ST. PATRICK'S DAY ON THE EXCHANGE

Brokers Content Themselves With a Small Amount of Business.

NORTHERN LIGHT ATTACKED

Stock Goes Down to 51 Cents That Receives at the Close Sales of the Call.

"St. Patrick's day is the morning," was fittingly celebrated by the members of the Salt Lake Exchange. At 10:30 the caller's gavel dropped for order, and an hour later the brokers marched out, after having played havoc with Northern Light, and put off a record of 15,000 shares sold, the entire having a value of $5,562.25. Of this number of shares, Northern Light subscribed 6,000, the stock starting at 55 cents, dropping to 51, then rising to 52½ and closing with a sale at 52, buyer 30 days. During business in this security there was considerable excitement in the ring, and the proposition excited hearty knocks which way to buy, although most of them felt the jumping in in the hope of making a nice "scalp" for lunch. The stock closed with a bid of 54, while it was offered at a cent higher.

Dexter did first business on the call, 100 shares changing hands at 2.45. Four Aces came next at 84½, after which Geyser-Marion took part, the stock selling at 80 cents and closing with a strong bid of 79½. Northern Light was next, and after business in this and the sale of 100 shares of Sunshine at 15, bind stocks were left, to make room for transfers in stocks of a lower order.

In this class Emerald sold at 12 and 11½, and Gold Hill was taken at 2½. In Jim Brown there was business at 15 and 13½, while Bower Hexagon had a bid of 7½ but failed in the trading, while North Star was sold at 15½, and Orient at 1½. Sunbeam was firm with a bid of 55, but transfers did not materialize, and the call closed with business above noted.

The closing quotes were as follows:

STOCKS AND BONDS.

New York, March 17.—A repetition of yesterday's exciting scenes in the sugar stock was universally looked for this morning, nevertheless, a great body of brokers were congregated about the sugar pit to take advantage of any manipulative tendency which developed. The ball was started with simultaneous sales of 1,000 shares from 81.60 to 81.38. Then the price went down to 81.32 and back to 81.63 in the first few minutes.

Aggressive manipulation in the speculative stimulated past operations in other stocks and prices therefore mounted rapidly upward. Sugar was the star performer, mounting 1.63½, then slumping to 2.62. Air Brake and Third Avenue mounted up four points and Brooklyn Gas 3. The strongest shares, New York Central, Union Pacific and Southern Pacific were foremost in the rallying group. Manhattan sold ex-dividend and ex-rights at 31.93½.

The rights brought 2¾. The high level all round was reached at 10:30 and the market then yielded sharply on realizations. The rapid evolution in sugar was followed by a sharp reversion in other stocks with the heaviency coming a correspondingly lower level. The closing was dull and heavy on the shares which had participated mostly in the opening bulge; heavy liquidation in American Tobacco. Wire drawing kindred stocks down with it. Towards midday sugar spurted up to near 187, and the general market followed to a moderate extent. The monetary situation excited considerable interest in the street and the steadiness of call loans around 1½ per cent naturally created some discussion as to the stability of the current bull speculation.

It is very hard to stand idly by and see our friends suffer when a little would the arrival of the doctor. At Albany, N. Y., a physician related at a drug store there for a sufferer to come and get relief, then very sick with croup. Not feeling like leaving his bed he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he helped himself give some relief until the doctor should arrive. In a few hours he returned, saying the doctor had not come, as the child was much better. The druggist, Mr. Otto Shok, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until it has a constant demand for it from that part of the country.

We have used many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle now all the time and whenever any of my family or myself begin to cough, we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—H. S. MEAD, E.I.E. General Merchant and Farmer, Battle, Bedford county, Pa.

M'CUNE'S INTEREST IN THE PAYNE MINE

Said to Have Been Sold for the Sum of $1,250,000.

ONE-FIFTH ALREADY PAID.

Mr. McCune Denies the Story—Northern Light Rumors—Crandlen from the Dairy.

Information has been received of the sale of Hon. A. W. McCune's interest in the Payne mine, Bingham Canyon, for the sum of $1,250,000. The report bears with it the further statement that one payment of $250,000 has been made, and that the others will follow according to stipulated agreement. When spoken to with reference to the matter today, Mr. McCune distinctly admitted that negotiations were pending, but, said he, there has been no sale, and therefore there is no truth in the report. He said, however, that the past day or two he received the sum of $250,000 deposited to Mr. McCune's credit with local banks, and this, to say the least, gives the report some foundation. The Payne is one of the richest mines in the district, and has been paying immense profits for several years past.

Northern Light Rumors.

Explaining the reason for the stock's sudden slump today, a number of brokers are out with the positive declaration that the Northern Light had run out of shipping ore, and that, therefore, the mine was to bad shape and could not be looked upon as dividend payer for some time to come, if at all. The "News" is not in a position to state whether this is the case or not, but it is all that is generally reported in the street. Mr. Airis, who is the office man for the mine, was in splendid shape and never looked better; that it had plenty of shipping ore, that it was still in a position to go ahead with development and that there was also sufficient milling ore to right so extensive the operation of the mill in the early spring.

Klondike Company Incorporates.

Articles of incorporation of the Klondike Mining and Milling company were filed with State Secretary Hammond today. The incorporators are J. L. Thomson and Shaed Smith of Salt Lake City, John R. Holdsworth, Pleasant Grove, John M. Bennett, Edward R. Hall, Webster Hoover and Isaac Riddle of Provo. The capitalization is fixed at $10,000, divided into 200,000 shares of the par value of 10 cents each. The company's property is situated in the North Tintic mining district, and consists of the following: Klondike, Klondike Nos. 2 and 3. Headquarters of the company will be in Provo. The officers are: J. L. Thomson, president; J. M. Holdsworth, vice president, and Edward R. Hall, secretary and treasurer.

Crandlen From the Dairy.

The Daily on the Mercur West Tip reported at the local refinery today with another shipment of crandels, the same weighing 20 pounds and being of prime quality. This property is making a splendid record as a producer of good values, and it is looked upon as a contribution of but a comparatively short space of time, until dividends are forthcoming. The mine is said to have a good supply of ore milling one, and the frequent shipments of crandles testify to the success attended to the operation of the company's new mill.

The Treasure Hill Mining company held a meeting in this city yesterday for the purpose of acting on certain proposed amendments to its articles of incorporation. Some more signed, but when a reporter called the matter present was too busy to give them out for publication.

The Park River reported at the smelter this morning with five cars of argle ore.

Morris Bamberger, manager of the Geyser-Marion, left for Mercur this morning.

The gentlemen awarded the contract for sinking a shaft on the Highland Boy property, left for the mine, and left for the camp this morning, well loaded with provisions, tools, etc., for a vigorous campaign.

MINES OF CONNER CREEK.

Tunnel Scheme Now Receiving Attention—Concentrators Talked of.

(Alpine, Feb. Times.)

Gradually the owners of mining property on Conner creek are beginning to realize that the only feasible way to make their claims paying propositions is to combine and run on a big economy tunnel. The proposition is not entertaining, the men who are pushing the scheme being now in Salt Lake trying to induce brokers and capitalists to secure data as to the possible cost of the project.

Concentrators are also in evidence as a means of relief, and will need the capital to pay them up in the estimate of acquisition.

Jack Crawford and 16 Iowa Bundles from the Bellevue mine. He states the drift on which the Iowa Bundles worked for the past two months is completed, the water in the Bellevue is drain which the drift on which the Iowa Bundles worked and just as soon as the weather permits will be ready to go to the shaft on the hole of ore which gave such good returns last fall.

MINES AND MINING MEN.

The annual stockholders' meeting of the Barnesville Mining company will be held in this city on the 20th inst.

The Apollo Mining company has elected J. B. Dennis, president; George Moses, vice president; Sam Williamson, secretary and treasurer; J. C. Dennis, and Hatton Dennis the remaining directors.

The Silver Shield has incorporated with W. S. Ure president, A. C. Ashton, vice president, and H. E. Plough, secretary and treasurer. The company has a capital of 100,000 in shares of 10 each, and owns claims in the Blue Bell district.

The Bonanza Chloride has filed articles with a capital of 100,000 in shares of 10 each. C. H. Schen is president; T. Ure, vice president; W. Wheeler, secretary and treasurer, and Max E. Smith, treasurer. The claims are in Tintic.

Articles of incorporation of the Paymaster Mining company, owning properties in Lucy Creek district, Utah, have been filed with the county clerk. It has a capital of 100,000 in shares of 10 each, and Grover Whitmore is president; Sylvanus B. Whitmore, vice president; W. A. Berry, treasurer, and H. D. Forrest, secretary.

MISUSE OF EXCURSION TICKETS

(Omaha's Magazine.)

Suppose a man buys an excursion ticket at a reduction of five dollars, on condition that he will not transfer the ticket to another man. That he agrees to make a contract with the company that in consideration of five dollars, value received, he will do and not do certain things. What moral right has he to violate that contract? By selling the ticket he violates a moral obligation imposed upon the company, which in effect says to him and to all: If it be as if a man rented a building, grounds, and demonstration of setting whisper text, agreed not to resell and rents or pastry on the place. He has not bought any amount of rents to do as the grounds on the premises, but agreed by the right to live there under certain restrictions. Because he accepts their conditions he gets a place to live. He wants the absolute right to do as he will with the place to come for more rent, or he goes to live elsewhere.

Or, it is as if a man took a saddle horse for the season, and to agreement not to use it for pack purposes, or to let it for comfortable hire money. It is not as unmoral for a man that he has the absolute right to use the horse for carriage driving as it is to say that a man has a right to violate the agreement which he has agreed, in consideration of reduced hire, not to use.

WANTS OF THE CONSTITUENTS.

From the Washington Post.

A congressman's mail contains some of the strangest demands that could possibly be connected to most sensible men. A member from Illinois said he received a few during the recent session that are worthy of all fairness. Of course, every voter wants a supply of seed, and if the congressman's stock should inadvertently run out one package of kind given last year is included in the allowance made to the other voters that may happen to be swelled with pressure from every neglected voter in the district.

"I voted for you last year," wrote an Jim Smith, and he got four packages of seed and I only got three. Were a fellow to be treated differently from the others? Of course, I'm in sympathy with the declaration that he would never vote for that member again in a thousand years. Inclosed I send a contraband seed for a package of "Marsh Grass" seed, of which he has heard much, and he wants to see it grown in New Orleans. Another request from a constituent says: "My wife has taken a fancy to a new variety of seed, and I want to get a few ounces of whisky, but this favorite beverage is reputed by many writers of some letters to be very scarce. I have voted for a congressman all their lives and would like to borrow a little money on the strength of my vote, but all of those congressmen requests are contained in the same envelope, and the writers believe that their representative is too busy making speeches to stop to them and by next election forget all about it.

UPON THE THEORY THAT—

Brains Work Best Lying

down, some advertisers should remain out of business. Nothing succeeds like success. It's been said, and there just the way with Cabinet. It's been the most successful beer ever put upon the western market and the natural flavor—the accumulation of the years—is what strings it first but you'll find it's as before you use up the entire case. Order it now.
