## STOCK MARKET IN BETTER SHAPE

Attempt to Send Northern Light Up Fails.

BEARS WERE IN CONTROL.

Bulls-West and Grand Central Advance-Sharp Gives a Chance to Fall on Lower Mammoth.

The stock market was in better condition this morning. Market gains being scored by several of the stocks while the trading was much more animated than yesterday.

The big issue evidently by some for Northern Light was not realized, although the stock was stronger and purchases were numerous. After selling at above 20 cents, Kimberly moved in and with Perry, Sharp and others, took all this of 20 or better and at the close it was 19½, bid, 20 asked.

Daly-West was very strong and after selling up to $12.50, it went up to $12.87½ bid, $12.90 asked, but the stock was not to be had at that offer.

Daly was held in at about yesterday's figures.

Grand Central was up again, selling at $2.40 and $2.45, closing strong at $2.35 bid, $2.40 asked.

Four Aces were very stock, selling down to 11½, and closing 12½ bid, 13½ asked.

Lower Mammoth broke at the start and sold down to 52. This gave bears an opportunity to sell, and they did not lose the opportunity. The close was 50½ bid, 52½ asked.

Mammoth was not in demand. On question being $3 bid, $3.12½ asked. No sales.

Phoenix was extremely weak, one sale being made at 16, the close was 16½ bid, 17 asked.

Shennon Consolidated took a drop and sold at 30 cents and all other were lined. It closed 29½ bid, 30 asked.

Yesterday offered down to 28, but found no buyers, the highest bid being 28.

In the cheap stocks, Manhattan was picked for a favorite, and thousands of shares were sold at from ½ to ¾.

The closing quotations were as follows:

## STRENGTH WAS "SPOTTY"

The Stock Market Makes Spasmodic Jumps Today.

Sugar Prices Climb Up Well-Market Active-Produce and Live Stock Strong.

New York, Nov. 1.—The prices were higher at the opening of the market, owing to the rallying stocks responding to the strength in London. The tendency in industrials and speculative stocks was generally favorable, advances were made in various groups, but the strength was "spotty," and exerted little effect on the general market. Leather was the leader and scored 4¾ against 3¾ last night. The preferred was free buyers and sold off after the initial rise. The anthracite railway issues held a point or so higher. Standard rope was 2 points with little difficulty, and People's gas was also in demand. The rumors of the iron inclosed continuing war in Pittsburg, and the Illinois steel dividends held stocks up. Industrial issues, after advancing to 80¾, touched a point on very active trading. Sugar was a conspicuous exception, selling up fractionally 1¾ to 127¾ on the preferred before the close of the regular line gave way from the last. Sugar continued strong in the last hour and sold up to 128¾. Other stocks were not active to some extent in railroads as soon and that shifted to stocks on the active trading. Rumors of a war in Africa brought Rand stocks up to the front market. The new gross bonds including Wabash debentures were in demand and sold up to 1 point overnight.

The market became quiet in the final hour, and the tone was firm. The effort to take profits some efforts will be necessary to sustain prices. Dealers report and publish the fact that the Pacific Railroad has sold about 8,000 shares of Union Pacific. Bears claim that the stock is overbought and that it will be necessary to sell a large block of stock before it can go in the bond market. The new gross bonds including Wabash debentures were in demand and sold up to 1 point overnight.

BOSTON WOOL MARKET.

Boston, Nov. 1.—The American Wool and Cotton Reporter will say tomorrow: "The past week has been the most remarkable one ever known in Boston wool history in point of activity. For the three days ending Saturday noon twenty-two million pounds of wool (the actual sales, so far as be ascertained, 22,500,000 pounds) have changed hands, the actual sales, so far as be ascertained, being 22,500,000 pounds. This assertion showing is the result of an extensive active demand supply of all grades of wool, and a disposition on the part of the market, as a very strong feature, to advance prices, which has caused a Wednesday rise in prices.

"Notwithstanding the radical advances which has taken place in Boston markets, prices of wool in this country are still relatively lower than those in London, and there are many who believe that there is to be no material relief until more wool is grown domestically. The sales of wool in Boston amounted to 15,000,000 pounds scoured, and 1,500,000 pounds Texas, making a total of 16,500,000 pounds, against a total of 2,000,000 pounds for the corresponding week last year. Sales since January 1, 1899, amount to 175,000,000 pounds, against 105,000,000 last year at this time.
