MINING, BUSINESS AND STOCKS.

MINING STOCK MARKET QUIET

Few Issues Were Active and Outside Demand Was Limited.

WABASH AND COMSTOCK UP

May Day Also Ascended and Lower Mammoth Was Strongly Held for $1.39½—California Very Active.

The mining share market was in fair condition this morning notwithstanding that few issues were in any demand. Trading was almost entirely confined to the better lower priced issues and centered in May Day, California and Wabash during the regular call and the Park City issues on the open board.

Prices generally were firmly maintained and advanced figures were attained by May Day, Wabash and Comstock. California under heavy selling orders was beared less than a cent a share. Con. Mercur displayed little strength and Daly was much weaker. Daly-West on the open board sold up to 50.00, while Comstock advanced from 1.20 to 1.22¼. Transactions recorded during the session involved 29,610 shares and $23,795.

An extremely hopeful view is taken by the more prominent brokers and traders of the condition of the mining exchange. Indications are strong that a much improved market is not afar off, and local brokers keeping in touch with the eastern monetary situation are advising the purchase of all the better class Utah mining stocks maintaining that with the eastern market again in normal condition the local market will undoubtedly boom.

This morning's session closed on the following market:

SILVER KING'S GREAT RECORD.

Park City Bonanza, This Year Has Paid $1,000,000 in Dividends.

GRAND TOTAL $5,750,000.

Experts Report the Mine in Admirable Condition and the Greatest Silver-Lead Property in the World.

To the fortunate owners of Silver King stock dividend checks agregating in amount $100,000 are being sent today. This dividend is the tenth of $100,000 each or 66⅔ cents a share to be paid this year and not only will two more regular monthly distributions occur this year but an extra for Christmas of at least $100,000 will be shared by the company's stockholders.

The wonderful Park City bonanza has turned out no less than $5,750,000 in dividends and experts who have recently visited the mine say that the present rate can be maintained by the company for at least ten years before exhausting the high grade ore now blocked out.

It is a quite wonderful thing that not over $1,000,000 has been unprofitably spent in the systematic development of Park City properties while over $25,000,000 has been paid in dividends and many more millions taken out and paid in expenses and improvements.

SILVER AT LOW MARK.

The White Metal Again at 50½ on Weak Market.

New York advices this morning were to the effect that the price of silver is again at 50½ cents, and the market for the white metal is very weak.

The reason for the present situation of the silver market is stated to be that another immense amount of Chinese silver will shortly be thrown on the market.

Local mining men familiar with the silver market are of the opinion today that the price of silver will improve shortly and they are grounded in that belief by statements by the Messrs. Guggenheim who are large factors in silver operations.

BOSS TWEED OPERATIONS.

The Company Will Commence on Upraise Next Week.

It was announced today that the Boss Tweed will at once commence work on its Tintic property and a force of men will be started to work next week.

The Boss Tweed management is still of the belief that the right to the ground in dispute between it and the Victor belongs to the Boss Tweed and to prove its claim an upraise will immediately be driven under the direction of Boss Tweed officials.

WILL BEGIN WORK.

Park City Gold and Silver Mining Company Ordering Equipment.

It was stated this morning by Director C. B. Stewart of the Park City Gold and Silver Mining company that development work on its property near the Wolverine at Park City will commence on Monday.

J. S. Free, an experienced miner, has been engaged as superintendent, and under his direction work will be pushed with energy. The property will be developed by a shaft and drifts to a contact finely marked by outcroppings on the surface. It was also stated this morning that the management is now ordering equipment so that energetic development may be continued all winter. The property is well located and Bishop Romney is president of the company.

GEMINI A WONDER.

Recent Developments Indicate that Ore Bodies Continue North.

Special Correspondence.

One of the prevailing topics in mining circles in Tintic district, and the solution of which so rumor has it, may not be shorn altogether of future sensations, is the trend of the big ore body now found in the north workings of the Gemini mine to the north of Eureka. At a depth of 1,500 feet, in territory which two or three years ago, was deemed of little or no value by the chief operators of Tintic district, a magnificent ore shoot has been encountered, which for size and richness is claimed to surpass anything of its kind ever opened up in any of the Tintic mines, if not in the state, a discovery which has easily placed the Gemini in the front ranks of Utah mines.

The horn silver and native silver which characterize the ore make a production, measured by the dollar mark, by a small force of men, that is reminiscent of the old times when the Eureka Hill gathered up horn silver from open cuts on the surface and sacked and shipped it to the Sandy smelters; and the dividends that the Gemini could pay were a campaign of active production put in operation, would easily place it at the top of the list of the dividend payers of Utah.

At this end of the line this great ore body is supposed by many to be breaking from the Gemini to the north and west, while another opinion is that it is going to the north and east, in the direction of the Raymond property; and still others have the belief that it will break west and be found crossing the Crown Point and Bullion-Beck territory on its north end and running into the north end of the Sacramento and Black Warrior ground. All these theories are advanced, it may be said, by those most interested, but the chief fact of interest is that the permanency and continuity of he great ore bodies of he Centennial-Eureka, Eureka Hill, Bullion-Beck and Gemini system are shown to have no cut-off by reason of the end lines of these companies, and that the great ore producing section of Tintic—if not the greatest—is yet to be north of the town of Eureka. Already it is understood a syndicate is being formed to take up much valuable ground and developments are awaited with great interest.

MINING NOTES.

The Gemini, with seven carloads of fine ore, is among today's shippers.

Superintendent John A. Kirby of the Daly-West, left this morning for Park City.

Messrs. Lloyd and Cooke are consignors of one car of ore from Calenics.

James W. Neill has gone to Montana to examine some gold properties.

The Uncle Sam management has a five car shipment of ore on today's market.

Manager Ernest Bamberger of the Keystone, has gone to Park City to inspect developments.

The Conklin sampler was this morning in receipt of two cars of ore from Tintic.

Lower Mammoth high grade ore to the extent of two carloads will be on the mrket tomorrow or Monday.

The Taylor and Brunton management reports the following shipments as having been sampled: 16 cars of ore from Tintic, one from Tonopah, and one from Callentes.

Four more cars of Eagle and Blue Bell dump ore will be forwarded to the Bingham Con. smelter today.

Ore and bullion settlements in this city yesterday as reported by McCornick & Co., amounted to $76,700.

President John Dern of the Con Mercur has returned from his old home town, Fremont, Nebraska.

Manager Rood of the Ontario and Daly has gone to Park City to discharge the September payrolls and to look into developments.

J. E. Beveridge, the mining expert, has gone to Bingham to examine the ore bodies in dispute between the Neptune and the United States Mining company.

LEADING STOCKS ALL DECLINED.

Unfavorably Affected by Failure of Strike Conferences.

TRADING WAS NOMINAL.

Prices Moved Within Very Narrow Limits—High Money Rates Continue to Rule.

New York, Oct. 10.—There was active selling of stocks at the opening owing result of efforts to effect a settlement of the coal strike. The leading stocks in all the principal groups declined. Business came especially to a standstill at 11 o'clock and the market was at the lowest. Resumption of conferences seeking to settle the coal strike, failed to reassure sentiment and the 14 per cent money market helped the depression. The coalers, the Pennsylvania group and the trans-continental stocks showed relatively more weakness than other active stocks. Lackawanna broke 9, Chicago Union Traction preferred 6 and General Electric, Cotton Oil, Minneapolis, St. Paul & Sault Ste Marie and Pressed Steel Car stocks lost 2@3¼. Sloss-Sheffield Steel rose 3½.

Bonds were easier at noon.

Prices vibrated within a very narrow range with trading entirely nominal. Traders are reluctant to operate for more than scalpers profits in view of the interest manifested in the coal strike conferences, high money rates and concern over tomorrow's statement. Lake Erie & Western preferred dropped 4.

MONEY AND BONDS.

Money on call, strong at 10@14 per cent. Prime mercantile paper, 6 per cent. Sterling exchange, steady, with actual business in bankers' bills at 4.86 for 60 days. Posted rates, 4.84@4.87.

Eggs—Receipts, 1,400 packages; steady. State and Pennsylvania, 22@24; western candled, 21½@23.

CHINESE CELEBRATION.

Local Mongolians Burn Incense to Their Departed Fathers.

Shortly after last midnight the Chinamen of Salt Lake gathered in Plum alley and burned up several bundles of newspapers as an offering for their forefathers and as a prayer for their good fortune. It is a custom with them on the 10th day of October of each year to burn incense to their departed fathers, so as soon as the town clock proclaimed the ushering in of the 10th day, the Mongolians began pouring out of their shacks with bundles of paper. After gathering around in a solemn circle, Lin Loo the High Priest of the Joss house and master of ceremonies, brought forth a scented taper and applied a flame to it. Immediately the Chinamen began throwing their bundles of newspapers upon the flames and in a few seconds a fierce blaze was raging. When the flames were at their height, the Mongolians began to chant incantations to their departed dead. After the flames died down the denizens of the alley uttered a wailing cry in chorus and returned to their hovels.

G. P. A., Missouri Pacific Ry., Salt Lake City, Utah.

Burlington Route
A Thousand Miles of Comfort
There's not a piece of track in all America that is better built, safer, or easier to ride over than the Burlington Route from Denver to Chicago.
A trip over it is the most notable experience in the trans-continental journey. For more than a thousand miles you are transported at flying speed. Noise and dust are noticeably absent. If it were not for the landscape that rushes past at 60 miles an hour you would hardly believe you were moving.
Through sleeping-cars for Chicago leave Salt Lake at 3:15 p. m. daily. Through tourist-cars Wednesdays and Fridays.
Glad to give you more information.
TICKET OFFICE:
79 W. SECOND SOUTH ST.
SALT LAKE CITY.
R. F. NESLEN, General Agent.

MILL MEN
Will save money and delay by communicating with our agent,
JOS. W. WILSON,
237 South Sixth East, St., Salt Lake City. Telephone, 736 D.
He has constructed more Roller Flour Mills than any other man in the Rocky Mountain country. Also improved more Water Powers than any other man in the West. His estimates are always correct and satisfactory. He is also among the very best informed men either east or west, as to Salt Refining Machinery.
He handles mill supplies of every description, steam boilers and pumps, steam engines of every popular make, together with steam and belt hoists, with levers interchangeable from right to left hand; screens, rotary bolters, races and roller mills.
Great Western Mfg. Co.
