# MINING, BUSINESS AND STOCKS

## MORNING SESSION SHOWS STRENGTH

### Stock Exchange Transactions Characterized by More Than Usual Activity.

### UTAH STOCKS ARE FAVORITES.

**Total Business Greater Than in Some Days About Equally Divided Between Regular Call and Open Board.**

This morning's session on the floor of the local exchange was characterized by rather more vim and activity than any session during the week. The bulk of the trading was in Utah stocks, and the market for the most part showed a healthy tone, several stocks advancing a point or two. There were no very heavy sales in any one security, the business being spread pretty well over the entire list.

Six hundred Nevada Hills sold on the open board at from $2.90 to $2.97½ while 500 Black Jack were disposed of at prices ranging from 41 to 45 cents. Of the Utah stocks one lot of Beck Tunnel brought $1.20 and another $1.17½ on the open board, with no sales during the regular call.

A total of 13,646 shares changed hands during the regular call, representing a worth of $11,722. During the open board session the sales amounted to 8,250, at a worth of $10,574.

The quotations for the day closed as follows:

### HAS FOUR FOOT VEIN.

**Strike of Rich Ore on Little Canyon Property of John Clark.**

(Special to the "News.")

Provo, Oct. 25.—John Clark who is mining in Little canyon, southeast of this city, is showing some rich copper ore taken from his claim. Mr. Clark states that there is a fourfoot vein of this kind of ore, and that several tons have been taken out and are ready for shipment.

### SHOWS FINE ORE.

**Thos. N. Allman Exhibits Some Handsome Galena Specimens.**

Special Correspondence.

Provo, Oct. 25.—Thomas N. Allman of this city, one of the owners in the Whirlwind mine on Miller hill in American Fork canyon, has some fine galena ore taken from a recent strike made in the Whirlwind.

### BACK FROM YERINGTON

**C. D. Rooklidge Returns More Than Ever Convicted of Camp's Future.**

Chas. D. Rooklidge, manager of the Pioneer Ore Sampler, arrived on Tuesday evening from a visit of several days in the Yerington, Nevada, mining district.

Mr. Rooklidge was among the first of the present contingent of Salt Lakers to interest himself in the district, and since acquiring his original holdings, he has added other likely looking properties from time to time.

According to Mr. Rooklidge, the entire district is showing up splendidly. The best of results are being obtained from nearly every mine in camp, and prospects are excellent in every way.

On account of the opening of the Walker Indian reservation some of the mine owners in the district are expecting a temporary shortage of labor. However it is not thought that this will seriously interfere with mining operations.

Mr. Rooklidge did not care to enter into detail regarding the efforts to date of the Yerrington Copper Co., but it is understood that their success is continuing steadily, with large amounts of good ore in sight. The management is said to be making ready to tap the vein recently discovered and which gave such excellent values on the surface. It is expected that the ore will show up splendidly at depth.

### NEW ROAD OPENED.

**Tuesday Last Marks Inauguration of New Service.**

The Silver Peak Railroad running from Blair Juncti, Nevada, to the new town of Blair was formally opened to freight traffic on last Tuesday, according to the Tonopah Bonanza. The first shipment over the new line was a seven car train of lumber and edibles. Yesterday the regular passenger service was inaugurated, and hereafter there will be two passenger trains a day. One meeting the morning train on the Tonopah and Goldfield railroad for the coast. The other will connect with the evening train from San Francisco. The road bed of the new line is in fine shape and is devoid of the tortuous curves so noticeable on railroads running through this state. On the entire length there are but four curves and of moderate degree. The line is practically at grade the full length, the greatest rise being but one and two-tenth feet. Already the entrance of the railroad has made a vast difference at Blair, and the spot is taking on a most businesslike appearance. At Blair Junction there are several thousand feet of lumber as well as many hundred pounds of miscellaneous freight which is being transported to the terminus of the line as quickly as it can be loaded on cars. It is reported that the first passenger coach over the line was on Wednesday, when the official of the road made a trip of inspection.

### EXPECT GREAT THINGS.

**Property of Pittsburg Silver Peak Company Described as "Mountain of Ore."**

The magnitude of the property of the Pittsburg-Silver Peak Mining company, at Blair, is best described in the phrase, "a mountain of ore." From the apex of the ledges at the surface to the deepest workings, the ground is one vast ore deposit. In fact all the holdings of the company are literally covered with quartz bodies. Practically every foot of the workings have been sampled and an average value of about $11 shown. This average is obtained from ore running from almost nothing to as high as $200. Should the average value of the property be maintained as low as this, and it is most unlikely, the ore can be mined with the modern machinery to be installed at a very handsome profit. From the mouth of the Mary tunnel, on the Mohawk-Alpine ground, a tramway will be built in a straight line across the intervening ravine to the brow of the high peak overlooking the town of Blair. From this point an aerial tramway will be built, which will carry the ore to the mill, which will be situated two and a half miles distant, where it will be dumped into the crushers. The mill itself will be built on the side of a haill and the natural gravitation will enable the ore to be handled automatically throughout the entire milling process.

Accordingly from the time that the ore leaves the top of the peak until it deposits are taken from the plates, it will not pass through a single human hand.

## HEINZE LEAVES FOR ELY, NEVADA

### Is Accompanied by Ex-Senator Thomas Kearns in Former's Private Car.

### FACT MAY BE SIGNIFICANT.

**Deal in Ohio Copper Said Postponed Indefinitely on Account of Difference of Opinion as to Value.**

F. Augustus Heinze, accompanied by Senator Thomas Kearns, left last night for Ely, Nev., on the former's private car.

Senator Kearns and David Keith have been heavily interested in White Pine county mines for some time past, principally in and around Ely. It has been known for some time that Heinze has been looking for an opportunity to increase his holdings with one or two likely looking copper properties in this vicinity, and it is barely possible that the departure of the two mine operators in each other's company, bound for the same destination, may be significant of a possible combination of interests.

The departure of Mr. Heinze is taken to indicate that for the present at any rate the Ohio Copper deal has been declared off.

The utmost secrecy is being preserved locally regarding the negotiations, and this morning's gossip in mining circles adds little to the sum total of knowledge.

It is generally felt that the deal failed to come to a head on account of a difference of opinion as to the value of the property, but just how much was offered and how much asked for the stock, only two men know, namely F. Augustus Heinze and Thomas Weir, and pending the successful consummation of such negotiations, they never tell.

The stock this morning was quoted around $2.90, which shows how the brokers feel regarding it.

### IMPERIAL MINE DOING WELL.

**Beaver County Property From Which Great Things Are Expected.**

A. B. Lewis of the Imperial mine in Beaver county passed through the city yesterday en route for the east on business.

The location of the Imperial between the Horn Silver and the Cactus mines has always been regarded in the light of a guarantee that eventually the property would develop into something good. It now looks as if no mistake had been made.

The company recently sent two cars of high grade ore to the market, mostly copper, and there is said to be lots of it. It is not believed, however, that the main vein on the property has yet been cut although development work has been directed to this end for some time past.

The company is employing a large force of men, and prospects for the future are said to be excellent.

### LESSEES WILL NOW DO WELL.

**Brown Mining Company's Property Promises Interesting Developments.**

Comes news from old Scott Hill in the Park City district to the effect that the Brown Mining company is again responding with some fine specimens of ore. The mine adjoins the Scottish Chief property and for some time past has been worked by lessees, many of whom will retire with a snug little fortune should their present luck continue.

Those familiar with the property say there is every evidence of permanency, and developments are looked for before the end of the year from both the Brown and Scottish Chief mines.

### CONCENTRATES.

J. F. Howell left yesterday for the Tonopah Bullfrog country on mining business.

Lorin M. Morrison returned yesterday from a brief business trip to Chicago, made in the interests of some of the properties with which he is connected.

The Mercur Consolidated people are able to operate their mill at two-thirds of its capacity, which, considering the scarcity of fuel, is regarded as good work.

Grant Snyder is at present at Yerington, Nev., looking over operations at the Malachite group of copper claims owned by the National Development company.

## LONDON AFFECTED NEW YORK PRICES

### Were Lower With Fractional Declines, Buying Orders Overcoming Initial Weakness.

### BULL EFFORTS WERE FUTILE.

**When Attempt to Lift List Failed by Bidding Up Certain Stocks, It Went Down.**

New York, Oct. 25.—Opening prices here today adapted themselves to the lower prices of London, resulting in fractional declines throughout. Buying orders were distributed freely and the initial weakness was overcome, the market recovering fully. St. Paul was again a factor in stimulating the rally, the stock moving up vigorously to 171¾. Illinois Central also went up 1½. The market became weak again when a drive was made against the coalers and Hill stocks. Great Northern preferred fell 4, Nashville, Chattanooga & St. Louis 3, National Lead 2, Pressed Steel Car 1¾, Reading 1⅝ and Union Pacific, Wabash preferred, Colorado Fuel, Smelting, Locomotive, American Car preferred and Interborough Metropolitan preferred 1 to 1½. There was a rally at the end of the hour.

Some pressure on U. S. Steel unsettled the rally but it was resumed later. By midday Canadian Pacific had recovered 1¼ point decline and Reading and Great Northern preferred rallied a point. Transactions were small.

Bonds were irregular.

When the market showed no inclination to respond to the spasmodic efforts to lift prices by bidding up certain stocks buying ceased, and the list worked gradually backwards to the lowest.

### PRODUCE.

CHICAGO.

Chicago, Oct. 25.—The wheat market opened firm today despite lower prices at Liverpool. The chief bullish factor was the continued small movement in the northwest. There was a good demand by commission houses, but offerings were light. December opened unchanged to a shade higher at 72¾@72⅞@72⅞ and sold at 72⅞@73.

The corn market was firm. December opened unchanged to ⅛ higher at 42½ to 42⅝ and sold at 42¾.

December oats opened a shade lower at 33¼ and advance to 33½.

The provisions market was firm. January pork opened 5 cents higher at 13.75. Lard was up 2½@5 at 8.32½ to 8.35, and ribs were 2½@5 higher at 7.45@7.47½.

The market continued steady all day on a good general demand. The close was firm with December ⅛ higher at 72⅞.

### LOCAL MARKETS.

The recent storm has had its effect on the produce markets so that receipts from outside, and especially from western points have been light. However, receipts from the immediate vicinity have been up to the customary standard as to quantity. Quite a number of cars of Irish potatoes are in transit from southern Idaho and northern Utah points, enough to restock the market in good shape. Then cars of oranges and lemons, set back by the weather, are now being received, with bananas—fine and plentiful, California figs, Utah vegetables of all kinds, and eastern eggs. Cranberries have gone up $1.50 per barrel in the east, and there will be a corresponding rise in the Salt Lake market in the course of another week. Eggs continue scarce locally, but there are plenty coming along from Kansas and Nebraska. Oysters, fish and poultry are plentiful.

The question is asked at times, if Mexican or Florida oranges ever get into the Salt Lake market. No Mexicans reach here on account of the excessive cost of expressage from Guadalajara, although the quality of the fruit is very good. Floridas have in the past been received in this market, but as compared with California oranges they are sour, and often inferior in appearance, being easily mistaken for lemons. Grapes are being sent in still, but the season both on the coast and locally is nearly at an end. A feature of the week is the shipment to a prominent west side commission house of 200 boxes of late fall peaches from the Pioneer Nurseries in the southern part of this county.

As one result of the storm, the price of hay has risen, alfalfa now selling at $15 baled, and Timothy at $17. The retail price per cwt. has gone up to 95 and 85 cents respectively. The prices obtaining in today's markets are as follows:

Taking it easy. Congress has finished its labors. We envy them. Our work is still cut out for us, and we have to hustle for business. The way we do it and get business is by writing up insurance in the most reliable and prompt paying companies in the world. They are the Hartford Fire of Connecticut, the North British & Mercantile Insurance company, the London Assurance Corporation, the Phoenix of Brooklyn, the Teutonia of New Orleans, and the only local company, the HOME FIRE INSURANCE COMPANY OF UTAH. Let us write you a policy. These companies are not welshing.
