# TELEGRAPHIC.

## THE PLAGUE IN ASIA

Similar to That Which Visited London in the Sixteenth Century.

SYMPTOMS OF THE DISEASE.

Hundreds of People Dying.—Business Paralyzed.—The Deities Invoked for Aid.

VANCOUVER, B. C., June 13.—The mail important news brought by the Empress of Japan is of the alarming spread of virulent plague that first appeared in Canton at the end of April. The plague is similar to the great plague in London in the sixteenth century and is carrying off large numbers of victims. It soon spread to Hankow, appearing there in May. It is mostly confined to Chinese, but a few Portuguese have been affected. The plague has paralyzed business to a great extent, as many leading steamship companies refuse to take either passengers or cargo from Hongkong. The symptoms of the disease are as follows:

Without precautionary warning in the shape of a chill, there is a sudden outset of fever, rising to 105 degrees or more. There is severe headache, accompanied by stupor. In twelve or twenty-four hours a glandular swelling occurs in the neck or arm pit, increasing in the size of a hen's egg, being hard and tender. With or without the decline of the fever, the patient sinks into a condition of coma and dies at the end of 24 or 48 hours. If six days is reached, recovery is possible. The Canton correspondent of a Hongkong paper, under date of May 5, says:

Scarcely a house has not some one dead. The plague commenced in the Mahomedan quarter and one hundred cases are reported daily. One man stationed at the west gate began at 8 o'clock in the morning to drop a "chit" in the box each time a coffin passed him. At 4 p. m. he had counted 170 each. Children were put in baskets or were wrapped in mats or matting and buried. From this district, where the dirt is thickest and the houses most crowded, it spread to the country portions and has now reached the country and the people who fled there from the city know not what way to fly. Idols are being worshipped in an extravagant and frenzied manner. The past few months people are forbidden to worship and the new year was begun last Saturday. All night new year sounds were kept up, and as much ghastliness as attempt at outward merriment and gaiety was apparent. It is impossible to ascertain the number of deaths. Officials try to suppress the facts. At the largest charitable (native) dispensary, a notice at the doors states that up to date 2,000 coffins have been given away. This is far below the actual number used. Sixty thousand is nearer.

A foreign doctor's assistant went (though a member of strength and said he was surprised to see within open eyes a dead body, while outside there were no white and blue lanterns. Many made no attempt at the usual noisy mourning. The dead were silently carried out with not a follower. In one house all lay dead—ten. On May 11 it was reported that the disease had reached Hongkong, and energetic steps were at once take to cleanse the infected localities. However, hospitals were opened for the sick and the ship Hygia was moored in the harbor for the accommodation of patients.

The Chinese appeared at first to be inclined to co-operate with the authorities in bringing to light known cases of the plague, but probably because of the heavy mortality, the attitude became more and more distrustful. The first determined stand against the authorities was made on May 19, when houses were barricaded and stones were thrown at officers making house to house visitations. Up to the latest reports 305 cases occurred and 320 deaths. Ten schools have been closed and a panic exists among the Chinese, many of whom are fleeing to the mainland.

KANSAS POPULISTS.

Platform Agreed Upon by the Committee on Resolutions.

TOPEKA, June 12.—The afternoon session of the Populist convention was taken up with the selection of the various committees and addresses. Miss Susan B. Anthony, Mrs. Chapman and Call, in behalf of a woman suffrage plank in the state platform, addressed the convention. At the conclusion of Miss Anthony's address a delegate demanded to know whether she would take the stump and urge all friends of woman suffrage to vote the Populist ticket. Miss Anthony's response was in the affirmative and was greeted with loud applause.

At 8 o'clock the convention took a recess until 7:30 p.m.

The night session was devoted to raising money for the campaign and the transaction of routine business until 10 o'clock when the convention adjourned without reaching any resolution.

The committee on resolutions agreed to the following:

We, the representatives of the People's party of the state of Kansas, in convention assembled, do hereby reaffirm our allegiance to the principles enunciated in the Omaha platform and point to the record of our representatives in Congress as an evidence of their loyalty to that platform.

Our sympathies go out to the unemployed, homeless and landless people of the country, who have been brought to their present condition as a great measure through the vicious anti-American financial policy of this government and we hold sacred the declaration of Independence that all men are created equal, that they are endowed by their Creator with certain inalienable rights, and among these are life, liberty and the pursuit of happiness.

We demand the free coinage of silver at the ratio of 16 to 1 and denounce any party that is so completely under the control of the gold bugs that it dare not take a stand for the people on this all-important question.

We are unalterably opposed to issues of government interest bearing bonds.

We condemn the unwise and cruel policy of all the government parties in this nation, whose legislation has favored capital and oppressed labor, and we hereby declare our sympathy with all toilers in their efforts to improve their condition and demand such legislation as will result in removing some of the burdens of toil by shortening the hours of labor without lessening their daily wage.

We demand national and state boards of arbitration to settle and adjust the differences between the employers and the employed.

We demand service pension graduated so that the man who carried the musket shall be entitled to the same consideration as the man who wore the epaulette.

We favor a state irrigation department to investigate methods and water supplies and encourage irrigation.

A SUFFRAGE PLANK.

The minority report signed by members of the committee is as follows:

We, the undersigned members of your committee on resolutions, respectfully submit the following minority report and recommend its adoption by the convention:

Whereas, The People's party came into existence and won its glorious victories on the fundamental principles of equal rights to all and especial privileges to none; therefore be it

Resolved, That we favor the pending Constitutional amendment.

INDUSTRIALIST DOINGS.

Coxeyites Filing Obstructions on Railroad Tracks.

PASCO, N. D., June 12.—Deputy United States Marshal Doggett left for Bismarck today with sixty deputies. Others will be picked up and his force will number 150 when Bismarck is reached. Judge Caldwell has ordered a large force to be sworn in. United States officers here have received word that the Coxeyites are piling obstructions on the track to prevent trains from running by without stopping.

COXEY THE ORATOR.

WASHINGTON, June 12.—Jacob S. Coxey, the leader of the commonweal army, has accepted an invitation of the Knights of Labor, and all the other Industrial organizations of St. Paul and Minneapolis, to speak in Minneapolis on the Fourth of July.

MUTINY IN THE RANKS.

RAVENNA, O., June 12.—Trouble broke out in Randall's army here today. Company A asserted to a body because of insufficient rations and attempted to capture the army flag. A fight ensued and while Sgt. Randall's men succeeded in retaining possession of the flag.

ATTEMPTS TO CAPTURE TRAINS.

KANSAS CITY, MO., June 12.—The commonwealers under General Jones, who arrived here this morning, made three attempts to capture Missouri Pacific freight trains as they passed the camp, but each effort was futile, as the train men stole backed their trains.

Murdered and Robbed.

GUTHRIE, O. T., June 12.—Two brothers named Raymond, residing at Albany, N. Y., came to this country in search of a brother, who came West in August, 1893. Last Wednesday, eighteen miles east of Arbuckle, in the Seminole Nation, the dead bodies of two well dressed young men were found. They had been murdered and robbed. Nothing to identify the men was found on the bodies, but it is believed they are the two Raymond brothers. Nothing has been heard of the lost Raymond.

The Rumor Denied.

NEW YORK, June 12.—The report that Nellie Grant-Sartoris was engaged to Henry H. Douglas, of Maryland, was denied by the family today.

TRIAL OF WIMAN.

The Statement of Assistant District Attorney Wellman.

NEW YORK, June 12.—In Erastus Wiman's trial today Assistant District Attorney Wellman related that Wiman went to Bookkeeper Wheeler of R. G. Dunn & Co. and asked him for a check for $5,000 payable to E. W. Bellinger. Wiman deposited it in his own bank to private account. Wellman said he could show that Wiman knew Bellinger's signature was forged. He then went on to explain what object Mr. Wiman had in obtaining such comparatively small amounts as $5,000 by forgery, when he was receiving from R. G. Dunn & Co. $75,000.

"It was because he was at that time in arrears to R. G. Dunn & Co. to the extent of $157,000," said Mr. Wellman. "Not that the books of the business showed this. This was only shown by the investigation of the books for several years back. Then it was learned that during these years Mr. Wiman had been in the habit of coming to the office before anyone else, taking checks which arrived by mail, endorsing them and putting them to the bank to his personal account. When at the close of the year the bookkeeper told him he could not make the amounts of the business balance up $135,000, Mr. Wiman gave his personal check for that amount on a bank where he had money and told him not to use it until he (Wiman) told him to do so, and then it was for fourteen months Mr. Wiman's worthless check covered up the books his shortage of $135,000."

The Pope Urges Unity.

ROME, June 12.—It is stated the pope intends to issue an encyclical to the Anglican prelates urging them to recognize his authority and Immaculate.

The object of the pope, who has also prepared an encyclical to the distant Eastern churches, is to obtain complete unanimity in the church.

THE LABOR TROUBLES.

Samuel Gompers Addresses a Meeting of Laborers.

ST. LOUIS, June 12.—About 500 workingmen gathered at the Grand Opera house tonight and listened to addresses by prominent labor leaders. Among them was Samuel Gompers of the Federation of Labor, who in his address alluded to what he termed the successful termination of the miners' troubles. He said in part:

"This will have a good effect on all labor organizations. The movement was called earlier by some of our newspapers because they dared to ask enough to keep them from starvation. Never in the history of our country has there been a conference representing so vast a body as has met in your city these last two days. Take message. The opportunity for workers is greater today than ever before. Every principle that none believe in was fully discussed, and that which was adopted is reasoning in its influence. In a short time you will see a movement which will not only surprise our enemies but even our most sanguine friends. Vote for our men. Leave the old parties go, they never have done any good for the wage earner and they never will."

## HAVEMEYER TESTIFIES.

The Sugar Trust Made Millions by Purchasing the Refineries.

Some of the Money was Given to the Campaign Funds in Various States.

WASHINGTON, June 12.—In the hearing before the committee investigating the sugar trust proceedings, Mr. Havemeyer was asked about the potential statement that he had on either Mr. E. C. Benedict's yacht or at Greenwich, Conn., been in consultation with Mr. Cleveland and Mr. Benedict in 1892, after Mr. Cleveland's nomination for the Presidency, about the sugar interests as affected by the Hawaiian treaty. To this Mr. Havemeyer said there was not one word of truth. He did not know Mr. Cleveland, and had never seen him. Furthermore, he had never exchanged a word with Mr. Benedict on the subject of sugar or any other business matter.

He then explained his interview with Senator Jones at Senator Cockrell's room, and Senator Camden at Senator Brice's house. He had talked with Jones about three quarters of an hour about the different systems of levying duty, and about the cost of refining sugar in the Sandwich Islands.

Mr. Havemeyer made some rather startling statements toward the close of his testimony. He was asked about the contribution of the sugar trust to the campaign fund of political parties, and said the records of the trust showed that such contributions were made, but they were made to the state committees, not to the national committees.

He was asked if the contribution of the trust were given to both parties in the same state, and replied:

"Yes, sir."

"How do you account for this?" he was asked.

"Well, New York is a Democratic state. We give to the Democrats, and to the Republicans in Massachusetts. We never give to the minority."

"Did you contribute to the anti-snappers?" asked Senator Hoar.

"No, no. I am quite sure on that point; nothing to the anti-snappers."

He said the trust had made about $15,000,000 by the purchase of other refineries.

Terrific Cloud Burst.

CANANDAIGUA, N. Y., June 12.—A terrific cloud burst occurred at this place and vicinity tonight, doing great damage. The storm was accompanied by fierce thunder and lightning and struck here about 8 o'clock, and in a short time flooded streets and gutters and choked the sewers and streams. Cellars all over the town are flooded, and in the lowland streets are impassable.

Reports come in from all over the vicinity to the effect that this storm was the heaviest and most devastating of any so far before seen. The lake has reached the high water mark, and the vineyards in many places along the shore are washed out and the vines leveled.

Breckinridge Will Not Withdraw.

WASHINGTON, June 12.—Col. Breckinridge emphatically denied today the report that his friends had induced him to withdraw from the race for Congress. He characterized the statement sent out of Lexington as false and expressed his usual confidence in his outcome favorable to himself.

He said: "The story is entirely without foundation. I have entered in the campaign for renomination, and I propose to continue a candidate. Nothing but death will take me out of the race."

Smallpox in Chicago.

CHICAGO, June 12.—Theodore Nevins, one of the doorkeepers of the board of trade, was taken off in the smallpox ambulance today. He was attending to his duties and was unaware the reddish eruption on his neck and face had any connection with the dreaded disease. He must have spoken to and been in contact with dozens of the members before the true nature of the eruption was discovered.

The C. & R. G. Running Regularly.

ST. LOUIS, June 12.—Information from all points on the Denver & Rio Grande railroad is received to the effect that through trains are running regularly, all washouts caused by the recent storm on the road having been repaired.

Highest Award

FOR

Supreme Excellence,

AT THE

PUTNAM

HOT FORGED AND HAMMER POINTED HORSE

NAILS.

At the World's Columbian Exposition at Chicago. A medal and diploma awarded "Supreme excellence in material, method in manufacture, and quality of finished product, elasticity and smoothness combined with holding power in clinch. It allows the use of very small nails."

There is nothing beyond serious exhibition go to there nothing compared to a horse and shoe. The horse knows when it is nailed. "Our method of manufacture," and "quality of finished product," Putnam Nails, for the "Smith," are subject to the approval and guarantee of the best shoe the horse is to wear; to their "assistants," do not expect to get horse on the road, when their "clinches exceptional" in "holding power" in the clinch" makes them to hold the shoe in the worst service with wear out.

Every case of small nails "not holding" here are replaced and money saved to the user.

Time is well to note that the officers of the Worlds Columbian Exposition know of what qualities go to make up a good horse and that only the "Putnam" contains them all.

PUTNAM NAIL CO.,

HAVE YOU A DOUBT

AS TO WHO ARE SALT LAKE'S LEADING SPECIALISTS, IF YOU HAVE READ THE EVIDENCE OF YOUR FRIENDS AND NEIGHBORS.

If you have been a constant reader of this paper for the past few months and have noticed the evidence published by Shores & Shores and the wind specialists, you will see that Drs. Shores & Shores have each week given the public one or more new testimonials of patients who have been cured by their new treatment, while our world-be competitors have given your public no such evidence of people who have noticed their names withdrawn; but these model horse-men's nice a patient in six months with their treatment, as the records of the Sanitarium show, as they need to all kinds of sciences to deserve the public.

Drs. Shores & Shores live on their own reputation. They use their own system of treatment. They do not advertise one man's system and use another. Drs. Shores & Shores' reputation for the past six years in the Territory of Utah is a guarantee of honest and skillful treatment.

Drs. Shores & Shores are having the largest number of patients they have ever had, as they are "called" by those who'll doctors, and as soon as they are ready for publication you will receive some inside history as to the healing and methods of treatment used by those would-be specialists.

This week Drs. Shores & Shores present the testimony of two of the oldest residents of the Territory. Hear what they say, go interview them, and they will tell you the difference between the real and the imitation.

MRS. BERTHA CHRISTIANSEN, Residence 101 Second South and Fourth East Streets, City.

COULD NOT SWALLOW.

The Alarming Condition of Mrs Christiansen—She is Cured in One Month by Drs. Shores & Shores' New Treatment.

To say Mrs. Christiansen was a sufferer is putting it mild. When she placed herself under the care of Drs. Shores & Shores, it was doubtful if she could ever be made well, her case had run so long that the cancer had thoroughly undermined her entire system; her throat was so raw and irritable that it was with the greatest difficulty that she could eat enough to keep her alive. Here is her signed statement word for word:

SALT LAKE CITY, Utah, May 31, '94.

To Whom It May Concern:

This is to certify that I came to Drs. Shores & Shores a wrecked sufferer with catarrh of the head and stomach. I was so very bad that I could not even take a drink of water or food in any shape without the greatest pain, and I can now truthfully state that after one month's treatment I am a well woman.

These are the close of treatise Drs. Shores & Shores cure daily. This is the class of troubles that have made them famous over the country, and this is the class of trouble that the model doctors try to treat, fail, and then advertise they are doctors.

Drs. Shores & Shores.

Specialists,

Zion Medical and Surgical Institute

34 E. Second South Street.

Specialties: All diseases of the Eye, Ear, Nose, Throat, Lungs, Kidneys, Rectal and private diseases. Our treatment for Piles is new, painless, safe and certain. Our own remedies.

Office hours—9 to 11 a.m., 2 to 5 p.m. Take Park, Sundays, 11 a.m. to 1 p.m.

Free Office Examination. Call for 50 Celebrated Dr. Shores' Medicines Extracted Free from our own laboratory.

If You Cannot Come to Salt Lake

Write for the mail treatment. One of the physicians in personal charge superintends the mail department and by a system of close correspondence keeps controls those who are as well under his care as those who come to the office. Send for symptom blank. Medicines shipped carefully. Try this treatment.
