BINDING AND PAPER-RULING.

GEORGE Q. CANNON,
Editor and Publisher.

OUR SUBSCRIBERS in the country can at any time ascertain the date on which their subscription expires by referring to the numbers attached to their name on the paper, i. e., 1-4-3 means first day, fourth month, third year, or April 1st, 1873, 7-1-2 means July 15, 1872, &c., &c.

Those names having no numbers close with the end of the volume.

Subscribers understanding this will be able to renew their subscriptions prior to the time of expiration, so that their papers may continue without interruption.

SPECIAL TO THE DESERET NEWS.

By Telegraph.

OVER WESTERN UNION TELEGRAPH LINE.

CONGRESSIONAL.

SENATE.

WASHINGTON, 22.—Scott presented the report of the centennial commission. The subscriptions, public and private, in Pennsylvania alone, would amount to about four millions.

Edmunds, from the committee on the judiciary, reported adversely on the house bill for the distribution of the Geneva award.

Casserly reported from the committee of public lands, without amendment, the House bill granting two hundred feet right of way through the public lands to the Portland, Dallas and Salt Lake R. R. Co.; the bill grants all lands that may be necessary for depot and construction purposes.

Pomeroy, from the same committee, reported without amendment the House bill granting right of way for the Utah Northern Railroad to extend its line *via* Bear River Valley, Soda Springs and Snake River Valley, and through Montana, to connect at the most suitable point with the Northern Pacific.

Morton gave notice that he would call up the report of the committee on elections in the Caldwell case on Monday.

Carpenter gave notice that immediately after Caldwell's case he would call up the report of the Louisiana case.

The postal appropriation bill was taken up. The amendment for the issue of two cent stamped letter sheet envelopes was tabled.

Ramsey offered an amendment authorizing the postmaster general to appoint superintendents of free delivery, at a salary of $2,500; agreed to.

Terry, of Michigan, from the committee on postoffices, offered an amendment authorizing the postmaster general to increase the mail and steamship service with Brazil. On motion of Chandler it was laid on the table.

Ramsey offered as an amendment the Webb subsidy bill.

Edmunds made a point that the amendment was out of order under the rule recently adopted by the chair. The point was overruled. Edmunds appealed, and the appeal was laid on the table, yeas 27, nays 26.

Sherman moved to lay the amendment on the table, agreed to, yeas 28, nays 26.

An amendment requiring all persons who usually receive mail matter to provide boxes at their offices or houses was laid on the table.

The amendment providing additional compensation for the railroad mail service was concurred in, so were all amendments agreed to in committee. The whole bill was then passed.

HOUSE.

An amendment by Butler that none of the money should be used for the expenses of the competitive civil service examination was rejected, yeas 87, nays 103.

The amendments agreed to in committee of the whole were then read and acted on. The first, by a vote of yeas and nays, was an amendment requiring the secretary of the treasury to report to Congress how he disburses the secret service fund.

The amendment for an appropriation for the prevention and detection of counterfeiting was rejected, yeas 74, nays 104.

The amendment appropriating a hundred thousand dollars for a government building at Raleigh, N.C., was adopted.

The amendment appropriating $300,000 for an addition to the site of the Boston post office, on condition of the streets being widened, was adopted.

The amendment requiring the contracts for public buildings to be made with the lowest responsible bidders, after advertisement, was rejected without yeas or nays.

The amendment increasing the item for naval station at New London from $5,000 to $50,000, was rejected; yeas 94, nays 99. The bill then passed.

A resolution by Kerr, adopted, to investigate the frauds practiced by J. H. Sypher, Congressman elect from Louisiana, was reversed.

The harbor appropriation bill was taken up. It appropriates $5,500,000. Among the items are: for the Lower Willamette River, $20,000; Upper Willamette, $3,000; break water at Wilmington, Cal., $150,000. Several of the proposed amendments were rejected.

Wilson, of Indiana, from the Union Pacific Credit Mobilier committee, gave notice that he would, on Monday next, move to suspend the rules to pass the bill reported by that committee, as the House was not making much progress on the river and harbor bill, and was impatient to adjourn.

Butler, of Massachusetts, desired consent to have the House bill to distribute the Geneva awards substituted for the Senate bill, but Potter objected.

EASTERN.

NEW YORK, 22.—Rosenzweigs lawyer is to apply to the supreme court for a prohibition against the grand jury's finding an indictment against him.

Over 5,000 persons assembled at the pier whence the steamer departed to bid farewell to Farther Burke.

WASHINGTON, 22.—The House committee judiciary to-day, took the testimony in relation to the proposed impeachment of Judge Durell of Louisiana.

The President has called an extra session of the Senate for March 4th.

The treasury directs that all clerks in the custom office at New York may compete for the vacant surveyorship.

The committee on ways and means commence the investigation concerning the Pacific Mail using money to procure legislation on Monday.

Washington's birthday was very quietly observed. The departments were closed at noon. Flags were displayed from many buildings.

The March interest on the ten-forty bonds will be paid on the 24th without rebate.

The House committee of the judiciary met to-night to consider various questions on impeachment. The intention at first was to take testimony in the matter of Judge Durell, of Louisiana, but in view of the near termination of Congress and the impossibility of having all the testimony before them the committee postponed the subject in order to have a general consultation on the course to be pursued.

MONTGOMERY, Ala.—Judge Busteed has discharged Parsons and Williams, arrested on a charge of conspiring to prevent the election of a United States Senator.

The Inauguration Committee have received a communication from Ithica, N. Y., recommending that instead of a grand ball on inauguration evening, they hold a grand prayer meeting. (An excellent idea.)

CINCINNATI.—A fire this evening destroyed Collier's brick building on the public landing.

DAYTON.—John W. Harries, the well known ale manufacturer, is dead.

PITTSBURG.—One thousand workmen of Jas. Woods, Sons & Co., who lately failed, tender their services for two or three months, asking only enough cash to maintain their families.

BETHLEHEM, Pa.—Monroe Snyder was murdered last night, and his body thrown into the river. It is thought he had been followed from New York, where he had been collecting money.

WESTERN.

SAN FRANCISCO, 22.—Coroner Stillman has reached the conclusion, from a post mortem examination of the body found in the bay yesterday, that the man committed suicide by drowning, and that his throat was not cut. The remains have not yet been positively identified.

Probably 10,000 people witnessed the balloon ascension of Prof. Lay and another gentleman, to-day; it went up but a short distance, and landed about a mile west of the gardens.

There were 75 deaths in the city this week, one from variola in a confluent form.

ST. HELENA, Cal., 22.—J. Bremberg, a telegraph agent here, was thrown from a wagon to-day, and was badly injured. He is not expected to recover.

OAKLAND, Or., 22.—The steamer *Enterprise* from Gardiner to Portland, Oregon, was wrecked while crossing the Bar at the mouth of the Umpqua river, Feb. 20. Capt. French writes that she was going along all right and was almost over the bar, when the main steam pipe gave way and the vessel was soon drifted out of the channel into the breakers, and went ashore on the beach. They expect to save the machinery on to-day's tide. No lives were lost.

YREKA, Cal., 22.—The regular courier arrived this evening from the front. From him we learn the following: Bob Whittle's Modoc wife Matilda went to Jack's camp, on Thursday, and had not returned at four o'clock yesterday when he left. She gave her husband her rings and jewelry. Great interest is manifested in regard to her safety, as she was to return before four o'clock yesterday. The peace commission is divided, Case being in favor of unconditional surrender, while Meacham and Applegate think the Modocs have been badly treated. Odeneal, superintendent of Indian affairs, has been sent for, which Applegate opposed and Meacham favored. The people have no hopes of peace on the terms likely to be offered, and they doubt whether such men as Applegate and Meacham can get a talk with Jack, notwithstanding their friendly disposed wishes toward the Modocs. Every Modoc would gladly go on the reservation if given a free pardon for the murder of settlers.

EUROPEAN.

MADRID.—It is officially announced that there has been a serious agitation at Barcelona. No violence was resorted to.

Thirty-two colonels and forty lieutenant colonels of the artillery of the regular army have resigned; their resignations have been accepted.

A dispatch from Bilboa says the Carlists have cut the railroad at Vittoria and destroyed the R. R. station at Creto Stado.

The trouble at Barcelona arose in consequence of the temporary commandant of the garrison, who supposed the officers municipal government to be Alphonists, establishing substantially a condition of martial law there. The troops were placed under arms and reviewed, but the majority sympathized with the people who were unwilling to submit to the military. Under orders from Madrid the officer has abandoned his interference and quiet is restored.

STUTTGART.—The Bakers' workmen here propose to strike unless an increase of pay and a reduction of hours are conceded.

VERSAILLES.—The Budget committee of the Assembly have refused to report the item for defraying the expense of sending skilled French artists and workmen to the Vienna Exposition.

PARIS, 23.—The usual state dinner was given at the executive residence last evening. Thiers was indisposed and absent. The Marquis De Remusat presided. Toasts were given, but no speeches were made. The dinner was followed by a reception, which was the most brilliant of the season. All the American residents and visitors of note attended. Many houses occupied by Americans were decorated with flags. The facade of the Washington Club was illuminated.

The Count de Chambord has written a letter to Bishop Dupanloup, declining to follow the letter's advice to compromise with the Orleans Princes. The Count upholds the hereditary principle, saying—"Without it I am nothing, with it I accomplish everything."

MADRID, 23.—Sickles gave a reception last night, which was attended by Castelar, the leading diplomatists and men of letters in the city and several representatives of the Spanish nobility. The reception was succeeded by a ball to the diplomatic corps, which lasted till 4 in the morning. The politicians present discussed the state of Spain with the American Minister, who recommended vigilance, prudence, energy and patriotism. The present was a critical moment, and it would be unwise to allow the people to bear arms until they had received a military organization. The people appeared to know their rights and they must, as soon as possible, learn their duties as citizens, then they would be enabled to contribute to the happiness and prosperity of the country.

PARIS, 23.—*L'Union* announces that Don Carlos has entered Navarre accompanied by Dorregary, and goes to Catalonia, where Seballo and Tristany await him.

BERLIN.—The Imperial parliament of Germany is convoked for the 10th of March.

WEST INDIES.

HAVANNA.—General Frauck, commander of the Central Department, died suddenly to-day. Gen. Mendina has been appointed his successor.

UNION
SAFETY LAMP
IS conceded by all who have seen it to be possessed of great merit, and to be altogether the best thing of the kind ever put in the market.
The lamp is constructed with two tubes, the outside one intended only for the attachment of the burner, and the inside one to contain oil and receive the wick. As there is no connection between these tubes it will be evident that there is no possibility of communicating any heat to the oil, and as long as the oil in a lamp can be kept perfectly cool there is, of course, no chance for an explosion.
The Lamp is strongly and well made, attractive in appearance, and something entirely new and novel. It will burn kerosene adapted to any burner. With all of these advantages it combines cheapness, and from present indications it is destined to become very popular.
In case of accident, the lamp falling or thrown over, by which many explosions occur, is the cause of the oil running to the flame. In this Lamp it is not so; it can be thrown over and cannot send the oil to the flame; it will run from it, so there is no danger of catching fire.
The public may rest assured that the Lamp is all that we claim for it, and we cordially invite the most critical to examine the same, and we feel confident the verdict will be the same as that of the most scientific men of the Eastern States—that it is superior to all Lamps that have yet come to public notice.
This Lamp can be filled from the fount, on the top of which is a screw.
This Lamp can be attached to any Chandelier or Bracket made.
ALSO A LARGE STOCK OF
GLASS AND METAL LAMPS,
LATEST IMPROVED BURNERS, CHANDELIERS, BRACKETS, KEROSENE OILS AND PETROLEUM FLUIDS.
