAT CAUSES THE DISASTERS.

Advice to Depositors—The Banks Have a Right to Considerate Treatment.

NEW YORK, July 18.—Comptroller of the Currency James H. Eckels was a guest of ex-Comptroller A. B. Hepburn, at a dinner at the Union League Club this evening.

The dinner was given in the name of President Cannon of the Chase National Bank, and President Tappen of the Gallatin National Bank, as Hepburn is not a member of the club.

President Williams of the Commercial National Bank, and also president of the Clearing House Association, presided.

In response to a few words of welcome from the host, Comptroller Eckles made a brief speech. He said in part: "The condition which confronts the American people deserves the thoughtful attention of every citizen. It is not a time of panic, but of slow liquidation, the result of undue speculation and unwise financial legislation. If the citizens would study the character of the institutions which have failed, the causes and conditions in which they occurred, the conclusion that must follow is that the legitimate life of the country is not threatened, but, instead, will come out of the present turmoil stronger for having passed through it.

"Bad banking must inevitably bring disaster upon those who engage in it. The present emergency simply hastened the closing of some banks, because they were inherently weak; others closed as the result of keeping alive operations and speculations in the extreme west and portions of the south. The air has not been discovered to making something out of nothing, and the financier who stakes his all upon an autumn city, reacting out into waste places, must bring about the ruin of his own and kindred institutions which trusted to him and placed their faith in omen yet unborn.

"Disasters have fallen upon conservative institutions and loom alike of the cities of Washington, California, Colorado, Kansas and Missouri, which have in turn injured the solvent ones, not the states of New England nor the east, and those of the northwest, have so far escaped and will, for the foundations upon which they are built is rock and not sand."

The comptroller said the people should not hurrie disaster by withdrawing from solvent institutions money the depositors cannot possibly use. The people are buying and selling much from the banks. In turn, the banks have the right of considerate treatment from the people. Let those who have long transacted business with banking institutions have sufficient confidence in them to know and feel that in years past they have proved safe, they are likely to do so now. The people who indulged in the run of banks cause to come about every thing they say they wish to avert.

WORLD'S FAIR NEWS.

The Cold Storage Horror—A Salt Lake Lady on the Special Jury.

CHICAGO, July 18.—The coroner's jury investigating the fire at the cold storage building, this evening returned a verdict, leaving to the grand jury for criminal negligence the following persons: Daniel H. Burnham, director of works, World's Fair; Fire Marshal Edward Murphy; J. R. Skinner, president of the Hercules Iron Works erecting the cold storage plant; Charles A. McDonald, secretary and treasurer of the same company.

All of the indicted men will give bonds tomorrow, no order of arrests having been made.

Fire Marshal Murphy was much affected by the verdict, which, he declared, unjust, as he was neither negligent nor guilty of misconduct.

Burnham was held on the ground that he was aware of the faulty construction of the building, and still permitted its erection on the grounds.

Skinner and McDonald were held because they built the building, and Murphy because it was alleged that he didn't fully investigate the fire before sending the men into the tower. Murphy himself swore that the men were already in the tower when he arrived.

THE MOWING MACHINE TEST.

The World's Fair field trial of mowing machines took place at Wayne, Ill., on the farm of Mr. M. W. Dunham. Only two manufacturers entered, the McCormick Harvesting company of Chicago and the William M. Whitely company of Muncie, Ind. The judges were Professor R. P. Thurston, of Cornell college; Hon. H. C. Wheeler, Oxford, Ia., one of the largest farmers in the world, and Calvin Young, of Auburn, N. Y.

The field in which the test occurred was covered with heavy timothy, of a yield of about three tons to the acre. The machines were first used with fifteen hats. The Whitley machine cut one acre in exactly thirty-five and a half minutes, with five stops to clear the bar of clogging grass. The McCormick machine consumed exactly the same time with but one stop. An appreciable difference between the two trials was that the McCormick mowed much less grass while in operation and cut much closer to the ground.

The next trial was with the "Big Four" seven-foot bar of the McCormick machine. The Whitley company did not compete. The time consumed by the machine in cutting one acre was twenty-six and one-half minutes. A test with a dynamometer showed the power required to haul the McCormick machine was about 10 per cent less than the Whitley. It is understood that the award will be in favor of the McCormicks.

CONGRESS OF EDUCATORS.

The World's Congress of Education is meeting with great success. Every lecture room was crowded today with all denominations and many strange gates.

MRS. HAMILTON OF SALT LAKE CITY.

The Board of Lady Managers have had confirmed Mrs. Fidelia R. Hamilton's appointment from Utah as one of the jurors on awards in the matter of personnel. This is the first appointment from the Far West.

CONCERT AT THE FAIR.

Tomy Freemont Hizzoldermin issued an order to close to visitors Jim Corbett's vaudeville show in Midway Plaisance.

THE SHORT LINE.

To Be Extended to Utah in Two Years.

SIOUX CITY, Ia., July 18.—It is said on usually reliable authority, that the Illinois Central has closed a deal by which it takes possession of the Pacific Short Line. The Journal gives as the statement of an official of the road that the Short Line will be extended to Ogden, with probably a side run to the Black Hills, within the next two years.

Russell Sage Sued.

NEW YORK, July 18.—Russell Sage has been sued for $100,000 damages for seduction, under promise of marriage. The plaintiff in the suit is Doris Keogan. She alleges that the offense for which she sues was committed in 1888. Sage's lawyer calls it blackmail.

On the Charge of Forgery.

NEW YORK, July 18.—Lloyd Aspenwall, a well known club man, is arrested in the Yorkville prison for further examination in default of $10,000 bail, on the charge of forgery. A sister, John D. Delmonty, accepted a promissory note from Aspenwall for $24,000, which purported to be indorsed by William Aspenwall, a brother of the accused. William declared it a forgery and an expert pronounced the indorsement and Lloyd's handwriting the same.

Probably a Hoax.

WASHINGTON, July 18.—There was a good deal of speculation at the navy department as to what would be the fate of the Alexandria, whose officers high in rank thought she might be classed as a pirate and treated accordingly, but under Senate bill, as her original offense was not one recognized by international law, and she was under the Hawaiian register, she could not be held up upon the high seas.

SAN FRANCISCO, July 18.—The story of the sinking disabling of the warship Mohican by the steamer Alexandria in the Bering sea is questioned here. It is a fact, however, that a boat sailed last April from here she carried a crew of over sixty men, and the men noticed were known in San Francisco as men who would enjoy a night.

Captain Howeson, commandant at the Mare Island navy yard, placed little reliance in the story. The whole, he said, are conflicting, and besides, the idea that a shot from a smoothbore would penetrate the side of the Mohican's visible her engines is absurd, as it would have to pass through twelve inches of solid white oak and then through the coal bunkers into the engineer's room.

SEATTLE, Wash., July 18.—The story about the United States steamer Mohican being fired into and disabled by a steam sealer is now believed to be a hoax.

An Immense Seal Catch.

WASHINGTON, D. C., July 18.—A dispatch from the arrival of a ship at Valparaiso with a cargo of 80,000 seal skins, taken at an unknown point in the Antarctic ocean, Prof. Goode says:

"It is not at all improbable that such a catch was made. For seals occur on both the Atlantic and Pacific coasts of South America, about the southern extremity, and on all the outlying islands, including not only the Falklands, South Shetland and South Georgian, but other small islands none to the eastward. They have been found, in fact, at all the islands making up the chain of Polagic islands, stretching somewhat interruptedly from Cape Horn and the Falkland Islands eastward to Australia and New Zealand, including those south of the Cape of Good Hope, so famous in the annals of seal fisheries. The rookeries in that part of the world, however, were practically abandoned some years ago, for the reason, owing to Great Britain's failure to protect the seals there, they became almost extinct, and did not pay for the time and trouble spent in hunting them. It may be that these years of comparative safety resulted in a restoration of seal life to the former extent. If so, I wonder if Great Britain will undertake to protect the rookeries now."

Probably Murdered.

CHICAGO, July 18.—The body of Michael Tomby, aged 16, was found in the Calumet river today. He was last seen alive playing with two brothers named Codey, and two Polish boys, all of whom have run away from home since his disappearance last week.

Gold and Silver.

WASHINGTON, July 18.—The chief of the bureau of statistics reports that the exports of gold from the United States during the twelve months ended June 30th amounted to $106,580,844, and the imports to $71,170,301; excess of exports, $37,500,603. During the preceding year the exports were $53,195,837 and the imports $49,009,454.

Exports of silver, $46,757,519, and imports, $23,180,257; excess of exports, $18,544,057. During the preceding year the exports were $32,810,559, and the imports $19,550,056; excess of exports, $13,259,503.

The gold reserve took another downward tumble today, from $68,059,461 to $67,872,952.

Bankers Arrested.

MILWAUKEE, July 18.—A special dispatch to the Sentinel from Shell Lake, Mich., says: A. C. Probert and Edwin Probert, Wisconsin bankers, who operate banking institutions at Washburn, Ashland and Shell Lake, were arrested at Washburn today, charged with having violated the banking laws. The Proberts stood high in Wisconsin financial circles, and the news of their arrest caused a great sensation throughout the state.

The Mollie Gibson Not Flooded.

COLORADO SPRINGS, Colo., July 18.—Forest Hagerman, secretary of the Mollie Gibson Mining company, says the report that the mine is flooded is untrue. There has been a flow of water, but it does not interfere with the work.

Cleveland Congratulates the Pope.

BALTIMORE, July 18.—The News announces that there is now on the way to Rome a letter from Pres. Cleveland to the pope, congratulating the holy father upon the fiftieth anniversary of his election to the episcopacy.

THE FRENCH IN SIAM.

The Minister of Foreign Affairs Questioned in the Chamber.

France Will Demand Reparation for the Murder of Mesquerin by Siamese.

PARIS, July 18.—Despite questions of the government in the chamber of deputies about the French operations in Siam, Develle, minister of foreign affairs, says the government has no intention to interfere with the Siamese independence, but would insist that Siam respect the treaties. The interference of a third power would not be tolerated. Ribaut did not make a com. ete reparation for the murder of Gerosquin, the French inspector of native police, by the Siamese, and other acts, France would show, are the Mekong river. It may cost Bangkok would be bombarded, after sufficient warning to allow the foreign ministers to protect the subjects of their respective countries.

The chamber unanimously voted confidence in the government.

Mr. Develle spoke at some length concerning Great Britain's part in the difficulty. He said he must answer the accusation that he acted hurriedly in word England. The fact was, both Earl Rosebery, British foreign secretary, and Marquis Dufferin, British ambassador to Paris, had given positive assurance that England would not interfere in Siam.

The remarks made by Sir Edward Grey, parliamentary secretary of the British foreign office, as to sending British war ships to Siamese waters, are regarded by the ministers as quite irreconcilable with the promises mentioned. The French charge d'affaires in London had visited Lord Rosebery therefore, to express the intense surprise felt by the French government in view of Sir Edward Grey's declaration. Earl Rosebery replied that Sir Edward had been misrepresented. As to the mission of the British gunboats, it would be merely to protect British subjects in Siam and not to back Siam in her quarrel with France.

Just says M. Develle has telegraphed M. Pavie, French minister residing at Bangkok, that the terms of an ultimatum will be presented forthwith to the Siamese government. Twenty-four hours are allowed for a reply to France's demands.

The Sinking of the Victoria.

VALLETTA, Malta, July 18.—Staff Commander Hawkes-Smith also gave evidence showing that Vice Admiral Tryon took upon himself the responsibility for the disaster. The staff commander said that immediately after the Camperdown rammed the Victoria the vice admiral said to him: "It was entirely my doing, it was entirely my fault."

Captain Bourne was questioned closely as to Admiral Tryon's manner of receiving the suggestions concerning the signals for the fatal maneuver. He replied that the admiral's answers were rather short and sharp. He knew that the admiral considered the Victoria a bad flagship. Bourne considered the maneuvers unprecedented when ordered. He never had to do it before.

Flag Lieutenant Gifford said the admiral in making the order for the signal, gave him a slip of paper on which was written only the figure 6 and communicated the rest of the intelligence orally. This, he added, was rather unusual.

Staff Commander Hawkins Smith thought the figure 6, indicating the number of cable lengths, was in the admiral's handwriting, and added that he was not invited to give any advice in the matter of the maneuvers.

Fighting in Brazil.

VALPARAISO, July 18.—Vigorous fighting is reported to be in progress in Rio Grande do Sul, Brazil. General Saraiva, in command of the revolutionists, has pushed forward toward Vaguarez. Advance posts opposing the government troops were taken. All the prisoners captured were shot by the revolutionists. The efforts of the insurgents at Santa Anna were unsuccessful.

A Tornado in Italy.

ROME, July 18.—A tornado swept down suddenly today on Veghera and Castegglo, in Piedmont. Hundreds of buildings were wrecked. In one section of Veghera hardly a building was left standing. Not a structure in either town was left intact. Hundreds of persons were injured. The number of dead is not known.

William Very Thankful.

BERLIN, July 18.—The Reichsanzeiger this evening publishes a cabinet order, expressing the most sincere thanks of the emperor and his allies to Chancellor Von Caprivi for his service in securing the adoption by the reichstag of the army bill. The emperor, in the order, says the new bill is a guarantee, not only of the safety of the empire, but also the peaceful development of internal affairs.

Breckinridge Marries a Widow.

LOUISVILLE, Ky., July 18.—Mrs. Louise Scott Wing was married to Congressman C. F. Breckinridge this evening at the home of Dr. Peale B. Scott, brother of the bride.

DR. SCHENCK'S

Mandrake Pills have a value as a household remedy far beyond the powers of language to describe. The truth can hardly be true in itself that does not keep them on hand for use in emergencies.

* MANDRAKE *

is the only vegetable substitute for that dangerous mineral, MERCURY, and while its action as a cathartic is fully equal, it possesses none of its pernicious effects.

In Constipation, Mandrake acts upon the bowels without disposing them to subsequent costiveness.

We usually add as directly on the liver, nothing so speedily cures Sick Headache, Sour Stomach and Biliousness as these

PILLS.

Walker Bros. & Fyler Co's

EXPLOSION

Of prices has caused a panic in the Dry Goods trade of Salt Lake City. It has aroused the Territory of Utah and is now reverberating throughout the adjacent States. It is destined to go sounding down the aisle as long as the most appalling reductions of prices that ever occurred in this or any other community. The crowds of eager buyers who take possession of our great store from day to day can only be likened unto a grand mass-meeting of the people, all bent on securing some of the unprecedented bargains we are offering.

This Week will be a continuation of our great Slaughter Sale,

At lower prices than ever. We must have room for our Fall purchases, which, in spite of the CRY OF THE CROAKERS about "Hard Times," will be larger than ever before. We have no cause to complain. Trade is never dull with us.

WHY?

Because we give the working man a chance. When times are quiet we divide our profits with the people, and when work is scarce and money scarce still, we cut profits to the winds and SELL FOR COST. BECAUSE we buy for spot cash and get heavy discounts. BECAUSE we don't owe anybody and can afford to dispose of our goods as we please.

THAT'S WHY!

If you doubt our values, come to and see for yourselves. The bargains we quote during this sale have never been equalled, never will be equalled, and can never be repeated.

Walker Bros. & Fyler Co.

IMPORTANT NOTICE.

In addition to the low prices we present coupon scrip to the amount of 5 per cent of the amount of purchases made from us. Customers should call at our scrip department and get scrip at the cash desk at the time of purchase.

SEE OUR · · MASCOTS, · · The Wild Cats in our Big Show Window.

Remember the leaders of low prices are now slaughtering goods in every department.

DRESS GOODS, CLOTHING, SHOES, MILLINERY, WRAPS, WRAPPERS, HOSIERY, UNDERWEAR AND CARPETS.

Walker Bros. & Fyler Co.

CLEARING SALE

STILL GOING ON AT

Goldsmith & Co's.

THIS WEEK'S BARGAINS:

Summer Coats and Vests,	$1.00, $1.25, $1.50.
Men's Suits, Men's Suits,	$5.50, $6.50, $8.50.
Boys' Knee Pants, Still a Few Left,	25c.
Boys' Knee Pants,	45c.
Boys' Suits This Week,	$1.50, $2.00, $2.50.

STRICTLY CONFIDENTIAL.

We want to say to our patrons and the public in general that we know times are harder than they ought to be, that money is a little "too close for comfort," and that every shilling must be selling goods now at very low prices. But we want to say further, because it is true, that of all the goods that are being slaughtered, ours are the DIRTY and of all the low prices that are being quoted, ours are the LOW PRICES. There is a way to prove this, if you doubt it. Compare their goods with our goods, their prices with our prices, and you will find that we are right, and that

We Do As We Advertise.

Goldsmith & Co.

61, 63, 65 Main Street.
