FACULTY RECEPTION.

Given by Regents, Professors and Normal School Teachers to Graduating Classes.

Last night the University was the scene of happiness and good cheer. The event surpassed the reputation of the faculty as entertainers and equaled the entertainments given previously on similar occasions.

The lower halls, decked with the college colors, crimson and white, afforded a warm welcome to graduates about to leave them. In one of the lower rooms in which the reception was given, the crimson and white joined hands with white and blue in celebrating the event.

The reception was informal, and consequently relieved of such formalities as spoil the evening in our conventional and social experiences.

Owing to the inclement weather, from three to four years, there was an popular graduating class this year and many of the young people, even the adopted children of the University, most of them coming from the high school.

The junior class received the guests and opened the refreshments. As in former seasons, the refreshments were served by Mrs. Lieut. Thomas Shanks, Mrs. Nettie Grover Pugsley Mosier, Chrystal Lewis, Adelaide Lewis and Ruth Ross. Prof. Pratt, assisted by Mr. Alvin Shepherd, and Mr. Williams, with the violin.

His Leg Amputated.

St. Johns, Ariz., Herald: On last Monday, the 6th inst., Dr. W. E. Platt, assisted by Dr. Charles Jarvis and a corps of nurses, amputated the right leg of George Coleman. The operation was performed at the residence of J. N. Heywood, of the place, both attendants of the patient. The Eagle commend in the whole operation was one hour, and was entirely successful. The patient had suffered for four years from a tumor on the lower of the lower portion of the right leg, the result of an injury which caused pleurisy and very nearly cost him his life. The tumor was removed by amputation without permanent relief. A portion of the leg being was removed by a physician in Salt Lake City, some years since, but no permanent cure was the result. Medical men from Boston, Chicago and St. Louis, pronounced the case hopeless. Dr. Platt decided that an amputation was absolutely necessary, hence the operation. The patient recovered from the effects of the chloroform administered before the operation, removed from the table, and is doing nicely. He is in a fair way to speedy recovery.

BACK FROM THE NORTH.

Mr. and Mrs. T. F. Thomas Jr. Return from an Extensive Embedded Trip.

Mr. and Mrs. T. F. Thomas Jr. returned today from their northern trip. They have been gone just one month. While away they visited the principal places in Montana and Idaho, and succeeded in securing considerable interest among the people everywhere over forthcoming Embedded. Mr. Thomas brings back curios from the Boston and Butte band, Black Eagle band, Great Falls, a male moose and heads shown from Butte, a large moose from Anaconda and a number of small showers from Idaho. Mr. Thomas says reports that himself and wife were treated very kindly by the people of the places visited. He worked hard for the Embedded cause, making organizations, and was rewarded with complete success. Mr. Thomas estimates that there will be fifty 1,000 people attend the Embedded from Montana and Idaho. He says across a number of Salt Lakers at Butte and Anaconda, who rendered him valuable assistance in the promotion of the jubilee. The season thus has been delighting and the people seem to be prosperous and happy.

Utah Savings Bank & Trust Company, Nos. 1, 3 and 5 Main street, is the largest and oldest Savings Bank in Utah. 18,000 accounts have been opened since the bank was established. Have you an account? If not, start one now.

NEEDS OF THE PUBLIC LIBRARY.

Amount Required for Maintaining the Institution for the Coming Year.

The annual report of the trustees of the free public library will be submitted to the City Council at its meeting tonight. The organization of the present library in February last and its growth since that time are matters of interest. The estimated expenses for its maintenance for the coming year are as follows:

For the purchase of new books	$1,500
For the purchase of periodicals, including binding, postage, freight and express	700
Salaries of librarian and assistants	1,600
Janitor service	300
Lighting	300
Incidentals, including stationery, postage, etc.	100
Two portraits, at $50 per picture	100
Two portraits, at $40 per picture	1,200
Work on catalogue, at $40 per month	480
Rent	20
Total	$6,300

The trustees recommend the binding and repairing of the popular books, so as to enable them to hold the patronage of the people of the south side of the city, who have shown by their patronage that they are desirous of having a branch library in the south side, and also to provide some good place for a reading room, and to take care of the magazines and periodicals donated to the library by the people, and to provide for the proper care of the library, which has outgrown its present quarters, and which is now in a room in the City Hall, which is needed for other purposes, and which is not in a fireproof building.

The trustees have had under consideration the question of a suitable place for the library, and have decided that the best place for it would be in the City Hall, if the City Council will provide a room for the library, and will provide for its care and management, and will provide for its care and management, and will provide for its care and management
