CONVENTION NOTES.

Delegations from Various States Gathering in Chicago.

RAILROADS READY FOR BUSINESS

[illegible]

A Gathering of 7,000 Years Old.

CHICAGO, July 1.—The delegates from North Dakota are expected to open their headquarters at the Palmer House tomorrow and a number of Michigan delegates are already upon the ground. The Nebraska men, who were expected to make their headquarters at the Palmer House, have changed their minds and the Union House and the Grand Pacific are expected to open today.

Three of the members of the Illinois delegation arrived in the city last evening, but were unable to locate headquarters. Michigan is trying to secure the Palmer House, in the belief that it will be kept empty and they are anxious to have it. It is supposed that the Democratic State will be in the city by the latter part of the week. Some of the Michigan delegates, however, would rather be in Chicago on Sunday, so they will leave Detroit early that morning. Some of the Illinois delegates, however, would prefer to be in Detroit on Sunday, so they will leave Chicago early that morning.

The delegations from the Southern States are coming in slowly. Some of them will not come until the last moment, and they will be the last to leave the city. Some of the Southern States will be represented by only a few men.

Two of the Southern states—Alabama and Georgia—will be represented by Democrats.

The Georgia delegation, which numbers 22, will be in the Kimball House for its headquarters. Ronald Ross of the Georgia delegation has left Atlanta for Chicago. He is a member of the Georgia Railroad of Louisville, and is one of the most prominent Democrats in Georgia. The delegation will be in Chicago Tuesday.

Four Alabama men arrived in the city yesterday. They are members of the state central committee and members of congress. The Alabama delegation, will a number of it is not what we will call it, will be in the city Sunday
